WATER RIGHT APPLICATION APPROVAL

The Water Rights Commission hereby approves Water Right Application No. 3611-3

CHARLES FARGO
(Applicant)

GAYVILLE
(Post Office Address)

SOUTH DAKOTA 57031 With the following modifications:
(State)

The irrigation well approved under this Permit will be located near domestic wells and other irrigation wells which may obtain water from the same aquifer. The irrigation well owner, under this Permit, shall control his irrigation withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in irrigation wells having prior water rights.

Date of first receipt of application FEBRUARY 1, 19 77

Date of return to applicant for correction, amendments or changes required _____, 19 _____

Date of receipt of corrected application FEBRUARY 9, 19 77

Approved MARCH 23, 19 77, Recorded in Book 17 Page 345

WATER RIGHT PERMIT NO. 3611-3

The Water Rights Commission hereby grants and issues this Water Right Permit No. 3611-3 authorizing the construction of the water use system and the putting of water to beneficial use as stated in the Application and as modified in the Water Right Application approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim right is FEBRUARY 1, 19 77
2. The equivalent of at least one-fifth of the work above specified is to be completed on or before SEPTEMBER 23, 19 79
3. The whole of said work is to be completed on or before MARCH 23, 19 82
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is MARCH 23, 19 86
5. The water appropriated shall be used for the purpose of IRRIGATION

6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.

7. The amount of the appropriation herein granted shall not exceed 2.2 cubic feet per second; neither shall it exceed the capacity of the above described water supply system, nor shall it exceed the amount of water needed for beneficial uses served, and if for the irrigation purposes said appropriation must be limited to not more than 3 acre feet per acre per year and be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is actually and beneficially applied for irrigation on or before MARCH 23, 19 86; said water to be used during the following described annual period: MAY - OCTOBER

Permit No. 3611-3Water Division 3 VERMILLION RIVER Water District

**REPORT OF EXAMINATION OF WORKS
AND/OR APPLICATION OF WATER TO BENEFICIAL USE**

TO. WATER RIGHTS, WATER MANAGEMENT BOARD / BOSS BLDG., PIERRE, SOUTH DAKOTA 57501

I have this day made a thorough examination of the water use system constructed by CHARLES
FARGO of GAYVILLE holder
of Permit No. 3611-3, bearing date of priority of FEBRUARY 1, 1977
authorizing the diversion of 2.2 cu. ft. per second of the waters of GROUNDWATER
for IRRIGATION purposes, in CLAY County.

I have to report on the condition of the same as follows:

The Water Use System consists of,

A. Works used to divert the water:

86' DEEP WELL - 16" PLASTIC CASING
FAIRBANKS MORSE 8" PUMP - 3 STAGE - 12" BOWLS
SERIAL # N3B2 809640X
POWERED BY 75HP GE ELECTRIC MOTOR

B. Works used to transport water to place of use,

25' OF 8" MAINLINE TO CENTER PIVOT

C. Works used to apply water to beneficial use.

PRINGLE - 8 TONE CENTER PIVOT WITH #100 END GUNThe system is in the following condition: GOOD

The point of diversion is located 25' S OF THE CENTER OF THE SE⁴,
SECTION 31, T⁹3N, R⁵3W

The works are capable of diverting and conveying to the place of use 1.88 (850 GPM)
cu. ft. per second of water which is to be used for IRRIGATION

Water has been put to beneficial use to the maximum extent as follows:

FOR IRRIGATING A 130 ACRE CIRCLE IN THE SE⁴,
SECTION 31, T⁹3N, R⁵3W

comprising a total of 130 acres of land.Date MAY 6, 1980

February 17, 1989

William Fargo
RR 1, Box 65
Gayville, SD 57031

Dear Mr. Fargo:

On October 6, 1988, the Water Management Board adopted rules to implement a 1988 law for application of chemicals through irrigation systems. The rules establish equipment standards, performance standards and installation requirements for irrigation systems that apply chemicals (fertilizers, insecticides, or herbicides) with irrigation water.

You have indicated on your 1988 Water Management Board Irrigation Questionnaire that you do apply chemicals with irrigation water. A copy of the new rules for chemigation are enclosed for your information.

The new standards include:

- * a check valve between the irrigation pump and the point of chemical injection;
- * a vacuum relief valve on top of the pipeline between the irrigation pump and the irrigation pipeline check valve;
- * a low-pressure drain on the bottom of the pipeline between the irrigation pump and the irrigation pipeline check valve;
- * a chemical injection line check valve between the chemical injection pump and the point at which the chemical is injected into the irrigation line; a second check valve is required if the chemical injection pump is not a positive displacement pump;
- * an interlock system which ensures that the chemical injection pump will stop whenever the irrigation pump stops;
- * an inspection port between the irrigation pump and the check valve on the irrigation line;

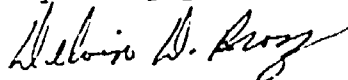

Each of these equipment requirements are discussed more thoroughly in Sections 74:02:09:05 through 74:02:09:10 of the enclosed rules. Appendix A contains diagrams of the arrangements of these anti-pollution devices.

The equipment must be installed according to the manufacturer's specifications, calibrated, and maintained in good working condition. All chemical product labels must be followed and warning signs must be posted. These rules also require reporting of all spills, accidents, and system malfunctions. A 24-hour telephone number is provided.

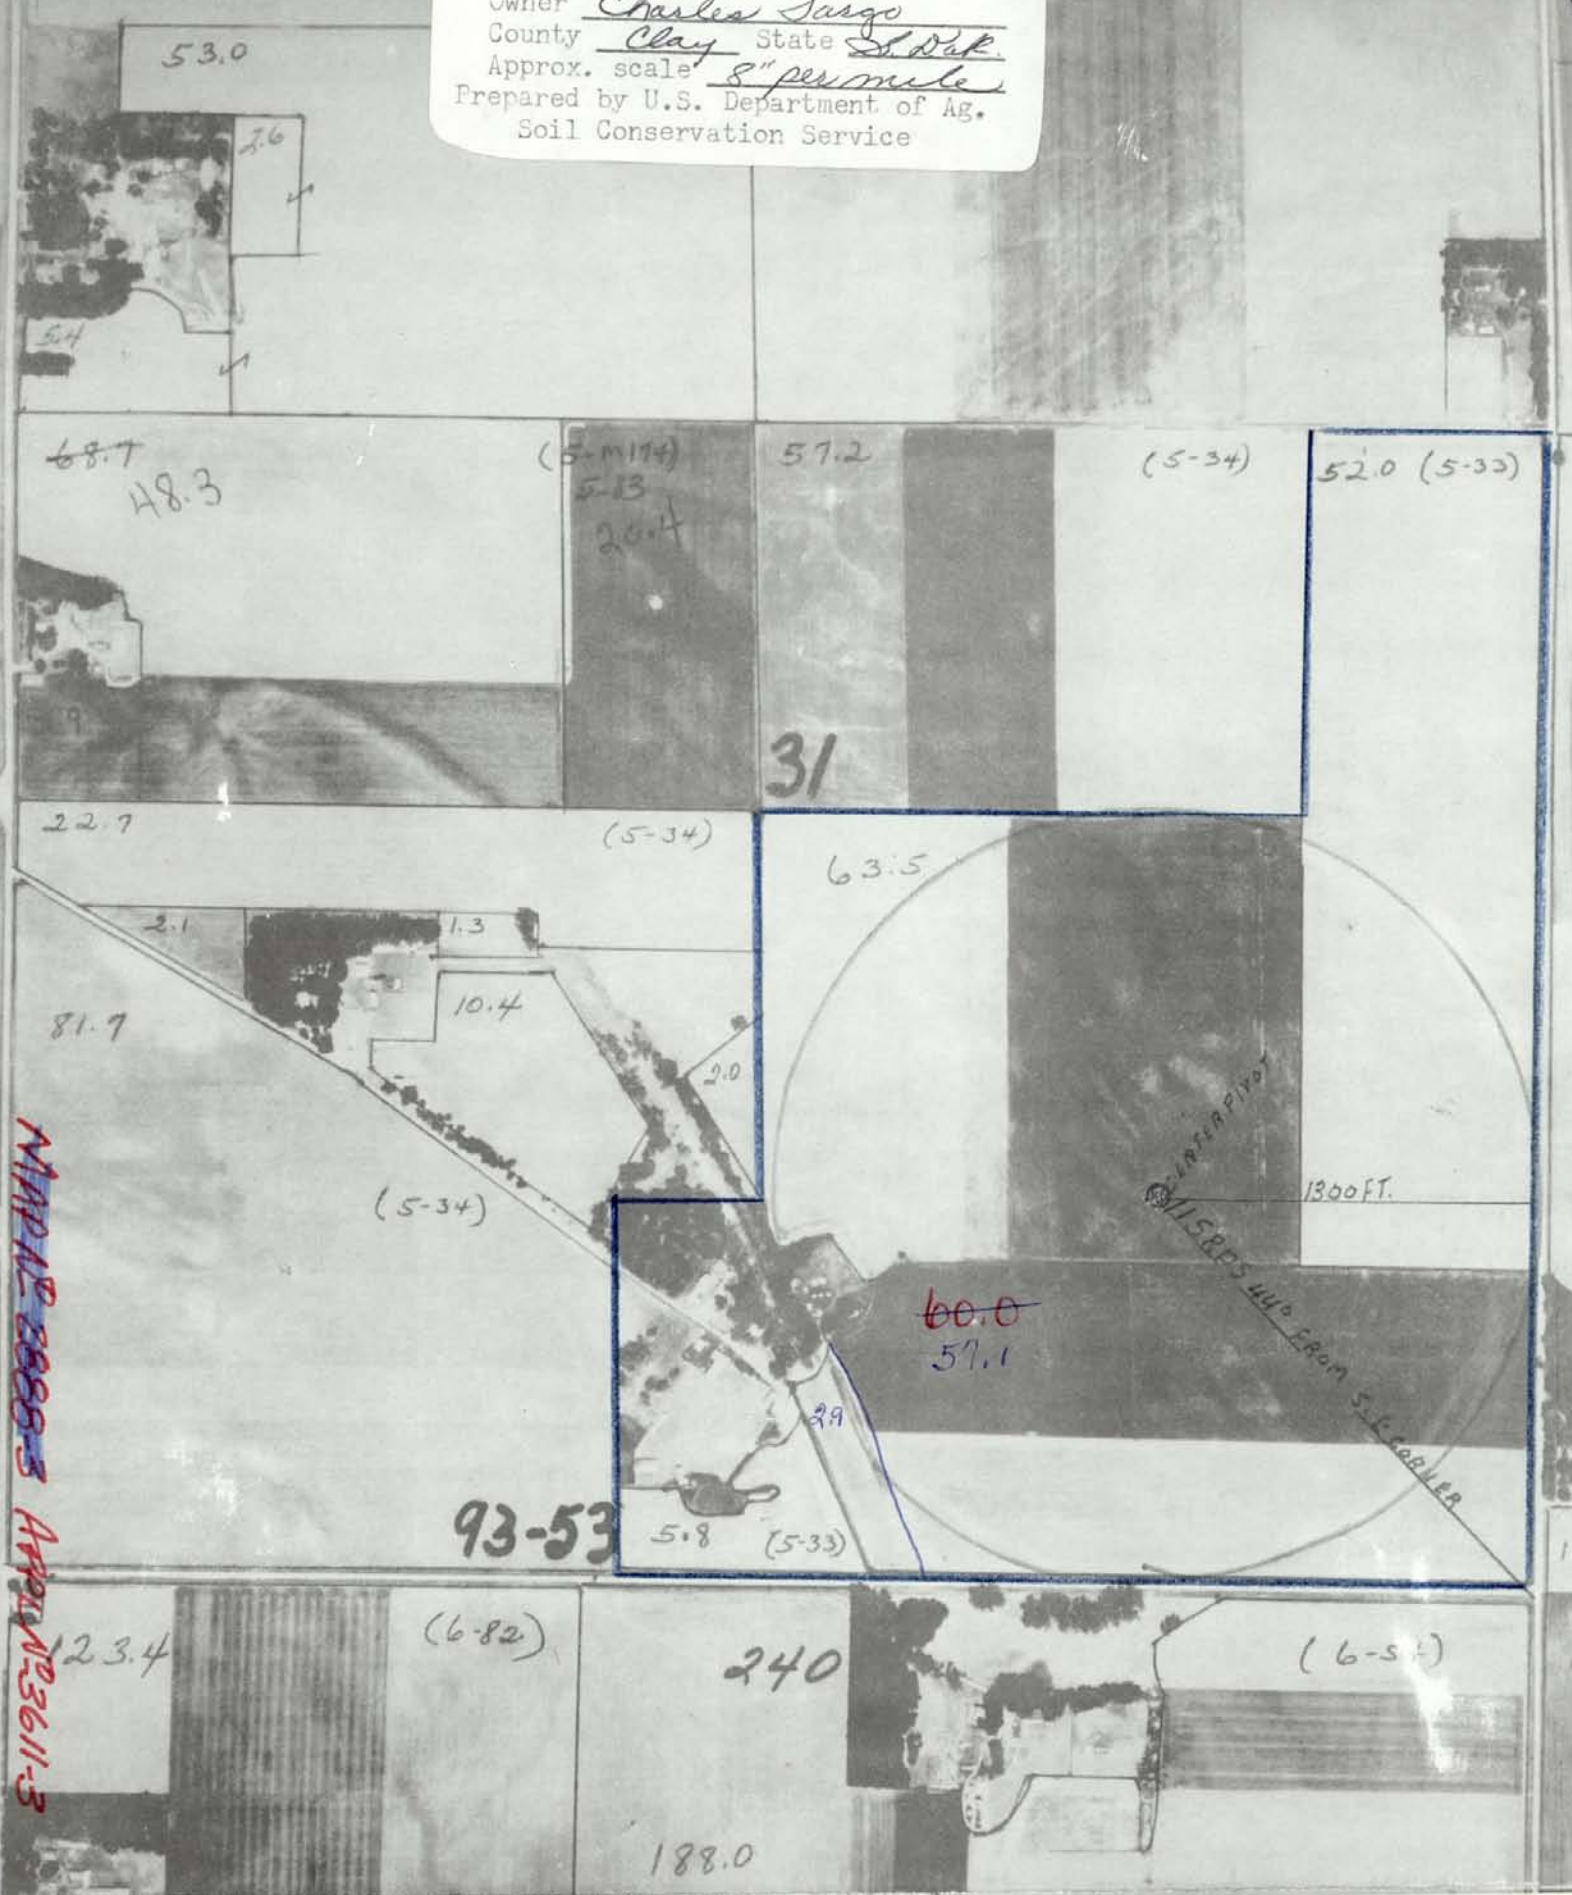

The chemigation rules contain notification and record keeping requirements. Prior to using chemigation, notification must be given to the Chief Engineer on the enclosed Form 1C. Information that must be provided in this notification includes the water permit or right number, the name, address, and telephone number of the water permit or right holder and of the system operator, and the legal description of the lands on which the system is located. A record of the name, quantity, dates and hours of each chemical applied must be provided to the Chief Engineer on Form 2C. A copy of this form is also enclosed for your information. It will be mailed with the annual irrigation questionnaire and must be returned with the questionnaire by the date specified. If you have any questions regarding these rules or need additional copies of the forms, please contact Susan Bowar, Water Rights Engineer (605-773-3352).

Very truly yours,

for JOHN HATCH, Chief Engineer
Water Rights Division
