Dear Sir:

This office was informed by the Corps of Engineers that you have requested an easement across Corps land, using Water License 307-3 as the basis for this request. It appears to us that you should up-date Water License 307-3 to fully protect this right.

First, I believe your request to the Corps bears the name of the owners as "De Haan Livestock Farms, Inc.". However, the Water License No. 307-3 was issued to John De Haan. If this water license has become the property of the De Haan Livestock Farms, Inc., please fill out, sign and have notarized the enclosed form for transfer of ownership. Then send it, and a recording fee of \$1.00, to this office and our records will be so changed.

Second, does the easement you are asking for constitute a change in diversion points from that listed in Water License 307-3? If so, please notify us and we will initiate the steps to get this change into your record.

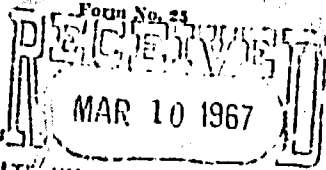

It is to your advantage to keep your water right in as good form as possible just in case there should be any legal action brought forth in the future.

Please call upon us if this office can be of any further assistance.

Sincerely,

RICHARD D. SCHMOYER

Observations during the Field Inspection on August 3, 1957,
of the John DeHaan Project relative to Application #307-3.

Lyle DeHaan accompanied me on this inspection and was very cooperative and helpful in assisting me so that I could complete my work.

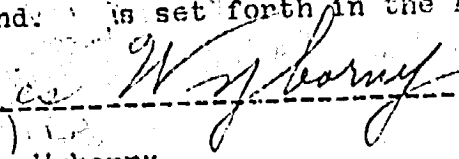

This project consisted of 328 acres $\pm$, divided into 20-80 acre fields of corn, alfalfa, and grass and was located in (W $\frac{1}{2}$ and NE $\frac{1}{4}$) NE $\frac{1}{4}$ Sec 1, T.96N, R.68W; and W $\frac{1}{2}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$, AND S $\frac{1}{2}$ NW $\frac{1}{4}$, Sec 36, T.97N, R.68W. There was about 40 acres of non-irrigable land in a draw which should be excluded from the W $\frac{1}{2}$ SW $\frac{1}{4}$ and SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec 36. The pump was located on Ft. Randall Reservoir (Missouri River) where the N-S 1/4 line of 1-96-68 intersects the Shoreline about 1/2 mile south of the 1/4 Corner ³⁶₁. The locations of the area to be irrigated and the diversion point correspond closely to those shown on Map #226-3.

Equipment consisted of a Chrysler, Model-56A, Industrial Engine, using propane, 185 Hp rated-120 Hp continuous, operating @ 3000 rpm's. The pump was a Cornell Rain-O-Flow, Model 4H62B4-3. Serial #4736, with a 12 1/4 inch impeller, 6" inlet and an estimated capacity of 1800-2200 gpm. A pressure gauge was installed on the pump. Although material was not available on Cornell Pump, construction features and performance curves a check on the assumption was made against the Hp formula; B-J, Carver, G-R, Berkley and Pacific Pump performance curves and on the basis of that comparison this is a reasonable estimate for the Cornell Pump. Mr. DeHaan stated that when possible he operates on a 175# pressure at the pump and 75# pressure on the two (2) Veneer Booms, he has each of which have one 1 inch, five 5/16 inch, and one 3/16 inch nozzles. A pressure gauge is installed on each irrigator. Other equipment consists of 960 feet of 8 inch gated pipe, 8 lengths of 6 inch x 30 foot gated pipe, 44 lengths of 6 inch by 30 foot main line and 1 1/4 miles of 8 inch main line pipe. The 2 Boom Irrigators have a combined estimated capacity of 960 gpm and the gated pipe an estimated normal capacity of 2250 gpm more or less.

There was an estimated 6 ft. lift to the pump and 80-180 foot lift to the irrigated area.

All of the equipment was new and in excellent condition.

The area irrigated and the capacity of the works or equipment to convey water to the place of use corresponded to the conditions set forth in the Application and Permit.

RE: Irrigation Questionnaires for Water Permit Nos. 307-3,
307-3A, 307-3B, 2326-3, 2999-3 and 4630-3

Dear Mr. DeHaan:

I am writing to acknowledge receipt of your 1991 irrigation questionnaires for Water Permit Nos. 307-3, 307-3A, 307-3B, 2326-3, 2999-3 and 4630-3. You may disregard the January 27, 1992, Notice of failure to submit the 1991 irrigation questionnaire. The questionnaires were completed after your telephone conversation with Ron Duvall of this office. You indicated you irrigated the "same as last year". Since they were received prior to the Water Management Board meeting, your name was deleted from the agenda.

The 1992 irrigation questionnaires will be mailed out in October, 1992. It will not be acceptable to call in and request them to be filled out "the same as last's years".

If you have any questions, please contact me at (605) 773-3352.

Sincerely,
