6. ☐ Deep tillage (For the purpose of aiding movement of water through dense subsoils)
 7. ☐ Heavy full application of irrigation water

Your quarter (NE 22-126-63 apparently is rather flat as the soils map shows several spots subject to wetness, 2 or 3 closed depressions, and a wetland area. To alleviate crop drowning and trafficability problems of your pivot in future years, it would be well instrument the extent of these flat spots and/or depressions and to surface drain selected areas that may be practical to drain. This not only will give you a better over-all crop production record, but will act as a tool for you in deciding the size of your system in relation to your production well capacity.

Patricia Ronning & J. Hurrell

Columbia, SD 57433

Dear Ms. Ronning & Mr. Hurrell:

On October 6, 1988, the Water Management Board adopted rules to implement a 1988 law for application of chemicals through irrigation systems. The rules establish equipment standards, performance standards and installation requirements for irrigation systems that apply chemicals (fertilizers, insecticides, or herbicides) with irrigation water.

You have indicated on your 1988 Water Management Board Irrigation Questionnaire that you do apply chemicals with irrigation water. A copy of the new rules for chemigation are enclosed for your information.

The new standards include:

- * a check valve between the irrigation pump and the point of chemical injection;
- * a vacuum relief valve on top of the pipeline between the irrigation pump and the irrigation pipeline check valve;
- * a low-pressure drain on the bottom of the pipeline between the irrigation pump and the irrigation pipeline check valve;
- * a chemical injection line check valve between the chemical injection pump and the point at which the chemical is injected into the irrigation line; a second check valve is required if the chemical injection pump is not a positive displacement pump;
- * an interlock system which ensures that the chemical injection pump will stop whenever the irrigation pump stops;
- * an inspection port between the irrigation pump and the check valve on the irrigation line;

Each of these equipment requirements are discussed more thoroughly in Sections 74:02:09:05 through 74:02:09:10 of the enclosed rules. Appendix A contains diagrams of the arrangements of these anti-pollution devices.

The equipment must be installed according to the manufacturer's specifications, calibrated, and maintained in good working condition. All chemical product labels must be followed and warning signs must be posted. These rules also require reporting of all spills, accidents, and system malfunctions. A 24-hour telephone number is provided.

The chemigation rules contain notification and record keeping requirements. Prior to using chemigation, notification must be given to the Chief Engineer on the enclosed Form 1C. Information that must be provided in this notification includes the water permit or right number, the name, address, and telephone number of the water permit or right holder and of the system operator, and the legal description of the lands on which the system is located. A record of the name, quantity, dates and hours of each chemical applied must be provided to the Chief Engineer on Form 2C. A copy of this form is also enclosed for your information. It will be mailed with the annual irrigation questionnaire and must be returned with the questionnaire by the date specified. If you have any questions regarding these rules or need additional copies of the forms, please contact Susan Bowar, Water Rights Engineer (605-773-3352).

Dear Mr. & Mrs. Ronning:

I am writing to acknowledge receipt of your 1994 irrigation questionnaires. The questionnaires were completed for you following my telephone conversation with Martin on February 16, 1995. You may disregard the February 7, 1995, **Notice of Violation of Water Permit Nos. 4017-3 and 4257-3.**

The questionnaires were received in our office prior to the Water Management Board meeting and your names have been deleted from the agenda.

During our telephone conversation, you inquired as to the status of licensing on Water Permit No. 4257-3, listed in the name of Patricia Ronning. You were correct when remembering that both Water Permit No. 4017-3 and 4257-3 were inspected at the same time. The license for No. 4257-3 is still on hold due to lack of a well completion report. We are not sure if Kaiser Drilling or Huron Drilling drilled the well, and have not been able to obtain a log. If you have a copy of the log or are able to obtain one from the driller, please forward a copy of it to our office.

We have received your \$50.00 fee for inspection and licensing of No. 4017-3. The license will be processed and forwarded to you soon.

If you have any questions, please contact me.

Sincerely,

Genny McMath

SUBJECT: Violation of Water Permit No(s) 4257-3

Our records indicate that the 1995 Irrigation Questionnaire has not been submitted for Permit No(s) 4257-3. The request for the Questionnaire was dated October 20, 1995. The Water Management Board has directed that owners of water permits who have not submitted the 1995 Irrigation Questionnaire be given notice of permit violation and a hearing to be held by the Board. The hearing held by the Board will determine the action to be taken for violation of Water Permit No(s) 4257-3 qualification:

"This permit is approved subject to the Irrigation Water Use Questionnaire being submitted each year."

The hearing will be held at 9:45 am, March 6, 1996 in the Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol, Pierre, SD. and will be conducted pursuant to SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to Chapter 1-26. According to SDCL 46-1-12, the Board may suspend a permit for a period of up to one year for the first violation of a permit qualification or up to three years for a second violation, or cancel a permit for a third violation. Following the hearing, the Water Management Board can:

1. Suspend or cancel Permit No(s) 4257-3 in accordance with applicable provisions of SDCL 46-1-12;
2. Postpone any action; or
3. Take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

If the questionnaire(s) is(are) received in this office on/or before March 1, 1996, you will no longer be in violation of your permit and your name will be deleted from the Board agenda. If you have questions or need assistance in completion of the irrigation questionnaire(s), please contact Genny McMath at (605) 773-3352.

NOTE: Please contact the Water Rights Program, Joe Foss Building, 523 E Capitol, Pierre, SD (605-773-3352) to assure access to the meeting room for the handicapped or to obtain an interpreter for the hearing impaired.

RE: Transfer of Ownership

I talked to both Patrica Ronning and Martin Ronning today about Water Permit No. 4257-3. They said they think the irrigation well located in the SE 1/4 NW 1/4 of Sec. 22-T126N-R63W was drilling by Kaiser Well Drilling and had no well logs available. They also said that Water Permit No. 4257-3 should be transferred to Martin, Patrica & Jim (son) Ronning.

Dear Ms. Ronning & Ms. Hurrell:

Enclosed is Water License No. 4257-3. This is the final water right document completing your process of obtaining a water right. Also enclosed is Receipt No. 414849 in the amount of \$50.00 which you paid for the investigation and issuance of the water license.

During the 1995 investigation of your water use system, you indicated to the staff engineer that you wished to have the water permit transferred from Patricia Ronning & Jeanette Hurrell to Patricia, Martin and Jim Ronning. Transfer forms were forwarded to you December 4, 1995 and April 1, 1996, but to date we have not received them back from you. The water license has been issued and if you still desire to transfer the water right, forms are available from our office.

For your information, SDCL 46-5-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 4257-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any flowing well that is being used or is not considered abandoned, must be valved and controlled, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to the use of the water. If you have any question, please contact us.

Very truly yours,

Dear Mr. Ronning:

Thank you for sending in the 2022 irrigation questionnaires for Water Right Nos. 4017-3 and 4257-3. When processing the forms, I realized the water rights are still listed under Martin Ronning. If you now own the land; if it's in a trust; LLC or other entity, the water rights should be transferred to reflect current ownership.

Enclosed are partially completed "Notice of Transfer of Ownership" forms for use in filing ownership changes. Please review and complete as needed. Upon completion, please sign and return the forms to our office with a required filing fee of \$50 each (total of \$100). The check or money order for the fee can be made payable to the Water Rights Program.

If I can answer any questions for you, please let me know.

Sincerely,

Genny McMath

Dear Mr. Ronning:

It is the understanding of our office that the ownership of the land authorized in Water Right Nos. 4017-3 and 4257-3 has changed. In January of this year, we sent you a set of partially completed "Transfer of Ownership" forms. To this date, no response has been received.

If you own the land; if it's in a trust, LLC, or other entity, the water rights should be transferred to reflect the current ownership.

Enclosed are partially completed forms for ownership changes. Please review and complete as needed. Upon completion, please sign and return the forms to our office with the required filing fees of \$50.00 each (total of \$100.00). A check or money order can be made payable to South Dakota Water Rights Program.

If you have any questions or concerns, please let me know.

Sincerely,

Dear Mr. Ronning:

Hello Jim, we spoke on the phone today and you stated that you now own both Water Rights, 4257-3 and 4017-3. In January 2026, I sent you the Transfer of Ownership for Water Right No. 4017-3. You did fill it out and returned it to me, so I have 4017-3 already to go, but the \$50.00 transfer fee wasn't sent with the Transfer of Ownership.

I am now sending you the Transfer of Ownership for the other Water Right, 4257-3, since you stated that you also own this. Please fill out this transfer of ownership and return the form with a check for \$100.00 (\$50.00 each), made payable to "SD Water Rights Program" to cover both transfer fees. I have a return envelope enclosed for your convenience. If you would rather pay by card, you may call our Fiscal Office at 605.773.5559.

This Transfer of Ownership form for 4257-3, will still need to be mailed to me even if you decide to pay for them over the phone.

If you have any questions or concerns, please give me a call. My direct number is 605.773.8204

Sincerely,

Dear Mr. Ronning:

The South Dakota Water Rights Program is in receipt of the "Notice of Transfer of Ownership" forms and the required fees you submitted for Water Right Nos. 4257-3 & 4017-3. Enclosed are the receipts of payments for your records.

Water Right Nos. 4257-3 & 4017-3, previously held by Martin Ronning, are now listed under your name. I have also updated your contact information in our system.

As a reminder, so long as you use the water beneficially, as stated in the Permit/License (copies enclosed), State Water Laws provide that you have a continuing right to use the water. Should the water not be put to beneficial use for a period longer than 3 consecutive years, without legal excuse, the Permit/License will be subject to cancellation.

If you have any questions, please contact me.

Sincerely,

Shannon Konst
