NOTE: Water permits may be cancelled for nonconstruction within the five year construction period. Once a water permit is developed and the water used, the permit becomes a water right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

SUBJECT: Reporting Requirement for 1997 Irrigation Questionnaires

Our records indicate that the 1997 Irrigation Questionnaires have not been submitted for Permit Nos. 4757-3, 5128-3 & 5495-3, 3367-3, 3368-3, 3652-3, 3881-3 & 3882-3. The request for the Questionnaires was dated October 17, 1997. The Water Management Board has directed that owners of water permits who have not submitted the 1997 Irrigation Questionnaires be given notice of permit violation and a hearing to be held by the Board. The hearing is to determine if Permit No(s) 3367-3, 3368-3, 3652-3, 3881-3 & 3882-3 should be amended to require the Questionnaire to be submitted each year and to determine action to be taken for violation of Water Permit No(s) 4757-3, 5128-3 & 5495-3 qualification:

"This permit is approved subject to the Irrigation Water Use Questionnaire being submitted each year."

The hearing will be held at 9:45 am, February 25, 1998 in Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol, Pierre, SD, and will be conducted pursuant to SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to Chapter 1-26. According to SDCL 46-1-12, the Board may suspend a permit for a period of up to one year for the first violation of a permit qualification or up to three years for a second violation, or cancel a permit for a third violation. Following the hearing, the Water Management Board can:

1. Suspend or cancel Permit No(s) 4757-3, 5128-3 & 5495-3 in accordance with applicable provisions of SDCL 46-1-12;
2. Amend Permit No(s) 3367-3, 3368-3, 3652-3, 3881-3 & 3882-3 to require the Irrigation Water Use Questionnaire to be submitted each year;
3. Postpone any action or take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

If the questionnaires are received in this office on/or before February 20, 1998, you will no longer be in violation of your permit and your name will be deleted from the Board agenda. If you have questions or need assistance in completion of the irrigation questionnaire(s), please contact Genny McMath (605) 773-3352.

Note: Please contact the Water Rights Program, Joe Foss Building, 523 E Capitol, Pierre, SD (605-773-3352) to assure access to the meeting room for the handicapped or to obtain an interpreter for the hearing impaired.

Larry Krause

Dear Mr. Krause:

Thank you for contacting us about the status of your Water Permit Nos. 3367-3, 3368-3, 3881-3 and 3882-3. It is my understanding that the land described in these permits came out of CRP the fall of 1998. You indicated systems were being placed back on the land with irrigation anticipated for the year 2001.

If I remember correctly, you also indicated that the land was up for sale and the tentative buyers were concerned with the status of the water permits. Water rights or permits remain active as long as the water use has not been abandoned and/or forfeited. I am enclosing excerpts of SD Water Laws and Water Management Board Rules dealing with legal excuse for nonuse of water and exceptions to forfeiture for nonuse of water.

State law does provide exceptions to forfeiture for nonuse (see SD Water Law 46-5-37.2 of enclosed excerpt) for acreage placed in an acreage reserve or production quota program. A water permit is not forfeited for nonuse if the land authorized for irrigation is placed in a program as outlined in the statute. Taking into consideration when you indicate the land came out of CRP, it appears that the permits have not been forfeited for nonuse. However, if the land is not irrigated in the 2001 season, the water permits may be subject to cancellation based on three years of nonuse of water (SDCL 46-5-37).

The final determination on whether a water permit is valid is ultimately a decision of the Water Management Board. If, after reviewing this letter and the enclosed excerpts, there remains uncertainty as to whether your water permits may be subject to cancellation, you may file a declaratory ruling request. We can then proceed to bring the matter before the Water Management Board for a final determination.

If I can help answer any questions for you, please contact me at (605) 773-3352.

Re: Notice of Transfer of Ownership – Lacey family

Water Rights Program,

Our firm represents Dick and Konny Lacey, their Living Trust, and a new entity they formed called Lacey Land, LLC. Real property and water rights are being consolidated with ownership by Lacey Land, LLC. Enclosed for filing and processing are six (6) individual Form 0495LD V2, Notice of Transfer of Ownership, for water wells in Campbell County, SD. A check for \$300.00 is enclosed (6 notices at \$50/each = \$300.00).

The water rights are being transferred from Dick or Konny Lacey, or the Richard D. and Konny R. Lacey Living Trust to Lacey Land, LLC:

Water Rights/Permit No. 3367-3
Water Rights/Permit No. 3368-3
Water Rights/Permit No. 3881-3
Water Rights/Permit No. 3882-3
Water Rights/Permit No. 8136-3
Water Rights/Permit No. 8159-3

If possible, Lacey Land, LLC would like to consolidate permits after transfer as much as possible. We do not anticipate future land transfers and believe there is no reason to have multiple permits on these properties. If that is not possible, or would require additional fees, Lacey Land, LLC is not interested. Please contact me with any questions or concerns.

Thank you.

Sincerely,

Brian J. Donahoe

RE: Water Permit Nos. 3367-3, 3368-3 and Water License Nos. 3881-3 and 3882-3

Dear Ms. Lacey:

Enclosed are Water License Nos. 3881-3 and 3882-3. These are the final water right documents completing the process of obtaining Water Rights. Included with each license is a map prepared by the staff engineer who conducted the field investigation.

For your information SDCL 46-6-27 requires that if in the future, the owner of an existing well, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Sincerely,

Eric Gronlund, Chief Engineer
