Dear Mr. VanderVorste:

In checking your permits we have discovered that the lands under Water Permit No. 3803-3 does not have soil/water compatibility approval from the State Conservation Commission. The following is a rundown of all your permits to appropriate water within the State of South Dakota.

Water Permit No. 3803-3 is to irrigate the NE $\frac{1}{4}$, SW $\frac{1}{4}$ and SE $\frac{1}{4}$, Section 10, T125N, R76W from the same well as on Water Right No. 2119-3. This water permit does not have soil and water compatibility approval.

Water Permit No. 4310-3 to irrigate the SW $\frac{1}{4}$ and NE $\frac{1}{4}$, Section 10, T125N, R76W from a well in the SE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 10, T125N, R76W this permit has soil and water compatibility approval.

Water Permit No. 4705-3 is to irrigate the NW $\frac{1}{4}$, Section 10, T125N, R76W from the same well as Permit No. 4310-3 and has soil and water compatibility approval.

Dear Mr. Vander Vorst:

The inspection of your water use system and the extent of the application of water to beneficial use, as developed under Water Permit No. 3803-3 and 2119-3 has been completed. The needed soil/water compatibility permit from the Division of Conservation has been approved and forwarded to our office.

The final water right document, the water license can now be issued. The applicable portions of Permit No. 2119-3 will be incorporated into Water License No. 3803-3.

Statutes require that we charge a \$50.00 fee for the inspection and issuance of the Water License. Upon receipt of the fee from you, your water license will be sent to you. Dear Mr. VanderVorst:

Enclosed is Water License No. 3803-3. This is the final water right document completing your process of obtaining a Water Right. The applicable portions of Water Right No. 2119-3 have been incorporated into Water License No. 3803-3.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 3803-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Very truly yours,

SUBJECT: Reporting Requirement for 2016 Irrigation Questionnaires

Our records indicate your 2016 Irrigation Questionnaires have not been submitted. The request for the Questionnaires was dated October 21, 2016. The Water Management Board has directed that owners of water permits who have not submitted the 2016 Irrigation Questionnaires be given notice of permit violation and a hearing to be held by the Board. The hearing is to determine if Permit No(s) 3803-3 & 4448-3A should be amended to require the Questionnaire to be submitted each year and to determine action to be taken for violation of Water Permit No(s) 4705-3 qualification:

"This permit is approved subject to the Irrigation Water Use Questionnaire being submitted each year."

The hearing will be held at **Wednesday, March 1, 2017 at 11:00 am (Central Time)** in the Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol Avenue, Pierre, SD, and will be conducted pursuant to SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to Chapter 1-26. Water Rights Program

SUBJECT: One Year Suspension of Water Right or Permit Nos. 4705-3 & 7924-3 and Amendment of
Water Right Nos. 3803-3 & 4448-3A

On March 3, 2021, the Water Management Board ordered:

Effective April 3, 2021, Water Right or Permit Nos. 4705-3 & 7924-3 be suspended for the 2021 irrigation season for failure to submit the 2020 irrigation questionnaires.

If the 2020 irrigation questionnaires are received prior to April 3, 2021, the suspensions will not take effect.

Suspension of a water permit or right means water may not be pumped during the 2021 irrigation season. Consistent with the Board's order, you are not permitted to irrigate in 2021 unless the 2020 irrigation questionnaires are submitted by April 3, 2021.

After April 3rd, you may petition the Water Management Board to rescind the suspensions. You will need to submit the 2020 irrigation questionnaires and a letter to our office requesting time on the agenda for the next Water Management Board meeting scheduled for May 5-6, 2021 in Pierre, SD. The letter should include your reasons for not completing the 2020 irrigation questionnaires. Decisions of the Board may be appealed to the Circuit Court and State Supreme Court as provided by law.

The Water Management Board also amended Water Right Nos. 3803-3 & 4448-3A to include the following qualification:

- "This water right is subject to the Irrigation Water Use Questionnaire being submitted each year."

March 4th
Brandon Ritter
Iverson Farms
Page 2

The addition of this qualification to your water rights means that failure to submit the required irrigation questionnaires in the future could result in suspension of the water rights with no use of water for up to one year for the first violation.

Water Rights Staff will conduct compliance checks of suspended water rights this summer to determine if irrigation is taking place.

Please contact Genny McMath (605) 773-3352, if you have any questions.

Dear Mr. Ritter:

On March 3, 2021, the Water Management Board ordered Water Right No. 4705-3 and Water Permit No. 7924-3 suspended if the 2020 irrigation questionnaires were not received prior to April 3, 2021.

The Board also amended Nos. 3803-3 and 4448-3A for non-return of the 2020 questionnaires. The amendments took affect March 3rd. The questionnaire information for all the above listed water right and permit numbers was received March 22, 2021.

Since the irrigation questionnaires are on file, no violations have occurred, and the suspensions for Nos. 4705-3 and 7924-3 will not take place. You may irrigate during the 2021 irrigation season.

If you have any questions, please contact us.

Dear Mr. Ritter:

This letter is intended to follow up on our recent conversation regarding the need to transfer ownership of Water Right Nos. 3803-3, 4448-3A, and 4705-3, from Iverson Farms LTD to yourself.

As discussed, SDCL 46-5-34 states that irrigation rights are appurtenant to the land. Therefore, regardless of the well location that services the irrigated acreage, if you own the lands described in the water right, the water right should be transferred to you.

For your convenience I have enclosed partially completed "Notice of Transfer of Ownership" forms for all three of the above listed water rights, as well as copies of the original licenses for each. Please complete the highlighted portions of each form and return them in the pre-paid envelope with a check in the amount of \$150.00, made payable to SD Water Rights. If you wish to submit payment over the phone, you may do so by calling our Fiscal Office at (605) 773-5559.
