Well #9.

REPORT OF EXAMINATION OF WORKS
AND/OR APPLICATION OF WATER TO BENEFICIAL USE

TO: WATER RIGHTS, WATER MANAGEMENT BOARD / FOSS BLDG., PIERRE, SOUTH DAKOTA 57501.

I have this day made a thorough examination of the water use system constructed by City of Pierre
 of P.O. Box 1253, Pierre, S.D. 57201 holder
 of Permit No. 4187-3, bearing date of priority of December 1, 1987
 authorizing the diversion of 1.56 cu. ft. per second of the waters of One Well #9.
 for Municipal purposes, in Hughes County.

I have to report on the condition of the same as follows:

The Water Use System consists of,

A. Works used to divert the water:

Motor = G.E. Model. 5K6777 x H 3003A - 100 HP.
1180 RPM.

Pump = Layne #85607

B. Works used to transport water to place of use,

Cast Iron pipe 14" dia

C. Works used to apply water to beneficial use.

City Water System

The system is in the following condition, ExcellentThe point of diversion is located 2970 ft. South of the N $\frac{1}{4}$ Corner
of Sec. 5, T110N R79W.The works are capable of diverting and conveying to the place of use 2.0cu. ft. per second of water which is to be used for Municipal Use

Water has been put to beneficial use to the maximum extent as follows:

comprising a total of _____ acres of land.

Well data.

Depth. 60 ft.

pumping 900 gpm

Capacity 900 gpm

RE: Clarification of Legal Descriptions

COMMENTS:

The Notice of Application No. 6289-3 to Develop Reserved Water for the City of Pierre published March 1 & 8, 2002, also served to clarify the legal description of the wells authorized by Future Use No. 5003-3, Water Right Nos. 4189-3 and 4190-3.

Attached is a copy of the public notice.

Karen Schlaak

Karen Schlaak
Environmental Scientist

No. 4491 2 tdy 3/1, 3/8
NOTICE OF APPLICATION

NO. 6269-3 to

Develop Reserved Water

Notice is given that the City of Pierre, PO Box 1253, Pierre SD 57501 has filed an application for a water permit to construct and place to beneficial use 4.46 cubic feet of water per second (1,600 acre-feet annually) from two wells (Missouri: Pierre Aquifer) 60 feet deep located on LaFramboise Island. The legal description of the wells is the SE 1/4 SW 1/4 Section 27, T5N, R31E from the Stanley County survey (Black Hills Meridian). The original plat survey conducted in the 1890's surveyed LaFramboise Island from the west side of the Missouri River. The wells may also be located from the Hughes County survey (5th Principal Meridian) as being in the NE 1/4 SW 1/4 Section 6, T110N, R79W. This water was, appropriated and reserved by future use Permit No. 5003-3. The water will be used to supply the City of Pierre.

This notice also serves to clarify the legal description of the city's Future Use Permit No. 5003-3 and two existing wells located on LaFramboise Island which are authorized by established water rights.

Future Use Permit No. 5003-3 added LaFramboise Island to the area reserving water from the Missouri Aquifer for future development. This application was originally public noticed in 1998 to include LaFramboise Island and was public noticed as being Sections 34, 35 and 36, all in T5N, R31E. This notice serves to include Section 27, T5N, R31E because a portion of the Island is also located in Section 27.

Water Right Nos. 4189-3 and 4190-3 appropriates 2.00 cfs and 1.56 cfs from two wells on LaFramboise Island located in the SW 1/4 NE 1/4 and the NW 1/4 SE 1/4 Section 6, T110N, R79W based on the Hughes County Survey (5th Principal Meridian). This notice serves to provide the legal descriptions of wells based on the original plat survey (Black Hills Meridian) from the west side of the Missouri River. These existing wells are located in the SW 1/4 SE 1/4 Section 27, T5N, R31E.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 6269-3 because 1) existing rights will not be lawfully impaired, 2) it is a beneficial use of water, and 3) it is in the public interest. In accordance with SDCL 46-2A-23, the Chief Engineer will act on the application, as recommended, unless a petition is filed opposing the application or the applicant files a petition contesting the Chief Engineer's recommendation. If a petition opposing the applicant or contesting the recommendation is filed, then a hearing will be scheduled and the Water Management Board will consider the application. Notice of the hearing will be given to the applicant and any person filing a petition.

Any person interested in opposing or supporting this application or recommendation must file a written petition with BOTH the applicant and Chief Engineer. The applicant must file a petition if contesting the Chief Engineer's recommendation. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E. Capitol, Pierre, SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by March 18, 2002.

The petition may be informal, but must include a statement describing the petitioner's interest in the application, the petitioner's reasons for opposing or supporting the application, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained. Contact Eric Gronlund at the above Water Rights Program address to request copies of information pertaining to this application.
