NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

Dear Mr. Olson:

Enclosed is your Water License No. 2826D-3. Included with your license is Receipt No. 07448 in the amount of \$50 which you paid for filing an ownership change.

Based on the ownership change you filed on July 9, 2015 for portions of Water Right No. 2826A-3, the water right was divided and reissued to reflect separate ownership as follows:

- **No. 2826C-3 – Calvin & Mary Hanson, 31524 452nd Ave., Meckling SD 57069:**
authorizing diversion of 0.313 cfs from one well located in the SW ¼ NW ¼ Section 15 to irrigate 31 acres located in the SW ¼ NW ¼ Section 15, all in T92N, R53W.
- **No. 2826D-3 – D A Olson & Sons, 31725 455th Ave., Meckling SD 57069-4423:**
authorizing diversion of 0.627 cfs from one well located in the SE ¼ SE ¼ Section 16 to irrigate 62 acres in the S ½ SE ¼ Section 16, all in T92N, R53W.

The division of the water right left you with a diversion authority of approximately 282 gallons per minute. In order to run your irrigation system at a higher rate than 282 gpm, you would need to make an application for additional water. Application forms can be obtained on our website at <http://denr.sd.gov/des/wr/wr.aspx> or by contacting our office.

As long as you use the water beneficially, as stated in the Water License, State Water Laws provide that you have a continuing right to use the water.

Sincerely,

Jeanne Goodman, Chief Engineer

This license is subject to South Dakota Water Law, any limitations or conditions listed in originating Water Right No. 2826-3 and subject to the following qualifications:

- The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer.
