

STATE OF SOUTH DAKOTA
 REISSUED WATER LICENSE NO. 4280B-3
 DIVISION OF NO. 4280-3 INTO NO. 4280A-3 AND 4280B-3

(1) The City of Hartford, 125 N Main Avenue, Hartford SD 57033-0393 was issued Water License No. 4280-3, November 5, 1986 for a right to appropriate 0.77 cubic feet of water per second (cfs) from groundwater (three wells), Minnehaha County, South Dakota, for municipal use purposes. Water Right No. 4280-3 with priority dates of January 1, 1912, January 1, 1922 and April 26, 1978 was issued to the City for diversion of water with construction of the described water supply system completed and the application to beneficial use of said water completed.

On March 6, 1996, the Water Management Board validated the vested right portion of No. 4280-3. Water License No. 4280-3 is being divided and reissued and will separate the vested right portion from the water right as follows:

Vested Water Right No. 4280A-3 - authorizing diversion of 0.43 cfs of water from two wells. Well No. 1 (0.16 cfs) has a priority date of January 1, 1912. Well No. 2 - (0.27 cfs) has a priority date of January 1, 1922. Both wells are located in the NW 1/4 SW 1/4 Section 22-T102N-R51W.

Water Right No. 4280B-3 - authorizing diversion of 0.34 cfs of water from Well No. 3 with a priority date of April 26, 1978 and is located in the SW 1/4 NW 1/4 Section 22-T102N-R51W.

The City of Hartford is connected with the Minnehaha Rural Water System. The three wells are maintained for standby purposes.

(2) The water right owner is entitled to divert 0.34 cubic feet of water per second for beneficial use. The location of the diversion point is: Well No. 3 - 950 feet east and 300 feet north from the W 1/4 corner of Section 22-T102N-R51W (SW 1/4 NW 1/4)

(3) Pursuant to Section 46-5-30.1 City of Hartford, 125 N Main Avenue, Hartford SD 57033-0393 the holder and/or owner of Water Right No. 4280B-3 is issued a license to appropriate 0.34 cubic feet of water per second from groundwater (one well) with a priority date of April 26, 1978 from the location specified in (2) of this license. The water is to be used for the purpose of municipal use. This license is subject to any limitations, conditions or qualifications listed in Water Right No. 4280B-3 and subject to South Dakota State Law.

RE: Investigation of Vested Portions of Water Right No. 4280-3

COMMENTS:

On September 26, 1995, I completed an investigation of Water Right No. 4280-3. The purpose of the investigation was to determine whether the vested portion of the water right was still in use prior to separating vested and nonvested portions of the water license.

INVESTIGATION RESULTS:

Brian Woessner, Utilities Manager, informed me that the city hooked to Minnehaha Rural Water about 3 years ago. The three wells (two vested, one nonvested) authorized by No. 4280-3 are now maintained for standby purposes. According to Mr. Woessner, the wells can be brought on-line by manipulating a couple of valves and electrical switches. Mr. Woessner also was not aware of any changes made to the pumping equipment since the last investigation completed in 1985.

The publication notice for validation of vested portions of No. 4280-3 and the original publication notice for Application No. 4280-3 both contained errors regarding the location of the three wells. The correct locations of the wells are identified on the city plat map filed with the original application. Based on my investigation, the wells are all located from the W $\frac{1}{4}$ corner in section 22-T102N-R51W as follows:

Well Location	Priority/Appropriation
Well No. 1: 1,000 feet E and 100 feet S (NW $\frac{1}{4}$ SW $\frac{1}{4}$)	January 1, 1912 -- 0.16 cfs
Well No. 2: 1,100 feet E and 50 feet S (NW $\frac{1}{4}$ SW $\frac{1}{4}$)	January 1, 1922 -- 0.27 cfs
Well No. 3: 950 feet E and 300 feet N (SW $\frac{1}{4}$ NW $\frac{1}{4}$)	April 26, 1978 -- 0.34 cfs

RECOMMENDED ACTION:

The correct location of all the diversion points needs to be readvertised. Following readvertisement and validation of vested portions of No. 4280-3, the vested and nonvested portions can be separated into two water licenses.

Cecile Binkerd, Finance Officer
City of Hartford
125 N Main Avenue
Hartford SD 57033-0393

Dear Ms. Binkerd:

The Water Management Board has validated the enclosed Vested Water Right No. 4280-3. This validation gives legal status to the claim and is the final document for the City's vested water rights.

Also, enclosed are Reissued Vested Water Right License No. 4280A-3 and Reissued Water License No. 4280B-3. The original water license was divided and reissued to separate the vested right portion from the water right.

It is our understanding that the City of Hartford is connected to the Minnehaha Rural Water System and the three wells are maintained for standby purposes. As long as you use the water beneficially, as stated in the licenses, State Water Laws provide that you have a continuing right to use the water.

Very truly yours,

JOHN HATCH, Chief Engineer

2000 South Dakota Water Use Questionnaire

To:

Address correction requested:

TOWN OF HARTFORD
125 N MAIN AVE
HARTFORD SD 57033 0393

One questionnaire is being provided for each permitted water source. The following information is based on Water Permit/Right No. 4280B-3. If you have other permits/rights in the same water source, also include water use under those permits/rights on this questionnaire.

Water Source: GROUNDWATER
Aquifer: SIOUX QUARTZITE
Management Unit: NOT APPLICABLE

County: MINNEHAHA
Pumping Pt. Legal: SEC 22-T102N-R51W
Type of Water Use: MUNICIPAL

- 1) Please estimate your year 2000 water use from the above water source: 0 gallons
2) If no water use in 2000, please list the reason(s) why in the comments section.

Comments:

Used only for back up source and
fire emergencies since the city is
served by Minnehaha Rural Water

RE: Use of water for ball fields in the city

Public Works Director Craig Wagner (605 528-6509 or cell 605 366-6115) contacted the Water Rights Program regarding using a city well for watering the city's ball fields. At this point it is just an alternative the city is investigating. His inquiry was in regards to whether water right permitting may be necessary.

The city of Hartford holds Vested Right No. 4280A-3 appropriating 0.43 cfs from two wells and Water Right No. 4280B-3 appropriating 0.34 cfs from one well. The water licenses indicate that the city is served by Minnehaha Community Water Corporation and the city wells are for standby purposes. Mr. Wagner stated that the city now only maintains one well and the other two have been abandoned. He indicated that the 1978 well is the well still in place which would match with Water Right No. 4280B-3.

I informed him that ARSD 74:02:01:37.02 provides an exception to nonuse for water sources maintained for standby purposes if the works are maintained in working condition for use upon demand. Since the water use on the water right is listed as municipal there is a great amount of flexibility afforded a city for what it may use the water. Commonly municipality serve domestic, commercial, industrial use and irrigation of lawns, parks and landscaping within the city. Certainly supplying water turf in a park or ball fields falls within the scope of municipal use. Therefore, no additional water permitting will be necessary as long as the well has been maintained in working order and the diversion rate listed on the permit is not exceeded.
