Dear Mr. Geffre:

I am contacting you in follow-up to our telephone conversation concerning the transfer of a portion of Water Permit No. 3684-3. The water permit, currently listed in the name of Martin's Bakers Dozen, authorizes diversion of 12.00 cubic feet of water per second from four wells to irrigate 1200 acres in portions of Sections 8, 9, 15 and 16, T126N, R76W.

I am enclosing a partially completed "Notice of Transfer of Ownership" form for filing the ownership change. Please complete the form, sign it in the presence of a notary public and return it to our office with a required filing fee of \$2.50. Once we receive the completed form and filing fee, the water permit will be divided and reissued as No. 3684A-3, Martin's Bakers Dozen and No. 3684B-3, Randy Geffre.

Also enclosed is a copy of the water permit. In order to divide the permit properly, please circle the legal description of the well(s) and the acreage that you own. The permit was issued for a total diversion rate of 12.00 cubic feet of water per second (cfs). Please write down the pump capacity of the well(s) that you own. Since the water permit has not been investigated for licensing purposes, we do not have specific pump capacities for all of the wells.

If you have any questions concerning the water right or completion of the transfer form, please get in touch with me.

Sincerely,

Dear Mr. & Mrs. Geffre:

On July 10, 2000, the investigation of your water use systems, including the extent of application of water to beneficial use, as developed under Water Permit Nos. 3658-3 and 3684B-3, was completed by Ron Duvall, a staff engineer with our program. Your final water right document, the water license, can now be issued for each permit.

Water Permit No. 3658-3 will be licensed for the system developed in the SW ¼ Section 9, T126N, R76W. Water Permit No. 3684B-3 will be licensed for the system developed in the NW ¼ Section 16, T126N, R76W.

State law requires that we charge a \$50.00 fee for the investigation and issuance of a water license. Upon receipt of the \$100.00 fee from you (\$50.00 each), we will complete processing your water licenses. The check or money order for the fee should be made payable to the "Water Rights Program".

Your licensed water rights will be similar to a property right that can not be lost as long as the water use continues and you abide by the permit requirements.

If you have any questions regarding the water permits, investigation of your water use systems or payment of the fees please contact Genny McMath with our program at (605) 773-3352.
