Date of receipt of corrected application —, 19 —

Approved JULY 29, 19 77 Recorded in Book 19 Page 340

WATER RIGHT PERMIT NO. 3998-3

The Water Rights Commission hereby grants and issues this Water Right Permit No. 3998-3 authorizing the construction of the water use system and the putting of water to beneficial use as stated in the Application and as modified in the Water Right Application approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim a right is .02 CFS FROM 1955
.12 CFS FROM JUNE 20, 1977
2. The equivalent of at least one-fifth of the work above specified is ~~to be~~ completed ~~on or before~~ —, 19 —
3. The whole of said work is ~~to be~~ completed ~~on or before~~ —, 19 —
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is COMPLETED, 19 —
5. The water appropriated shall be used for the purpose of MUNICIPAL USE

6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.

7. The amount of the appropriation herein granted shall not exceed .16 cubic feet per second; neither shall it exceed the capacity of the above described water supply system, nor shall it exceed the amount of water needed for ~~beneficial use~~ ~~and if for the irrigation purposes said appropriation must be limited to not more than 7 cubic feet per acre per year and be limited to not more than one-seventh (1/70) of one cubic foot of water per second of time for each acre of land to which water is~~
USED FOR MUNICIPAL PURPOSES
actually and beneficially ~~applied for irrigation~~ on or before THIS DATE, 19 77; said water to be used during the following described annual period: CONTINUOUSLY

STATE OF SOUTH DAKOTA

WATER LICENSE NO. 3998-3

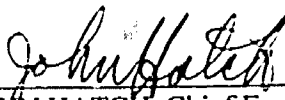

(1) The Town of Glenham, PO Box 14, Glenham SD 57631-0014 made Application No. 3998-3, June 20, 1977 for a water permit to divert 0.16 cubic feet of water per second from groundwater (two wells). Walworth County, South Dakota for municipal use purposes. Permit No. 3998-3, with priority dates of 1955 and June 20, 1977 was approved July 27, 1977 and issued to the applicant for diversion of water with construction of the described water supply system completed and the application to beneficial use of said water completed.

The well with the 1955 priority date has been abandoned. The Town of Glenham has connected to the WEB Rural Water System. The existing well is a standby well and used for fire fighting and flushing the town's sewer system.

(2) It is certified that the applicant has complied with the provisions of South Dakota State Law relating to completion of the construction of the water supply system and is entitled to divert 0.12 cubic feet of water per second for beneficial use. The location of the diversion point is 380 feet south and 528 feet east of the north quarter corner (NW 1/4 NE 1/4), Section 28-T124N-R78W.

(3) The applicant has complied with the provisions of South Dakota State Law relating to the application of water to beneficial use as a standby water supply.

(4) Pursuant to South Dakota Water Law 46-5-30.1 the Town of Glenham, PO Box 14, Glenham SD 57631-0014 the holder and/or owner of Water Permit No. 3998-3 is issued a license to appropriate water, the right to use 0.12 cubic feet of water per second from groundwater (one well) with a priority date of June 20, 1977 from the location specified in (2) of this license, for the purpose of municipal use. This license is subject to any limitations or qualifications listed in Water Permit No. 3998-3 and subject to South Dakota State Law.

Mark Gosch, Finance Officer
Town of Glenham
PO Box 14
Glenham, SD 57631-0014

Dear Mr. Gosch:

This letter is in regard to Water Permit No. 3998-3 held by the town of Glenham. The permit is also a partial vested right, which means that a portion of it predates March, 1955.

No. 3998-3 is for one well drilled in 1955 producing 0.04 cubic feet of water per second (cfs) and one well drilled in 1965 producing 0.12 cfs. Our records show that the town is now hooked to a rural water system. Does the town still utilize the two wells described above as a back-up water supply, or have the wells been plugged?

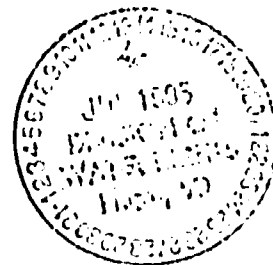

I am enclosing a copy of No. 3998-3 for your review. Thank you in advance for your assistance in this matter. If I can answer any questions for you, please contact me.

Sincerely,

Genny McMath
Environmental Scientist
Water Rights Division

July 10, 1995

Genny McMath
Environmental Scientist
Water Rights Division

In response to your letter dated July 5, 1995 in regard to the wells listed in Water Permit 3998-3 held by the Town of Glenham.

The well drilled in 1955 is no longer in service. The well was closed years ago with the exact date unknown. The well #2 Outlot C1 is no longer hooked to the Town's water system. The well is utilized on a limited basis to fill fire trucks and to flush the Town's sewer lines.

Sincerely,

A handwritten signature in cursive script that reads "Mark Gosch".

Mark Gosch

DATE: July 13, 1995 TELEPHONE: (605) 762-3372

RE: Water Permit No. 3998-3

COMMENTS:

The vested right portion of No. 3998-3 was validated September 30, 1992. Since the permit is part "regular" and part "vested", it should be divided and reissued as 3998A-3 and 3998B-3. Prior to doing this, I contacted the town of Glenham to see whether or not they still utilized the wells (the town is now hooked to WEB rural water system).

On July 13, I received a letter from Mark Gosch stating the well drilled in 1955 was no longer in service. Well #2 is no longer hooked to the town's water system and is utilized on a limited basis for fire protection and flushing sewer lines.

In my opinion, since the 1955 well is no longer in service, it is no longer necessary to divide and reissue the permit. The "backup or standby" well could be inspected and the permit licensed for the newer well only. The license could mention that the 1955 well is no longer in service and will not be included in the licensed diversion rate. Also, it would appear from Mr. Gosch's letter that he does not dispute the fact that the old well is not used so there should be no need to bring the permit before the Water Management Board to cancel a "portion" of it.

Permit No. 3998-3
Missouri River - Water District

Report Of Examination Of Works And/Or Application of Water To Beneficial Use

TO: Chief Engineer, Water Rights Program, DENR, Foss Bldg., Pierre, SD 57501

I have this day, 7-24-95 made a thorough examination of the water use system constructed by Town of Glenham of P.O. Box 14, Glenham, SD 57631 holder of Permit No. 3998-3, bearing the priority of June 20, 1977 authorizing the diversion of 0.12 cu. ft. per second of the waters of the Grand Aquifer for municipal purposes, in Walworth County.

I have to report on the conditions of the same as follows:

A. Works used to divert the water:

One well 170 feet deep with 140 feet of 6 inch steel casing and 30 feet of steel screen. The well has a Red Jacket Submersible pump with a 54 gpm capacity and a Franklin electric motor 1½ hp.

B. Works used to transport water to place of use:

None, well is used as a standby to fill firetrucks and flush the city sewer system. The trucks are filled directly from the well.

C. Works used to apply water to beneficial use:

Fire protection and to flush the city sewer system for the town of Glenham.

The system is in the following condition fair. The point of diversion is located 380 feet south and 528 feet east of the N ¼ corner Section 28, T124N, R78W. The works are capable of diverting and conveying to the place of use 0.12 cu. ft. per second of water which is to be used for municipal standby purposes. Water has been put to beneficial use to the maximum extent as follows:

Standby well used for filling firetrucks for the town of Glenham

The license should be issued for 0.12 cfs.

Applicable permit qualifications have been complied with: yes

Exceptions to compliance are: none

Lynn Beck
Lynn Beck

Natural Resources Engineer
DENR, Water Rights Program

4-4-96
Date

COMMENTS: Permit 3998-3 authorizes two wells. One well was drilled in 1955 and has a vested priority date. This well is no longer in service and can be left off of the license. The second well is used as a standby well for filling firetrucks and to flush the towns sewer system. This well is no longer hooked to the city water system. The license should be issued for 0.12 cfs from the one standby well.

P.O. Box 14
Glenham, SD 57631-0014

Dear Mr. Gosch:

Enclosed is Water License No. 3998-3. This is the final water right document completing your process of obtaining a Water Right. Enclosed is Receipt No. 414949 in the amount of \$50.00 which you paid for the investigation and issuance of the Water License.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 3998-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Very truly yours,
