SOIL RESTRICTIONS:

THE SOIL(S) LISTED BELOW CANNOT BE IRRIGATED

18 Tetonka-Hoven Soils - See Below.

RECOMMENDED MANAGEMENT:

Water should not be applied more than 2-4 times during the irrigation season.

Each uninterrupted application should be of at least 2-4 inches of water.

Surface drainage suggested on Tetonka-depressions.

Seasonal use of deep tillage will be beneficial. Coordinate with heavy

fall application of irrigation water.

You have several Tetonka-like flat areas or depressional areas, some of

which are too large in size to straddle with tractor wheels. To get production

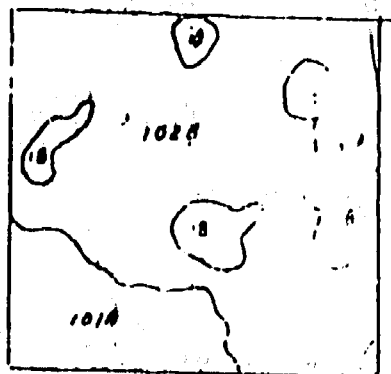

from these areas, they should be drained, filled with soil from adjacent

higher areas, or otherwise shaped so that concentration of excess waters is

confined to an area that the tractor wheels will straddle.

You may want to consider the excavation of a re-use pit for accumulation of

excess water to pump back through your system.

SR-29-11-40

SOILS IRRIGATION LEGEND

101A Houdek-Prosper loams, 0-2% slope

102B Houdek-Prosper loams, 2-6% slope

These are deep, well drained soils that have a thin or a light loam surface layers and loam or light clay loam subsoils. The underlying material is loam or clay loam glacial till. Available water capacity is high. Permeability is moderate in the upper part of the soil and moderately slow in the lower part. These soils are on uplands.

The use of center pivot irrigation systems on these soils will usually result in trafficability and runoff problems.

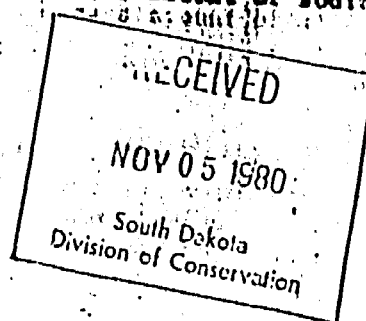

Generally these soils are suitable for irrigation with low salinity and low sodium water. Water of medium salinity may be used when additional quantities of water are applied for leaching purposes. Use of higher hazard water will require additional internal drainage and the use of salt tolerant crops.

18 Tetonka-Hoven silt loams, 0-2% slope

These are poorly or very poorly drained soils in closed depressions or broad flat areas. Some of the depressional soils have dense claypan subsoils and contain an excess of sodium. They are usually ponded during wet seasons and would become ponded under irrigation. Continuous wave irrigation systems are likely to get stuck in these soils.

Many of these soils are near irrigable soils and small areas may be irrigated along with irrigable soils. These areas will cause traction problems for continuous wave irrigation systems and farm implements. Crops are likely to drown out or be very restricted in growth because of poor aeration in the root zone or an excess amount of sodium.

Dear Mr. Walter:

The inspection of your water use system and inspection of the extent of your application of water to beneficial use, as developed under your Water Right No. 4583-3 has been completed. Your final water right document, the Water License, can now be issued.

Statutes require that we charge a \$50.00 fee for the inspection and issuing of the Water License. Upon receipt of the \$50.00 fee from you, your Water License will be sent to you.

You will also receive the Certificate of Construction as required by statute.

Sincerely,

PAREN SCHLAACK
Administrative Secretary

NOTE: On form of payment, please include the number of the water permit.
This insures proper handling of the fee.

TO: WATER RIGHTS, WATER MANAGEMENT BOARD / FOSS BLDG., PIERRE, SOUTH DAKOTA 57501

I have this day made a thorough examination of the water use system constructed by ARLAND B. WALTER of CAVOUR holder of Permit No. 4583-3, bearing date of priority of 1.42 CFS OCTOBER 21, 1976 * 2.28 CFS NOVEMBER 3, 1980 * authorizing the diversion of 3.70 * cu. ft. per second of the waters of GROUNDWATER for IRRIGATION purposes, in BEADLE County.

I have to report on the condition of the same as follows:

The Water Use System consists of,

A. Works used to divert the water:

115' DEEP WELL WITH 16" PLASTIC CASING - 20' SS SCREEN
 & 10' OF PLASTIC SCREEN
 AURORA VERTILINE 8" PUMP 6-102HM, POWERED BY 75HP
 US ELECTRIC MOTOR @ 1765 RPM

B. Works used to transport water to place of use,

Dear Mr. Walter:

Thank you for sending in the 2020 irrigation questionnaire. In response to your note about your folks, the water right needs to be transferred to reflect current ownership.

Enclosed is a partially completed "Notice of Transfer of Ownership" form for use in filing an ownership change. You can list all of your siblings on the form if that is the way the ownership is held. As far as signatures on the bottom of the form, you can sign on behalf of them. Upon completion, return the form to our office with a required filing fee of \$50. The check or money order for the fee can be made payable to the Water Rights Program.

If you have any questions, please let me know. Thank you in advance for updating the water right.

Sincerely,

A handwritten signature in cursive script, appearing to read "Genny McMath".

NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.

Dear Mr. Walter:

Each year, the State of South Dakota sends out Water Management Irrigation Questionnaires to collect information based on annual water use from our state's waters.

This year we received word from Keith Walter that the property located in the E1/2 of Section 29, T110N, R60W, had been sold to you. For your convenience I have enclosed a partially completed "Transfer of Ownership" form for you to complete and return in the pre-paid envelope.

Please return the form with a check for \$50.00 made payable to "SD Water Rights Program" to cover the transfer fee. If you would prefer to pay by card you may call our Fiscal Office at 605.773.5559. This form will still need to be returned even if you are submitting payment over the phone.

If you have any questions or concerns, please give me a call. My direct number is 605.773.8204

Dear Mr. Walter:

The South Dakota Water Rights Program is in receipt of the "Notice of Transfer of Ownership" form and the required fees you submitted for Water Right No. 4583-3. Enclosed is a receipt of payment for your records.

Water Right No. 4583-3 previously held by Keith Walter is now listed under Stephen Walter. I have also updated your contact information in our system.

As a reminder, so long as you use the water beneficially, as stated in the Water License (copy enclosed), State Water Laws provide that you have a continuing right to use the water. Should the water not be put to beneficial use for a period longer than 3 consecutive years, without legal excuse, the License will be subject to cancellation.

If you have any questions, please contact me.
