Dear Mr. Hursley:

In reviewing your soil and water compatibility application for Sec 36-112-79 = 640 acres and W $\frac{1}{2}$ 31-112-78 = 320 acres the irrigation staff is recommending a Conditional Approval of your application to the State Conservation Commission at their January 12, 1983 meeting. The Conditional recommendation is based on the clay content of the soils which makes the leaching of salts difficult. The Restrictions and Management Recommendations are as follows:

RESTRICTIONS:

Section 36-112-79:

The drainageway in the Southwest shall remain in grass due to wetness and erosion potential.

W $\frac{1}{2}$ 31-112-78:

The areas mapped as Hoven-Onita (Ho) and Onita-Hoven (OoA) are subject to wetness and ponding. In these areas adequate drainage shall be provided.

MANAGEMENT RECOMMENDATIONS:

It is recommended that in areas subject to wetness be maintained in grass and/or alfalfa to address trafficability problems.

It is also recommended that a form of conservation tillage be used to control erosion and maintain the tilth of the soil.

We feel we must advise you that the soils in the SW $\frac{1}{4}$ 31-112-78 may require an intensive management plan. We recommend that the primary crop be alfalfa in the southern half of this quarter.

c/o Jim Beastrum
PO Box 1002

Dear Mr. Beastrum:

On June 19, 2002 the investigation of the Gray Goose Irrigation District's system, including the extent of application of water to beneficial use, as developed under Water Permit No. 4116-3, was completed by Lynn Beck, a staff engineer with our program. Dave Lindekugel accompanied Ms. Beck on the investigation. The final water right document, the water license, can now be issued.

State law requires that we charge a \$50.00 fee for the investigation and issuance of the water license. Upon receipt of the \$50.00 fee, we will complete processing the water license. The check or money order for the fee should be made payable to the "Water Rights Program".

The licensed water right will be similar to a property right that can not be lost as long as the water use continues and you abide by the permit requirements.

If you have any questions regarding the water permit, investigation of the water use system or payment of the fee, please contact Ginny McMath with our program at (605) 773-3352.
