Dear Vern,

It is our understanding that Henry, Wallace, Florence, South Shore and Kranzburg have not established their past, present and future water rights. I brought this to the attention of the Codington County Commissioners on August 3, 1976 and they requested our office to aid these communities in so doing.

We contacted the First Model Rural Development District for the proper forms which they obtained for us through your office.

We have thoroughly studied First Model Rurals Comprehensive Plan for Codington County which was completed in July 1973. We have also contacted the U.S. Geodetic Office in Huron, South Dakota and Assad Barari of the State Geological Office in Vermillion, South Dakota and Rueb Wicks in the local S.C.S. Office. At this point and time neither we or they can find but very little earth strata data or aquifer data concerning these small communities. We will be checking the community records regarding town wells, in as far as possible.

The Model Rural Comprehensive Plan bases their average daily water consumption in 1973 at 60 gallons per person; which we feel was too low at that time and in talking with Mr. Vallard, Supt. of the Water Dept. of the City of Watertown Utilities Dept.; he indicates the average daily consumption per person at the present time in the City of Watertown to be 160 gallons and it is on this basis that we are submitting these applications for present and future water rights for these smaller communities.

We are also basing future rights on projected population and industrial growth in Codington County extending to these small communities for the next 50 years. We, therefore, request future water rights for the next 50 years to at least double our present request.

These small communities we feel must certainly have some vested rights in that Henry was founded in 1882 and incorporated in 1886; South Shore was founded in 1887; Florence was incorporated in 1907; Wallace was incorporated in 1908 and Kranzburg was founded in 1879. We wish to establish these water rights immediately; even though it may be a number of years before they have any need.

Sincerely yours,

NOTICE

To : Elmer Hedman, Town President, Town of South Shore *John Hatch*
From : John Hatch, Chief Engineer, Water Rights Division
Subject : Review of Future Use Water Permit No. 4053-3

The Water Management Board has directed that all future use water permits without a qualification requiring the permit to be reviewed every seven years to be noticed for hearing before the Board. The hearing to review Future Use Permit No. 4053-3, Town of South Shore will be conducted pursuant to SDCL 46-1-14, 46-5-38.1, ARSD 74:02:01:27 and contested case procedures contained in SDCL 1-26, December 5, 1984 at 2:30 pm in the Conference Room 216, Joe Foss Building, Pierre, South Dakota.

The hearing will be to review 1) progress made in development of water reserved by Permit No. 4053-3, 2) future plans for development of the reserved water, and 3) if the permit is not cancelled, to amend Permit No. 4053-3 to add the seven year review qualification and to add or clarify other qualifications.

Future Use Permit No. 4053-3 was approved July 28, 1977 with a priority date of October 20, 1976, for 2.0 cubic feet per second (cfs) from an area within the City limits with the following qualifications:

1. At such time as definite plans are made, specific applications for all part of the water granted under this withdrawal must be submitted prior to construction of facilities.

Following the hearing, the Board can:

- 1) Take no action,
- 2) Cancel Permit No. 4053-3 for no development and/or no planned future development,
- 3) Continue and amend Permit No. 4053-3 with the following qualifications:
 - a) Permit No. 4053-3 to appropriate water for future use is subject to review by the Water Management Board as to accomplishment thereunder upon expiration of seven (7) years.

b) This permit is approved for groundwater from the Antelope Valley aquifer.

If continued, at the end of seven years, the permit will again be reviewed and if it is continued, you will be required to pay 10% of the usual fee for an application to use water to keep Permit No. 4053-3 in effect. The projected 10% fee in seven years based upon the existing permit CFS will be \$50.00.

This hearing is an adversary proceeding. Any person has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised at the hearing. Decisions of the board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

Mr. Larson

I guess it's impossible to contact you
by telephone so I will give you the information
you requested

Our trustees went over the future use
at our December meeting.

We request a renewal of our permit for
the next 7 years. as per the minutes taken,
there is no future development in
the making in fact it is less than
other years due to the grant Roberts
Rural Water System in town.

This summer we had a decline of 1000 000 gal
to a spray service, who now get their water from
Grant Roberts.

Our town has three sources of water -
Private Wells City Water and Rural Water.
We see no increase in use over our old
Permit.

When is the \$500 Fee due?

Send Notice When due, and we will comply.
