Dear Mr. Johnston:

Following is all of the information I could gather on the Murphy and Larson wells. The Murphy well, which according to the information you had was at one time on Nichols Farm. According to one of my oldest employees, that is true. There used to be a well on that farm. He does not remember how deep the well was or when they discontinued its use.

I called Bill Christiansen who is the owner of the well the company we use now. He informed me that Nichols Well and Pump Company from Sioux City, Iowa were the ones who drilled both the Larson and Murphy wells. This company is no longer in existence. Bill believes that both of these wells were drilled in the late 1960s. The geology information he could give me was that from 15 to 20 feet deep is a sandy clay, from 20 to 40 feet deep is a fine sand, from 40 to 100 feet deep is gravel and below 100 feet is a blue clay. Bill also informed me the depth of the Larson well is 43 feet. The casing type is transite. Its length is 43 feet and the screen type is a slotted transite. The Murphy farm well is 80 feet deep with transite type casing again 80 feet deep with a slotted screen at the base.

Later I found information in my file from the Nichols Well and Pump Company dated 5/09/69 for the Murphy farm. For the Larson farm I find a date of May 8, 1969 as a drilling date.

Greg, this is all of the information I could find on the wells. If I can be of any further help, please let me know. Thank you for giving me the information on how to fill an existing well.

Sincerely,

Tim Vande Kamp,

RE: Replacement wells under Vested Rights Nos. 277-3 and well

location under Vested Right No. 485-3, 660-3 and 1919-3

COMMENTS: After inspecting Vested Right No. 277-3 for 40 acres (0.57 cfs) located in the NW1/4 and SW1/4 Section 8-T93N-R55W, I found that the original well was replaced by another well located 30' south of the original. The new well is still under within the legal description given under the advertisement and license for No. 277-3. The new well was drilled in 1969 by Nicols Well and Pump of Iowa (out of business). The well completion report is not available. Christiansen Drilling has given information about the well based on their work on the well and pump.

Vested Right No. 485-3 is supplied water from the diversion point authorized under Permit No. 1660-3 located in the NE1/4 NW1/4 Section 8-T93N-R55W in Yankton County. Water Permit No. 1919-3 consolidates both Vested Right No. 485-3 and Water Permit No. 1660-3 with the diversion point being the same as under No. 1660-3. The advertisement for No. 1919-3 states the point of diversion is to be located in the NW1/4 NW1/4 of Section 8, but the advertisement for Permit No. 1660-3 indicates the well is in the NE1/4 NW1/4 of Section 8 and this the same location as the well presently being used for No. 1919-3. It appears the license and report of examination of works are in error for No. 1660-3 and the license, report of examination of works and the advertisement are in error for No. 1919-3. There is a description of the well on Form 2A for No. 1919-3, although there is no well completion report available because the driller, Nicols Drilling and Pump, is now out of business.

Water Rights Program

SUBJECT: Reporting Requirement for 2009 Irrigation Questionnaire(s)

Our records indicate that the 2009 Irrigation Questionnaire(s) has not been submitted for Permit No(s) 277-3 & 1919-3. The request for the Questionnaire was dated October 16, 2009. The Water Management Board has directed that owners of water permits who have not submitted the 2009 Irrigation Questionnaire(s) be given notice of permit violation and a hearing to be held by the Board. The hearing is to determine what action is to be taken for violation of Water Permit No(s) 277-3 & 1919-3 qualification:

"This permit is approved subject to the Irrigation Water Use Questionnaire being submitted each year."

The hearing will be held at **10:00 am, March 10, 2010** in the Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol Avenue, Pierre, SD and will be conducted pursuant to SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to Chapter 1-26. According to SDCL 46-1-12, the Board may suspend a permit for a period of up to one year for the first violation of a permit qualification or up to three years for a second violation, or cancel a permit for a third violation. Following the hearing, the Water Management Board can:

1. Suspend or cancel Permit No(s) 277-3 & 1919-3 in accordance with applicable provisions of SDCL 46-1-12;
2. Postpone any action; or
3. Take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

If the questionnaire(s) is (are) received in this office on/or before **March 5, 2010**, you will no longer be in violation of your permit and your name will be deleted from the Board agenda. Enclosed are additional questionnaire(s) for your use. If you have questions or need assistance, please contact Genny McMath at (605) 773-3352 or email at genny.mcmath@state.sd.us. If you prefer, you can complete the questionnaire online at the following link: <https://denr.sd.gov/iq/asp>

NOTE: Please contact the Water Rights Program, Joe Foss Building, 523 E Capitol, Pierre, SD (605-773-3352) to assure access to the meeting room for the handicapped or to obtain an interpreter for the hearing impaired.

Dear Mr. & Mrs. Marquardt:

I am writing in regard to your Vested Water Right No. 277-3. The water right authorizes diversion of ground water to irrigate 40 acres in portions of the SE ¼ Section, T93N, R55W (see enclosed map of area).

On your 2009 irrigation questionnaire you indicated that the use authorized by No. 277-3 had been abandoned. Typically, when an irrigator indicates he has abandoned irrigation, the water right is scheduled for hearing and cancelled by the Water Management Board.

If you no longer irrigate the land and are agreeable to cancellation of the water right, please let us know. Once cancelled, it will eliminate the need to file annual irrigation questionnaires for the land. You can always reapply for a water right in the future if you decide to irrigate again.

If you have any questions, please contact me.

Yep, they most likely crossed in the mail. The secretary handed the forms to me this morning. The matter is all taken care of and I am in the process of writing a follow-up letter indicating we have now received all the forms.

I do have a question though - for future mailings should all the forms go to PO Box 1040? Two of them I have listed in the name of Ralph and Lucille with a PO Box of 1040. The remaining three (6978-3, 6979-3 and 6980-3 we have listed in the name of Marquardt Farms with a PO Box of 1098.

We can definitely put them all to one box if you wish. This doesn't change ownership, just where things are mailed.

Genny,

We received notice dated 1/21/11 that you had not received the 2010 Irrigation Questionnaire(s) for Permit No.s 6978-3, 6979-3, 6980-3, 277-3 and 1919-3.

We mailed those last week. Can you verify whether you have received the questionnaires? I am thinking they crossed in the mail.

Dear Mr. Randall:

I am writing in regard to the 2013 irrigation questionnaire you submitted for Vested Water Right No. 277-3. In reviewing the questionnaire, we found discrepancies in the amount of water used and have some concerns.

Vested Water Right No. 277-3 allows you to use up to three acre-feet of water per acre each year. On your irrigation questionnaire, however, you reported substantially more water use. You reported the following information for 2013:

- Acres irrigated: 40 acres
- Acre feet of water reported: 154.7 acre feet
- Acre feet of water **authorized** based on acres irrigated: 120 acre feet (40 acres x 3 acre feet).

We realize that in any given year, water use may be more or less depending on climatic conditions. Many times irrigators do not keep track of the days or hours actually pumped and estimate numbers for the questionnaires in an effort to get them completed and back in on time. While we appreciate returning the questionnaire in a timely manner each year, we need the forms to reflect as accurate information as possible to ensure everyone is using only that amount of water appropriated to them.

The information we receive each year from irrigators across the state is very valuable. The water use data supplied by irrigators is one of the tools we use to help determine if an aquifer or stream may or may not be nearing full appropriation. Our goal is to protect existing water rights and ensure that additional water rights do not impair those existing water users.

If you did indeed apply that much water in 2013, you are exceeding the limits of your water rights and need to be cutting back to within authorized use as outlined in your water rights. If you estimated your water use and have not kept track of days irrigated and water used, please ensure the information reported each year is as accurate as possible.

As stated before, the information you provide is very valuable to us. If you have any questions, please contact us.

Sincerely,

Subject: Irrigation Property - Yankton County

Les,

The South Dakota Water Rights Program was recently contacted by Briand Randall (Dakota Acres) who reported that a property he'd previously owned and irrigated had been sold to you. The property would be a 40 acre-parcel located in the W ½ SE ¼ Section 8-T93N-R55W, Yankton County. This property has a corresponding water right ([Vested Water Right No. 277-3](#)) authorizing its irrigation.

Whether you wish to continue irrigation of this property or abandon the practice, I would ask that you contact me via email or telephone (605) 910-5187 to discuss the status of this property.

Thank you,

Amanda Dewell
