WATER RIGHT APPLICATION APPROVAL

The Water Rights Commission hereby approves Water Right Application No. 3883-3

HOWARD REIMERSON
(Applicant)

13 BLOCK
(Post Office Address)

SOUTH DAKOTA 57648
(State)

With the following modifications:

The irrigation well approved under this Permit will be located near domestic wells and other irrigation wells which may obtain water from the same aquifer. The irrigation well owner, under this Permit, shall control his irrigation withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in irrigation wells having prior water rights.

Date of first receipt of application FEBRUARY 25 19 77

Date of return to applicant for correction, amendments or changes required _____ 19 _____

Date of receipt of corrected application _____ 19 _____

Approved MAY 25 19 77, Recorded in Book 18 Page 281

WATER RIGHT PERMIT NO. 3883-3

The Water Rights Commission hereby grants and issues this Water Right Permit No. 3883-3 authorizing the construction of the water use system and the putting of water to beneficial use as stated in the Application and as modified in the Water Right Application approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim right is FEBRUARY 25 19 77
2. The equivalent of at least one-fifth of the work above specified is to be completed on or before NOVEMBER 25 19 79
3. The whole of said work is to be completed on or before MAY 25 19 82
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is MAY 25 19 86
5. The water appropriated shall be used for the purpose of IRRIGATION

6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.

7. The amount of the appropriation herein granted shall not exceed 2.5 cubic feet per second; neither shall it exceed the capacity of the above described water supply system, nor shall it exceed the amount of water needed for beneficial uses served, and if for the irrigation purposes said appropriation must be limited to not more than 3 acre feet per acre per year and be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is

actually and beneficially applied for irrigation on or before MAY 25 19 86; said water to be used during the following described annual period: MAY 1 - NOVEMBER 1

Pollock, SD 57648

Dear Mr. Reiersen:

I am contacting you in regard to your Water Permit Nos. 3023-3 and 3883-3. An inspection of your water use system, as developed under, these permits was conducted May 25, 1988. The inspection found you were irrigating acreage not covered under your permits.

In order to correct this, you will need to make an application for the additional acreage. Enclosed is a set of partially completed application forms and an instruction sheet. Please complete the forms and make any necessary changes. Once they are complete, please sign in the presence of a notary. The fee for this type of application is \$150.00 and should be returned with the completed applications to our office. Also enclosed is a copy of the map prepared after the inspection. The area marked in red shows the acreage for which a new permit is needed.

A review of Water Permit Nos. 3023-3 and 3883-3 found you also need to acquire soil/water compatibility approval for the acreage you developed under these permits. The existing soil/water compatibility approval does not cover any of the irrigated acreage. Enclosed is a partially completed "soil/water compatibility application". Please complete the form where needed and return it along with your water permit application forms. You will need to contact the Dept. of Agriculture, Division of Conservation to find out whether a water sample will be needed.

If you have any questions concerning the water permit application, please contact either myself, Susan Bowar or Ron Duvall at 773-3352. If you have questions concerning the soil/water compatibility permit, contact Jim Stukel with the Division of Conservation, at 773-3259.

Sincerely,

GENNY MCMATH
Natural Resources Analyst

5566-3

Howard Reiersen
RR 1, Box 10
Pollock, SD 57648

Dear Mr. Reiersen:

Enclosed is Water License No. 5566-3. This is the final water right document completing your process of obtaining a Water Right. Enclosed is Receipt No. 413100 in the amount of \$50.00 which you paid for the inspection and issuance of the Water License.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 5566-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Division
(605) 773-3352
