Dear Mr. DeHaan:

Your applications for Department of the Army permits have been reviewed by my staff. Pursuant to Corps of Engineers' regulations, found at 33 C.F.R. § 330.3 (b), your irrigation water intake systems located in Lake Francis Case having been completed prior to December 18, 1968 are hereby permitted for the purposes of Section 10 of the River and Harbor Act of 1899 (30 Stat. 1151; 33 U.S.C. 403) without further processing under Nationwide requirements. They have been assigned Nationwide Permit Nos. SD 2SB OXT 1 006665, 006666, and 006667.

However, please be advised that any changes to the size, location, or withdrawal rate of these pumping stations may require additional Department of the Army authorization.

To readily identify authorized structures, the enclosed metal identification plates must be prominently displayed on the pumping units of the intake structures identified herein.

NOTE: The above determination does not obviate the requirement to obtain state or local assent as required by law.

If you have any questions regarding the above, please feel free to contact this office or telephone Mrs. Pam Liddick of my staff at (402) 221-3056.

Dear Mr. DeHaan:

I am writing to acknowledge receipt of your 1991 irrigation questionnaires for Water Permit Nos. 307-3, 307-3A, 307-3B, 2326-3, 2999-3 and 4630-3. You may disregard the January 27, 1992, Notice of Failure to submit the 1991 irrigation questionnaire. The questionnaires were completed after your telephone conversation with Ron Duvall of this office. You indicated you irrigated the "same as last year". Since they were received prior to the Water Management Board meeting, your name was deleted from the agenda.

The 1992 irrigation questionnaires will be mailed out in October, 1992. It will not be acceptable to call in and request them to be filled out "the same as last's years".

If you have any questions, please contact me at (605) 773-3352.

Dear Mr. DeHaan:

On July 12, 1993, you were sent applications forms for a permit to appropriate water based on inspections of Water Permit No. 2326-3, 2999-3 and 4630-3 by Barry McLaury, an engineer with this office. The inspections showed that your systems were not developed as originally permitted. This application is necessary to obtain a permit which will reflect your water use. To date, we have not received a response from you regarding this application.

Please review the application and have it signed and notarized. Return the application with any additional information requested in the first letter to you.

Obtaining water permits that accurately reflect your water use ultimately benefits you by protecting your right to use water. Water Permit Nos. 2326-3, 2999-3 and 4630-3 can not be licensed until this application is processed and a permit obtained to reflect your current water use in accordance with state statutes. Except for domestic use, any water user without a water right is not entitled to receive protection in the event of interference by a new or future user who has a water right.

Pursuant to South Dakota Codified Laws 46-1-15, 46-5-9, 46-5-10 and 46-2-18, you must have a water permit prior to using water.

Sincerely,

Karen Schlaak

Dear Mr. DeHaan:

Enclosed is Water License No. 5795-3 and Receipt No. 414454 for \$50.00 which was assessed for an investigation and issuance of the license. Water License No. 5795-3 is the final document which completes the process of obtaining a water right.

As long as you use the water beneficially, as stated in the Water License, State Water Laws provide that you have a continuing right to use the water.

Very truly yours,

JOHN HATCH, Chief Engineer
