

SOUTH DAKOTA
WATER PERMIT NO. 3684C-3
(DIVISION OF WATER PERMIT NO. 3684A-3 INTO NOS. 3684C-3 AND 3684D-3)

The former Water Rights Commission approved Water Permit No. 3684-3 on March 23, 1977.

On September 13, 2000, due to an ownership change, Water Permit No. 3684-3 was divided and reissued as follows:

- Water Permit No. 3684A-3: Martin's Bakers Dozen, and
 - Water Permit No. 3684B-3: Randy and Anita Geffre
1. Water Permit No. 3684A-3 authorized diversion of 9.60 cubic feet of water per second (cfs) from three wells (approximately 280 feet deep) located in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 8, SE $\frac{1}{4}$ NW $\frac{1}{4}$ and SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 9, all in T126N, R76W to irrigate 960 acres in the S $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$, E $\frac{1}{4}$ SW $\frac{1}{4}$ Section 8; NW $\frac{1}{4}$ and E $\frac{1}{2}$ Section 9 and the NW $\frac{1}{4}$ Section 15, T126N, R76W.

Ownership changes have been filed for Water Permit No. 3684A-3. The permit is being divided and reissued as follows:

Water Permit No. 3684C-3, Angus Land Inc., % Steve Martin, 2930 Airport Rd, Pierre SD 57501:

authorizing diversion of 2.20 cfs from one well in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 9 to irrigate 160 acres in the SE $\frac{1}{4}$ Section 9, all in T126N, R76W;

Water Permit No. 3684D-3, Martin Land Inc., % Davis Martin, PO Box 393, Mobridge SD 57601:

authorizing diversion of 7.40 cfs from two wells in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 8 and SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 9 to irrigate 800 acres in the S $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$ Section 8; N $\frac{1}{2}$ Section 9 and the NW $\frac{1}{4}$ Section 15, T126N, R76W.

2. The amount of the appropriation may not exceed 3 acre feet annually for each acre of land to which water is actually and beneficially applied for irrigation. The water is to be used during the following described annual period: May 1 - November 1.
3. The date from which the permit holder may claim right is February 28, 1977.
4. All construction is to be completed on or before March 23, 1982.
5. Water is to be put to beneficial use on or before March 23, 1986.
6. Water rights obtained in compliance with the laws of the State of South Dakota may not be unlawfully impaired by this appropriation.

QUALIFICATION

The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.

Dear Mr. Martin:

I am writing in regard to ownership of land described in Water Permit No. 3684A-3. Today, Steve Martin stopped by the office to transfer a portion of the land described in the permit to Angus Land Inc. He mentioned while he was here that the remaining land is no longer held by Martin's Bakers Dozen and should also be transferred to reflect current ownership.

Enclosed is a partially completed Notice of Transfer of Ownership form for filing an ownership change. Please review the form and make any necessary corrections. Upon completion, please sign the form and return it to our office with a required filing fee of \$2.50. The check or money order for the fee can be made payable to the Water Rights Program.

As soon as we receive the ownership change from you, Water Permit No. 3684A-3 will be divided and reissued to reflect separate ownership. One additional item I need to ask you is what year the land will come out of CRP. We have been holding up sending out irrigation questionnaires for this permit due to enrollment of the land in the Program and it would be helpful to have the correct year.

Dear Sirs:

I am contacting you in regard to ownership of land described in Water Permit No. 3684A-3. The water right covers land in Sections 8, 9 and 15, T126N, R76W. Back in 2007, both of you filed an ownership change for the land described in the permit.

The ownership changes were effective back when you filed them however the paperwork was never completed due to the issue of diversion rate authority for the respective acres. A note written on the file indicates I was to hold up on finalizing anything until I heard from both of you.

Please contact me so the permits can be finalized and issued.

RE: diversion rate authority for transfer of water permit

COMMENTS:

No. 3684A-3 authorizes diversion of 9.60 cfs to irrigate 960 acres. Steve Martin now owns 160 acres with a prorated share of the diversion rate being 1.60 cfs; Davis Martin owns 800 of the acres with a prorated share of the diversion rate being 8.00 cfs.

The transfer and reissuance of Water Permit No. 3684A-3 into C & D's has been pending since 2007 due to request of the land owners as they work out diversion authority issues.

On today's date I spoke with both Steve and Davis Martin concerning the transfers. Steve Martin needs at least 900 gallons per minute to run his system. Davis will not be using his entire share and has agreed to relinquish a portion of his diversion authority.

Based on our conversations, the following is the break down as they have agreed to it (*written documentation from Davis Martin will be required*):

- No. 3684C-3: Steve Martin, Angus Land Inc., 160 acres in the SE ¼ Section 9, T126N, R76W with a diversion authority of 2.20 cfs.
- No. 3684D-3: Davis Martin, Martin Land Inc., 800 acres – S ½ NE ¼, SE ¼, E ½ SW ¼ Section 8; N ½ Section 9; NW ¼ Section 15, T126N, R76W with the remaining diversion authority of 7.40 cfs.

Dear Mr. Martin:

I am writing in follow-up to our phone conversation regarding the diversion authority authorized by Water Permit No. 3684A-3. The permit authorizes diversion of 9.60 cubic feet of water to irrigate 960 acres. If the diversion rate was prorated according to the acreage that you and Steve Martin own, Steve would not have adequate water to run his irrigation system.

During our phone conversation you agreed to relinquish a portion of the diversion authority and allow the permit issued to Steve Martin to reflect a total of 2.20 cfs for the irrigation of 160 acres. In doing so, the permit issued to you would authorize a total of 7.40 cfs for irrigation of 800 acres.

After giving the issue more thought, I think the file should have something in writing from you which would show you agree with the above breakdown. I am writing up a brief summary and attaching it to this letter. Please review it and if you agree, sign the paper and return it in the enclosed postage paid envelope. If anything appears to be incorrect, please make the correction and then sign the bottom and return it to us.

Thank you in advance and if you have any questions, please contact me.

NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

File Nos. 3684C-3 and 3684D-3

Water Permit No. 3684A-3 is being divided and reissued to reflect separate ownership. Currently a total of 9.60 cubic feet per second (cfs) is authorized for irrigation of 960 acres.

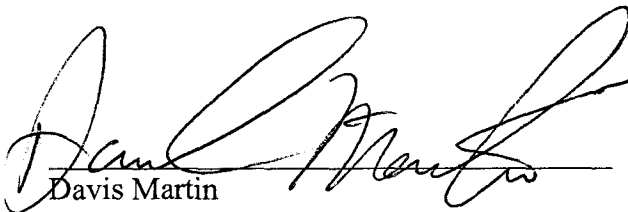

Based on the prorated share, the breakdown would be:

- 1.60 cfs for 160 acres (Steve Martin) and
- 8.00 cfs for 800 acres (Davis Martin).

I agree to relinquish a portion of my diversion rate authority to Angus Land Inc., % Steve Martin as follows:

- Allow an increase in the diversion rate authority of 0.60 cfs, bringing the total rate up to 2.20 cfs for irrigation of 160 acres.

In relinquishing 0.60 cfs, I understand that my permit will be issued for a total of 7.40 cfs for irrigation of 800 acres.

A handwritten signature in black ink, appearing to read "Davis Martin", is written over a horizontal line.

Dear Mr. Martin:

Enclosed is your Reissued Water Permit No. 3684C-3. Based on the ownership changes that you and Davis Martin filed, Permit No. 3684A-3 was divided and reissued to reflect separate ownership.

For informational purposes, the project originally authorized under the permit has never been inspected for licensing purposes. At some point in time, a staff engineer from our program will be in touch with you to line up an inspection of your irrigation system. Once the inspection is conducted, a water license will be issued for the project as it was developed.

If you have any questions concerning the enclosed water permit, please contact Genny McMath with our program at (605) 773-3352.

AUTHORITY:

Pursuant to SDCL 46-5-13.1, the location of a diversion point may be changed or additional diversion points may be licensed provided the following conditions are met and the potential for interference with other existing diversions is not increased:

- **Developed water source same as permitted source and no additional water appropriated**

The water source is the Grand aquifer, same as permitted, with no additional water appropriated. The permit authorizes the diversion of water from one well located in the SE ¼ SE ¼ Section 9-T126N-R76W. At the time of the permit licensing inspection, the well was located in the NW ¼ SE ¼ Section 9-T126N-R76W approx. 30 feet north and 40 feet west of the quarter-quarter dividing lines of the section. GPS coordinates were taken at the location and are included in the inspection report.

- **If irrigation, no new land is irrigated**

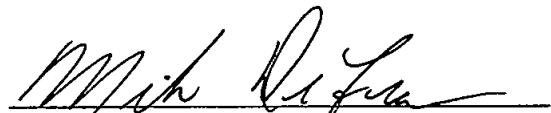

No new land is being irrigated

- **Review of Existing Diversions**

There are several water rights/permits in this area which divert water from this aquifer. This well has a construction date of December 21, 1981 and Water Permit priority date of February 28, 1977, with no record on file regarding any interference with other wells in the area.

RECOMMENDED ACTION

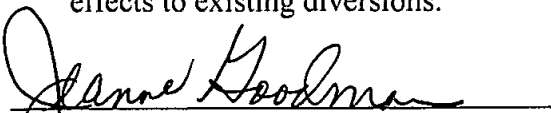

Based on the above criteria, it is recommended that the diversion point(s) be licensed as developed.

Mike DeFea, Natural Resources Engineer II
DENR, Water Rights Program

The Chief Engineer makes a finding pursuant SDCL 46-5-13.1 and ARSD 74:02:01:14.01 that:

This change in location and/or additional diversion point(s) does not increase the potential for adverse effects to existing diversions.

Dear Mr. Martin:

On November 9, 2016 the investigation of your water use system, including the extent of application of water to beneficial use, as developed under Water Permit No. 3684C-3, was completed by Mike DeFea, a staff engineer with our program. Your final water right document, the water license, can now be issued.

State law requires that we charge a \$50.00 fee for the investigation and issuance of the water license. Upon receipt of the \$50.00 fee from you, we will complete processing your water license. The check or money order for the fee should be made payable to the "Water Rights Program".

Your licensed water right will be similar to a property right that cannot be lost as long as the water use continues and you abide by the permit requirements.

If you have any questions regarding the water permit, investigation of your water use system or payment of the fee, please contact me.

Dear Mr. Martin:

Enclosed is Water License No. 3684C-3. This is the final water right document completing your process of obtaining a Water Right. Included with your license is a map prepared by the staff engineer who conducted the field investigation.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 3684C-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

WATER LICENSE NO. 3684C-3**

(1) Angus Land Inc., 2930 Airport Rd, Pierre SD 57501 was issued Water Permit No. 3684C-3, May 16, 2012 for a water permit to divert 2.20 cubic feet of water per second from ground water, one well (Grand Aquifer), Campbell County, South Dakota for irrigation purposes. Permit No. 3684C-3, with a priority date of February 28 1977 was issued to the applicant for diversion of water with construction of the described water supply system to be completed on or before March 23, 1982 and for the application to beneficial use of said water on or before March 23, 1986. *The originating Water Permit No. 3684-3 was approved March 23, 1977. Based on ownership changes, the permit was divided and reissued as 3684A-3 and 3684B-3. The next ownership change caused No. 3684A-3 to be divided into 3684C-3 and 3684D-3.*

An investigation of the water use system authorized under Water Permit No. 3684C-3 found the location of the well was outside of the permitted area. Pursuant to SDCL 46-5-13.1 and ARSD 74:02:01:14.01, the Chief Engineer made a finding that the change in location of the well did not increase the potential for adverse effects to existing diversions.

(2) It is certified that the permit holder has complied with the provisions of South Dakota State Law relating to completion of the construction of the water supply system and is entitled to divert 1.67 cubic feet of water per second for beneficial use. The location of the diversion point is approximately 1,350 feet north and 1,360 feet west of the SE corner of Section 9, T126N, R76W (NW ¼ SE ¼ Section 9);

(3) The permit holder has complied with the provisions of South Dakota State Law relating to the application of water to beneficial use to irrigate the following land:

Section 9, T126N, R76W	NW ¼ SE ¼	33 acres
	NE ¼ SE ¼	33 acres
	SW ¼ SE ¼	33 acres
	SE ¼ SE ¼	33 acres
	Total	132 acres

(4) Pursuant to South Dakota Water Law 46-5-30.1 Angus Land Inc., 2930 Airport Rd, Pierre SD 57501 the holder and/or owner of Water Right No. 3684C-3 is issued a license to appropriate water, the right to use 1.67 cubic feet of water per second from ground water, one well (Grand Aquifer) with a priority date of February 28, 1977 from the location specified in (2) of this license for irrigation purposes.

This license is subject to South Dakota Water Law, any limitations or conditions listed in Water Right No. 3684C-3 and subject to the following qualifications:

- The wells approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
