WATER RIGHT PERMIT NO. 3321-3

The Water Rights Commission hereby grants and issues this Water Right Permit No. 3321-3 authorizing the construction of the water use system and the putting of water to beneficial use as stated in the Application and as modified in the Water Right Application approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim right is NOVEMBER 15, 19 76
2. The equivalent of at least one-fifth of the work above specified is to be completed on or before JANUARY 31, 19 80
3. The whole of said work is to be completed on or before JANUARY 31, 19 81
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is JANUARY 31, 19 84
5. The water appropriated shall be used for the purpose of IRRIGATION

6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.

7. The amount of the appropriation herein granted shall not exceed 2.3 cubic feet per second; neither shall it exceed the capacity of the above described water supply system, nor shall it exceed the amount of water needed for beneficial uses served, and if for the irrigation purposes said appropriation must be limited to not more than 3 acre feet per acre per year and be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is actually and beneficially applied for irrigation on or before JANUARY 31, 19 84; said water to be used during the following described annual period: APRIL THRU SEPTEMBER

Dear Ms. Brooker:

Your water sample (Lab. No. 76-1787) has been analyzed and the results are reported on the accompanying sheet, which is your copy to keep.

I am also enclosing a copy of AES pamphlet #13 for your use. The quality of your water for irrigation use is plotted approximately by means of the red cross in the chart on the outside back cover.

Your water, as indicated by this analysis, is satisfactory for use on the soils you indicate will be irrigated. If a salt problem or a water table problem should develop, contact extension personnel for assistance.

The WI-1, soils information, and a copy of the water analysis are being forwarded to the State Conservation Commission for their action.

Water Rights Commission
Mr. John Hatch
Dear Sir:

Tulare, S. Dak.

March 30, 1977

I have received from your office my Water Right Permit no 3058-3 dated Dec. 3, 1976. Since then I have had Engine Drilling Co. of Frankfort, S.D. drill an irrigation well for me. After test pumping this well I have been advised by them that the sand is too fine and the formation too tight to yield more than 200 gpm. I then had additional test wells drilled and after a total of 6 tests on this land have been unable to find anything any better. Therefore it is very doubtful that I will be able to proceed with construction of a pivot system irrigation project on this land.

I have also your letter of March 8, 1977 advising me that action was deferred on my application no. 3321-3 in the name of Grace Brooker (my mother). I have had test wells on this land and they are very promising as to the volume of water available.

My questions are as follows.

What is the procedure for getting approval of the permit no 3321-3 which was deferred?

Is it possible that since I will probably not
be using permit no. 3058-3 that I could trade it
for approval of permit no. 3321-3 ?

These two quarters are $\frac{1}{2}$ mile apart and there
are no other irrigation wells within $1\frac{1}{2}$ miles.

I own 800 acres and rent 640 acres for a total of 1440
none of which is irrigated. I need some irrigation
to add stability to this farm.

Sincerely yours;

Leroy Brooker

Dear Mr. Brooker:

This acknowledges the receipt of your letter dated March 30, 1977 pertaining to the possibility of trading the approved application No. 3058-3 for the deferred application No. 3321-3.

It is suggested that you meet with the Commission on this matter at the hearings to be held the 25th and 26th of May, 1977. I can not say whether or not the Water Rights Commission will go along with it.

If you wish to meet with the Commission, drop us a letter and we will put you down on the agenda.

Please advise this office of any further questions.

FROM: John Hatch, Chief Engineer, Water Rights Commission

SUBJECT: Reconsideration of Deferred Applications

The Water Rights Commission will reconsider deferred water right applications proposing diversions from the Tulara, Hitchcock, and East James aquifers in Spink, Hand and Beadle counties at 4:00 p.m., January 31, 1979 at the South Dakota Education Association Building, 411 E. Capitol, Pierre, South Dakota.

This reconsideration hearing will be conducted in accordance with the provisions of SDCL 46-1-1 thru 46-1-8; 46-2-9 thru 46-2-11, 46-2-13; 46-5-1 thru 46-5-8, 46-5-10 thru 46-5-22, 46-5-41; 46-6-3, 46-6-5, 46-6-6.1, 46-6-10, 46-6-14 and Commission Rules ARSD 52:01:01:01 thru 52:01:01:13.

These applications were deferred by the Water Rights Commission during 1977 and 1978, pending Staff investigation.

After reconsideration of the deferred applications, the Commission can approve, defer, or deny all or part of these applications.

This hearing is an adversary proceeding. Any person has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised at the hearing. Decisions of the Commission may be appealed to the courts as provided by law.

Pierre, South Dakota 57501

Dear Sirs:

This is to inform you that I have completed the construction of the water diversion system and/or that I have put the water to beneficial use to the maximum extent it is going to be used, not exceeding the amounts as specified in Water Right Permit No. 3321-3.

Water Right Permit No. 3321-3 states that the diversion system is to be constructed by Jan. 31, 19 81 and that the water is to be put to beneficial use by Jan. 31, 19 84.

The diversion system was completed on June, 19 79.
Applying the water to beneficial use was completed on Sept, 19 79.

You may schedule an inspection so that the Certificate of Construction and/or the Water License may be issued, thus completing my acquisition of a water right.

TO: WATER RIGHTS, WATER MANAGEMENT BOARD / FOSS BLDG., PIERRE, SOUTH DAKOTA 57501

I have this day made a thorough examination of the water use system constructed by LEROY & ELSIE BROOKER of TULARE holder of Permit No. 3321-3, bearing date of priority of NOVEMBER 15, 1976 authorizing the diversion of 2.3 cu. ft. per second of the waters of GROUNDWATER for IRRIGATION purposes, in SPINK County.

I have to report on the condition of the same as follows:

The Water Use System consists of,

A. Works used to divert the water:

65' DEEP WELL WITH 16" FIBREGLAS CASING-40' FIBREGLAS SCREEN
WESTERN LAND ROLLER 6" PUMP 3-10 CH
RAUNDOLPH GEAR HEAD @ 1760 RPM
DEUTE DIESEL MOTOR-MODEL 4L912 - 57 HP

B. Works used to transport water to place of use,

20' OF ALUMINUM 8" LINE TO CENTER OF PLOT

C. Works used to apply water to beneficial use.

ELECTROGATOR 8 TOWER CENTER PLOT (LOW PRESSURE)

The system is in the following condition: GOOD

The point of diversion is located 20 NE OF CENTER OF THE SE⁴ SECTION 12,
T114N, R64W

The works are capable of diverting and conveying to the place of use 1.33 CFS (600 GPM)
 cu. ft. per second of water which is to be used for IRRIGATION

Water has been put to beneficial use to the maximum extent as follows:

FOR IRRIGATING A 120 ACRE CIRCLE IN THE SE⁴,

Dear Ms. Brooker:

I am contacting you in reference to ownership of Water Right No. 3321-3. A notation was made on the annual irrigation questionnaire for LeRoy & Elsie Brooker that you are now the owner of the land.

Enclosed is a partially completed Notice of Transfer of Ownership form for use in filing an ownership change with the water right. Please review and complete as needed. Upon completion, please sign the form and return it to us with a required filing fee of \$2.50. The check or money order for the fee can be made payable to the Water Rights Program.

I am including a copy of the water right for your review. You may keep this for your records. If I can answer any questions for you, please let me know.

NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

SUBJECT: Tulare Aquifer Irrigators

From April 28 through May 1, 2003 I made an on-site examination of the irrigation systems of several Tulare Aquifer Water Right holders. The Water Right holders, my observations, and subsequent actions are noted below:

Water Right No. 1424-3, Rick Boomsma Operator, 19749 Ponderosa Lane, Hitchcock, SD (605)266-2822

Center pivot on-site that appears not used for some time. Irrigation questionnaires show no irrigation from 1992 to present. In mid October I spoke with Rick Boomsma about the non use of the Water Right. Rick Boomsma stated that he had irrigated this summer. Cancellation of this water right will not be scheduled this year, but this site should be re-examined in the summer of 2004.

Water Right No. 3243-3, Rick Boomsma Operator, 19749 Ponderosa Lane, Hitchcock, SD (605)266-2822

No sign of irrigation equipment on-site. Irrigation questionnaires show no irrigation from 1991 to present. In mid October I spoke with Rick Boomsma about the non use of the Water Right. Rick Boomsma stated that he had irrigated this summer. Cancellation of this water right will not be scheduled this year, but this site should be re-examined in the summer of 2004.

Water Right No. 2853-3, Larry Gordon, 38899 SD Hwy 28, Hitchcock, SD (605)266-2718

Trees growing under center pivot, one right in front of wheels. Irrigation questionnaires show no irrigation in 1986, 1991, 1992, 1993 (flooded), 1994 to present (excess moisture 99, too wet 01, & system needs work 02). Spoke with Mr. Gordon and he stated he hadn't needed to irrigate as there was adequate moisture the previous years, but he planned to have the unit ready to use this summer. I re-visited the site in August 2003 and there was a corn crop in the field that had not been irrigated. The pivot was still in the same position and the trees were still standing. Cancellation of this water right will not be scheduled this year, but this site should be re-examined in the summer of 2004.

Water Right No. 2568-3, Leland Kleinsasser, 20166 401st Ave, Huron, SD (605)352-8125

No irrigation equipment on-site or sign of well head. Irrigation questionnaires show no irrigation from 1994 to present. Re-visited site in August 2003 and still no sign of equipment or irrigation. I spoke with Mr. Kleinsasser in mid October about the non use of the Water Right. Mr. Kleinsasser

stated that he no longer used the Water Right and had moved the equipment to another location. He agreed to the cancellation of the Water Right.

Water Right No. 4545-3, Victor Kleinsasser, 40008 198th St., Huron, SD (605)352-8103

Center pivot on-site that appears not used for some time. Irrigation questionnaires show no irrigation from 1992 to present. Spoke with Mr. Kleinsasser about this water right and other appropriations from the James River. Mr. Kleinsasser stated that all the irrigation equipment is from the 70s and needs rebuilt or repaired which he plans on doing this winter. Mr. Kleinsasser also has a James River Water Right No. 2387-3 showing use from 1999 to the present and three other ones showing non use from 1986 to the present. On 10/28/03 I spoke with Mr. Kleinsasser explaining the non use statute and that we would schedule the rights showing non use for cancellation. I further explained that he could appear before the Water Management Board to appeal the cancellations or write a letter explaining his position on the issue. Mr. Kleinsasser agreed.

Water Right No. 4550-3, Raymond Oil Co., PO Box 142, Huron, SD

Center Pivot on-site that appears well maintained and ready to be used. Irrigation questionnaires show no irrigation 1993, 95, 97 to present. This Water Right will not be scheduled for cancellation.

Water Right No. 4194-3, Verlin Tollefson, 19578 388th Ave., Hitchcock, SD (605)266-2834

Center pivot on-site, appears ready for use. Irrigation questionnaires show no irrigation 1995 to present. This Water Right will not be scheduled for cancellation.

Water Right No. 4146-3, Adele Walters, 440 Jersey Ave. NE#5, Huron, SD (605)352-7505 (Ray Hofer Operator)

No irrigation equipment on-site, pump station & well head present. Irrigation questionnaires show no irrigation 1994 to present. Nos. 4146-3 and 4546-3 use same well. I contacted Mr. Ray Hofer, the renter of the property, and he confirmed that irrigation had not taken place for several years and that the equipment was old and needed to be repaired. He further stated that he did not intend to repair the equipment as he only had a three year lease. I contacted Mrs. Walters, but she is in her 90s and doesn't hear well or understand cancellation of the Water Right. I then contacted Mrs. Walters' lawyer, Reed Hutchinson, and explained the situation of non use of the Water Right and the difficulty of explaining this to Mrs. Walters. Reed Hutchinson stated that if Water Rights sends the cancellation information to him, he will ensure that it gets to Mrs. Walters and he will explain the situation to her.

Water Right No. 4147-3, Adele Walters, 440 Jersey Ave. NE#5, Huron, SD (605)352-7505 (Ray Hofer Operator)

Center pivot on-site, appears not used for some time. Irrigation questionnaires show no irrigation 1996 to present. I contacted Mr. Ray Hofer, the renter of the property, and he confirmed that irrigation had not taken place for several years and that the equipment was old and needed to be repaired. He further stated that he did not intend to repair the equipment as he only had a three year lease. I contacted Mrs. Walters, but she is in her 90s and doesn't hear well or understand cancellation of the Water Right. I then contacted Mrs. Walters' lawyer, Reed Hutchinson, and explained the situation of non use of the Water Right and the difficulty of explaining this to Mrs. Walters. Reed Hutchinson stated that if Water Rights sends the cancellation information to him, he will ensure that it gets to Mrs. Walters and he will explain the situation to her.

Water Right No. 4546, Adele Walters, 440 Jersey Ave. NE#5, Huron, SD (605)352-7505 (Ray Hofer Operator)

No irrigation equipment on-site, pump station & well head present. Irrigation questionnaires show no irrigation 1997 to present. Nos. 4146-3 and 4546-3 use same well. I contacted Mr. Ray Hofer, the

renter of the property, and he confirmed that irrigation had not taken place for several years and that the equipment was old and needed to be repaired. He further stated that he did not intend to repair the equipment as he only had a three year lease. I contacted Mrs. Walters, but she is in her 90s and doesn't hear well or understand cancellation of the Water Right. I then contacted Mrs. Walters' lawyer, Reed Hutchinson, and explained the situation of non use of the Water Right and the difficulty of explaining this to Mrs. Walters. Reed Hutchinson stated that if Water Rights sends the cancellation information to him, he will ensure that it gets to Mrs. Walters and he will explain the situation to her.

Water Right No. 3321-3, Peggy Brooker, 18512 387th Ave., Tulare, SD (605)596-4391

Center pivot on site, appears ready to be used. Irrigation questionnaires show no irrigation 1986, 1993, 1995, and 1996 to present. This Water Right will not be scheduled for cancellation.

Water Right No. 4260-3, Roger Chaplin, 1820 Fulton, Sturgis, SD (605)720-2125 Farm (605)266-2108

No irrigation equipment on-site, no sign of well head or pumping equipment, & no sign of irrigation. Irrigation questionnaires show no irrigation 1987 to present. I spoke with Mr. Chaplin about this Water Right and his other appropriations from the James River. Mr. Chaplin stated that he had pumped some from the river this summer (I re-visited site in August and saw no sign of irrigation). His son is now living on the farm. Mr. Chaplin is having test holes drilled on land better suited for irrigation and was wondering about transferring diversion point, etc. I explained the problem with the fully appropriated aquifer. In mid October I spoke with Mr. Chaplin and told him that the Chief Engineer recommended scheduling this Water Right for cancellation and that the ground water personnel list this well as abandoned. Mr. Chaplin again stated he desired to retain the Water Rights on the James River but did not object to the cancellation of this Water Right. I explained that he could appear before the Water Management Board and state his position on retaining the Water Rights from the James River and that he would get a notification of time and place for the Board meeting. If he didn't want to appear before the Board he could send a letter.

Water Right No. 3164-3, Darrel Jensen, Box 350, Redfield, SD (605)472-2782

Center pivot on-site, appears ready to be used. Irrigation questionnaires show no irrigation 1993 and 1995 to present. This Water Right will not be scheduled for cancellation.

Water Right No. 3054A-3, Charles Gilbert, 38957 186th St., Hitchcock, SD (605)266-2886

Center pivot on-site with chokecherry bushes and one evergreen tree grown around center as high as the pivot. Mr. Gilbert stated system had not been used for awhile as moisture has been adequate and he plans on refurbishing the system this year. Irrigation questionnaires show no irrigation 1993 to present. Re-visited site in August 2003 and pivot was running and irrigating crop. This Water Right will not be scheduled for cancellation.

Water Right No. 2729-3, Leroy Gross, 39848 185th St., Hitchcock, SD (605)266-2548

No sign of irrigation equipment or irrigation. This Water Right was transferred to Harvey Wollman at the May 2003 Water Management Board meeting.

Water Right No. 5568-3, Richard Jessen, 18250 377th Ave., Tulare, SD (605)472-2408 (Brett Binger Operator)

Center pivot on-site, appears ready for use. Irrigation questionnaires show no irrigation 1992 to present. This Water Right will not be scheduled for cancellation.

Water Right No. 4375-3, Dave Swanson, 39840 168th St., Frankfort, SD (605)472-2573

No irrigation equipment on-site or evidence of irrigation in June 2003. Swanson purchased land about 4 months ago (January 2003) and is in the process of setting up a system on the land. Irrigation questionnaires show no irrigation 1990 to present. I re-visited the site in August and saw no sign of irrigation equipment, but a bean crop appears to have been irrigated as it is a lot greener than the same crops in adjacent fields. Cancellation of this water right will not be scheduled this year, but this site should be re-examined in the summer of 2004.

Water Right No 1504-3, Donald Mendel, 17909 406th Ave., Doland, SD (605)635-6587

No sign of irrigation equipment on-site or evidence of irrigation. Mr. Mendel stated moisture has been adequate and he hasn't needed to irrigate for years. Mr. Mendel also stated that the well is only about 50-feet deep and is not a good producer under drought conditions. He has a stock dam adjacent to the well and if the dam dries up, so does the well. Mr. Mendel is transferring the land to his sons and plans on retiring. Irrigation questionnaires show no irrigation 1987 and 1991 to present. This is the Water Right that Harvey Wollman wants to acquire a portion of. This Water Right should be scheduled for cancellation.

Water Right No. 5234-3, Larry Nielson, 18476 385th Ave., Tulare, SD (605)596-4339

Center pivot on-site, appears ready for use. Irrigation questionnaires show no irrigation 1992, 93, 94, 97, 98, 99, 01, & 02. This Water Right will not be scheduled for cancellation.

Water Right No. 3045-3, Cal Nowell, 1265 3rd Street SW, Huron, SD (Ken Nowell Operator, (605)596-4271)

No irrigation equipment on-site or sign of irrigation. Irrigation questionnaires show irrigation. Appears Mr. Nowell has the locations for Nos. 3045-3 and 3046-3 switched. Re-visited the sites in August 2003, and both are being irrigated. In mid October I spoke with Ken Nowell and he affirmed that he is the operator for this Water Right and that he had irrigated this summer. Ken Nowell also advised that his son, Joshua is the operator for # 3046-3. This Water Right will not be scheduled for cancellation.

Water Right No. 3046-3, Cal Nowell, 1265 3rd Street SW, Huron, SD (Joshua Nowell Operator, (605)596-4271)

Center pivot on-site, appears not used for some time. Irrigation questionnaires show no irrigation 1986 to present. Appears Mr. Nowell has the locations for Nos. 3045-3 and 3046-3 switched. Re-visited sites in August 2003 and both are being irrigated. In mid October I spoke with Ken Nowell and he advised that his son, Joshua is the operator for # 3046-3. This Water Right will not be scheduled for cancellation. It still appears that Ken Nowell has the locations for these two Water Rights switched as he stated that his son had just put a new system on this location when in April I had noted that this site had irrigation equipment on it and the # 3045-3 site did not..

Water Right No. 5231-3, Ken Nowell, 38671 187th St., Hitchcock, SD (605)596-4271

Center pivot on-site, appears not used for some time. Irrigation questionnaires show no irrigation 1993 to present. In mid October I spoke with Ken Nowell and he affirmed that he is the operator for this Water Right and that he had irrigated this summer. This Water Right will not be scheduled for cancellation.

Water Right No. 5301-3, Barbara Jo Rogers, 419 S. 10th St., Aberdeen, SD (605)226-0344

Center Pivot on-site being and being used in an alfalfa field. Irrigation questionnaires show no irrigation 1993, 97, 99 to present. This Water Right will not be scheduled for cancellation.

Water Right No. 2514, Willard Wipf, 18371 403rd Ave., Frankfort, SD (605)266-2595

Center pivot on-site. Mr. Wipf stated the system had not been used for several years due to adequate moisture. Wetter years in the 90s had brought up salt from the soil and he had to idle the area. The land should be suitable for irrigation this year if needed. Irrigation questionnaires show no irrigation 1993, 95 to present. This Water Right will not be scheduled for cancellation.

Water Right No. 3467-3, Spink Colony (Paul Wipf), 18206 Spink Lane, Frankfort, SD (605)472-1269

Mr. Wipf was under the impression that this right had been cancelled. The soil and water were incompatible and they had quit irrigating. The soil in the area has been reconditioned and they could possibly irrigate it again at a reduced rate. Also Mr. Wipf brought up transferring the irrigation right to a different quarter if the right is still good. This Water Right was cancelled by the Water Management Board at the October 2003 meeting.

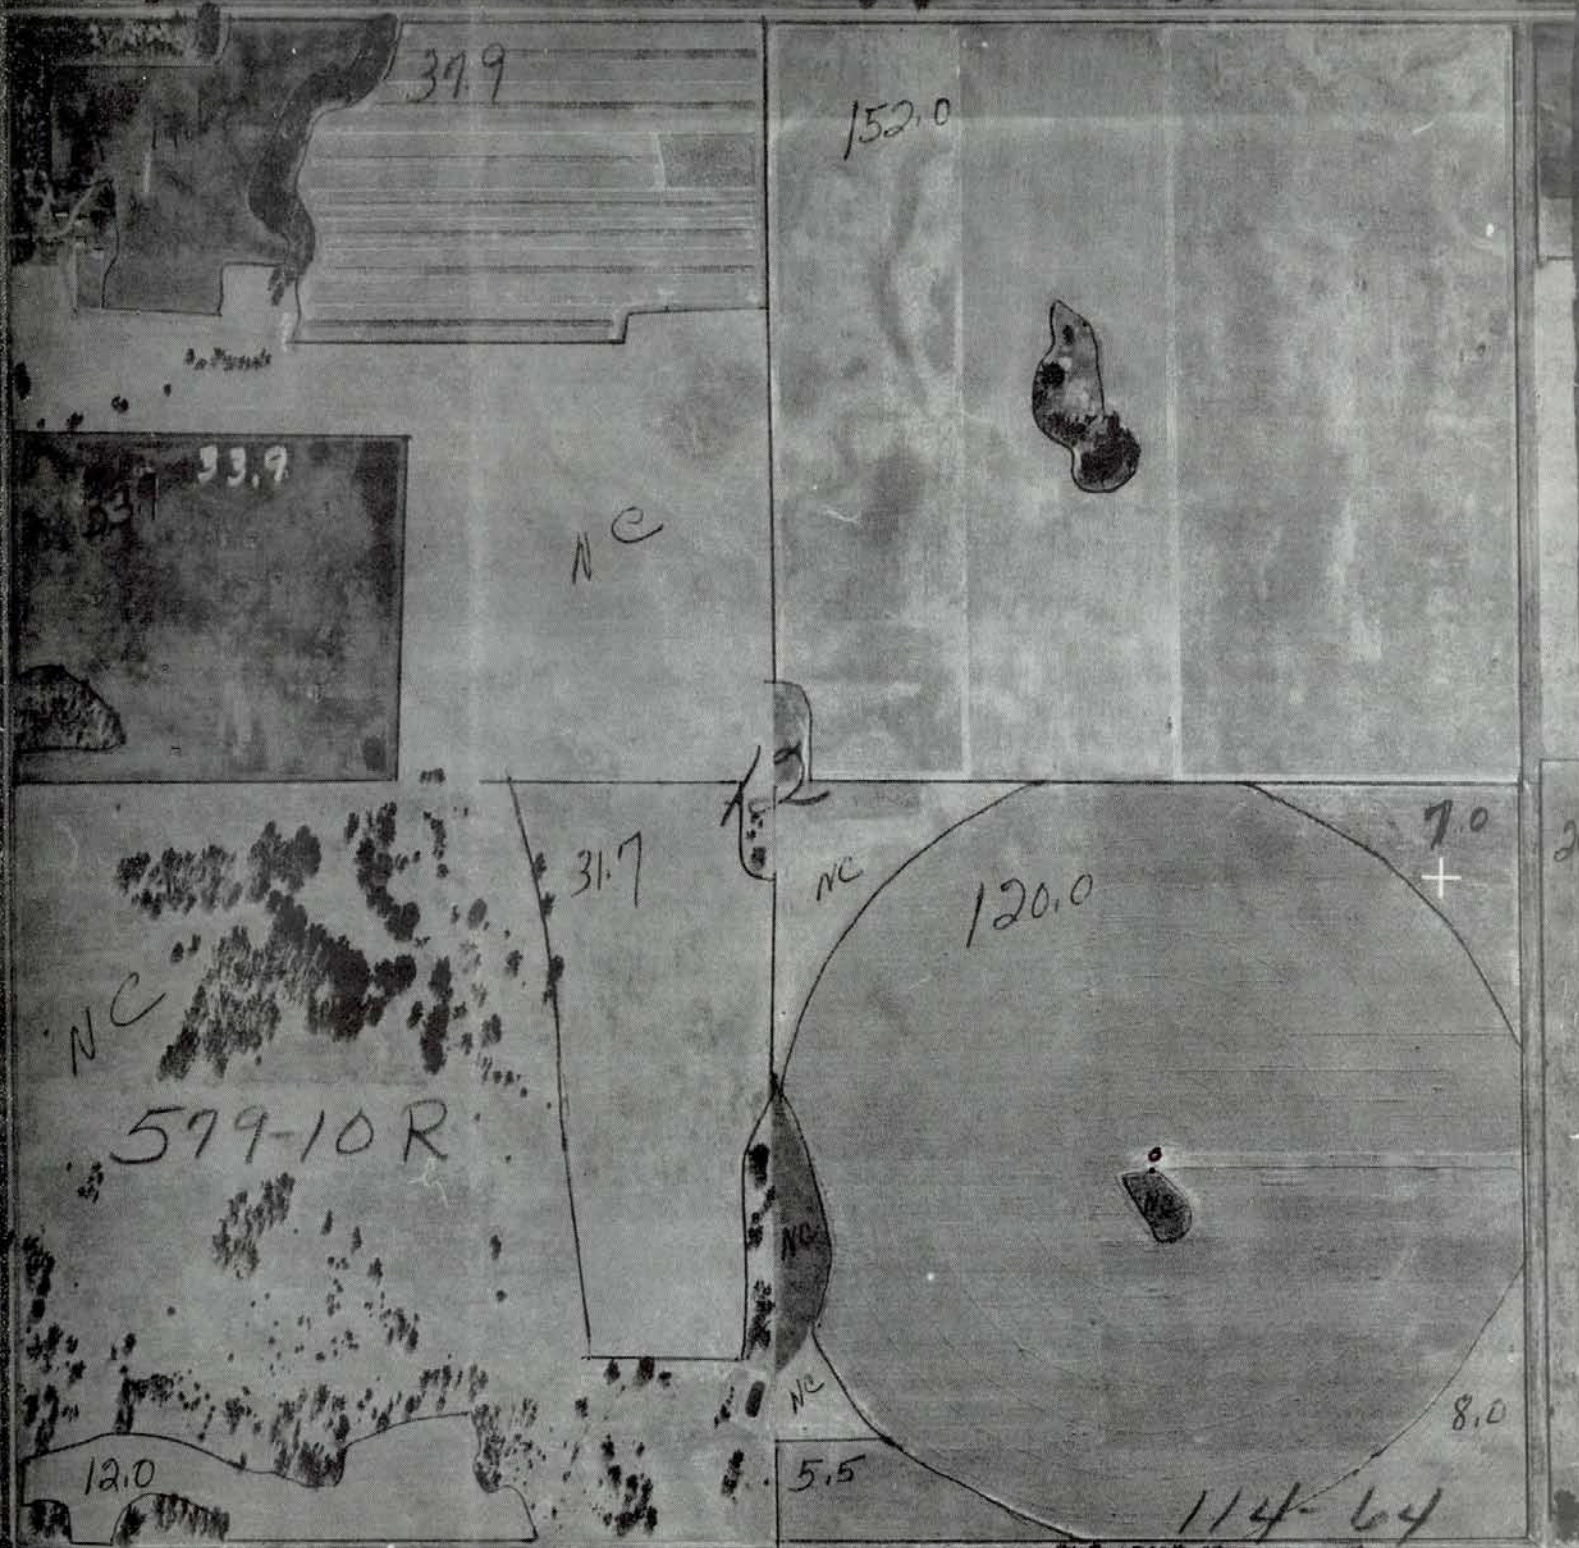

In summary, one (1) Water Right has already been cancelled and seven (7) are being scheduled for cancellation before the Water Management Board. Three (3) sites should be re-visited the summer of 2004.
