

No. 292-3

Water Division No. 3 Missouri District
(Blanks to be Filled by the Engineer for the W. R. C.)

STATE WATER RESOURCES COM. PIERRE, SOUTH DAKOTA

APPLICATION FOR PERMIT

To Appropriate Water within the State of South Dakota

(NOTE—Draw a line through items not applicable.)

1. Name of applicant Charles H. AhrensPostoffice address Wigner, County Charles Mix, State S. Dak.

Incorporation

(a) Name of same

(b) Date and place of incorporation

(c) Amount of capital stock

(d) Amount paid in

(e) Names and addresses of directors

(NOTE—A certified copy of articles of incorporation must accompany the application.)

II. Method of accomplishing the work and financial resources of the applicant:

(a) Method of accomplishing work (Whether by contract, employment of others, or by direct labor)

contract

(b) Cash on hand, \$

(c) Treasury stock, \$

(d) Bonds to be issued, \$

(e) Other resources, \$

2. Name of diversion work Charles H. Ahrens Recreation Project #23. Amount of water claimed 3 cubic feet per second4. Source of water supply well5. Location of point of diversion SE 1/4 NW 1/4 16-96-63on bank Charles Mix County.6. Annual period or periods during which water is to be used Jan. 1 to Dec 31

7. To be used for:

I. Irrigation or domestic use: Gravity, overhead sprinkling or combination system?

(a) Number of acres to be irrigated _____ acres.

(b) Legal subdivisions to be irrigated SE 1/4 NW 1/4 16-96-63

(NOTE—A list of lands to be irrigated, giving each subdivision and fraction with acreage thereof, should be written here, or be appended as a part of this application. Same must also be shown on accompanying map.)

(c) Statement as to domestic use (giving location, etc.) NONE

II. Stockwatering, mining, milling, power, fish culture, fire protection and public recreation:

(a) Nature of use Stock pond 80 acres
Name any of the above uses claimed

(b) Amount of power to be generated _____ horse power.

Amount claimed for engine cooling _____

(c) Location of plant _____

(d) Method of developing power _____

(e) Point where water will be returned to stream _____ rods

8. Estimated cost of work:

(a) Head Gates, \$-----

(b) Pumping plant, \$-----

(c) Fluming, \$-----

(d) Canal earth, \$-----

Rock, \$-----

(e) Other structures -----

\$750⁰⁰

Total, \$-----

9. Description of diversion works:

I. Nature of works: (Reservoir, dam, ditch, flume, pumping plant, etc.)

90 acre stock pond & well

II. Dimensions of works:

(a) Dam: Height ----- feet; length at bottom ----- feet; length at top ----- feet; thickness at bottom ----- feet; thickness at top ----- feet; slope at front water face -----; slope at back face -----

material used in construction -----

(b) Reservoir: Capacity when filled ----- acre feet. Surface area at highwater mark ----- acres.

DEPTH AT OUTLET-FEET	SURFACE AREA AT EACH DEPTH AT OUTLET--ACRES	ACRE-Feet CAPACITY

(c)* Head gate: Width ----- feet; height ----- feet;

Material -----

(d) Canal: Total length ----- miles.

LOCATION BELOW HEADGATE	DEPTH	BOTTOM WIDTH	WIDTH AT WATER-LINE	GRADE PER MILE
At ----- Mile	----- feet	----- feet	----- feet	----- feet
At ----- Mile	----- feet	----- feet	----- feet	----- feet
At ----- Mile	----- feet	----- feet	----- feet	----- feet
At ----- Mile	----- feet	----- feet	----- feet	----- feet
At ----- Mile	----- feet	----- feet	----- feet	----- feet
At ----- Mile	----- feet	----- feet	----- feet	----- feet

(Give dimensions where reductions in size are made.)

10. Time required for completion of work ----- years.

11. Time required for complete application of water to the proposed beneficial use ----- years.

12. Choice of newspaper for publication of notice of intention to appropriate -----

This is to certify that we have examined the foregoing application for a permit to appropriate water of the State of South Dakota, and we hereby grant the same as stated herein, subject, however, to the following limitations and conditions:

1st. The equivalent of at least one-fifth of the work above specified is to be completed on or before

Completed, 1956

2nd. The whole of said work is to be completed on or before

Completed, 1956

3rd. The limit of time for proof of beneficial use of water appropriated in accordance herewith is

Completed, 1956

4th. The water appropriated shall be used for the purpose of

recreation and stockwatering

5th. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.

6th. The amount of the appropriation herein granted shall not exceed 0.30 cubic feet per second; neither shall it exceed the capacity of the above described system of diversion works, nor the least amount of water that experience may hereafter indicate as necessary for the production of crops in the exercise of the best husbandry; and further, said appropriation must be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is actually recreation and stockwatering uses and beneficially applied for irrigation on or before Completed, 1956; said water to be used during the following described annual period:

Continuously

NOTICE

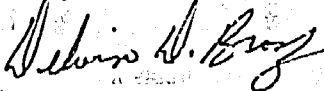

Gary Holzbauer
Rt 1, Box 170
Wagner SD 57380

Dear Mr. Holzbauer:

I am writing to notify you that pursuant to the Notice of Intent to Validate Vested Water Right Claims dated June 20, 1988 that I intend to oppose validation of your water right claim No(s) 296-3, 297-3 until a field inspection has been completed. The claim has either never been inspected or an inspection was conducted so long ago that a new inspection is needed. An inspection is needed to determine the current state of your vested water right claim.

A staff member from the Division of Water Rights will be contacting you and scheduling an inspection of your water project. If we can answer any questions, please contact us.

Very truly yours,

for 
JOHN HATCH, Chief Engineer

October 12, 2000

Mr. Gary Holzbauer
Rt. 1 Box 170
Wagner, SD 57380

Dear Mr. Holzbauer:

I am writing regarding my August 2000 onsite examination of your Vested Water Right Claims Nos. 296-3 and 297-3. During this examination, several items that delay further processing of these claims were found.

One well could not be located in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 16 (No. 296-3) and is probably now submerged in Burks Lake due to wave erosion during high water levels the last few years. Presently this well is not visible or usable.

In the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 16 (No. 297-3) there are two wells approximately 25 feet apart located below the high water mark of Burks Lake. One of these wells is uncontrolled and freely discharging about 10 gpm into the lake. No record of this flowing well could be located in our files. This flowing well should be permitted or possibly a Vested Right Claim submitted to this office if you could determine when it was drilled. The non-flowing well at this location was not being used at the time of the field examination.

The high water levels the last several years in conjunction with high winds appear to have extended the shoreline of Burks Lake. This action has rendered one well unusable and the other two wells on the verge of becoming unusable. Until stabilization of the shoreline is accomplished, reworking these wells may not be advisable or possible. It may be necessary to drill replacement wells and abandon the existing wells. If the wells are not going to be rehabilitated, they should be considered abandoned and if possible, sealed according to state statute and standards.

I have enclosed some pertinent sections from the State of South Dakota Well Construction Standards pertaining to well construction, well rehabilitation, and landowner responsibilities that may help you in deciding your course of action regarding these wells. Please advise this office of your chosen action. If you should have any questions, please contact me at 605-773-3352.

Sincerely,

Donald E. Stroup
DENR Natural Resource Engineer

**Vested Water Rights Nos. 296-3 & 297-3
Charles Mix County**

Report Of Examination Of Works

To: Chief Engineer, Water Rights Program, DENR, Foss Bldg., Pierre, SD 57501

Other permit/license associated with project: None

On July 12, 2000, I completed a field examination of Vested Water Right claims Nos. 296-3 and 297-3 originally held by Charles H. Ahrens and bearing 1953 priority dates. The original diversions were for two wells with 0.30 cfs withdrawals from each well for recreation and stock watering purposes in the NW¼ Section 16 T96N R63W Charles Mix County. The water to be stored in intermittent Burks Lake covering 80 to 90 acres. The present owner, Gary Holzbauer, acquired the property in the 1980's.

I have to report on the conditions of the same as follows:

The system is in the following condition: Poor.

A well in the NE¼ NW¼ of Section 16 (296-3) is now submerged in Burks Lake due to wave erosion during high water levels the last few years. Presently this well is not visible or usable.

In the SE¼ NW¼ of Section 16 (297-3) there are two wells approximately 25 feet apart collared below the high water mark of Burks Lake. One of these wells is uncontrolled and freely discharging about 10 gpm into the lake. There is no record of a flowing well at this location in the Water Rights Program files. The second well at this location was not being used at the time of the field examination.

Applicable permit qualifications have been complied with: **Yes, to the extent possible.** Location of the wells in relation to the present boundary of Burks Lake prohibits appropriate access to and effective use of the wells. The flowing well is providing water to the intermittent lake for livestock watering.

REPORT ON EXAMINATION OF VESTED WATER RIGHTS NOS. 296-3 and 297-3

DATE OF INSPECTION: 7/12/00

Other permit/license(s) associated with the project: None

Contact Person & Address:

Gary Holzbauer

Rt. 1 Box 170

Wagner, SD 57380

DIVERSION POINTS LEGAL LOCATION: 296-3 NE¼ NW¼ (Coordinates Unknown) and 297-3 SE¼ NW¼ (N43° 8.072' W98° 18.105') Section 16 T96N R63W. Flowing well is located 25 feet South of 297-3.

WATER SUPPLY Source: Two 130-foot deep wells with 3-inch steel casing and a flowing well of unknown depth with 2.5-inch casing. No screens were installed on the two 130-foot wells.

SYSTEM TYPE: Centrifugal pump with direct discharge into Burks Lake. Pump and each well originally capable of 130-135 gpm pump rate. Flowing well was discharging about 10 gpm at time of field examination.

COMMENTS: Mr. Holzbauer wants to rehabilitate these wells and use them for recreational and stock watering purposes to the fullest extent allowed by vested water rights 296-3 and 297-3. The flowing well was on the property at the time of purchase by Mr. Holzbauer and should have been included in either of the referenced water rights or permitted separately. There is no record of property transfer to Mr. Holzbauer on file.

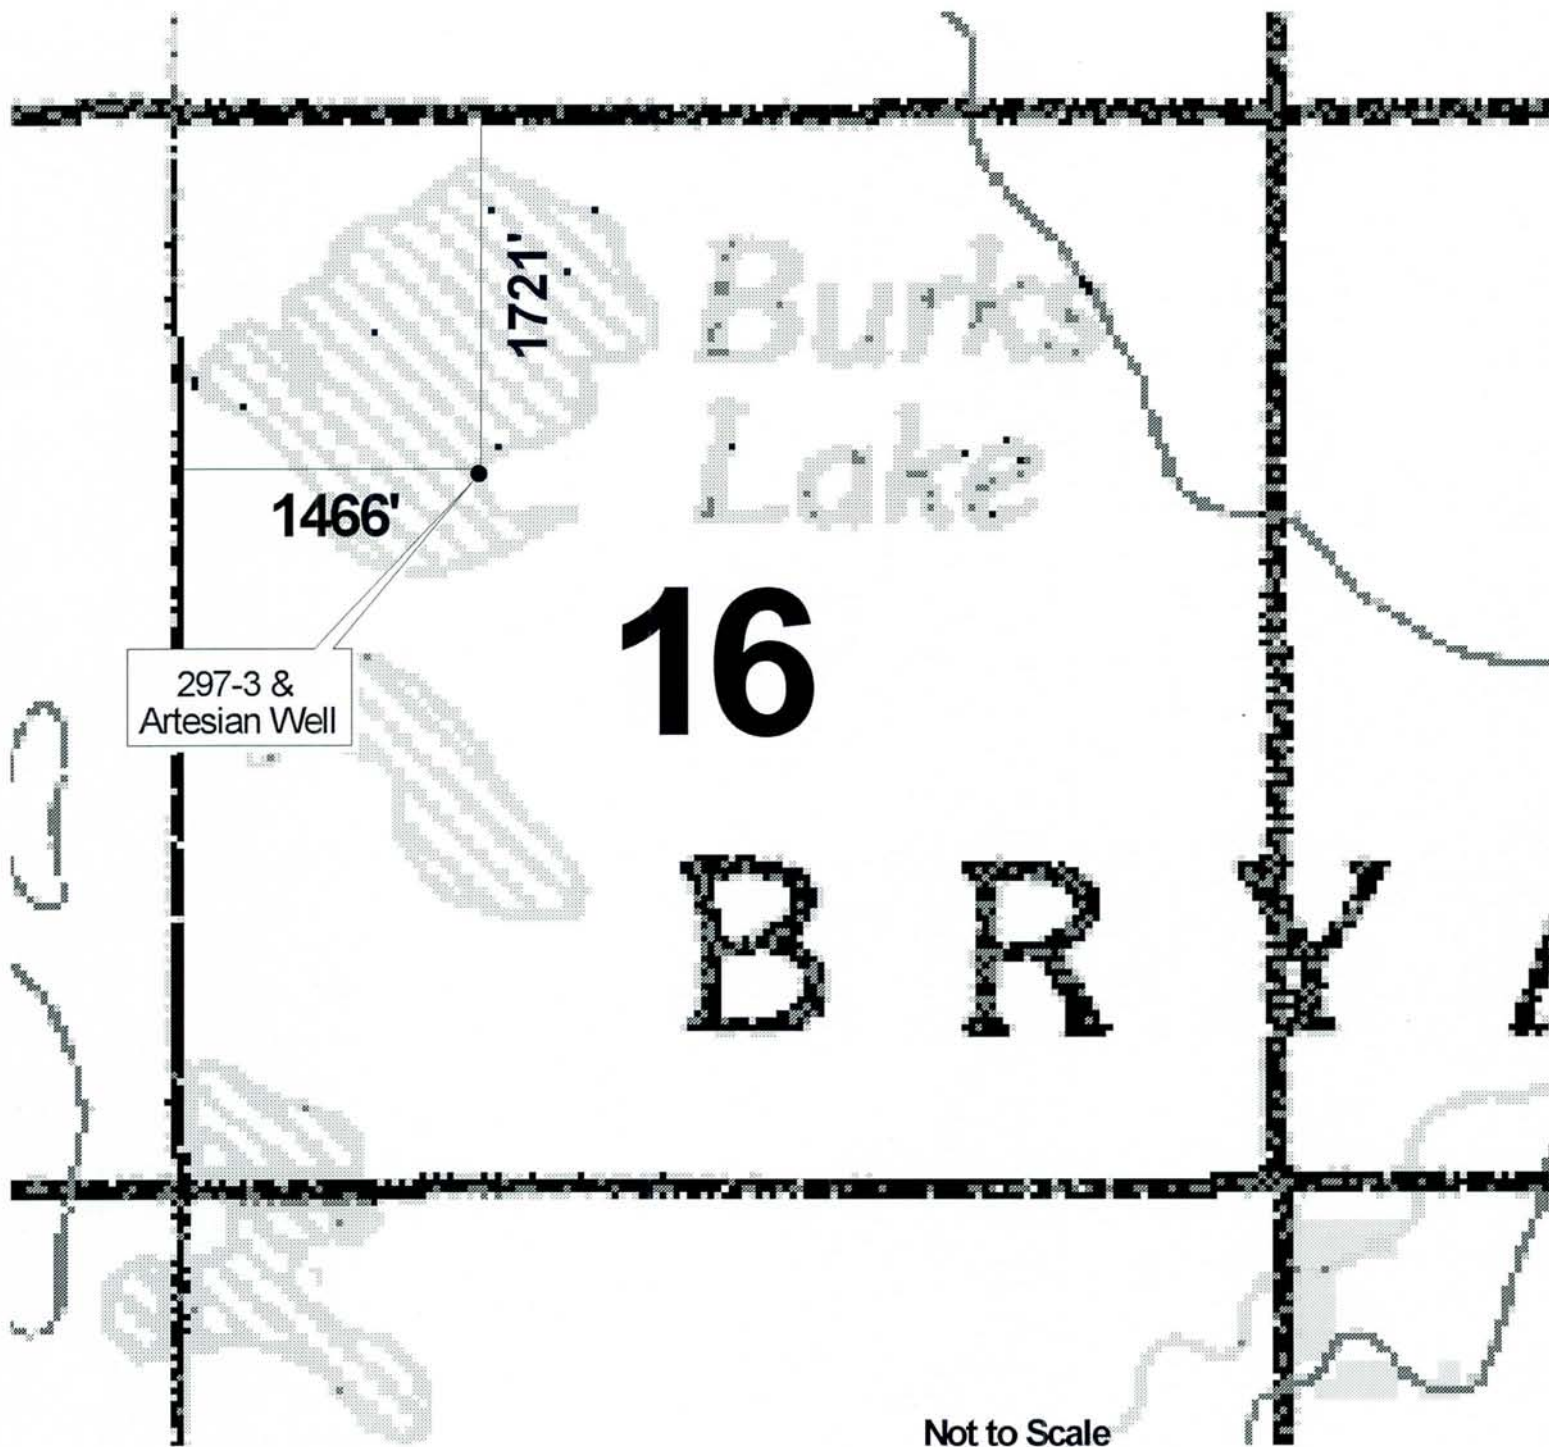

The high water levels the last several years in conjunction with high winds have eroded and extended the shoreline of intermittent Burks Lake. This action has rendered one well unusable and the other two wells on the verge of becoming unusable. Until such time that the lake level recedes and the shoreline can be stabilized, reworking the existing wells may not be possible. It may be necessary to drill replacement wells and abandon the existing wells.

No further action should be taken on licensing or validating these permits until water levels recede and the lake's shoreline is stabilized so the wells can be rehabilitated or replacement wells can be drilled. If the wells are not going to be rehabilitated, then they should be considered abandoned and if possible, sealed according to statute.

Mr. Holzbauer should be advised of the options regarding the rehabilitation of these wells, drilling replacement wells, and/or abandonment of these wells. His intentions regarding these actions should be ascertained.

RE: Vested Water Right Claim Nos. 296-3 and 297-3

COMMENTS:

In August, 2000, Don Stroup made an on site investigation of Vested Right Claim Nos. 296-3 and 297-3 held by Charles Ahrens. The land is now owned by Gary Holzbauer. In October, 2000 a letter was written to Mr. Holzbauer asking his intentions towards the wells described in the vested right claims.

During today's phone conversation, Mr. Holzbauer stated the wells are still under water and not usable. He wishes to keep the vested right claims in the hopes of being able to use the wells once he is able to get to them.

For the time being, both 296-3 and 297-3 need to be transferred to Mr. Holzbauer. A decision on the wells and possible subsequent validation of the vested right claims will have to be done at a later date.

Dear Mr. Holzbauer:

I am writing as a reminder that we have not yet received the ownership changes from you for Vested Water Right Claim Nos. 296-3 and 297-3. They are currently still listed in the name of Charles Ahrens.

It is important to keep ownership records up to date. We realize the wells described in the vested right claims are most likely still under water and not currently available for use. If you intend to ~~maintain the vested right claims and rehabilitate the wells when they become available, ownership must be kept current. If you have decided to forfeit the rights, they will be scheduled for~~ cancellation consideration.

Enclosed are partially completed Notice of Transfer of Ownership forms for filing the ownership changes. Please review the forms for accuracy and make any necessary changes. Once completed, please sign the forms and return them to our office with a required filing fee of \$2.50 each (**total of \$5.00**). The check or money order for the fee can be made payable to the Water Rights Program.

If you have decided against transferring the vested rights and no longer wish to maintain them, let me know.

Dear Mr. Holzbauer:

This letter is in regard to ownership of land described in Vested Water Right Nos. 296-3 and 297-3 still listed in the name of Charles Ahrens. Partially completed "Notice of Transfer of Ownership" forms were forwarded to you in the past and to date, we have not received the forms and filing fees back from you.

In the event you no longer have the original forms, enclosed is an additional set for your use in filing the ownership changes. Please review the forms and make any necessary corrections. Upon completion, please sign and return them to our office with a required filing fee of \$2.50 each (total of \$5.00). The check or money order for the fee can be made payable to the Water Rights Program.

Please be advised that the Legislature passed a bill this year raising the filing fees on applications, licenses and ownership changes. The fee increases will become effective July 1, 2009. The fee increase for an ownership change will be raised from \$2.50 to \$50.00 each. We will be required to assess the increased fee of \$50.00 for any ownership change filed after July 1st.

To avoid having to pay the higher fee (\$100 for the two transfers), please submit the enclosed forms and remit the \$5.00 in filing fees as soon as possible. If you no longer own the land or do not wish to maintain the vested water rights, please contact me.

Sincerely,

Genny McMath
Environmental Scientist
Water Rights Program
