Dear Mr. Rasmussen:

Your water sample (Lab. No. 76-1999) has been analyzed and the results are reported on the accompanying sheet, which is your copy to keep.

I am also enclosing a copy of AES pamphlet #13 for your use. The quality of your water for irrigation use is plotted approximately by means of the red cross in the chart on the outside back cover.

Your water, as indicated by this analysis, is satisfactory for use on the soils you indicate will be irrigated. If a salt problem or a water table problem should develop, contact extension personnel for assistance.

The WI-1, soils information, and a copy of the water analysis are being forwarded to the State Conservation Commission for their action.

Sincerely yours,

Enclosed please find our 1981 Irrigation Questionnaire pertaining to Permit No. 3416-3, Herman Rasmussen. As stated on the data sheet, Mr. Rasmussen indicated you had rented his land last year and he did not have the figures on the amount of water usage.

The information requested on the data sheet is very useful to our office. Please complete the data sheet for our records. If you did not keep accurate records, estimations will be satisfactory.

If you will be renting Mr. Rasmussen's land in the future years, it may be feasible to have the questionnaire sent directly to you. Please advise as to whether or not this method is acceptable to you.

Dear Mr. Lacey:

On August 26, 1987 I called your office requesting well logs on a number of irrigation production wells in the area around Bruce, SD in Brookings County. You stated your intentions to send the logs but as of this date I have not received any material from you.

It is essential for our office to have these logs in order for us to issue the final license to the farmers, thus completing their Water Right.

Listed below are the irrigators and locations of their production wells. We would very much appreciate it if you could take the time to send these logs to our office. As you stated in our phone conversation, you have sent logs to us in the past, but we have not received the data on these particular wells.

MEMO

TO: File (Water Permit No. 3416-3)

FROM: Genny McMath, Natural Resources Analyst

SUBJECT: The transfer of Water Permit No. 3416-3

On December 3, 1987, a transfer form was received from Jerald Peterson, Bruce, SD to transfer the E 1/2 NE 1/4 Section 19, T112N, R50W (portion of 3416-3) to his name. However, when the transfer was done, the entire permit and all files were transferred to Jerald Peterson instead of the portion specified on the "Notice of Transfer". The permit should have been split into 3416-3 and 3416A-3 with ownership as follows:

E 1/2 NE 1/4 Section 19	Jerald Peterson
W 1/2 NE 1/4 Section 19	Herman Rasmussen

Water Permit No. 5170-3 was obtained by Mr. Peterson for a change in the location of the well authorized by Permit No. 3416-3 to irrigate the E 1/2 NE 1/4 Section 19 (No. 3416-3) and the NW 1/4 Section 20 (authorized by Permit No. 4507-3).

The portion of land purchased by Mr. Peterson under No. 3416-3 will be licensed under Permit No. 5170-3. A priority date of July 27, 1988 will be retained because the well currently used to irrigate this land was drilled after the construction period of 3416-3 had expired. (The applicable portions of Water Permit No. 4507-3 with a priority date of March 10, 1980, will be incorporated into Water License No. 5170-3.)

Conclusions:

Water Permit No. 3416-3 may be licensed for the W 1/2 NE 1/4 Section 19, T112N, R50W under the name of Herman Rasmussen.

Water Permit No. 5170-3 will be licensed for the E 1/2 NE 1/4 Section 19, (taken from Permit No. 3416-3) and the NW 1/4 Section 20, T112N, R50W. (taken from Permit No. 4507-3) under the name of Jerald Peterson.

A separate file for 3416A-3 is no longer necessary.

Dear Mr. Rasmussen:

The inspection of your water use system and the inspection of the extent of the application of water to beneficial use, as developed under your Water Permit No. 3416-3 has been completed. Your final water right document, the Water License, can now be issued.

Statutes require that we charge a \$50.00 fee for the inspection and issuance of the Water License. Upon receipt of the \$50.00 fee from you, your Water License will be sent to you.

South Dakota Water Law 46-5-30.1 requires that a permit holder may not divert water until this \$50.00 license fee has been paid. Please contact us if you have any questions.

 (W $\frac{1}{2}$ NE $\frac{1}{4}$ 19-112-50)
 COMMENTS:

I called Mr. Rasmussen about his permit. In April of 1989 we received a note from Mr. Rasmussen stating that he had sold his irrigation system and therefore did not send in his \$50 license fee. He stated that he sold the system to an individual in the Pierre area back in May or June of 1988. The new owner did not need the system in 1988 and agreed to let the renter on Mr. Rasmussen's land use the equipment for 1988. The renter, David Hawley, did use it in 1988, thus keeping the permit valid.

The system was removed in September or October of 1988 and no system was put back on the land. I told Mr. Rasmussen that we wouldn't license the permit without an irrigation system on it. I told him we could cancel it or wait the 3 years and check to see if a new system was put on the land. Mr. Rasmussen stated that he does not plan to put another system on it, but that he may sell the land and the new owner may wish to irrigate. I told him we would just wait on the licensing and/or cancellation to see if a new system gets placed on the land before the 3 year period of non-use has expired.

COMMENTS:

Mr. Hawley rents the land owned by Mr. Herman Rasmussen which has water permit No. 3416-3 on it. I spoke with Mrs. Hawley. She said they did irrigate the land in 1988. They only ran it across the field one time. Mrs. Hawley said they didn't know if Mr. Rasmussen planned to put a new system on it, but she did not feel they had any plans to try to irrigate the land. They did not know how long they would be renting, etc.
