WATER RIGHT APPLICATION APPROVAL

The Water Rights Commission hereby approves Water Right Application No. 2976-3
STAN LOVETT HITCHCOCK
 (Applicant) (Post Office Address)

SOUTH DAKOTA 57348 With the following modifications:
 (State)

The irrigation well approved under this Permit will be located near domestic wells and other irrigation wells which may obtain water from the same aquifer. The irrigation well owner, under this Permit, shall control his irrigation withdrawals so there is not a reduction of needed water supplies in existing domestic wells or in irrigation wells having prior water rights.

Date of first receipt of application AUGUST 23, 19 76
 Date of return to applicant for correction, amendments or changes required ---, 19 ---
 Date of receipt of corrected application SEPTEMBER 3, 19 76
 Approved SEPTEMBER 30, 19 76, Recorded in Book 16 Page 81

WATER RIGHT PERMIT NO. 2976-3

The Water Rights Commission hereby grants and issues this Water Right Permit No. 2976-3 authorizing the construction of the water use system and the putting of water to beneficial use as stated in the Application and as modified in the Water Right Application approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim right is AUGUST 23, 19 76
2. The equivalent of at least one-fifth of the work above specified is to be completed on or before MARCH 30, 19 79
3. The whole of said work is to be completed on or before SEPTEMBER 30, 19 81
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is SEPTEMBER 30, 19 83
5. The water appropriated shall be used for the purpose of IRRIGATION

6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.

7. The amount of the appropriation herein granted shall not exceed 2.2 cubic feet per second; neither shall it exceed the capacity of the above described water supply system, nor shall it exceed the amount of water needed for beneficial uses served, and if for the irrigation purposes said appropriation must be limited to not more than 3 acre feet per acre per year and be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is actually and beneficially applied for irrigation on or before SEPTEMBER 30, 19 83; said water to be used during the following described annual period: APRIL 1 TO NOVEMBER 1

Witness my hand this 29TH day of NOVEMBER, 19 76

Mr. Stan Lovett
Hitchcock, SD 57348

Dear Mr. Lovett:

The analysis of your water sample #76-1059 has been completed. The report has been sent to you earlier and I am herewith enclosing a copy of AIS publication #13 with the quality of this water for irrigation use plotted approximately by means of the red cross in the chart on the outside back cover. It is poor water, of the high salinity, medium sodium category. Accordingly, I recommend that you consider this strongly before going ahead with endeavoring to irrigate the land that you propose to irrigate. There are 4 areas of Tetonka-hoven soil scattered through the center and west side of this quarter (SW quarter of section 14) and you will have some real trouble with these soil areas, especially the wet spots which are inside the Beadle loan delineation.

If this were my land, I would not irrigate it with this water. There are 2 hazards. The one is that 1.7 tons of salt per acre foot of water has to have a place to go. If the internal drainage is insufficient to allow the salt to go on down beyond the bottom of the root zone, you will be in trouble in perhaps 3 or 4 years. The second hazard is the amount of sodium present. Although it is not real high, there is a considerable bit of sodium in this water and you may have dispersion.

A copy of this letter is accompanying your application materials to the State Conservation Commission for their action.

Sincerely yours,

L. O. Fine

Second Notice

Permit No. 2976-3

March 15, 1984

Larry Lovett
1615 South 7th
Aberdeen, South Dakota 57401

Dear Mr. Lovett:

On November 17, 1983 notice was sent to you concerning the transfer of Water Permit No. 2976-3 in the name of Stan Lovett which covers irrigation of 160 acres in the SW1/4 Section 14, T113N, R62W. To date, we have not heard from you on this matter.

A transfer form was previously sent to you, enclosed please find an additional form. Please sign, have notarized and return the form to this office with the required filing fee of \$2.50. The permit can then be transferred to your name. If you are not the present owner of the land covered under this Permit, please notify this office. It is very important that ownership records be kept current. South Dakota Water Law 46-5-30.3 requires Notice of any sale, grant, lease, conveyance or other transfer of a Water Permit or Water Right to appropriate water to be filed with this office within ninety days.

If you have any questions, please contact us.

Very truly yours,

John Hatch, Chief Engineer

Dear Mr. Lovett:

On March 11, 1987, I stopped at your home and visited with you about five permits which I was in the process of inspecting. Three of your permits are ready to be licensed, but I have run into problems with the other two (2976-3 and 3317-3). Neither of these permits contain sufficient acreage to cover what you are actually irrigating. Therefore, you must apply for two permits which will cover the additional acreage. The existing permits cannot be licensed until the additional acreage permits have been approved.

On Permit No. 2976-3, the problem exists in the SE1/4 Section 14-T113N-R62W where you are irrigating eight acres not covered under the permit. The other discrepancy occurs in the NW1/4 Section 26-T113N-R62W where you are irrigating approximately 132 acres with a permit which accounts for only 90 acres.

I have filled out the needed forms for your two additional permits. If you would look them over, sign them, and return them to our office; we can then continue with the process of licensing the rest of your permits. If you have any questions, please contact our office.

Sincerely yours,

Dear Mr. Lovett:

I am returning these two permit applications because they need to be notarized at the bottom. You should also sign and return the original copies of these two applications, which were sent in my first letter to you. Therefore, you should return four permit applications (two identical copies for each permit). All four copies should be signed and notarized.

In my original letter, I failed to mention the fee required for these two permits. I apologize for this mistake. There is a \$50.00 fee for the seven additional acres in the SE1/4 of Section 26-T113N-R62W. You may notice that I have changed the application to show seven acres instead of eight acres. By doing this, the fee for this permit was decreased by \$100.00. We will make the same change on the original copy when we receive it back from you. In addition, there is a \$150.00 fee required for the additional 55 acres in the NW1/4 of Section 26-T113N-R62W. Once again, I apologize for omitting this information from my first letter.

As soon as you return the applications signed and notarized, along with the fees mentioned above, we can continue with the process of licensing these permits. If you have any questions, please contact our office.

Sincerely yours,

Hitchcock, South Dakota 57348

Dear Mr. Lovett:

This letter is in response to your water permit application received on April 27, 1987 to add 7 acres not covered by permit in the W₂SE₄ Section 14-T113N-R62W. The enclosed map outlines the acreage not covered by Water Permit No. 2976-3.

The acreage outlined in red needs to be covered by a soil/water compatibility permit. The existing soil/water permit for Water Permit No. 2976-3 covers only the SW₄ of Section 14 (see enclosed copy). Therefore, the enclosed WI-1 form needs to be signed and notarized and then returned to the Division of Water Rights. The water permit application cannot be processed until the Soil/Water Compatibility permit application is approved.

Please contact the Division of Conservation if you have any questions about completing the WI-1 form (773-3259)

Sincerely,

Ron Duvall
Natural Resources Engineer

RE: S/W permit for new permit application

COMMENTS:

Mr. Lovett has applied for 7 addl. acres which were not described on his original permit No. 2976-3. He needs to get S/W approval for the 7 acres. Spoke with Stukel on 9-13-88 concerning whether or not Lovett had to submit a water sample. Stukel said that they had a validated sample from 1984 and that Lovett would not have to submit a water sample with the application.

File in Permit or other file as necessary. Use to document conversations and what the other party was told; why action or decision was made.

Hitchcock, SD 57348

Dear Mr. Lovett:

Enclosed you will find a soil/water compatibility permit application which we have discussed and which is necessary to complete your water permit application. You have already submitted a water permit application to cover 7 acres in the W1/2 SE1/4 of Section 14, T113N, R62W which is not covered by your existing Water Permit No. 2976-3. However, this 7 acres must also be covered by a soil/water compatibility permit from the Division of Conservation.

I have partially completed the application for you. Please review what I have completed and then make sure that the application is signed and notarized. I have spoken with the Division of Conservation concerning this application. They indicated to me that they already have a validated water sample from your well and the required soils information. Therefore, you will not be required to submit a water sample or the soils information as described on the instruction sheet. I have also completed and enclosed a map for your review. The 7 acres in question has been outlined in red.

After completing and reviewing the application, please return both the application and map to the Division of Water Rights. If you have any questions, please contact our office.

Sincerely,

James L. Wendte

Dear Mr. Lovett:

Enclosed is Water Permit and Water License No. 2976A-3. This is the final water right document completing your process of obtaining a Water Right. Enclosed is Receipt No. 412995 in the amount of \$50.00 which you paid for the inspection and issuance of the Water License.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 2976A-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Division
