

STATE OF SOUTH DAKOTA
REISSUED WATER LICENSE NO. 4363B-3
DIVISION OF NO. 4363-3 INTO 4363A-3 AND 4363B-3

(1) John Hovey, Bruce SD was issued Water License No. 4363-3, October 22, 1980 for a water right to divert 1.33 cubic feet of water per second (cfs) from groundwater (one well), Brookings County, South Dakota for irrigation purposes. Water Right No. 4363-3, with a priority date of December 15, 1978 was issued to the permit holder for diversion of water with construction of the described water supply system and the application to beneficial use of water completed.

Due to ownership changes, the water right is being divided and reissued to reflect separate ownership.

- No. 4363A-3 – Jay A. Peterson, 7233 Babiloia St, LaCosta CA 92009: authorizing diversion of 0.78 cfs (approximately 350 gpm) from a well in the SW ¼ Section 5 to irrigate 135 acres in the SW ¼ Section 5-T112N-R50W.
- No. 4363B-3 – G & H Farms LLC, c/o Tim Gutormson, 236 32nd Ave, Brookings SD 57006: authorizing diversion of 0.55 cfs (approximately 250 gpm) from a well in the SW ¼ Section 5 to irrigate 95 acres in the SE ¼ Section 5-T112N-R50W.

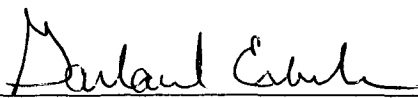

(2) The water supply system has been completed and water applied to beneficial use in accordance with South Dakota State Law. Pursuant to South Dakota Codified Law 46-5-30.1, the holder and/or owner of Water Right No. 4363B-3 is issued a license, bearing a priority date of December 15, 1978 to appropriate 0.55 cubic feet of water per second from groundwater (one well) to irrigate 95 acres.

The diversion point is located: approximate center of the SW ¼ Section 5-T112N-R50W. The acres authorized for irrigation are as follows:

Section 5-T112N-R50W	NW ¼ SE ¼	25 acres	SW ¼ SE ¼	34 acres
	NE ¼ SE ¼	5 acres	SE ¼ SE ¼	31 acres
Total 95 acres				

(3) This license is subject to South Dakota Water Law, any limitations or conditions listed in Water Permit No. 4363-3 including the following now applicable qualifications:

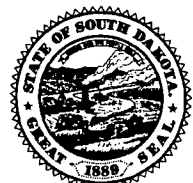

- The irrigation well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The irrigation well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.

Dear Mr. Gutormson:

I am writing in follow-up to our phone conversation about land authorized for irrigation under Water Right No. 4363-3. The water right, currently held by John Hovey authorizes diversion of 1.33 cubic feet of water per second (600 gpm) from a well in the center of the SW $\frac{1}{4}$ Section 5 to irrigate 230 acres in the S $\frac{1}{2}$ Section 5, T112N, R50W. Enclosed is a copy of the water right for your review.

It is my understanding that Jay Peterson purchased the SW $\frac{1}{4}$ of the section and G & H Farms purchased the SE $\frac{1}{4}$ of Section 5. In order to reflect correct ownership, the water right will need to be transferred and then divided and reissued into two separate water rights. The division will tentatively be as follows:

- **No. 4363A-3: Jay Peterson**, authorizing diversion of 0.78 cubic feet of water per second (approximately 350 gpm) from a well in the SW $\frac{1}{4}$ Section 5 to irrigate 135 acres in the SW $\frac{1}{4}$ Section 5, T112N, R50W;
- **No. 4363B-3: G & H Farms**, authorizing diversion of 0.55 cubic feet of water per second (approximately 250 gpm) from a well in the SW $\frac{1}{4}$ Section 5 to irrigate 95 acres in the SE $\frac{1}{4}$ Section 5, T112N, R50W.

Enclosed is a partially completed Notice of Transfer of Ownership form for filing an ownership change. Please review the form and make any necessary corrections. Upon completion, please sign the form and return it to our office with a required filing fee of \$2.50. The check or money order for the fee can be made payable to the Water Rights Program.

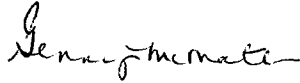

One issue that needs to be worked out is the location of the well. I highlighted the area on the map showing the well as it existed back when it was licensed. You may need to file a new application to change the location of the diversion point and to add diversion rate if your system will divert more than 250 gallons per minute (permit application forms are enclosed).

Dear Mr. Gutormson:

On May 13, 2008 we wrote you regarding Water Right No. 4363-3 listed in the name of John Hovey which needs to be divided and reissued to reflect separate ownership. This water right appropriates 1.33 cubic feet of water per second (cfs) (600 gpm) from one well to irrigate the S ½ Section 5-T112N-R50W. The well supplies the quarter sections on alternating basis. The land has been in CRP since 1997.

Enclosed is a "Notice of Transfer of Ownership" form for filing the ownership change on Water Right No. 4363-3. This form needs to be signed by the current owner and returned to this office with a \$2.50 filing fee.

It is our understanding that Jay A Peterson and you are in agreement that the existing well on your property will maintain the entire diversion rate authority of 1.33 cfs authorized by Water Right No. 4363-3. Therefore, Mr. Peterson will need to apply for the diversion rate authority from the new well he drilled in the SW ¼ Section 5.

In a phone conversation with Genny McMath, with this office you stated the existing well which is incorrectly listed on the water right as being located in the SW ¼ Section 5-T112N-R50W is actually located in the SE ¼ Section 5. You also indicated this land has been in the CRP Program and you may enroll the SE ¼ Section 5 in the program again.

There is still the matter of correcting the location of the existing well as identified on Water Right No. 4363-3. Next summer, a staff member will schedule an inspection and verify the well location. At that time, we will determine the necessary action to correct the well location.

In the meantime, in order to keep our files accurate, please complete and return the "Notice of Transfer of Ownership" form and fee. If you have any questions, please contact Eric Gronlund or me at 605 773-3352.

Dear Mr. Gutormson:

Enclosed is Reissued Water License No. 4363B-3. The original license authorized irrigation of 230 acres located in the S ½ Section 5-T112N-R50W. The water right is being divided and reissued to reflect separate ownership.

Since our letter to you dated November 7, 2008, Jerald Peterson has called our office and indicated he did not wish to relinquish his portion of the diversion authority authorized by the water right. Therefore, we are reissuing the water right as follows.

- No. 4363A-3 – Jay A Peterson: authorizing diversion of 0.78 cfs (approximately 350 gpm) from a well in the SW ¼ Section 5 to irrigate 135 acres in the SW ¼ Section 5-T112N-R50W.
- No. 4363B-3 – Tim Gutormson: authorizing diversion of 0.55 cfs (approximately 250 gpm) from a well in the SW ¼ Section 5 to irrigate 95 acres in the SE ¼ Section 5-T112N-R50W.

Regarding correcting the existing well location, next summer a staff member will schedule an inspection and verify the well location. This land was enrolled in CRP from 1998-2008. Let Genny McMath (605 773-3352) know if the acreage is again enrolled in CRP. Please be aware that if you re-establish irrigation on the acreage in the SE ¼ Section 5, it will be necessary to make application for the additional diversion rate and any additional acreage. If the acreage is not in CRP and irrigation is not established within a three year period the water right is subject to cancellation for nonuse.

Enclosed is your receipt for payment of the transfer of ownership fee. If you have any questions, please contact this office.

Dear Mr. Gutormson:

I am contacting you in regard to your Water Right No. 4363B-3 (copy enclosed).

Irrigators in South Dakota are required to submit an annual irrigation questionnaire reporting how much water was pumped during the irrigation season. Our records show the land authorized for irrigation under Water Right No. 4363B-3 has been in the Conservation Reserve Program through 2017.

The purpose of my letter is to find out the status of irrigation on your property. Please take a few minutes and answer the questions on the attached sheet and return it in the envelope provided. **If you have made a decision not to maintain the water right, let me know that as well.**

Thank you in advance for your help in updating the water right.

Dear Ms. Hanson:

The Water Rights Program is in receipt of the 2025 Irrigation Questionnaire you submitted for Water Right No. 4363B-3.

Water Right No. 4363B-3 authorizes the diversion of 0.55 cfs (250 gpm) from one well for irrigation of 95 acres in the SE1/4, Section 5-T112N-R50W.

On this year's questionnaire, you reported that irrigation on this property had been abandoned, with no reported history of irrigation.

Pursuant to SDCL 46-5-37, if water appropriated under a permit/water right, is not placed to beneficial use for a period of three or more years (without legal excuse), the unused position of the permit/water right may be subject to cancellation due to abandonment or forfeiture.
