REPORT FOR READVERTISEMENT OF
WATER PERMIT NO. 4053A-3
March 18, 1992

Water Permit Application No. 4053A-3 was filed on October 20, 1976, to appropriate 1.00 cubic feet of water per second (cfs) from 3 wells and to reserve 2.00 cfs (all from the Antelope Valley Aquifer) for future use by the Town of South Shore. Water Permit No. 4053-3 has been divided and reissued as follows: Water Permit No. 4053A-3 authorizes diversion of 1 cfs from 3 wells in the SW 1/4 SE 1/4 Section 15 and W 1/2 NE 1/4 Section 22, T119N-R51W; and Future Use Permit No. 4053B-3 reserves 2.0 cfs for Future Use purposes from groundwater located within the city limits of South Shore. An inspection of the Permit No. 4053A-3 portion of original Permit No. 4053-3 found the 3 wells capable of diverting 0.58 cfs.

The correct location of the 3 wells was specified on the permit application and on the map filed with the application; however, the published notice was incorrect. The wells are located within the SW1/4 SE1/4 section 15; W1/2 NE1/4 section 22; all in T119N-R51W, but were incorrectly advertised on July 14 and 21, 1977, in the South Shore Gazette as being located in the SE1/4 SE1/4 section 15; E1/2 NE1/4 section 22; all in T119N-R51W.

Pursuant to SDCL 46-5-13.1, the location of a diversion point may be changed up to 660 feet, if the water source remains the same. One of the three wells is more than 660 feet outside of the area that was advertised. The two wells within 660 feet have been included in this readvertisement only for purposes of noting that the legal descriptions in the original notice are not accurate.

CONCLUSIONS

- 1) The Water Rights Division should cover the expense of the readvertisement, since the errors should have been addressed by the Division when the original notice was published.
- 2) This readvertisement of Permit No. 4053A-3 does not authorize any increase in the developed appropriation of 0.58 cfs.
- 3) No complaints were found in the Codington County file regarding water use by the Town of South Shore.

RECOMMENDATION

Recommend approval of the readvertisement with the qualifications currently included on Water Permit No. 4053A-3.

Ron Duvall, Natural Resources Engineer

RECOMMENDATION OF CHIEF ENGINEER FOR READVERTISED WATER PERMIT
APPLICATION NO. 4053A-3, Town of South Shore

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Division, Department of Environment and Natural Resources concerning readvertised Water Permit Application No. 4053A-3, Town of South Shore, Box 57, South Shore, SD 57263.

The Chief Engineer is recommending APPROVAL of readvertised Application No. 4053A-3 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion can be developed without unlawful impairment of existing rights, 3) the proposed use is a beneficial use and 4) in the public interest with the following qualification:

The wells approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.

Dear Mayor Meyer:

Enclosed is your Water Permit No. 4053A-3 and Future Use Permit No. 4053B-3. Water Permit No. 4053-3 was divided and reissued to separate the future use portion from the water permit.

Water Permit No. 4053-3 was divided and reissued as follows:

Water Permit No. 4053A-3 authorizing diversion of 1.0 cfs from three wells in the SW 1/4 SE 1/4 Section 15 and W 1/2 NE 1/4 Section 22, T119N, R51W; and;

Future Use Permit No. 4053B-3 reserving 2.0 cfs for future use purposes from groundwater located within the city limits of South Shore.

The reissuance of No. 4053-3 into 4053A-3 and 4053B-3 did not reduce or alter the original permit.

If you have any questions, please contact us.

Dear Mr. Waege:

Enclosed is Water License No. 4053A-3. This is the final water right document completing your process of obtaining a Water Right. Enclosed is Receipt No. 413236 in the amount of \$50.00 which you paid for the inspection and issuance of the Water License.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 4053A-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Amanda,

As discussed in the meeting today, the Town of South Shore reports its production to the Drinking Water Program, but does not report its withdrawals to the Water Rights Program. Based on its production reported to Drinking Water, they withdraw approximately 15 ac-ft/yr. The Town of South Shore holds Water Right Nos. 4053A-3 and 5520-3 out of the Antelope Valley aquifer.

Here is a table of the details of these two permits. The 60% estimate of their use would be 291 ac-ft/yr. For the accuracy of our withdrawal estimates from that aquifer, we need them to be reporting their withdrawals.

**RECOMMENDATION OF ACTING CHIEF ENGINEER FOR
WATER RIGHT NOS. 4053A-3 & 5520-3, TOWN OF SOUTH SHORE**

Pursuant to SDCL 46-2A-2, the following is the recommendation of the acting Chief Engineer, Water Rights Program, Department of Agriculture and Natural Resources concerning Water Right Nos. 4053A-3 & 5520-3.

Water Right Nos. 4053A-3 & 5520-3, held by the Town of South Shore, authorize the appropriation of 0.58 cfs (approx. 260 gpm) and 0.09 cfs (approx. 40 gpm), respectively, from the Antelope Valley Aquifer for municipal purposes.

Having an accurate reporting of water withdrawals is critical to the accuracy of estimates made regarding the hydrologic budget; therefore, it is the recommendation of the acting Chief Engineer that a qualification mandating annual water use reporting be added to Water Right Nos. 4053A-3 & 5520-3.

NOTICE OF HEARING

TO: Town of South Shore, c/o Finance Officer
PO Box 57, South Shore SD 57263

FROM: Amanda Dewell, Permitting Administrator
DANR - Water Rights Program 

SUBJECT: Notice Scheduling Hearing Regarding Addition of a Qualification Requiring
Annual Water Use Reporting for Water Right Nos. 4053A-3 & 5520-3, Town of
South Shore

Water Right Nos. 4053A-3 & 5520-3, held by the Town of South Shore, authorize the appropriation of 0.58 cfs (approx. 260 gpm) and 0.09 cfs (approx. 40 gpm), respectively, from the Antelope Valley Aquifer for municipal purposes.

Currently, these are the only non-irrigation water rights appropriating from the Antelope Valley Aquifer that are not required to report their annual water use. Water Rights Program staff believe adding a qualification mandating annual water use reporting would be beneficial to management of the hydrologic budget for this aquifer.

Based on the acting Chief Engineer's recommendation to add a qualification that would require annual water use reporting for Water Right Nos. 4053A-3 & 5520-3 (enclosed); the qualification would read as follows:

"The permit holder shall report to the Chief Engineer annually, the amount of water withdrawn from the Upper Vermillion Missouri: West Aquifer."

The Water Management Board will conduct a hearing to consider addition of the mandatory reporting qualification to Water Right Nos. 4053A-3 & 5520-3 at **11:45 AM, on Wednesday, May 6, 2026 (Central Time)** in the Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol Ave, Pierre SD 57501 (*the agenda time is an estimate, and actual time of hearing may be later*).

The recommendation of the acting Chief Engineer is not final or binding upon the Board. The Board is authorized to 1) add the qualification as recommended, 2) delay action, or 3) take no action on Water Right Nos. 4053A-3 & 5520-3 based upon facts presented at the public hearing.

The hearing will be conducted pursuant to the provisions of SDCL 46-1-14; 46-2-5, 46-2-9, 46-2-11; and Board Rules ARSD 74:02:01:14. This is a contested case pursuant to procedures contained in SDCL 1-26.

This hearing is an adversarial proceeding. Any party has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and State Supreme Court as provided by law.

Prior to March 30, 2026, contact the Water Rights Program, Joe Foss Building, 523 E Capitol, Pierre, SD (605-773-3352) if assistance is needed with the following: 1) further information on the proposed qualification addition; 2) to assure access to the meeting room for the handicapped; or 3) to obtain an interpreter for the hearing impaired.

According to SDCL 1-26-18.3, parties to a contested case may use the Office of Hearing Examiners to conduct a hearing if either a property right is being terminated or the dollar amount in controversy exceeds \$2,500.00. If you choose to use the Office of Hearing Examiners rather than the hearing procedure described above, then you need to notify the acting Chief Engineer (Water Rights Program, 523 E. Capitol Avenue, Pierre SD) by March 30, 2026. Questions regarding the hearing process may be directed to Amanda Dewell, Permitting Administrator, Water Rights Program, at (605) 773.3352 or amanda.dewell@state.sd.us
