With the following modifications

The irrigation well approved under this Permit will be located near domestic wells and other irrigation wells which may obtain water from the same aquifer. The irrigation well owner, under this Permit, shall control his irrigation withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in irrigation wells having prior water rights.

Land covered under this Permit is also covered under Permit No. 3415-3. Combinations of diversions under the two permits shall not exceed the Statutory limit of 1 c.f.s. for each 70 acres of land to be irrigated.

WATER RIGHT PERMIT NO. 4308-3

The Water Rights Commission hereby grants and issues this Water Right Permit No. 4308-3 authorizing the construction of the water use system and the putting of water to beneficial use as stated in the Application and as modified in the Water Right Application approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim right is DECEMBER 13, 1976
JULY 24, 19 78
2. The equivalent of at least one-fifth of the work above specified is to be completed on or before JULY 31, 19 81
3. The whole of said work is to be completed on or before JANUARY 31, 19 84
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is JANUARY 31, 19 86
5. The water appropriated shall be used for the purpose of IRRIGATION

6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.

7. The amount of the appropriation herein granted shall not exceed NO ADDITIONAL cubic feet per second; neither shall it exceed the capacity of the above described water supply system, nor shall it exceed the amount of water needed for beneficial uses served, and if for the irrigation purposes said appropriation must be limited to not more than 3 acre feet per acre per year and be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is actually and beneficially applied for irrigation on or before JANUARY 31, 19 86; said water to be used during the following described annual period: APRIL - OCTOBER

TO: Holders of Deferred Applications in Certain Aquifers in Spink, Hand and Beadle Counties

FROM: John Hatch, Chief Engineer, Water Rights Commission

SUBJECT: Reconsideration of Deferred Applications

The Water Rights Commission will reconsider deferred water right applications proposing diversions from the Tulare, Hitchcock, and East James aquifers in Spink, Hand and Beadle counties at 4:00 p.m., January 31, 1979 at the South Dakota Education Association Building, 411 E. Capitol, Pierre, South Dakota.

This reconsideration hearing will be conducted in accordance with the provisions of SDCL 46-1-1 thru 46-1-8; 46-2-9 thru 46-2-11, 46-2-13; 46-5-1 thru 46-5-8, 46-5-10 thru 46-5-22, 46-5-41; 46-6-3, 46-6-5, 46-6-6.1, 46-6-10, 46-6-14 and Commission Rules ARSD 52:01:01:01 thru 52:01:01:13.

These applications were deferred by the Water Rights Commission during 1977 and 1978, pending Staff investigation.

After reconsideration of the deferred applications, the Commission can approve, defer, or deny all or part of these applications.

This hearing is an adversary proceeding. Any person has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised at the hearing. Decisions of the Commission may be appealed to the courts as provided by law.

Dear Mr. Wieting:

SDCL 46-1-14 authorizes the Water Rights Commission to issue amended permits recognizing the date of priority of the original application if certain conditions are met.

At the May 24, 1979 Commission Meeting, the Commission reviewed the amended Permits that had been issued with the later priority, and granted the earlier priority date to such amended permits.

By this action, the priority date for your Permit No. 4308-3 was established as December 13, 1976 instead of July 24, 1978 as now shows on your copy of the Permit.

If you have questions regarding this action, feel free to contact this office.

Very truly yours,

Date _____

TO: Water Rights Commission
Joe Foss Building
Pierre, South Dakota 57501

Dear Sirs:

This is to inform you that I have completed the construction of the water diversion system and/or that I have put the water to beneficial use to the maximum extent it is going to be used, not exceeding the amounts as specified in Water Right Permit No. 4308-3

Water Right Permit No. 4308-3 states that the diversion system is to be constructed by January 31, 1984 and that the water is to be put to beneficial use by January 31, 1986.

The diversion system was completed on May, 1979.
Applying the water to beneficial use was completed on January 31, 1979.

You may schedule an inspection so that the Certificate of Construction and/or the Water License may be issued, thus completing my acquisition of a water right.

Dear Mr. Wieting:

The inspection of your water use system and inspection of the extent of the application of water to beneficial use, as developed under your Water Right No. 4308-3 has been completed. Your final water right document, the Water License, can now be issued.

Statutes require that we charge a \$50.00 fee for the inspection and issuing of the Water License. Upon receipt of the \$50.00 fee from you, your Water License will be sent to you.

South Dakota Water Law 46-5-30.1 requires that a permit holder may not divert water until this \$50.00 license fee has been paid. Please contact us if you have any questions.

Sincerely,

Maxine Stirling

Dear Mr. Wieting:

On April 7, 1987, I stopped at your home and visited with you about your water permits (3415-3 and 4308-3). Everything seemed to be in order, except for a twenty acre section in the NE1/4 SE1/4 of Section 20, T113N, R62W.

You indicated that you have irrigated this land in the past, however, this acreage is not covered in either one of your permits. I have completed a new permit application to cover this land. There is a \$150.00 fee required to process the application.

You must also apply for soil/water compatibility for the acreage. Once again, I have partially completed the application for you. The completed soil/water application, along with your water sample, should be sent to Brookings.

Please review the applications, make any additions or corrections, and sign them. The permit application and fee should be returned to our office. If you have any questions, please contact our office.

Permit No. 4308-3

NOTICE OF WATER LICENSE INSPECTION FEE REQUIREMENT

Melvin G. Wieting
Rt 1, Box 121
Mitchcock SD 57348

Dear Mr. Wieting:

September 2, 1987 you were notified the final inspection fee of \$50.00 is due before Water License No. 4308-3 can be issued. As of this date, the fee has not been received.

The fee is a final step in the legal process of obtaining and perfecting a water right and is required by SDCL 46-2-13(3). Upon receipt of the \$50.00 fee, your Water License will be sent to you. This is the final document for the perfection of your Water Right. A perfected water right is similar to a property right and once a water right is perfected, it cannot be lost as long as the water is used.

South Dakota Water Law 46-5-30.1 requires that a permit holder may not divert water until the License fee has been paid. Please submit the required fee immediately to avoid jeopardizing your water permit.

State of South Dakota
Water License No. 4308-3

(1) Melvin G. Wieting
of RR 1, Box 121, Hitchcock, South Dakota 57342
made Application No. 4308-3, January 30, 1978 for a water permit to appropriate
No add'l cubic feet per second of water from groundwater (one well)
Beadle County, South Dakota for irrigation purposes.
Permit No. 4308-3, with a priority date of December 13, 1976
was approved January 31, 1979 and issued to applicant(s) for diversion of water with construction of the described
water supply system to be completed on or before January 31, 1984 and for the application to beneficial use of said
water on or before January 31, 1986.

Water Permit No. 4308-3, as approved, authorized an additional point of diversion to
irrigate lands covered under Water Permit No. 3415-3. Permit No. 4308-3 did not
authorize an increase in water appropriated or lands irrigated.

The applicable portions of Water Permit No. 3415-3 have been incorporated into Water
License No. 4308-3.

and

(2) It is certified that the applicant has complied with the provisions of South Dakota State Law relating to completion of
the construction of the water supply system and is entitled to divert 1.40 cubic feet per second of water
for beneficial use. The location of the diversion point(s) are North well - 1980' South and 1250'
East of the NW Corner Section 21 (SW1/4NW1/4); South well - 1940' North and 1250' East of the
SW Corner Section 21 (NW1/4SW1/4); both in T113N, R62W.

and

(3) The applicant has complied with the provisions of South Dakota State Law relating to the application of water to beneficial use to the following extent, irrigate the following land in T113N, R62W

Dear Mr. Wieting:

Inclosed is Water License No. 4308-3. This is the final water right document completing your process of obtaining a Water Right.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 4308-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Division

NOTICE

RE: Violation of Requirement to Submit 1993 Irrigation Questionnaire

Our records indicate that the 1993 Irrigation Questionnaire has not been submitted for Permit No(s) 4308-3. The request for the Questionnaire was dated October 18, 1993. The Water Management Board has directed that owners of water permits who have not submitted the 1993 Irrigation Questionnaire be given notice of hearing to determine if any Board action is to be taken concerning the violation.

The hearing will be held at 8:45 am, April 6, 1994, at the Golden Hills Resort, 900 Miners Ave, Lead, SD, and will be conducted pursuant to SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to SDCL 1-26. Following the hearing, the Water Management Board can:

1. Amend Permit No(s) 4308-3 to require the Irrigation Water Use Questionnaire to be submitted each year;
2. Postpone any action; or
3. Take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

If the questionnaire(s) is(are) received in this office on/or before April 1, 1994, your name will be deleted from the Board agenda.

Very truly yours,

Ron Duvall, Natural Resources Engineer IV
Water Rights Division

Dear Mr. Eddy:

Enclosed is a copy of Water Right No. 4308-3, currently listed in the name of Melvin G Wieting. I included a copy of the map and well logs.

I reviewed the file I spoke with you about for George Herrold in Section 17. It does not match the legal description you inquired about. My understanding is that you were interested in the SW 1/4 Section 17, T96N, R65W (irrigated from the Missouri River). The land for Mr. Herrold is in the N 1/2 Section 17 and the SE 1/4 Section 8, T96N, R65W and is irrigated from a well (see enclosed map and water license).

I will continue to look for information concerning Elmer Gruhn and mail it out to you under separate cover. If you have any questions, please contact me.

Terry Wieting
39512 193rd St
Hitchcock SD 57348

Dear Mr. Wieting:

I am writing in regard to the request to construct an additional well to the two wells currently authorized by Water Right No. 4308-3.

Water Permit No. 4308-3, held in the name of Melvin Wieting, appropriates 1.44 cubic feet of water per second (646 gpm) from two wells (Tulare:Hitchcock Aquifer) located in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 21 to irrigate 184 acres in the NW $\frac{1}{4}$ and N $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 21; all in T113N, R62W.

You are requesting authorization for an additional well to bring production up to the authorized amount. The new well will be located in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 21, T113N, R62W and will be constructed into the same aquifer as the existing wells. No additional water will be appropriated.

Upon review of the request and pursuant to SDCL 46-5-13.1, the additional well is authorized without application or publication of a notice of hearing pursuant to SDCL 46-2A-4. The Tulare:Hitchcock Aquifer is considered fully appropriated and an increase in the diversion rate above 646 gpm is not allowed.

Your letter indicates that if the new well produces enough water that you may eliminate one of the existing wells. If one of the wells is permanently abandoned, the well should be plugged in accordance with SD well construction standards. If the well will be used for monitoring purposes or is not being permanently abandoned then the well must be sealed with a watertight cap.

Finally, if you now own this land instead of Melvin Wieting, the water right should be transferred to your name.

If you have any questions, please contact Eric Gronlund at (605) 773-3352.

Sincerely,

Garland Erbele, Chief Engineer
Water Rights Program

Approval of Additional Diversion Point

NAME: Melvin Wieting
ADDRESS: 19312 396th Avenue, Hitchcock SD 57348-8017
DATE: February 3, 2004 **COUNTY:** Beadle **TELEPHONE:** 266-2881 (Terry Wieting)

Terry Wieting, on behalf of Melvin Wieting has made a request to construct an additional well for irrigation of land under Water Right No. 4308-3.

Water Right No. 4308-3 appropriates 1.44 cfs (646 gpm) from two wells (Hitchcock Management Unit of the Tulare Aquifer) located in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 21 to irrigate 184 acres in the NW $\frac{1}{4}$ and N $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 21; all in T113N, R62W.

The request states the two wells are 30 years old and getting slow. They would like to drill a new well and if it supplies enough water they may eliminate one of the old wells. They need about 0.45 cfs (200 gpm) to bring production up to the permitted amount of 1.44 cfs (646 gpm).

AUTHORITY:

Pursuant to SDCL 46-5-13.1, the location of a diversion point may be changed or additional diversion points may be licensed provided the following conditions are met and the potential for interference with other existing diversions is not increased:

- **Developed water source same as permitted source and no additional water appropriated**

The water source remains the Hitchcock Management Unit of the Tulare Aquifer. The request indicates the additional well is intended to supply 0.45 cfs which is necessary to bring production up to the permitted amount of 1.44 cfs. No additional water is to be appropriated by this request.

- **If irrigation, no new land is irrigated**

No additional land is to be irrigated. This request is solely to authorize an additional well to bring production back up to the authorized amount of 1.44 cfs.

- **Review of Existing Diversions**

A review of diversions within a one mile radius of the additional well was conducted. There are four water rights within this area. They are: Water Right No. 2476-3 (Melvin Puffer) located in the NE $\frac{1}{4}$ Section 20, Water Right No. 4350-3 (Melvin Puffer) located in the SE $\frac{1}{4}$ Section 17, Water Right No. 6159-3 (Melvin Wieting) located in the SW $\frac{1}{4}$ Section 17 and Water Permit No. 6240-3, (Terry Wieting) located in the NW $\frac{1}{4}$ Section 27. There are a number of water rights to the north and east of Water Right No. 4308-3 that are within 2 miles of the proposed additional well.

A review of the well log database was also conducted in neighboring sections. Four domestic wells were found. Only one of these wells was constructed into the Tulare Aquifer while the other three are deeper Dakota Formation wells. This domestic well in the same formation is located in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 28.

Authorizing this additional diversion point will not adversely affect area wells. This request will not increase the current diversion rate and is solely to allow the water right holder to bring production up to the authorized amount.

continued

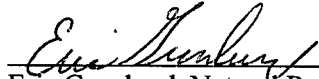

ADDITIONAL REVIEW

The Tulare:Hitchcock Aquifer has been deemed fully appropriated by the Water Management Board. The Board in December 2002 deferred a number of applications from this aquifer for a period of five years. This five year period was given because there are undeveloped and newly issued permits which the extent they are developed could affect water availability from the aquifer. This request is not for additional water or irrigated acreage, therefore, it can be processed under SDCL 46-5-13.1 as long as the potential for interference with other existing diversions is not increased.

The past 3 years of irrigation questionnaires were also reviewed. Irrigation was reported each of these years. The amount of acres irrigated was listed between 128 – 130 acres will the diversion rate is listed between 600 - 650 gpm. In the future, the water right may need to be reviewed and relicensed since only 130 of the 184 authorized acres are reported as being irrigated.

RECOMMENDED ACTION

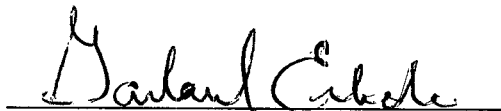

Based on the above criteria, it is recommended that the diversion point(s) be licensed as developed.

Eric Gronlund, Natural Resources Engineer
Water Rights Program

The Chief Engineer makes a finding pursuant SDCL 46-5-13.1 and ARSD 74:02:01:14.01 that:

This change in location and/or additional diversion point(s) does not increase the potential for adverse effects to existing diversions.

Dear Mr. Wieting:

I am writing in regard to a well driller's report filed by Pullman Well Drilling. The report shows a new well was completed for irrigation on April 26, 2004. A review of our files indicates that you hold Water Right No. 4308-3 for 650 gallons per minute (gpm) from two wells, approximately 61 and 74 feet deep located in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 21-T113N-R62W to irrigate 184 acres.

South Dakota Codified Law 46-5-13.1 provides that a point of diversion may be changed or additional points of diversion may be approved without application or publication of a notice of hearing if the additional point of diversion is from the same source of water, no additional water is appropriated and the Chief Engineer makes a finding that the change does not increase the potential for interference with existing diversions.

Mr. Wieting, is this a replacement well or an additional well for the existing irrigation? If this is a replacement well or additional well, we will need to know if the well exceeds the peak diversion rate authorized by the permit.

If you have any questions, please contact Eric Gronlund or me. We will be happy to assist you in any way possible.

Sincerely,

Karen Schlaak

Regarding this letter. I talked w/
Eric about this and Ron. I applied
for a permit to either add a 3rd well
or replace one well to get my
gallons per minute back to 600 to 650
I just add a well that pumps about
100 gpm to get me to where I am
permitted. The other wells are 30 years
old and just are not producing the same.

Doing it this way was more cost effective cause it is a lot cheaper to dig a small well. If you have any questions I can be reached at 350-5142.

Thanks.

Dear Mr. Wieting:

Thank you for the return of the 2010 irrigation questionnaires and also for the notation concerning the need for ownership changes on Water Right Nos. 4308-3 and 6159-3.

Enclosed are partially completed Notice of Transfer of Ownership forms for filing the ownership changes. Please review the forms and make any necessary corrections. Upon completion, please sign the forms and return them to our office with a required filing fee of \$50.00 each (\$100.00 total). The check or money order for the fee can be made payable to the Water Rights Program.

If you have any questions, please contact me.

Sincerely,

A handwritten signature in cursive script that reads 'Genny McMath'.

NOTICE OF TRANSFER OF OWNERSHIP

RECEIVED

JAN 20 2011

WATER RIGHTS
PROGRAM

To: Chief Engineer
Water Rights Program, DENR
523 E. Capitol
Pierre, SD 57501-3181

No. 4308-3

Date: 1-18-11

I/We request that Water Right No. 4308-3

formerly owned by: Melvin G Wieting

be transferred to: (name & address) Terry Wieting

870 Beach Ave NE
Huron, SD 57350 Telephone No. 534-0207

Title to the following described land(s)/property has been transferred as described above:

184 acres - NW ¼ and N ½ SW ¼ Section 21, T113N, R62W

I/We understand that the validity of Water Right No. 4308-3 has not been determined by this transfer action. If I/We have any questions on validity, I/We understand that only the Water Management Board has the authority to determine if a water permit/right is valid (see note).

You are requested to file this "Notice of Transfer" in the appropriate file with the Water Rights Program, as evidence of the change of ownership.

A fee of Fifty Dollars (\$50.00) is required to cover the filing fees as required under SDCL 46-2-13. This form must be signed by the new owner.

I/We Terry Wieting, the new owner, certify that the above information is true and correct.

(Signed by new owner)

NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.
