Because of aquifer ~~underlying~~ conditions, effects upon domestic water supplies may require restriction of periods of irrigation water withdrawal. In granting this Permit, the Commission believes that the degree of restriction will not reduce seriously the irrigation benefits to the applicant.

Dear Mr. Wiechman:

Confirming our discussion during my visit with you on September 24, irrigation pumping should cease for this season in order to provide proper conditions to investigate the domestic water supply problems in the Wagner area.

The Water Resources Commission will be drilling observation wells in your area and will be doing other investigation work to find out the characteristics of the aquifer from which both domestic and irrigation water supplies are obtained. When the irrigation season starts next spring we should be able to find out the causes of the domestic well difficulties. This is not an easy job, but working together we should be able to find a solution.

Dear Sir:

This is to inform you that you are not to pump water from your irrigation well during the period beginning at 8 A.M., August 27, 1959 and ending at 8 A.M. on October 1, 1959.

This restriction of your irrigation pumping is necessary in order to permit the Water Resources Commission to take readings on the ground water levels during a portion of the summer season when no irrigation pumping is being made.

For your information, we plan to take weekly measurements on the observation wells, in the area, starting on August 27, 1959.

Dear Mr. Wiechmann:

For several years the Water Resources Commission has been making special measurements (often on a weekly basis) of observation wells in the Wagner-Lake Andes Area.

In this area the irrigation wells also tap the same formation which provides water for a large number of domestic wells. Measurements of the observation wells in past years have shown that the irrigation withdrawals do cause considerably lowering of the water level.

This year as a matter of information to you, copies of the special measurements of the observation wells will be sent to you.

Enclosed for your information is a map showing the location of the observation wells and also enclosed are the recent measurements of these observation wells.

Dear Mr. Wiechmann:

This spring we sent you a sketch map showing the location of observation wells in your area and since then we have been sending you the weekly measurements of these wells. Enclosed are the latest measurements.

I believe that you should be informed that the fast drop in these observation wells has occurred about one month sooner than in previous years. Also, the water level drops generally have been larger and to a lower depth than at any time since we started weekly measurements in 1967, or on wells drilled after 1967, since the measurements were started.

Following is a summary of the water level drops in key observation wells.

FROM: Ron Duvall, Natural Resources Engineer

SUBJECT: Reporting Requirement for 2002 Irrigation Questionnaire(s)

Our records indicate that the 2002 Irrigation Questionnaire(s) has not been submitted for Permit No(s) 311-3. The request for the Questionnaire was dated October 11, 2002. The Water Management Board has directed that owners of water permits who have not submitted the 2002 Irrigation Questionnaire(s) be given notice of permit violation and a hearing to be held by the Board. The hearing is to determine what action is to be taken for violation of Water Permit No(s) 311-3 qualification:

"This permit is approved subject to the Irrigation Water Use Questionnaire being submitted each year."

The hearing will be held at 8:30 am, March 5, 2003 in the Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol Avenue, Pierre, SD and will be conducted pursuant to SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to Chapter 1-26. According to SDCL 46-1-12, the Board may suspend a permit for a period of up to one year for the first violation of a permit qualification or up to three years for a second violation, or cancel a permit for a third violation. Following the hearing, the Water Management Board can:

1. Suspend or cancel Permit No(s) 311-3 in accordance with applicable provisions of SDCL 46-1-12;
2. Postpone any action; or
3. Take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

If the questionnaire(s) is(are) received in this office on/or before February 28, 2003, you will no longer be in violation of your permit and your name will be deleted from the Board agenda. If you have questions or need assistance in completion of the irrigation questionnaire(s), please contact Genny McMath at (605) 773-3352.

cc: PAUL WIECHMANN, 29082 395TH AVE, WAGNER, SD 57380

NOTE: Please contact the Water Rights Program, Joe Foss Building, 523 E Capitol, Pierre, SD (605-773-3352) to assure access to the meeting room for the handicapped or to obtain an interpreter for the hearing impaired.

SUBJECT: Reporting Requirement for 2005 Irrigation Questionnaire(s)

Our records indicate that the 2005 Irrigation Questionnaire(s) has not been submitted for Permit No(s) 311-3. The request for the Questionnaire was dated October 28, 2005. The Water Management Board has directed that owners of water permits who have not submitted the 2005 Irrigation Questionnaire(s) be given notice of permit violation and a hearing to be held by the Board. The hearing is to determine what action is to be taken for violation of Water Permit No(s) 311-3 qualification:

"This permit is approved subject to the Irrigation Water Use Questionnaire being submitted each year."

The hearing will be held at 10:30 am, March 2, 2006 in the Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol Avenue, Pierre, SD and will be conducted pursuant to SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to Chapter 1-26. According to SDCL 46-1-12, the Board may suspend a permit for a period of up to one year for the first violation of a permit qualification or up to three years for a second violation, or cancel a permit for a third violation. Following the hearing, the Water Management Board can:

1. Suspend or cancel Permit No(s) 311-3 in accordance with applicable provisions of SDCL 46-1-12;
2. Postpone any action; or
3. Take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

If the questionnaire(s) is(are) received in this office on/or before **February 24, 2006**, you will no longer be in violation of your permit and your name will be deleted from the Board agenda.
