Notary Public (or other qualified officer)

WATER RIGHT APPLICATION APPROVAL

The Water Rights Commission hereby approves Water Right Application No. 4122-3
JERRY L. ADRIAN Rt 3, Box 343, Sioux Falls
 (Applicant) (Post Office Address)
SOUTH DAKOTA 57101 With the following modifications:
 (State)

The irrigation well approved under this Permit will be located near domestic wells and other irrigation wells which may obtain water from the same aquifer. The irrigation well owner, under this Permit, shall control his irrigation withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in irrigation wells having prior water rights.

Date of first receipt of application AUGUST 15, 19 77
 Date of return to applicant for correction, amendments or changes required _____, 19 ____
 Date of receipt of corrected application DECEMBER 29, 19 77
 Approved MARCH 29, 19 78, Recorded in Book 19 Page 300

WATER RIGHT PERMIT NO. 4122-3

The Water Rights Commission hereby grants and issues this Water Right Permit No. 4122-3 authorizing the construction of the water use system and the putting of water to beneficial use as stated in the Application and as modified in the Water Right Application approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim right is DECEMBER 29, 19 77
2. The equivalent of at least one-fifth of the work above specified is to be completed on or before SEPT. 29, 19 78
3. The whole of said work is to be completed on or before MARCH 29, 19 79
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is MARCH 29, 19 80
5. The water appropriated shall be used for the purpose of IRRIGATION

6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.

7. The amount of the appropriation herein granted shall not exceed 2.28 cubic feet per second; neither shall it exceed the capacity of the above described water supply system, nor shall it exceed the amount of water needed for beneficial uses served, and if for the irrigation purposes said appropriation must be limited to not more than 3 acre feet per acre per year and be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is actually and beneficially applied for irrigation on or before MARCH 29, 19 80; said water to be used during the following described annual period: APRIL - NOVEMBER

Witness my hand this 6th day of APRIL, 19 78

 Chief Engineer, Executive Officer

Certificate of Construction Issued July 9, 19 80

Water License Issued July 9, 19 80

12. Principal Features of the Proposed Water Supply System (continued.)

D. Well Information or Estimates

(1) Drill Hole, Diameter 18", Depth 62'
 (2) Casing, Type steel Diameter 1 1/2" Thickness 1/4"
 (wood, concrete, steel, etc)
 (3) Perforated Screen.
 Type stainless steel, Diameter 1 1/2", Length 20'
 (4) Gravel Pack, Thickness 2", Length of gravel pack 50'

E. Dugout Information or Estimates.

(1) Surface dimensions -, Depth -

F. Fill out for Either a Well or a Dugout.

(1) Water Bearing Materials. (Please attach a copy to test well log if available.)

Character of Water bearing materials 1 ft. topsoil, 3 1/4' yellow gravel, 2 3/4' coarse
water bearing sand and gravel,

Depth to top of water bearing material 35 ft.
 Depth to bottom of water bearing material 62 ft.
 Thickness of water bearing material 27 ft.
 Depth to water (ground surface to water level) 2 18'

(2) Distance to nearest existing household or livestock watering wells.

On same owner's property 180 rds. On property owned by others 30 rds.

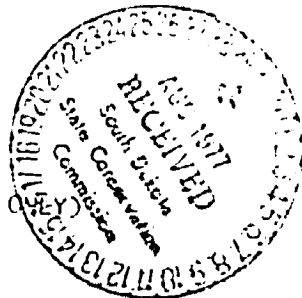

G. Water Storage Dams.

If the proposed water use system contains one or more water storage dams, please show in the space below, the height, maximum water depth, surface area and storage capacity of each storage dam. The location of each water storage dam should be shown on the water right map.

APPROVED/RECEIVED

(SOILS INFORMATION ON REVERSE SIDE)

SOUTH DAKOTA DEPARTMENT OF AGRICULTURE
DIVISION OF CONSERVATION

(RECOMMENDED MANAGEMENT)

NAME OF APPLICANT Jerry Adrian, Sioux Falls, South Dakota

RECOMMENDED MANAGEMENT:

1. Water should not be applied more than 1, 2, (3, 4, 5) times during the irrigation season. As experience dictates
2. Each uninterrupted application (one rotation of center pivot) should be of at least 1, 2, (3, 4) inches of water. As experience dictates.
3. ☐ Yes ☐ No Surface drainage suggested
4. ☐ Yes ☐ No Subsurface drainage suggested
5. ☒ Yes ☐ No Specific land areas that should be avoided -managed differently

Soil Area 30B (Delmont-Talmo Complex) or portions thereof that may have bedrock at less
20 inches. The holding capacity of such complex soil would be about 2.5 inches and would
tend to stay saturated with continual irrigation.

6. ☐ Deep tillage (For the purpose of aiding movement of water through dense subsoils)

7. ☐ Heavy full application of irrigation water

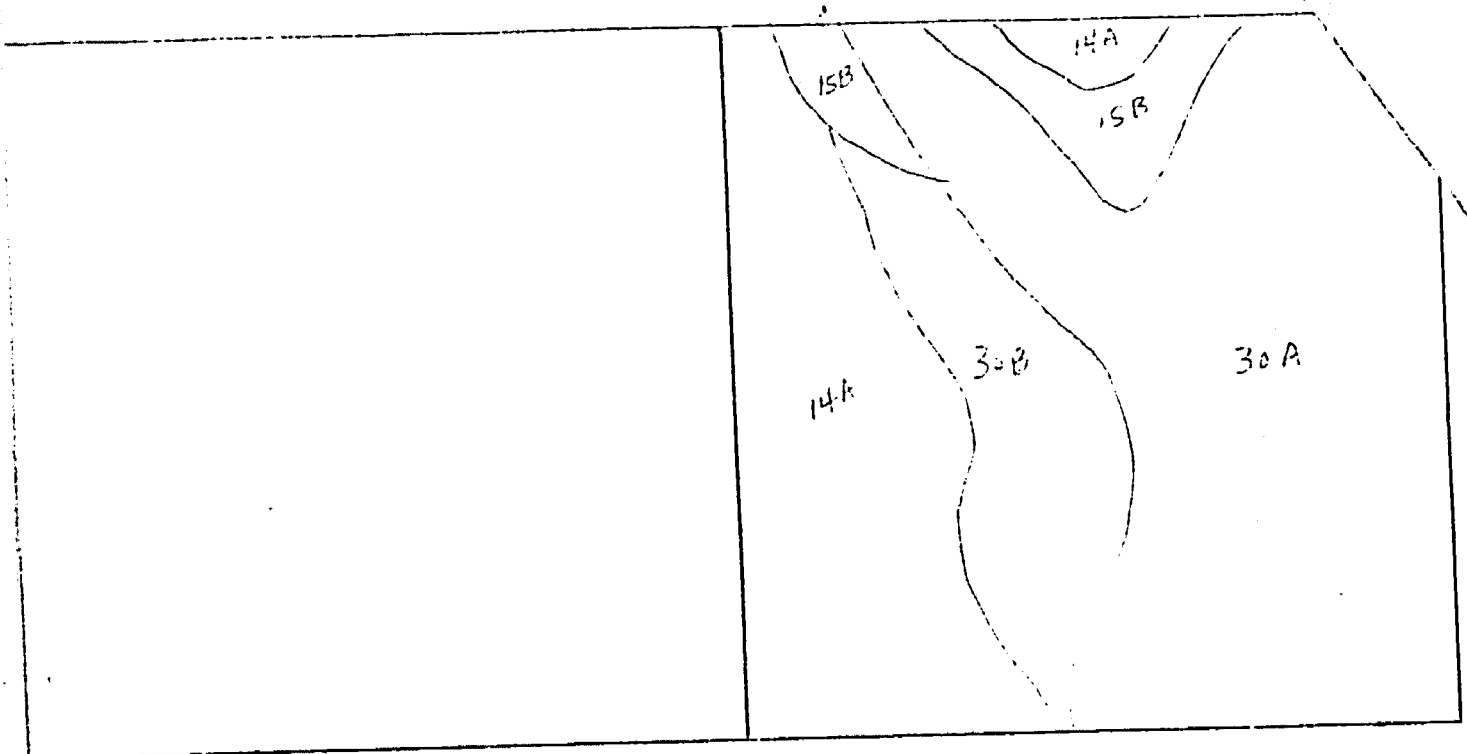

The area marked 30A (Delmont-Enet) on the other hand may take water too rapidly because of the underlying sand and gravel which poses a management problem of fertilizers leaching past the plant root zone.

If you are going to strip bluegrass, I would assume you would concentrate that project on your deeper top soil along the west part of the Clavno-Bonilla.

SOUNDS LIKE AN INTERESTING PROJECT.

| * | 4172-3 James and Delores Stapleton | |

* Artesian Wells

W.T. - Water Table

Reasons Applications Were Deferred

1. The Water Rights Commission and Staff were concerned about possible domestic well interference problems in the Chancellor and Davis areas.
2. The Water Rights Commission and Staff were concerned as to why individual permit holders were drilling new deeper wells than what the original permits authorized.
3. Complaints were received involving the drying up of the Vermillion River.
4. The Water Rights Commission Staff was drilling, developing and monitoring 26 new observation wells. This information is now available for consideration.

Historical Water Level Data

The historical water level measurements of the shallow water table aquifer in the Parker-Hurley-Centerville area shows no serious effects due to irrigation withdrawals. The records cover a period of time from 1956 to present. The following table is a listing of selected observation wells with their characteristics. Typically the water table wells decline from 1 - 3 feet from spring to fall and recover with the spring runoff. Such wells show periods of drought and wet years by general decreases or increases in the water level. Also typically the artesian wells fluctuate 10 - 30 feet with the pumping season and begin to recover as soon as the pumping season is over. There is only one year of records available for the artesian wells.

*Normal annual fluctuation

Some Conclusions After Examination of Water Level Data

1. The water levels in the water table aquifer were lower during past drought years.
2. The water levels in the newly completed artesian wells recovered to the previous spring levels.
3. Drawdowns were particularly exaggerated in the northern area of the artesian aquifers, but have recovered.
4. This area is complicated hydrologically. A great deal of work needs to be done before total water use estimates can be obtained. Until that time the Water Rights Commission Staff will continue to recommend the present slow approach in this area.

Recommendations:

The Water Rights Commission Staff recommends:

1. That the shallow water table Application Nos. 4105-3, 4122-3, and 4152-3 be approved.

Report on Deferred Applications in Turner County
March 6, 1978
Page Three

2. That Application No. 3966-3 for a well from an artesian aquifer be approved.

If approved all four applications should include the qualification:

The irrigation well approved under this Permit will be located near domestic wells and other irrigation wells which may obtain water from the same aquifer. The irrigation well owner, under this Permit, shall control his irrigation withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in irrigation wells having prior water rights.

3. That Application No. 4172-3 for wells from an artesian aquifer remain in deferred status. This application is located in a portion of the aquifer where significant drawdowns occurred during 1977.

WATER RIGHTS COMMISSION

Joe Foss Building, Pierre, South Dakota 57501
Phone 605/224-3151

March 21, 1978

TO: Persons concerned with deferred applications in Turner County

FROM: John Hatch, Chief Engineer, Water Rights Commission

SUBJECT: Reconsideration of deferred applications in Turner County

The Water Rights Commission will reconsider Water Right Applications in Turner County at 10:00am, March 29, 1978, at the Guest House, 101 Broadway, Watertown, South Dakota.

This reconsideration hearing will be conducted in accordance with the provisions of SDCL 46-1-1 thru 46-1-8; 46-2-9 thru 46-2-11, 46-2-13; 46-5-1 thru 46-5-8, 46-5-10 thru 46-5-22, 46-5-41; 46-6-3, 46-6-5, 46-6-6.1, 46-6-10, 46-6-14 and Commission Rules ARSD 52:01:01:01 thru 52:01:01:13.

The Applications were deferred by the Water Rights Commission during 1977, pending Staff investigation.

After reconsideration of Applications deferred in Turner County the Commission can approve, defer, or deny all or parts of the Applications. A copy of the "Report on deferred applications in Turner County" is enclosed for your information.

Very truly yours,

June 24, 1980

Jerry Adrian
RR #3, Box 39B
Sioux Falls, SD 57101

Dear Mr. Adrian:

On June 5, 1980, accompanied by Curt Adrian, I made an inspection of the irrigation developed under Permits 1773-3, 2062-3, 2063-3 & 4122-3 so licensing of these Permits can take place.

The N $\frac{1}{2}$ NE $\frac{1}{4}$, Section 34, T99N, R53W included in your Permit No. 4122-3 had a previous Permit No. 133-3 issued to Ernest Larson. In licensing Permit No. 4122-3 we propose to incorporate the applicable portions of Permit No. 133-3 including the earlier priority for the 80 acres, and cancel out Permit No. 133-3. To include Permit No. 133-3, we should have it transferred to your name. Please sign and have the enclosed Form 20 notarized, and return it to this office with the required fee of \$2.50 for the transfer.

Statutes require that we charge \$50.00 for each inspection and issuance of the Water Licenses. Please submit \$200.00 to cover the four Permits and the Water Licenses will be sent to you.

Sincerely,

BURTON F. JONES
Water Rights Specialist

Dear Mr. Adrian:

Enclosed herewith are, Water License No. 4122-3 and Certificate of Construction.

Water License No. 4122-3 is the final water right document completing your process of obtaining a water right.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights, WMD

NOTE: The applicable portions of Permit No. 133-3 have been incorporated into this Water License and Permit No. 133-3 has been placed in a cancelled status.

Permit No. 4122-3Water Division: 3 VERMILLION RIVER Water DistrictREPORT OF EXAMINATION OF WORKS
AND/OR APPLICATION OF WATER TO BENEFICIAL USE

TO: WATER RIGHTS, WATER MANAGEMENT BOARD / FOSS BLDG., PIERRE, SOUTH DAKOTA 57501

I have this day made a thorough examination of the water use system constructed by JERRY L. ADRIAN of SIoux FALLS holder of Permit No. 4122-3, bearing date of priority of 1.14 FROM APRIL 20, 1966 1.22 FROM DECEMBER 29, 1977 *authorizing the diversion of 2.28 cu. ft. per second of the waters of GROUNDWATER for IRRIGATION purposes, in TURNER County.

I have to report on the condition of the same as follows:

The Water Use System consists of,

A. Works used to divert the water:

62' DEEP WELL WITH 14" STEEL CASING - 20' SS SCREEN
WESTERN LAND ROLLER 8" PUMP - MODEL 8M. 2STAGE 12KSH BOWLS
POWERED BY 40 HP U.S. ELECTRIC MOTOR

B. Works used to transport water to place of use,

1160' OF 10" BURIED PLASTIC LINE TO CENTER OF PIVOT

C. Works used to apply water to beneficial use.

7 TOWER VALLEY CORNER SYSTEM - LOW PRESSUREThe system is in the following condition: GOODThe point of diversion is located 1320'S AND 160' W OF THE NE CORNER, SECTION 34, T99N, R53WThe works are capable of diverting and conveying to the place of use 1.66 (750 GPM) cu. ft. per second of water which is to be used for IRRIGATION

Water has been put to beneficial use to the maximum extent as follows:

FOR IRRIGATION OF A 140 ACRE "CIRCLE" IN THE NE⁴, SECTION 34, T99N, R53Wcomprising a total of 140 acres of land.

* THE APPLICABLE PORTIONS OF PERMIT NO 133-3 HAVE BEEN INCORPORATED INTO THIS WATER LICENSE, AND PERMIT NO 133-3 HAS BEEN CANCELLED.

February 17, 1989

Jerry L. Adrian
Rt. 3, Box 106
Sioux Falls, SD 57101

Dear Mr. Adrian:

On October 6, 1988, the Water Management Board adopted rules to implement a 1988 law for application of chemicals through irrigation systems. The rules establish equipment standards, performance standards and installation requirements for irrigation systems that apply chemicals (fertilizers, insecticides, or herbicides) with irrigation water.

You have indicated on your 1988 Water Management Board Irrigation Questionnaire that you do apply chemicals with irrigation water. A copy of the new rules for chemigation are enclosed for your information.

The new standards include:

- * a check valve between the irrigation pump and the point of chemical injection;
- * a vacuum relief valve on top of the pipeline between the irrigation pump and the irrigation pipeline check valve;
- * a low-pressure drain on the bottom of the pipeline between the irrigation pump and the irrigation pipeline check valve;
- * a chemical injection line check valve between the chemical injection pump and the point at which the chemical is injected into the irrigation line; a second check valve is required if the chemical injection pump is not a positive displacement pump;
- * an interlock system which ensures that the chemical injection pump will stop whenever the irrigation pump stops;
- * an inspection port between the irrigation pump and the check valve on the irrigation line;

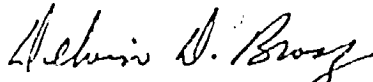

Each of these equipment requirements are discussed more thoroughly in Sections 74:02:09:05 through 74:02:09:10 of the enclosed rules. Appendix A contains diagrams of the arrangements of these anti-pollution devices.

The equipment must be installed according to the manufacturer's specifications, calibrated, and maintained in good working condition. All chemical product labels must be followed and warning signs must be posted. These rules also require reporting of all spills, accidents, and system malfunctions. A 24-hour telephone number is provided.

The chemigation rules contain notification and record keeping requirements. Prior to using chemigation, notification must be given to the Chief Engineer on the enclosed Form 1C. Information that must be provided in this notification includes the water permit or right number, the name, address, and telephone number of the water permit or right holder and of the system operator, and the legal description of the lands on which the system is located. A record of the name, quantity, dates and hours of each chemical applied must be provided to the Chief Engineer on Form 2C. A copy of this form is also enclosed for your information. It will be mailed with the annual irrigation questionnaire and must be returned with the questionnaire by the date specified. If you have any questions regarding these rules or need additional copies of the forms, please contact Susan Bowar, Water Rights Engineer (605-773-3352).

Very truly yours,

for JOHN HATCH, Chief Engineer
Water Rights Division

PIERRE, SOUTH DAKOTA 57501-3181

NOTICE

TO: JERRY L ADRIAN, RT 3 BOX 106, SIOUX FALLS, SD 57101 9620

FROM: Ron Duvall, Natural Resources Engineer
for John Hatch, Chief Engineer
Water Rights Program

SUBJECT: Violation of Water Permit No(s) 4694-3, 1773-3, 2062-3, 2063-3 & 4122-3 and 1995 Irrigation Questionnaire Requirements

Our records indicate that the 1995 Irrigation Questionnaire has not been submitted for Permit No(s) 4694-3, 1773-3, 2062-3, 2063-3 & 4122-3. The request for the Questionnaires was dated October 20, 1995. The Water Management Board has directed that owners of water permits who have not submitted the 1995 Irrigation Questionnaire be given notice of permit violation and a hearing to be held by the Board. The hearing held by the Board will be to determine if Permit No(s) 1773-3, 2062-3, 2063-3 & 4122-3 should be amended to require the Questionnaire to be submitted each year and to determine action to be taken for violation of Water Permit No(s) 4694-3 qualification:

"This permit is approved subject to the Irrigation Water Use Questionnaire being submitted each year."

The hearing will be held at 9:45 am, March 6, 1996 in Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol, Pierre, SD, and will be conducted pursuant to SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to Chapter 1-26. According to SDCL 46-1-12, the Board may suspend a permit for a period of up to one year for the first violation of a permit qualification or up to three years for a second violation, or cancel a permit for a third violation. Following the hearing, the Water Management Board can:

1. Suspend or cancel Permit No(s) 4694-3 in accordance with applicable provisions of SDCL 46-1-12;
2. Amend Permit No(s) 1773-3, 2062-3, 2063-3 & 4122-3 to require the Irrigation Water Use Questionnaire to be submitted each year;
3. Postpone any action or take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

If the questionnaires are received in this office on/or before March 1, 1996, you will no longer be in violation of your permit and your name will be deleted from the Board agenda. If you have questions or need assistance in completion of the irrigation questionnaire(s), please contact Genny McMath (605) 773-3352.

Note: Please contact the Water Rights Program, Joe Foss Building, 523 E Capitol, Pierre, SD (605-773-3352) to assure access to the meeting room for the handicapped or to obtain an interpreter for the hearing impaired.

Water Right/Permit No. 4122-3

Date: 11-4-15

I/We request that Water Right/Permit No. 4122-3 formerly owned by:

Jerry Adrian be transferred to:

New Owner Name:

Address:

City, State, Zip

Weeg Family trust
4504 West 12
Sioux Falls, S.D 57107 Telephone No. 605 3381249

Title to the following described land(s)/property has been transferred as described above:

N. E 1/4 (except tracts sold & Hwy ROW; Sec 34 - T. 99 N. - R. 53 W)
Turner Co. S DAK
Location: SW corner of Hwy 19 & 278th St 146.73
acres

☒ I understand that the validity of Water Right/Permit No. 4122-3 has not been determined by this transfer action. If I have any questions on validity, I understand that only the Water Management Board has the authority to determine if a water right/permit is valid (see note below.)

You are requested to file this "Notice of Transfer" in the appropriate file with the Water Rights Program, as evidence of the change of ownership.

A fee of Fifty Dollars (\$50.00) is included to cover the filing fee as required by SDCL 46-2-13.

I, Donald D. Weeg, the new owner, certify that the above information is true and correct.

Donald D Weeg
(signed by new owner)

NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.
