The Water Rights Commission hereby approves Water Right Application No. 2950-3
TER ROBERT, GLADYS & TERRY SUPERNANT CENTERVILLE Rt. 1 - Box 25
 (Applicant) (Post Office Address)
SOUTH DAKOTA 57014 With the following modifications:
 (State)

The irrigation well approved under this Permit will be located near domestic wells and other irrigation wells which may obtain water from the same aquifer. The irrigation well owner, under this Permit, shall control his irrigation withdrawals so there is not a reduction of needed water supplies in existing domestic wells or in irrigation wells having prior water rights.

Date of first receipt of application AUGUST 13, 1976
 Date of return to applicant for correction, amendments or changes required SEPTEMBER 3, 1976
 Date of receipt of corrected application SEPTEMBER 3, 1976

WATER RIGHT PERMIT NO. 2950-3

The Water Rights Commission hereby grants and issues this Water Right Permit No. 2950-3 authorizing the construction of the water use system and the putting of water to beneficial use as stated in the Application and as modified in the Water Right Application approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim right is AUGUST 13, 1976
2. The equivalent of at least one-fifth of the work above specified is to be completed on or before MARCH 24, 1979
3. The whole of said work is to be completed on or before SEPTEMBER 24, 1981
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is SEPTEMBER 24, 1985
5. The water appropriated shall be used for the purpose of IRRIGATION
6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.
7. The amount of the appropriation herein granted shall not exceed 2.7 cubic feet per second; neither shall it exceed the capacity of the above described water supply system, nor shall it exceed the amount of water needed for beneficial uses served, and if for the irrigation purposes said appropriation must be limited to not more than 3 acre feet per acre per year and be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is actually and beneficially applied for irrigation on or before SEPTEMBER 24, 1985; said water to be used during the following described annual period: APRIL - NOVEMBER

Dear Sir:

Enclosed herewith is the original copy of the report of analysis on your water sample #76-1000 and a copy of AES publication #13. The red cross in the chart on the outside back cover of this pamphlet shows the approximate utility of this water for irrigation. It is in the high salinity, low sodium category.

Accordingly, it is only fairly well suited for irrigation and it should be used only on soils with good internal drainage. The salt that it carries is about .9 of a ton for each acre foot of water and you must consider this carefully in your irrigation operation. It should not be used on any soil to the point that the water table is raised and the salt begins to accumulate on the surface. This could easily happen on the Lamour silty clay loam which is delineation #61.

Furthermore, your soil area #16 across the NW corner of the tract and along the bottom or south edge and up the central east side should not be irrigated because of other factors. They are the very strong rolling topography and the erosion, and unsatisfactory results you will get from trying to irrigate crops on them.

A copy of this letter is accompanying your WI-1 form and other application materials to the State Conservation Commission for their action.

Sincerely yours,

TO: WATER RIGHTS, WATER MANAGEMENT BOARD / FOSS BLDG., PIERRE, SOUTH DAKOTA 57501

I have this day made a thorough examination of the water use system constructed by ROBERT, GLADYS & TERRY SURPENANT of CENTERVILLE holder
 of Permit No. 2950-3, bearing date of priority of AUGUST 13, 1976
 authorizing the diversion of 2.7 cu. ft. per second of the waters of GROUNDWATER
 for IRRIGATION purposes, in CLAY County.

I have to report on the condition of the same as follows:

The Water Use System consists of,

A. Works used to divert the water:

160' DEEP WELL WITH 14" STEEL CASING - 25' SS SCREEN
NATIONAL 8" PUMP (NO TAG) RANDOLPH GEAR HEAD @ 1760 RPM
POWERED BY 3208 CATERPILLAR DIESEL MOTOR

B. Works used to transport water to place of use,

10' OF 8" MAIN LINE TO PIVOT PAD

C. Works used to apply water to beneficial use.

6 TOWER HYGROMATIC CENTER PIVOT - 1150' LONG
WITH #100 END GUN

The system is in the following condition: GOOD

The point of diversion is located E 27°S, 167 RODS FROM THE NW
CORNER, SECTION 2, T95N, R52W

The works are capable of diverting and conveying to the place of use 1.77 (800 GPM)
 cu. ft. per second of water which is to be used for IRRIGATION

Water has been put to beneficial use to the maximum extent as follows: ALL IN SECTION 2, T95N, R52W

Dear Mr. Suprenant:

Thank you for the prompt return of your 1997 irrigation questionnaires. The water right number and the county designation you placed on each of the forms was correct. We used to have the county designation on the label and then dropped it. I will check into adding it back on the label for next year.

I am enclosing copies of Water Right Nos. 2950-3 and 3758-3. After reviewing your irrigation questionnaires, I believe we may need to update your water rights. Water Right No. 2950-3 authorizes irrigation of 110 acres and you reported irrigation of 181 acres. Water Right No. 3758-3 authorizes irrigation of 80 acres and you reported irrigation of 109 acres, with a note that part of the acreage was not irrigated.

Enclosed are two sets of water permit application forms. A new water permit will need to be obtained to cover additional acreage being irrigated above what is authorized by each water right. If you have made other changes to your irrigation system besides adding acreage, please include this with the applications. I have included an instruction sheet to help you complete the forms.

If you have any questions or need assistance in completing the forms, please give me a call.

COMMENTS:

Mr. Suprenant called me concerning the application forms I mailed to Robert Suprenant on November 6, 1997. He indicated they have not changed their irrigation systems since they were built. The systems still cover the same acreage. Terry indicated the numbers he put on the irrigation questionnaires represented the entire farm - alot of it which is not irrigated land.

I told him if this was the case, they would not need to apply for additional water permits. I had mailed him the application forms on the assumption that they now irrigated acreage in excess of their irrigation permits.

Dear Mr. Suprenant:

Thank you for calling in regard to the needed ownership changes for Water Right Nos. 2950-3 and 3758-3.

Enclosed are partially completed Notice of Transfer of Ownership forms for filing an ownership change. Please review the forms and make any necessary corrections. Upon completion, please sign and return them to our office with a required filing fee of \$50.00 each (total of \$100). The check or money order for the fee can be made payable to the Water Rights Program.

Also enclosed are copies of the water rights. I apologize for the poor quality of the copies. They were filmed many years ago and in doing so, some of the clarity was lost.

Date: 102311

I/We request that Water Right No. 2950-3

formerly owned by: Robert, Gladys & Terry Suprenant

be transferred to: (name & address)

Terry Suprenant & Albert Suprenant
Centerville SD 57014
29720 SD Hwy 19

Telephone No. _____

Title to the following described land(s)/property has been transferred as described above:

110 acres - E 1/2 NW 1/4 and W 1/2 NE 1/4 Section 2, T95N, R52W

I/We understand that the validity of Water Right No. 2950-3 has not been determined by this transfer action. If I/We have any questions on validity, I/We understand that only the Water Management Board has the authority to determine if a water permit/right is valid (see note).

You are requested to file this "Notice of Transfer" in the appropriate file with the Water Rights Program, as evidence of the change of ownership.

A fee of Fifty Dollars (\$50.00) is required to cover the filing fees as required under SDCL 46-2-13. This form must be signed by the new owner.

I/We Terry Suprenant, the new owner, certify that the above information is true and correct.

Terry Suprenant
(Signed by new owner)

NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

Re: Aquifer management unit redesignation for selected water rights/permits on Clay and Turner Counties

COMMENTS:

Review of a request to change diversion point for Water Permit No. 8790-3, authorized to withdraw water from the Upper Vermillion Missouri: South aquifer (UVM:S), determined the well they wished to use is authorized under authorized by Water Right No. 7384-3 Water Right No. 7384-3 does not currently have a management unit designated for withdrawal from the Upper Vermillion Missouri aquifer (Water Rights, 2025). In reviewing the best information currently available for aquifer and management unit naming conventions, the best aquifer and management unit designation for Water Right No. 7384-3 is the Southern management unit of the Upper Vermillion Missouri aquifer (UVM:S) as shown in Figure 1. Furthermore, there are an additional 25 other water rights/permits, see Table 1, which should have the UVM:S management unit assigned (Water Rights, 2025).

This addition of the management unit designation, to the Southern management unit of the Upper Vermillion Missouri aquifer, does not represent a physical change in the water source. It is an update to the naming convention to reflect the currently best available information for aquifer and management unit extents. This update to the aquifer management unit name does not authorize any increase in the amount of water appropriated by any of these water rights/permits, change in diversion rate, relocation of existing wells, completion of additional wells into the aquifer, or change of acres permitted for irrigation. Going forward, issuance of any pertinent documents will reflect the updated aquifer and management unit designation.
