3. The use and occupation of said land incident to the exercise of the privileges hereby granted shall be subject to such rules and regulations as the said officer may from time to time prescribe.

4. The grantee shall supervise the said line and cause it to be inspected at reasonable intervals, and shall immediately repair any leaks found therein as a result of such inspection, or when requested by said officer to repair any defects. Upon completion of the installation of said line and the making of any repairs thereto, the premises shall be restored immediately by the grantee, at the grantee's own expense, to the same condition as that in which they existed prior to the commencement of such work, to the satisfaction of the said officer.

5. Any property of the United States damaged or destroyed by the grantee incident to the use and occupation of the said premises, shall be promptly repaired or replaced by the grantee to the satisfaction of the said officer or in lieu of such repair or replacement the grantee shall, if so required by the said officer, pay to the United States money in an amount sufficient to compensate for the loss sustained by the United States by reason of damages to or destruction of Government property.

6. The United States reserves to itself the right to construct, use, and maintain across, over, and/or under the right of way hereby granted, electric transmission, telephone, telegraph, water, gas, gasoline, oil and sewer lines, and other facilities, in such manner as not to create any unreasonable interference with the use of the right of way herein granted.

7. The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the use and occupation of the said premises, nor for damages to the property of the grantee, or for injuries to the person of the grantee (if an individual), nor for damages to the property or injuries to the person of the grantee's officers, agents, servants, or employees, or others who may be on said premises at their invitation or the invitation of any one of them, arising from or incident to government activities, and the grantee shall hold the United States harmless from any and all such claims.

8. The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the construction, maintenance, and use of said line.

9. That the grantee shall furnish through said line such service as may be required from time to time for governmental purposes on said land, provided that payment for such service will be made by the United States at rates which shall be mutually agreeable but which shall never exceed the most favorable rates granted by the grantee for similar service.

10. In the event all or any portion of said land occupied by said line shall be needed by the United States, or in the event the existence of said line shall be considered detrimental to governmental activities, the grantee shall, from time to time, upon notice so to do, and as often as so notified, remove said line and related facilities to such other location or locations on said land as may be designated by said officer, and, in the event said line shall not be removed or relocated within ninety (90) days after any aforesaid notice, the United States may cause the same to be done at the expense of the grantee.

11. This easement may be terminated by the Secretary of the Army upon a reasonable notice to the grantee if the Secretary of the Army shall determine that the right of way hereby granted interferes with the use or disposal of said land or any part thereof by the United States, or it may be terminated by the Secretary of the Army for failure, neglect, or refusal by the grantee fully and promptly to comply with any and all of the conditions of this grant, or for nonuse, or for abandonment.

12. Upon the expiration or termination of this grant, the grantee shall, without expense to the United States, and within such time as the Secretary of the Army may indicate, remove the said line from said land and restore the premises hereby authorized to be used and occupied to a condition satisfactory to the said officer. In the event the grantee shall fail, neglect, or refuse to remove the said line and so restore the premises, the United States shall have the option either to take over the said line as the property of the United States, without compensation therefor, or to remove the said line and perform the restoration work as aforesaid at the expense of the grantee, and in no event shall the grantee have any claim for damages against the United States or its officers or agents, on account of the taking over of said line or on account of its removal.

13. The conditions of this instrument shall extend to and be binding upon and shall inure to the benefit of the heirs, representatives, successors, and assigns of the grantee.

14. That it is understood that this instrument is effective only insofar as the rights of the United States in the said property are concerned; and that the grantee shall obtain such permission as may be necessary on account of any other existing rights.

15. That this easement and right of way is granted for the exercise of established water rights. It is understood and agreed that no right to use water from the reservoir is created by this grant.

16. That the grantee shall not discharge waste or effluent from the granted property in such manner that such discharge will contaminate or otherwise become a public nuisance.

17. That the grantee shall not utilize more than two (2) of the said strips of land at any one time.

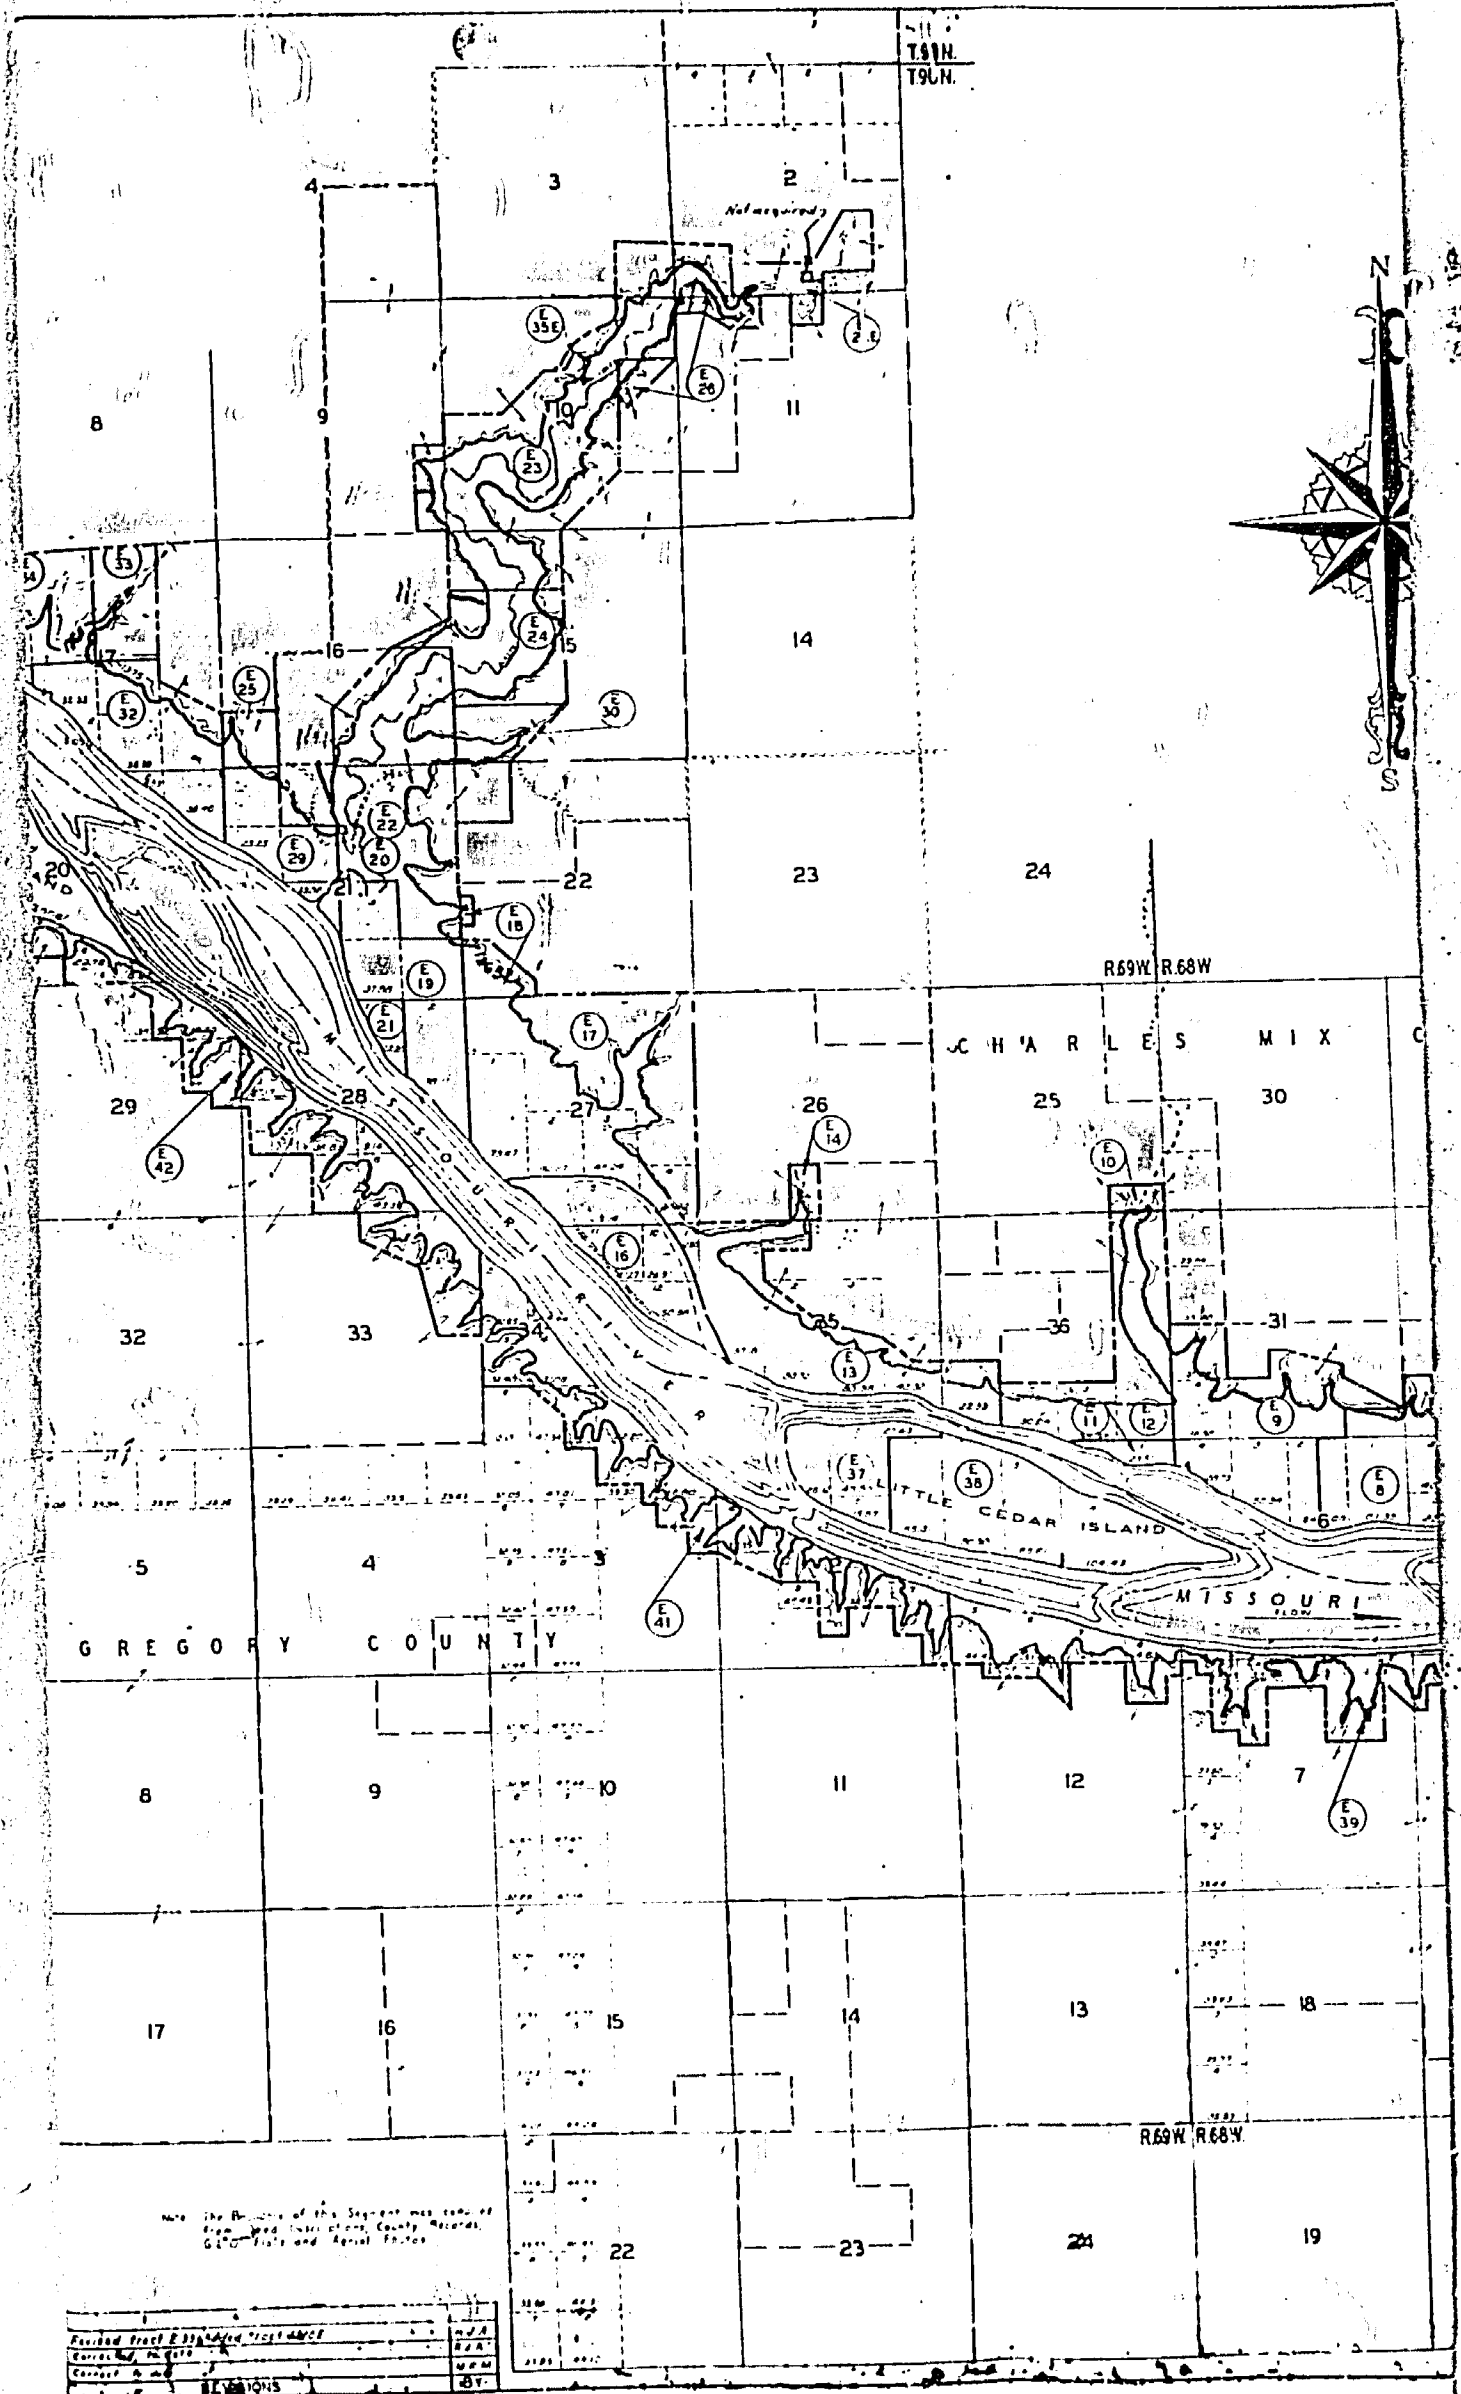

18. It is understood and agreed that the Government reserves the right to make any and all uses of the granted property for project purposes and the United States shall not be responsible for any damages to property or injuries to persons because of such uses for project purposes.

That Conditions Nos. 15, 16, 17 and 18 were added prior to the execution of this easement.

This easement is not subject to Title 10, United States Code, Section 2662.

EASEMENT FOR RIGHT OF WAY
(PIPELINE)

ON FORT RANDALL DAM AND LAKE FRANCIS CASE PROJECT, SOUTH DAKOTA

No. DACW45-2-68-5009

THE SECRETARY OF THE ARMY, under and by virtue of the authority vested in him by Title 10, United States Code, Section 2669, hereby grants to
C. F. Wynia

Platte, South Dakota

coextensive with State Water Permit

hereinafter designated as the grantee, for a period not exceeding ~~ten~~ ^{five} years/ No. 334-3
~~to use the water for the purpose of~~ an easement for a right of way for the installation,
 operation and maintenance of portable irrigation water pipelines and
 portable pump units

over, across, in, and upon land under the control of the Secretary of the Army at the location shown in red on Exhibit A, entitled Fort Randall Reservoir, Segment "E" attached hereto and made a part hereof, and described as follows:

Strip No. 1 - A parcel of land 33' wide in Section 21, T98N, R69W, Charles Mix County, South Dakota, lying 16½' on either side of the following described line; beginning at the NE corner of the $\frac{1}{4}$ Sec. 21, T98N, R69W of said Section 21; thence South parallel to the West line of the $\frac{1}{4}$ Sec. 21, T98N, R69W to the shoreline of Lake Francis Case, containing 0.45 acre, more or less.

Strip No. 2.- A parcel of land 33' wide in Section 16, T98N, R69W, Charles Mix County, South Dakota, lying 16½' on either side of the following described line; beginning at the NE corner of the SW¼SW¼NW¼SE¼ of said Section 16; thence South 45° 00' East to the shoreline of Lake Francis Case, containing 0.35 acre, more or less.

Strip No. 3 - That portion of the North 33' of the South 1195' of the E $\frac{1}{2}$ E $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 9, T98N, R69W, Charles Mix County, South Dakota, lying Westerly of Lake Francis Case, containing 0.25 acre, more or less.

THIS EASEMENT is granted subject to the following conditions:

1. The grantee shall pay to the United States compensation in the amount of One Hundred Fifty and no/100 Dollars (\$ 150.00)

in advance. Compensation shall be made payable to the Treasurer of the United States and forwarded by the grantee to the District Engineer Omaha District, Corps of Engineers, 6012 U. S. Post Office and Courthouse, Omaha, Nebraska 68102

2. The installation and/or operation and maintenance of said line shall be accomplished without cost or expense to the United States under the general supervision and subject to the approval of the officer having immediate jurisdiction over the property, hereinafter designated as "said officer", and in such manner as not to endanger personnel or property of the United States on the said United States land or obstruct travel on any road thereon. The grantee shall have the right of ingress and egress for such purposes.

3. The use and occupation of said land incident to the exercise of the privileges hereby granted shall be subject to such rules and regulations as the said officer may from time to time prescribe.

4. The grantee shall supervise the said line and cause it to be inspected at reasonable intervals, and shall immediately repair any leaks found therein as a result of such inspection, or when requested by said officer to repair any defects. Upon completion of the installation of said line and the making of any repairs thereto, the premises shall be restored immediately by the grantee, at the grantee's own expense, to the same condition as that in which they existed prior to the commencement of such work, to the satisfaction of the said officer.

5. Any property of the United States damaged or destroyed by the grantee incident to the use and occupation of the said premises, shall be promptly repaired or replaced by the grantee to the satisfaction of the said officer or in lieu of such repair or replacement the grantee shall, if so required by the said officer, pay to the United States money in an amount sufficient to compensate for the loss sustained by the United States by reason of damages to or destruction of Government property.

6. The United States reserves to itself the right to construct, use, and maintain across, over, and/or under the right of way hereby granted, electric transmission, telephone, telegraph, water, gas, gasoline, oil and sewer lines, and other facilities, in such manner as not to create any unreasonable interference with the use of the right of way herein granted.

7. The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the use and occupation of the said premises, nor for damages to the property of the grantee, or for injuries to the person of the grantee (if an individual), nor for damages to the property or injuries to the person of the grantee's officers, agents, servants, or employees, or others who may be on said premises at their invitation or the invitation of any one of them, arising from or incident to government activities, and the grantee shall hold the United States harmless from any and all such claims.

8. The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the construction, maintenance, and use of said line.

9. That the grantee shall furnish through said line such service as may be required from time to time for governmental purposes on said land, provided that payment for such service will be made by the United States at rates which shall be mutually agreeable but which shall never exceed the most favorable rates granted by the grantee for similar service.

10. In the event all or any portion of said land occupied by said line shall be needed by the United States, or in the event the existence of said line shall be considered detrimental to governmental activities, the grantee shall, from time to time, upon notice so to do, and as often as so notified, remove said line and related facilities to such other location or locations on said land as may be designated by said officer, and, in the event said line shall not be removed or relocated within ninety (90) days after any aforesaid notice, the United States may cause the same to be done at the expense of the grantee.

11. This easement may be terminated by the Secretary of the Army upon a reasonable notice to the grantee if the Secretary of the Army shall determine that the right of way hereby granted interferes with the use or disposal of said land or any part thereof by the United States, or it may be terminated by the Secretary of the Army for failure, neglect, or refusal by the grantee fully and promptly to comply with any and all of the conditions of this grant, or for nonuse, or for abandonment.

12. Upon the expiration or termination of this grant, the grantee shall, without expense to the United States, and within such time as the Secretary of the Army may indicate, remove the said line from said land and restore the premises hereby authorized to be used and occupied to a condition satisfactory to the said officer. In the event the grantee shall fail, neglect, or refuse to remove the said line and so restore the premises, the United States shall have the option either to take over the said line as the property of the United States, without compensation therefor, or to remove the said line and perform the restoration work as aforesaid at the expense of the grantee, and in no event shall the grantee have any claim for damages against the United States or its officers or agents, on account of the taking over of said line or on account of its removal.

13. The conditions of this instrument shall extend to and be binding upon and shall inure to the benefit of the heirs, representatives, successors, and assigns of the grantee.

14. That it is understood that this instrument is effective only insofar as the rights of the United States in the said property are concerned; and that the grantee shall obtain such permission as may be necessary on account of any other existing rights.

15. That this easement and right-of-way is granted for the exercise of established water rights. It is understood and agreed that no right to use water from the reservoir is created by this grant.

16. That the grantee shall not discharge waste or effluent from the granted property in such manner that such discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

17. That the grantee shall not utilize more than two (2) of the said strips of land at any one time.

18. It is understood and agreed that the Government reserves the right to make any and all uses of the granted property for project purposes, and the United States shall not be responsible for any damages to property or injuries to persons because of such uses for project purposes.

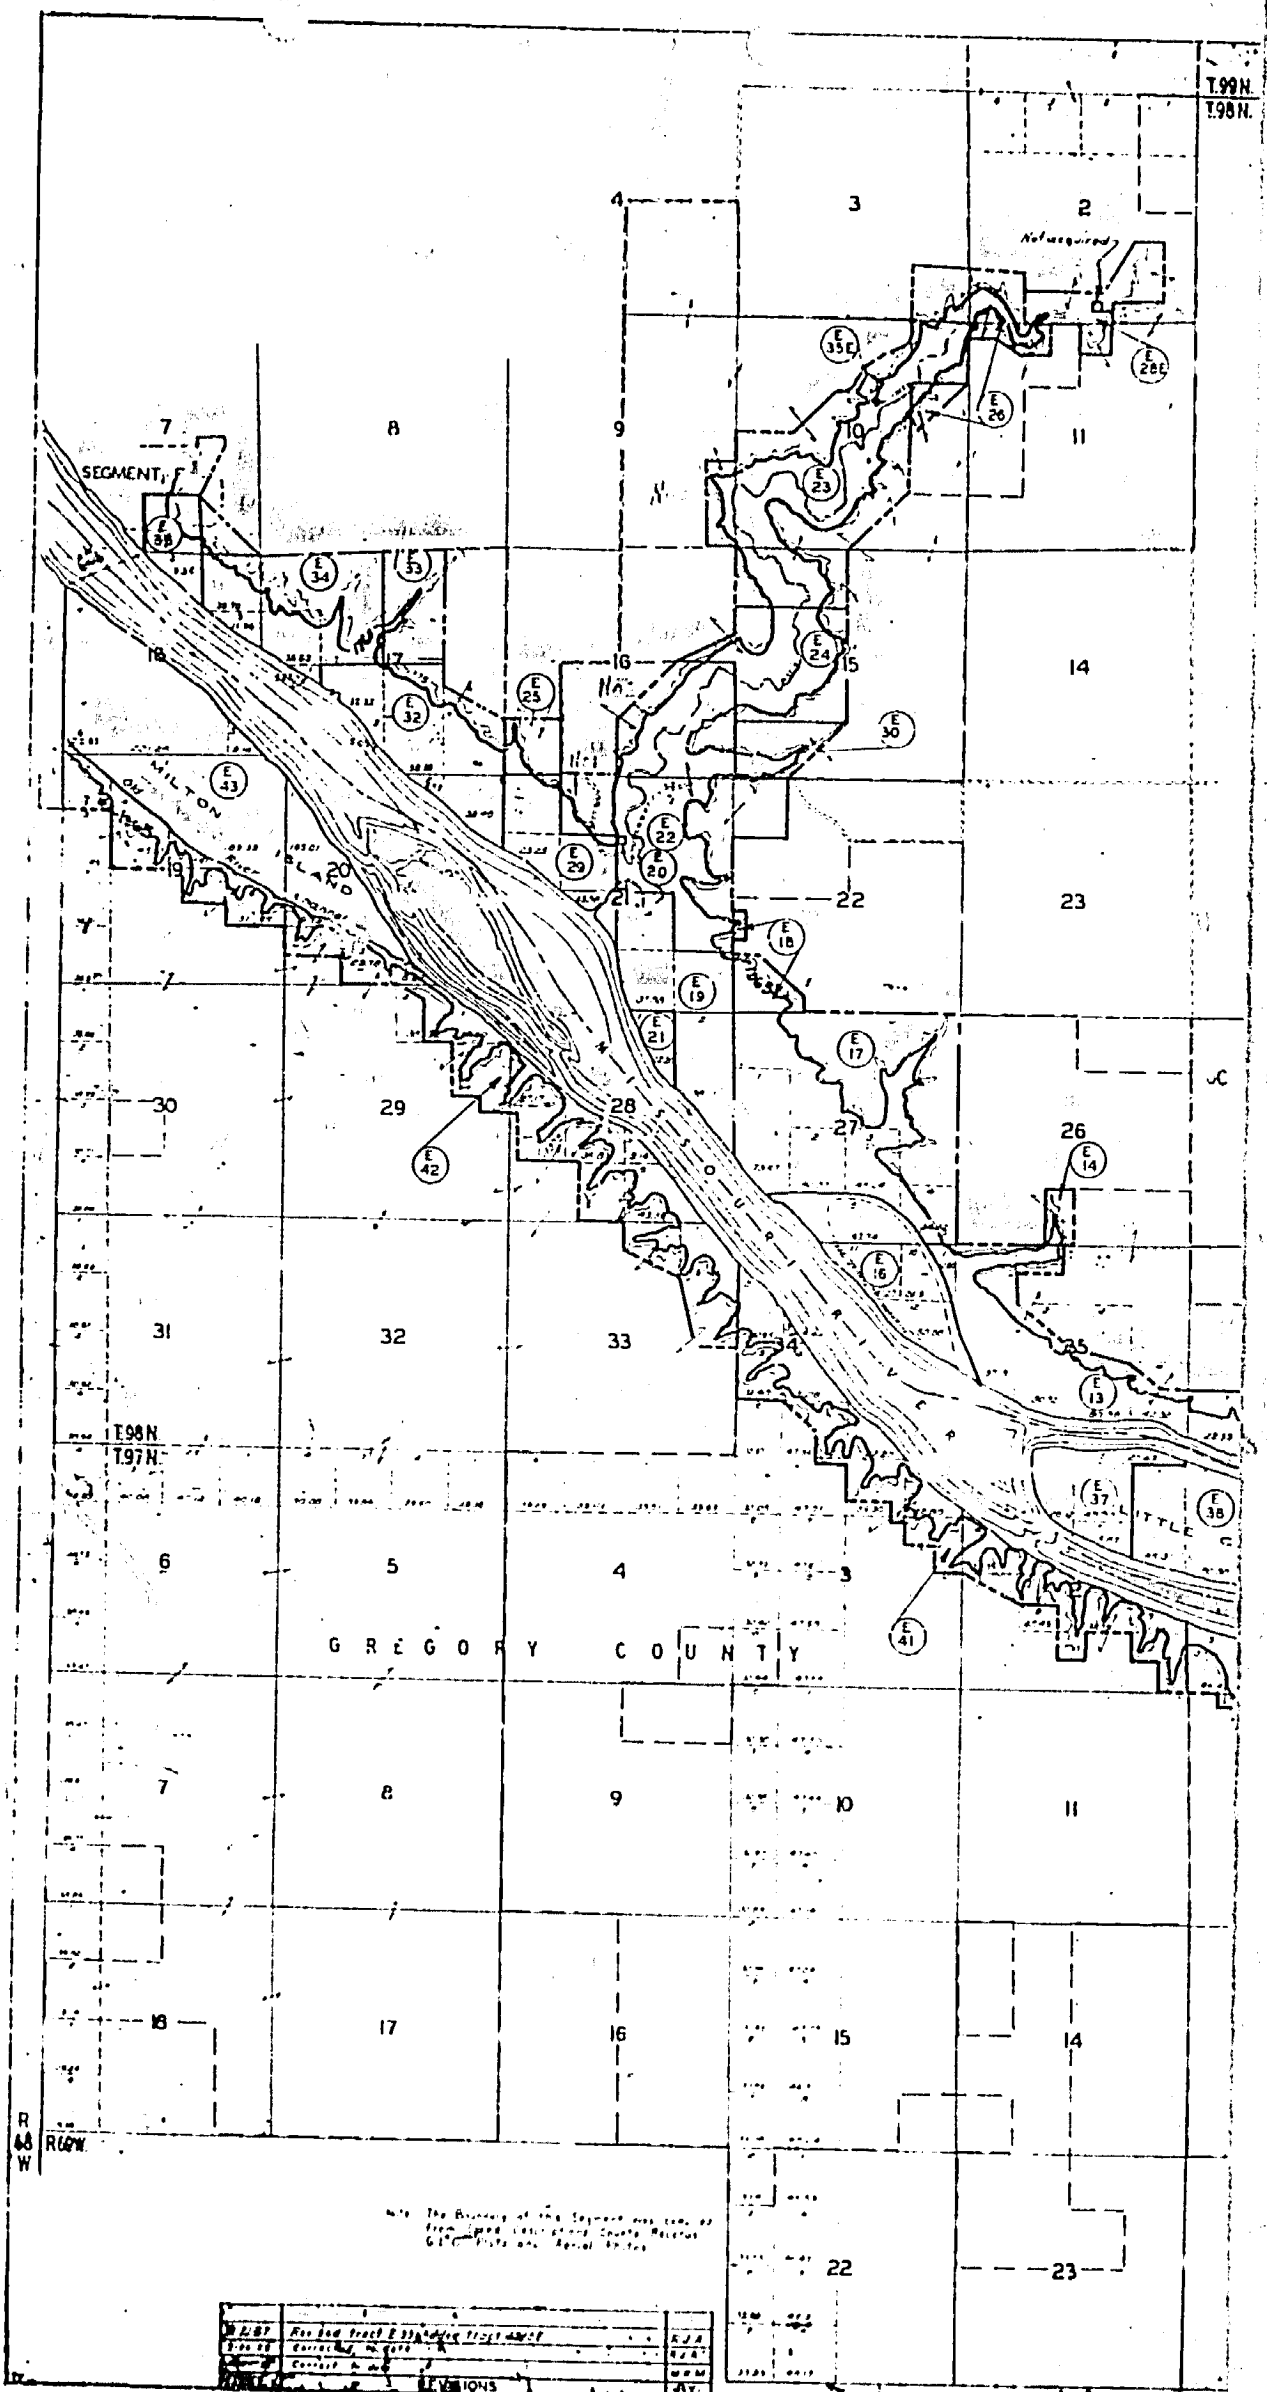

19. That in the event of future development in the vicinity of the granted property for project purposes, the grantee shall bury said pipelines if so required by said officer and shall restore the premises to the satisfaction of said officer.

That Conditions Nos. 15, 16, 17, 18 and 19 were added prior to the execution of this easement.

This easement is not subject to Title 10, United States Code, Section 2662.

Observations during the Field Inspection on October 22, 1957 of the C. F. Wynia Project relative to Application #334-3.

Bruce Wynia accompanied me on this inspection and was exceedingly cooperative and helpful in assisting me to complete my work.

This project consisted of 345 acres plus located in the W $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 19; W $\frac{1}{2}$ and NW $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 16 all in T 98 N, R 69 W, divided into 40-140 acre fields of corn, sorghum and corn, oats, and alfalfa. The pump was located about 7/8 mile south and 1/8 mile east of the NW $\frac{1}{4}$ Cor. Sec. 16 on the NW bank of a bay of Randall Reservoir between points # 1 and #2 as shown on map #253-3.

Equipment consisted of Gormann-Rupp Centrifugal Pump, Serial #174259, Model No. 55 M, Type No. Ind-56. Mr. Wynia said that they pump with 120#-160# pressure. Under these conditions the pump should put out from 800-1200 gpm. The estimated lift to the field varied from 70-90 feet. There was a pressure gauge on the pump and at each lateral outlet. Pressure to the laterals is usually 40-45 psi. He also has 4 Model S-1000 Skinner $\frac{1}{2}$ x 3/16 nozzles with an estimated capacity of 1100 gpm; 44-20 ft. x 5 inch lateral pipe; 77-20 ft. x 4 inch lateral; 31-20 ft. x 5 inch combination lateral and mainline pipe; 35-20 ft x 6 inch combination; 16-30 ft. x 6 inch combination; 1-30 ft x 6 inch intake pipe; and 1-20 ft x 6 inch intake pipe. Power is furnished by a Chrysler Engine, Model - Ind-56, rated @ 180 Hp.

All of the equipment was in excellent condition. The system was not in operation at the time of the inspection but there was evidence that the lands had been irrigated this year.

The capacity of the works governed in this case with an estimated capacity of 1200 gpm.

SUBJECT: Shut Off Order to All James River Irrigation Water Right Holders-Effective Immediately.

The flows in the James River are below 20 cubic feet per second (cfs) at most of the gaging stations. Therefore to protect the City of Huron's prior rights from diversions above Huron and domestic uses (livestock watering) on the river below Huron, effective immediately, no pumping of water from the James River is authorized until January 1, 1991 or until further notice.

Unless flow conditions change, it appears that no pumping will be allowed for the 1990 irrigation season from the James River. If conditions do improve, notices will be issued, based on senior priority dates, to allow pumping by irrigators.

Sand Lake Wildlife Refuge is approximately one foot below the full level. The Refuge is entitled to the flows from North Dakota under a senior water right. The flows from North Dakota are expected to decrease due to the lack of snow pack. The storage levels in the Jamestown and Pipestem Reservoirs are down with no expected releases.

The following is the latest flow (cfs) information on the river:

Date	Ludden	Columbia	Ashton	Huron	Forestburg	Scotland	Yankton
3/28/90	----	----	----	----	----	----	30.2

RE: Violation of Requirement to Submit 1992 Irrigation Questionnaire

Our records indicate that the 1992 Irrigation Questionnaire has not been submitted for Permit No(s) 334-3. The request for the Questionnaire was dated October 16, 1992. The Water Management Board has directed that owners of water permits who have not submitted the 1992 Irrigation Questionnaire be given notice of hearing to determine if any Board action is to be taken concerning the violation.

The hearing will be held at 9:30 am, March 3, 1993, in the Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol, Pierre SD, and will be conducted pursuant to SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to SDCL 1-26. Following the hearing, the Water Management Board can:

1. Amend Permit No(s) 334-3 to require the Irrigation Water Use Questionnaire to be submitted each year;
2. Postpone any action; or
3. Take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law. Prior to February 22, 1993, contact the Water Rights Division, 523 E Capitol, Pierre SD 57501-3181 (605 773-3352) to assure access to the meeting room for the handicapped or to obtain an interpreter for the hearing impaired.

NOTE: If the questionnaire(s) is(are) received in this office before the March 3rd hearing date, your name will be deleted from the Board agenda.
