MESSAGE:

Attached is a partially completed "Notice of Transfer of Ownership" form for use in filing an ownership change on Water Right No. 2918A-3, currently listed under the name of Robert Dressen. Kim Shefte contacted our office and requested the form be sent to you. During my phone conversation with Kim, she referenced land in the SE 1/4 Section 16, T104N, R50W. I am also faxing a copy of Water Right No. 2918A-3. Please note that it covers the entire E 1/2 of Section 16. If there is more than one owner for the land described in the water right, we can split the water right to reflect this.

As I indicated to Kim, whoever now owns the land, can have the water right transferred to their name(s). However, if there is a legal dispute over ownership of the land, it may be appropriate to wait until ownership is resolved rather than transferring the water right "back and forth".

The transfer form will need to be signed by the "new owner" in the presence of a notary. Upon completion, return the form to our office with a required filing fee of \$2.50. If you have any questions, please do not hesitate to call me.

Dear Mr. & Mrs. Dressen:

Enclosed is a copy of the *Report of Examination of Works* and the map showing the location of the diversion points and land irrigated. The information is sent to you in follow-up to my telephone conversation with Kim Shefte.

It is my understanding that you will be filing an ownership change on portion of Water Right No. 2918A-3. Kim said you would own one quarter and Robert Dressen would continue to own the other quarter of land. The water right will be divided and reissued to reflect separate ownership. Before dividing the water right, I will need to know which wells go with the particular piece of land you now own.

The *Report of Examination of Works* describes the wells and the irrigation systems used. Please highlight or circle the portions on the report concerning the irrigation system and wells you own. The enclosed map shows the location of the wells. It would appear from the map that Wells 1 thru 4 are used to irrigate the NE 1/4 and Well #5 is used to irrigate the SE 1/4 of Section 16.

Once you have reviewed the report and map and made notations regarding ownership, please return them to me. Your help in this matter will ensure that the water right is correctly transferred. If you have any questions, please contact me.

Sincerely,

Genny McMath

2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.
