WATER RIGHT APPLICATION APPROVAL

The Water Rights Commission hereby approves Water Right Application No. 4480-3

KRAUSE-ALLBEE FARMS
(Applicant)

MANSFIELD
(Post Office Address)

SOUTH DAKOTA 57468 With the following modifications:
(State)

Date of first receipt of application APRIL 18 1978
Date of return to applicant for correction, amendments or changes required APRIL 18 1978
Date of receipt of corrected application WQ MARCH 6 1980
Approved MARCH 26 1980 Recorded in Book 21 Page 152

WATER RIGHT PERMIT NO. 4480-3

The Water Rights Commission hereby grants and issues this Water Right Permit No. 4480-3 authorizing the construction of the water use system and the putting of water to beneficial use as stated in the Application and as modified in the Water Right Application approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim right is MARCH 6 1980
2. The equivalent of at least one-fifth of the work above specified is to be completed on or before SEPTEMBER 26 1980
3. The whole of said work is to be completed on or before MARCH 26 1981
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is MARCH 26 1981
5. The water appropriated shall be used for the purpose of IRRIGATION

6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.

7. The amount of the appropriation herein granted shall not exceed 1.14 cubic feet per second; neither shall it exceed the capacity of the above described water supply system, nor shall it exceed the amount of water needed for beneficial uses served, and if for the irrigation purposes said appropriation must be limited to not more than 3 acre feet per acre per year and be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is actually and beneficially applied for irrigation on or before MARCH 26 1981; said water to be used during the following described annual period: APRIL 1ST - OCTOBER 1ST

Witness my hand this 1ST day of APRIL 1980

CONDITIONAL

SOUTH DAKOTA DEPARTMENT OF AGRICULTURE
DIVISION OF CONSERVATIONNAME OF APPLICANT Otto Krause (Harry Krause)SOIL RESTRICTIONS:THE SOIL(S) LISTED BELOW CANNOT BE IRRIGATED:

96A - Noonan - Miranda Loams (dense subsoils, excess natural sodium)

95A - Ribell - Noonan Loams (too poor internal drainage)

Your drawing indicates you do not intend to irrigate the above listed soils.

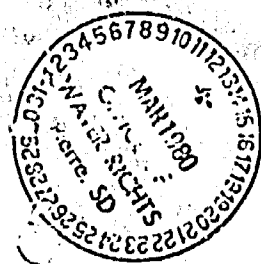

RECOMMENDED MANAGEMENT:

1. Water should not be applied more than 11 times during the irrigation season.
 2. Each uninterrupted application (one rotation of center pivot) should be of at least 2-4 inches of water.
 3. ☒ Yes ☐ No Surface drainage suggested on any area that tends to pond
 4. ☐ Yes ☐ No Subsurface drainage suggested on water.
 5. ☒ Deep tillage (for the purpose of aiding movement of water through dense subsoils.
- COMMENTS: Occasional use may prove beneficial.
6. ☐ Heavy fall application of irrigation water.
 7. Type of irrigation system recommended for use on this application _____

GENERAL COMMENTS:

The depth, width, and frequency of chisel point tillage will need to be worked out with the amount of water available and the frequencies of irrigations.

BrownNOTICE OF COMPLETION OF WORKS AND/OR
APPLICATION OF WATER TO BENEFICIAL USEPost Office MansfieldDate 4-28-1980TO: Water Rights ~~Division~~
Joe Foss Building
Pierre, South Dakota 57501

Dear Sirs:

This is to inform you that I have completed the construction of the water diversion system and/or that I have put the water to beneficial use to maximum extent it is going to be used, not exceeding the amounts as specified in Water Right No.

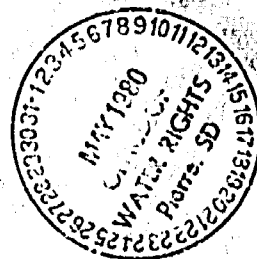

4480-3

Water Right Permit No. 4480-3 states that the diversion system is to be constructed by direct labor, and that the water is put to beneficial use by Krause Allbee Farms

The diversion system was completed on 6-20-1978. Applying the water to beneficial use was completed on 6-20-1978.

You may schedule an inspection so that the Certificate of Construction and/or the Water License may be issued, thus completing my acquisition of a water right.

RECISSION OF ORDER

Larry Krause
Mansfield,
South Dakota 57460

RE: 2867-3, 4103-3, 4757-3 & 4480-3

Dear Mr. Krause:

This letter will rescind the order dated March 17, 1982 not to irrigate the NE 1/4 Section 35, T121N, R65W or to use the well authorized by Permit No. 4103-3. You have obtained the required soil/water compatibility Permit for the NE 1/4 Section 35.

I have reviewed all of your permits as listed below.

1. Permit No. 2867-3, priority date July 27, 1976, for 2 wells (151' & 165'), 9.07 cfs, to irrigate Section 26, T121N, R65W (635 acres). WI-1 (Soil-Water approval from the Conservation Commission) is for irrigation of Section 26.
2. Permit No. 4103-3 submitted August 11, 1977 (retaining priority date of July 27, 1976) for no additional cfs, to change the location of one well (160') and to add 160 acres (NE 1/4 Section 35, T121N, R65W) to irrigation project. WI-1 has now been received from the Conservation Commission (May 10, 1982) for the NE 1/4 Section 35.
3. Permit No. 4757-3, priority date July 29, 1981, for one additional well (133') for Permits 4103-3 and 2867-3, no additional cfs, and to add 160 acres (NW 1/4 Section 35, T121N, R65W) to the total irrigation project. The WI-1 is for irrigation of the NW 1/4 Section 35.

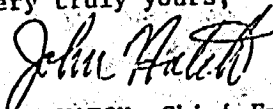

It is my understanding that the location of the three wells at No. 1 SE 1/4 NW 1/4 Section 26, No. 2 South edge of SE 1/4 SW 1/4 Section 25 and No. 3 NW 1/4 SE 1/4 Section 26. The well locations appear to meet the requirements of the Conservation Commission and are located in the same aquifer. Therefore, the three permits as approved now allow water to be pumped from any one of the three wells to Section 26 or the N 1/2 of Section 35. When the permits are licensed, I expect that all three permits will be combined into one license.

I have also checked Permit No. 4480-3 for runoff water to irrigate 80 acres in the SE 1/4 Section 34, T122N, R65W. The WI-1 is for the same land and everything appears to be in order.

May 13, 1982
Larry Krause
Page 2

I regret that an error occurred in the original processing of the application for Permit No. 4103-3 and that there have been misunderstandings in the correction of this error. However, it has been the sad and costly experience of two South Dakota irrigators to have the State Supreme Court reverse the approval of their two permits after wells and equipment had been installed. Part of the reason for the reversals were errors in processing the applications. The Supreme Court decisions have made it very clear that an error by this office in the water permit process eventually harms or can harm the applicant. Our error becomes the applicant's error even though he himself may have done everything he could to follow correct procedures. After I found that processing errors had occurred on more than just your permit, my position has been to correct past processing errors and prevent future errors. The correction of your Permit No. 4103-3 resulted in misunderstandings; however, without correction the risk was for a future court decision ruling the Permit invalid, a bank that checks out permits refusing a loan in the future or in the event of future land sale, the transaction stopped because of the legal cloud on the permit validity.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Division

NOTICE

RE: Violation of Water Permit No(s) 4480-3, 4757-3, 5128-3 & 5495-3

Our records indicate that the 1991 Irrigation Questionnaire has not been submitted for Permit No(s) 4480-3, 4757-3, 5128-3 & 5495-3. The request for the Questionnaire was dated October 18, 1991. The Water Management Board has directed that owners of water permits who have not submitted the 1991 Irrigation Questionnaire be given notice of permit violation and a hearing to be held by the Board. The hearing held by the Board will determine the action to be taken for violation of Water Permit No(s) 4480-3, 4757-3, 5128-3 & 5495-3 qualification:

"This permit is approved subject to the Irrigation Water Use Questionnaire being submitted each year."

The hearing will be held at 9:15 am, March 4, 1992, in the Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol, Pierre SD, and will be conducted pursuant to SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to SDCL 1-5. According to SDCL 46-1-12, the Board may suspend a permit for a period of up to one year for the first violation of a permit qualification or up to three years for a second violation, or cancel a permit for a third violation. Following the hearing, the Water Management Board can:

1. Suspend or cancel Permit No(s) 4480-3, 4757-3, 5128-3 & 5495-3 in accordance with applicable provisions of SDCL 46-1-12;
2. Postpone any action; or
3. Take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

If the questionnaire(s) is(are) received in this office before the March 4th hearing date, you will no longer be in violation of your permit and your name will be deleted from the Board agenda.

Very truly yours,

Mansfield, SD 57460

Dear Mr. Krause:

Enclosed is Water Permit and License No. 5896-3, and Water License No. 5128-3. These are the final water right documents completing your process of obtaining Water Rights. Enclosed are Receipt Nos. 414742 and 414743 in the amount of \$50.00 each which you paid for the inspection and issuance of the Water Licenses.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the wells authorized by Water Right Nos. 5896-3 and 5128-3, constructs replacement wells and does not plan to use the old wells, the old wells are considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water Licenses, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Very truly yours,

JOHN HATCH, Chief Engineer
