WATER RIGHT APPLICATION APPROVAL

The Water Rights Commission hereby approves Water Right Application No. 3758-3
ROBERT, GLADYS & TERRY SURPENANT RFD CENTERVILLE
 (Applicant) P.O. Box 25 (Post Office Address)
SOUTH DAKOTA 57014 With the following modifications:
 (State)

The irrigation well approved under this Permit will be located near domestic wells and other irrigation wells which may obtain water from the same aquifer. The irrigation well owner, under this Permit, shall control his irrigation withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in irrigation wells having prior water rights.

Date of first receipt of application FEBRUARY 16 19 77
 Date of return to applicant for correction, amendments or changes required — 19 —
 Date of receipt of corrected application MARCH 10 19 77

 WATER RIGHT PERMIT NO. 3758-3

The Water Rights Commission hereby grants and issues this Water Right Permit 3758-3 authorizing the construction of the water use system and the putting of water to beneficial use as stated in the Application and as modified in the Water Right Application approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim right is FEBRUARY 16 19 77
2. The equivalent of at least one-fifth of the work above specified is to be completed on or before NOVEMBER 25 19 79
3. The whole of said work is to be completed on or before MAY 25 19 82
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is MAY 25 19 86
5. The water appropriated shall be used for the purpose of IRRIGATION
6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.
7. The amount of the appropriation herein granted shall not exceed 1.4 cubic feet per second; neither shall it exceed the capacity of the above described water supply system, nor shall it exceed the amount of water needed for beneficial uses served, and if for the irrigation purposes said appropriation must be limited to not more than 3 acre feet per acre per year and be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is actually and beneficially applied for irrigation on or before MAY 25 19 86 said water to be used during the following described annual period: MAY - OCTOBER

Dear Sirs:

Your water sample (Lab. No. 77-296) has been analyzed and the results are reported on the accompanying sheet, which is your copy to keep.

I am also enclosing a copy of AES pamphlet #13 for your use. The quality of your water for irrigation use is plotted approximately by means of the red cross in the chart on the outside back cover.

This water is marginal for use on the soils you intend to irrigate and should be considered for use only under the following conditions:

(1) It will be used no more than 3 times (preferably less) in any growing season.

(2) The soil will be completely filled with water so natural leaching can occur, by irrigating in the late fall just before freeze-up, at least one year out of 3.

(3) Water applications will be made each irrigation to completely re-wet the entire depleted soil within the rooting zone of the crop being grown. This may require 3-5 inches of water each irrigation with fine soils.

(4) If a salt problem or soil dispersion occurs, contact extension personnel or this office for management recommendations.

Sincerely yours,

L. O. Fine

Dear Mr. Suprenant:

Thank you for the prompt return of your 1997 irrigation questionnaires. The water right number and the county designation you placed on each of the forms was correct. We used to have the county designation on the label and then dropped it. I will check into adding it back on the label for next year.

I am enclosing copies of Water Right Nos. 2950-3 and 3758-3. After reviewing your irrigation questionnaires, I believe we may need to update your water rights. Water Right No. 2950-3 authorizes irrigation of 110 acres and you reported irrigation of 181 acres. Water Right No. 3758-3 authorizes irrigation of 80 acres and you reported irrigation of 109 acres, with a note that part of the acreage was not irrigated.

Enclosed are two sets of water permit application forms. A new water permit will need to be obtained to cover additional acreage being irrigated above what is authorized by each water right. If you have made other changes to your irrigation system besides adding acreage, please include this with the applications. I have included an instruction sheet to help you complete the forms.

If you have any questions or need assistance in completing the forms, please give me a call.

COMMENTS:

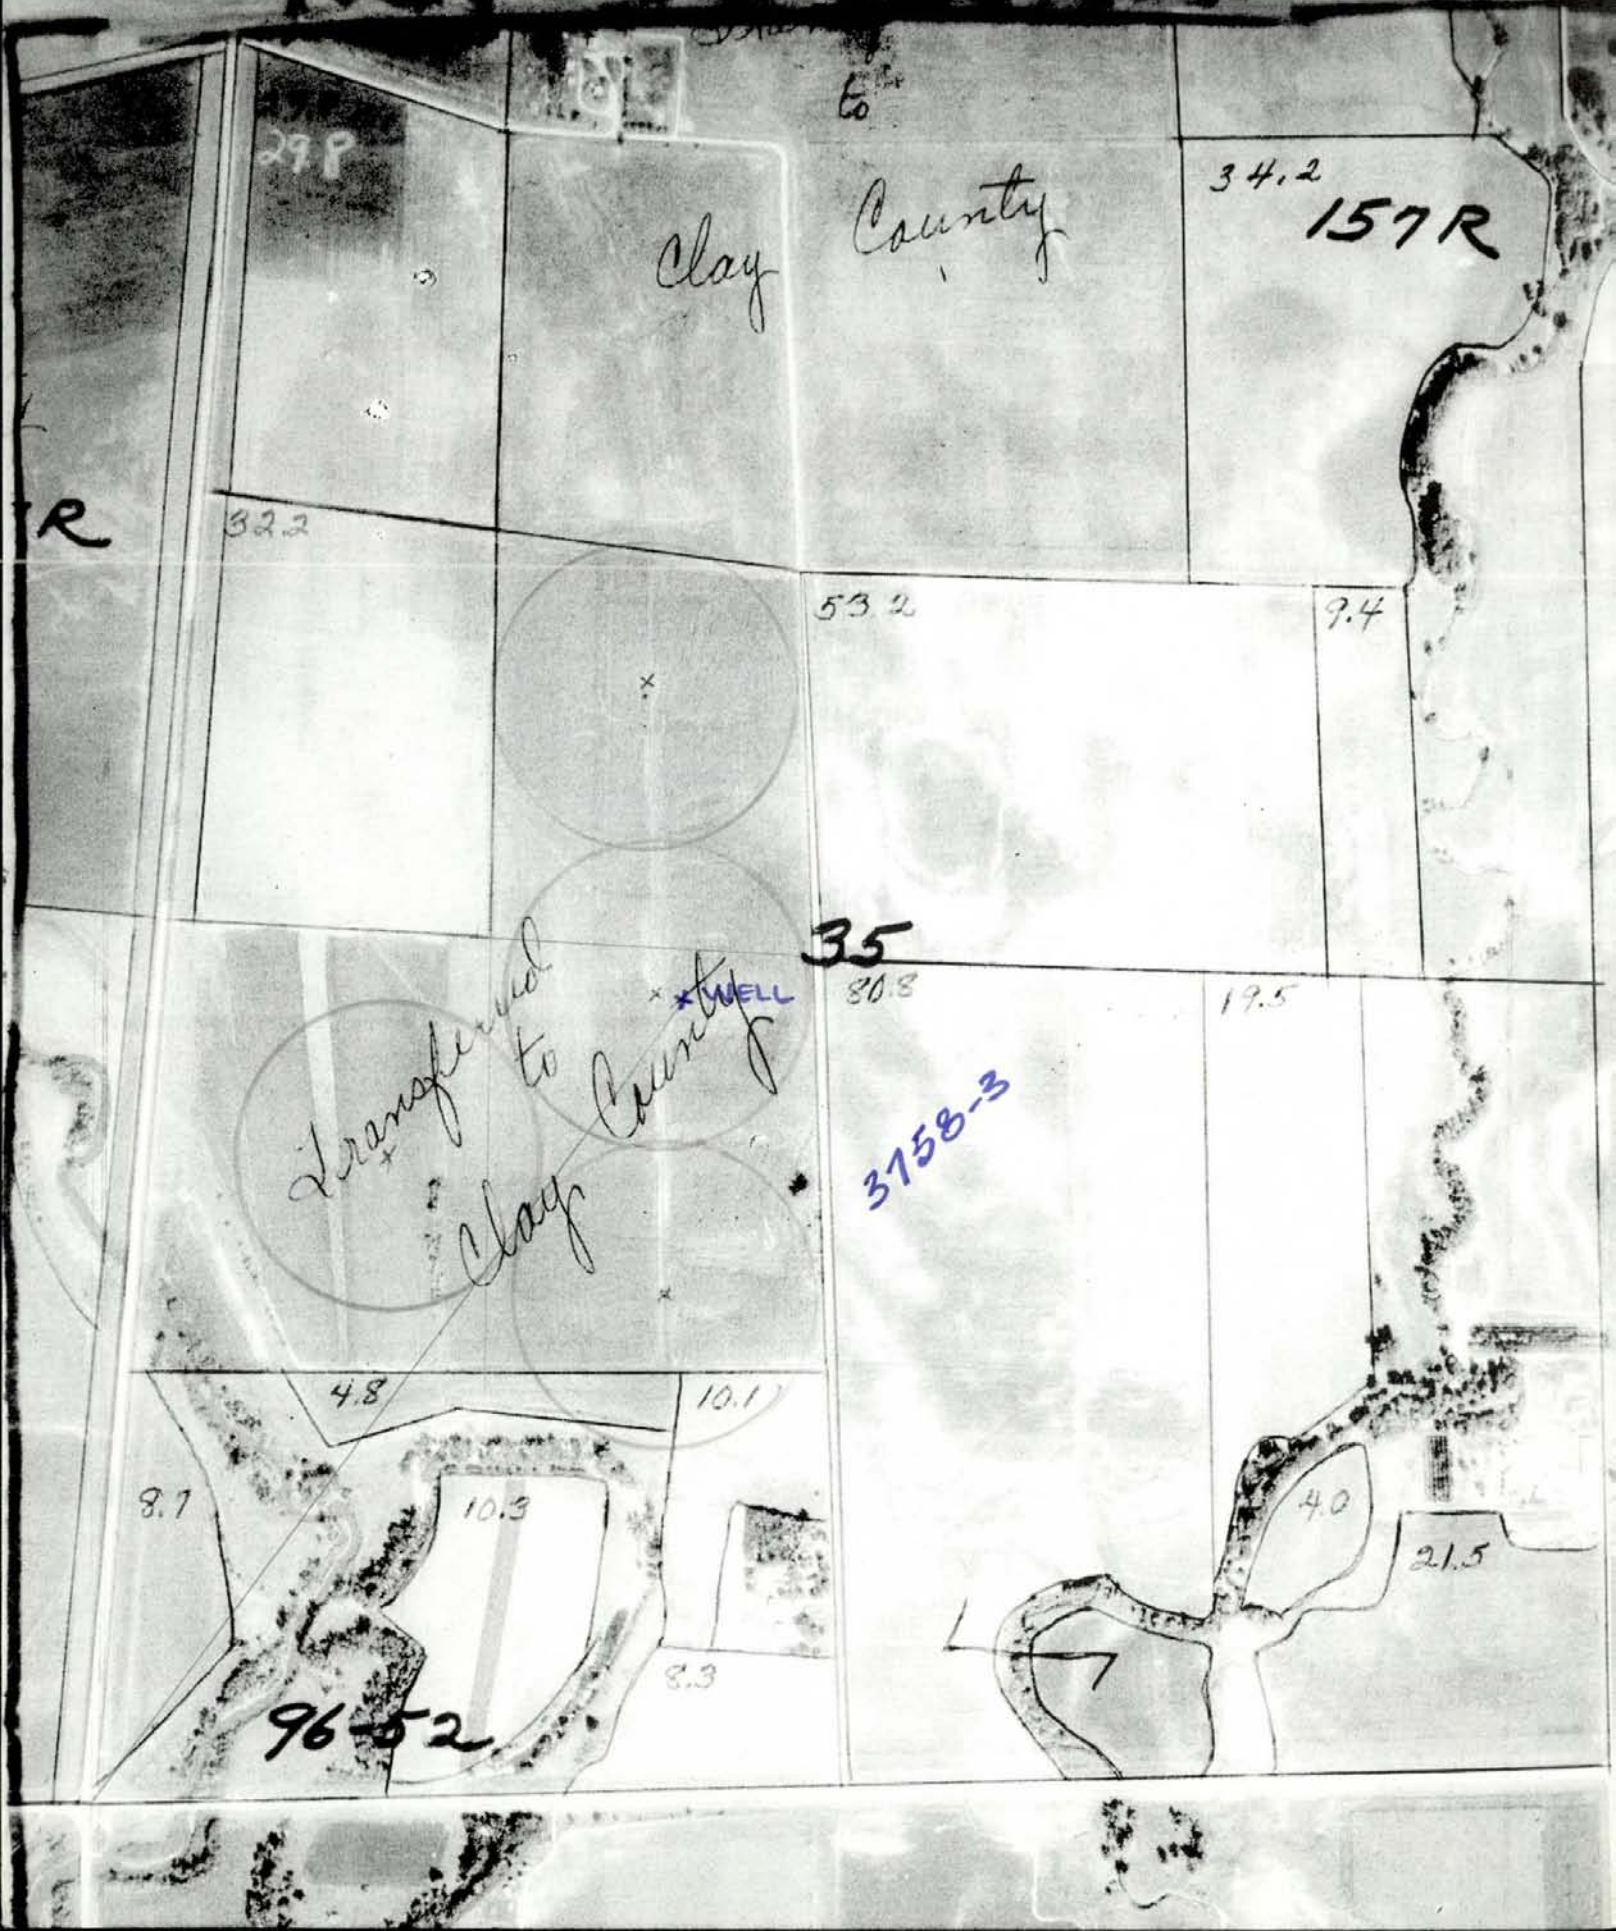

Mr. Suprenant called me concerning the application forms I mailed to Robert Suprenant on November 6, 1997. He indicated they have not changed their irrigation systems since they were built. The systems still cover the same acreage. Terry indicated the numbers he put on the irrigation questionnaires represented the entire farm - alot of it which is not irrigated land.

I told him if this was the case, they would not need to apply for additional water permits. I had mailed him the application forms on the assumption that they now irrigated acreage in excess of their irrigation permits.

Dear Mr. Suprenant:

I am writing to acknowledge the transfer of ownership forms and filing fees you submitted for Water Right Nos. 2950-3 and 3758-3.

The ownership changes have been completed. The water rights are now listed as being held by Terry and Alberta Suprenant.

Enclosed for your records are Receipt Nos. 05056 and 05057 in the amounts of \$50.00 each. If you have any questions, please contact me.

Sincerely,

Genny McMath
