RE: Water Right Nos. 3576-3 and 3811-3

COMMENTS:

Virgil submitted an irrigation questionnaire for Water Right No. 3811-3 held by Donald Tjeerdsma. On the form he indicated that his father Don had passed away and the water right should be transferred to him.

I called him to find out about the second water right in Don's name (3576-3). He indicated that one should go to his brother Percy Tjeerdsma. Contact Percy for irrigation information and an ownership change.

The issue scheduled before the Board for non-return of the two irrigation questionnaires will be removed from the agenda because the original forms and follow-up notice were mailed to Donald Tjeerdsma.

Dear Mr. Tjeerdsma:

Enclosed is Water License No. 6791-3. This is the final water right document completing your process of obtaining a Water Right. Included with your license is a map prepared by the staff engineer who conducted the field investigation.

For your information SDCL 46-6-27 requires that if in the future, the owner of an existing well, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Sincerely,

Jeanne Goodman, Chief Engineer
