RAYMOND THNEN

(Applicant)

CHANCELLOR

(Post Office Address)

SOUTH DAKOTA 57015

(State)

With the following qualifications

The irrigation well approved under this Permit will be located near domestic wells and other irrigation wells which may obtain water from the same aquifer. The irrigation well owner, under this Permit, shall control his irrigation withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in irrigation wells having prior water rights.

This permit is approved subject to the irrigation water use questionnaire being submitted each year.

Date of first receipt of application FEBRUARY 17, 1981
 Date of return to applicant for correction, amendments or changes required FEBRUARY 17, 1981
 Date of receipt of corrected application MARCH 5, 1981
 Approved MARCH 25, 1981, Recorded in Book 22 Page 89

WATER RIGHT PERMIT NO. 4645-3

The Water Management Board hereby grants and issues this Water Right Permit No. 4645-3 authorizing the construction of the water use system and the putting of water to beneficial use as stated in the Application and as qualified in the Water Right Application approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim right is FEBRUARY 17, 1981
2. The equivalent of at least one-fifth of the work above specified is to be completed on or before MARCH 25, 1982
3. The whole of said work is to be completed on or before MARCH 25, 1983
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is MARCH 25, 1986
5. The water appropriated shall be used for the purpose of IRRIGATION

6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.

7. The amount of the appropriation herein granted shall not exceed 3.42 cubic feet per second; neither shall it exceed the capacity of the above described water supply system, nor shall it exceed the amount of water needed for beneficial uses served, and if for irrigation purposes said appropriation must be limited to not more than 2 acre feet per acre per year and be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is actually and beneficially applied

for irrigation on or before MARCH 25, 1986, said water to be used during the following described annual period: APRIL - NOVEMBER

Mr. Ihnen:

The inspection of your water use system and inspection of the extent of your application of water to beneficial use, as developed under your Water Right No. 4645-3 has been completed. Your final water right document, the water license, can now be issued.

Statutes require that we charge a \$50.00 fee for the inspection and issuing of the Water License. Upon receipt of the \$50.00 fee from you, your Water License will be sent to you.

You will also receive the Certificate of Construction as required by statute.

Sincerely,

GENNY YOUNG

Notification of Water License Ready for Issuing (\$50.00)

August 23, 1983

Raymond Ihnen
Chancellor, South Dakota 57015

Dear Mr. Ihnen:

On November 12, 1981 you were notified the final inspection fee of \$50.00 was due before Water License No. 4645-3 could be issued. Reminder notices are usually sent out every 60 days, although in this case a second notice has been inadvertently overlooked.

Statutes require that we charge a \$50.00 fee for the inspection and issuance of the Water License. Upon receipt of the \$50.00 fee from you, your Water License will be sent to you.

South Dakota Water Law 46-5-30.1 requires that a permit holder may not divert water until the License fee has been paid.

Sincerely,

NOTICE

Dear Sir:

The Water Management Board has directed that all owners of Water Permits, not in compliance with the Permit qualification:

"This Permit is approved subject to the Irrigation Water Use Questionnaire being submitted each year."

be notified of this requirement.

Our records show we have not received the 1983 Irrigation Questionnaire for your Permit. The Questionnaire was requested:

- 1) November, 1983 initial request
- 2) December, 1983 followup request

Owners of water permits not in compliance with the Irrigation Questionnaire qualification are being given until April 2, 1984 to submit the 1983 questionnaire. The Board will consider disciplinary action including possible suspension of the permit on April 25, 1984 at 10:30 am in Room 216, Joe Foss Building, 523 E Capitol, Pierre, SD for all permits without questionnaires returned by April 2.

Another questionnaire is enclosed. Please advise if there are any questions or if you believe our records are not correct.

Very truly yours,

Dear Mr. Ihnen:

This letter will acknowledge receipt of and thank you for the return of your 1983 Irrigation Questionnaires. A notice was sent March 7, 1984 regarding the Irrigation Questionnaire submittal violation of Permit No. 4645-3 and the date hearings were to be held before the Water Management Board to determine any action to be taken concerning the violation. Notice was also sent to you concerning possible Board action to amend Water Right Nos. 288-3, 457-3 and 1664-3 if the questionnaires were not received. Our records now show that you have returned your 1983 Irrigation Questionnaires and are no longer in violation.

Please disregard the notices sent to you dated March 7, 1984. Your name has been deleted from the agenda pertaining to these hearings.

Permit No. 4645-3

NOTICE OF WATER LICENSE INSPECTION FEE REQUIREMENT

Raymond Ihnen
Box 45
Chancellor, South Dakota 57015

Dear Mr. Ihnen:

August 23, 1983 you were notified the final inspection fee of \$50.00 is due before Water License No. 4645-3 can be issued. As of this date, the fee has not been received.

The fee is a final step in the legal process of obtaining and perfecting a water right and is required by SDCL 46-2-13(3). Upon receipt of the \$50.00 fee, your Water License will be sent to you. This is the final document for the perfection of your Water Right. A perfected water right is similar to a property right and once a water right is perfected, it cannot be lost as long as the water is used.

South Dakota Water Law 46-5-30.1 requires that a permit holder may not divert water until the license fee has been paid. Please submit the required fee immediately to avoid jeopardizing your water permit.

RE: Well logs for wells drilled for Raymond Ihnen

Dear Mr. Reiners:

If you still have records for the wells you drilled for Raymond Ihnen, Chancellor, South Dakota, logs are needed for these wells. I spoke with you on October 16, 1984 concerning the logs but have not heard from you as to whether or not you were able to find the well logs.

Below are legal descriptions for the wells in question.

North well - 340'N and 30'E of the Center of the NW $\frac{1}{4}$ Section 7,
T98N, R52W

South well - Center of the W $\frac{1}{2}$ SW $\frac{1}{4}$ Section 7, T98N, R52W

If you have any information as to the wells construction for these wells or are able to obtain a copy of the actual well logs, please forward the information to our office as soon as possible. The water license is ready to be issued for Mr. Ihnen's water permit, but cannot be done until this information is obtained.

Your assistance in this matter would be appreciated. If you have any questions, contact our office.

Sincerely,

Genny McMath

RE: Correctness of Water License

COMMENTS:

Met and spoke with Dennis Ihnen, son of Raymond Ihnen and looked over the lands actually being irrigated and those acreages supposed to be irrigated according to license # 4645-3. Everything looks ok, and those acreages are in accordance with the license. Spoke with Ihnen and he requested a copy of the license and the license map for his records.

In the future, send all correspondence concerning this file to Dennis Ihnen at the above address. He is farming the land and is keeping track of the permit.

File in Permit or other file as necessary. Use to document discussions and what the other party was told; why action or inaction was taken.

Dear Mr. Ihnen

The Department of Environment and Natural Resources (DENR) is writing regarding ongoing issues with end gun overspray from the irrigation systems located in the NW ¼ Section 12, T98N, R53W owned by Diane Reiners and the NW ¼ Section 7, T98N, R52W held in your name. It is DENR's understanding you operate the system located on the Reiners property in the NW ¼ Section 12.

I called you personally on June 29, 2015, to discuss this matter when the first complaint was received alleging end gun overspray on to 280th Street from the Reiners' system. As you will recall, the DENR fielded complaints during the 2014 irrigation season regarding this same issue.

DENR has received multiply complaints this year regarding overspray from the Reiners' system on to the road surface of 280th Street. Also, DENR staff personally observed overspray had occurred on to 458th Avenue from your system in the NW ¼ Section 7 as recently as August 4th.

DENR recognizes a landowner's desire to optimize production and we understand that end gun stops can malfunction. We want to work with irrigators to voluntarily correct the problems. However, DENR cannot allow unchecked overspray that is a waste of water and is on property not covered by the water right. It is your responsibility to operate and monitor the irrigation system; especially the end guns, to make sure it is not applying water where it is not allowed. If you cannot successfully get end gun stops to operate in a manner where there is not direct spray on the roadway, you must take steps to disable the end gun or alter the pivot's operation or rotation to insure overspray does not occur. Please contact me at the number below or by email when you have the stop on the end gun functioning or have adjusted pivot operation to prevent overspray.

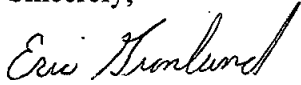

On two occasions this summer, DENR staff traveled to Turner County specifically to observe irrigation overspray. We will continue throughout the remainder of this irrigation season to check systems in the area. If these systems are found to be overspraying, the Chief Engineer will issue a formal order that you control the overspray. Failure to comply with the Chief Engineer's Order will result in the Water Rights Program scheduling a hearing before the Water Management Board for enforcement action. This can result in the suspension of the water right or a civil fine imposed for each violation.

(continued)

This letter will go into the administrative record for each water right. If unchecked overspray continues into future years, this letter serves as DENR's notice of the Chief Engineer's intent to issue a formal order to cease overspraying and potentially scheduling a hearing before the Water Management Board.

I look forward to hearing from you by August 14, 2015.

Sincerely,

RE: Dennis Ihnen call in regard to August 7, 2015 letter

I returned a call from Mr. Ihnen. He was calling in regard to the August 7, 2015 letter sent to him on endgun overspray. He asked when the last report of overspray occurred on the Reiner center pivot in the NW ¼ Section 12, T98N, R53W. I said we received an email on August 3rd indicating overspray was occurring on July 31 at about 8:00 PM. Mr. Ihnen stated he had that pivot adjusted and to his knowledge overspray has not occurred for at least two weeks.

In the case of his other pivot in the NW ¼ Section 7, Mr. Ihnen says this is a 1980 pivot that was never equipped with endgun stops. He stated he won't be able to get that fixed this year because irrigation maintenance people are busy working on pivots that are broke down and they are trying to get them fixed to save the crop. He simply can not get a person out to do the work in the next 2 – 3 weeks as it will entail running a wire from the pivot center out to the endgun in order to control it.

I said I would document the file according to what he told me.

Dear Mr. Ihnen:

On July 18, 2016, a staff member from the Department of Environment and Natural Resources (DENR) has again this season observed overspray from the irrigation system located in the W 1/2 SW 1/4 Section 7-T98N-R52W onto the adjacent east/west road (see attached photo). This irrigation system is covered by Water Right No. 4645-3.

It is common for center pivots to have stops which are used to shut off the end gun when the pivot nears a road. Please take steps to insure end gun stops are functioning properly so there is not direct overspray on to the road.

A water right holder is not allowed to operate an irrigation system in violation of state water law, which includes end gun overspray upon land not authorized by the water right.

If you don't believe this irrigation system is causing the overspray, or if you have any questions, please contact me at (605) 773-3352 or by email at eric.gronlund@state.sd.us.

Water Right No. 4645-3

File Documentation

Water Right No. 4645-3 was originally licensed in April 1985 for 2.88 cfs from two wells to irrigate 212 acres in portions of the W ½ SW ¼ and the NW ¼ Section 7, T98N, R52W.

On September 13, 2020, Burnette Sawyer filed an ownership change for a portion of the land described in the water right. On November 4, 2020, Ihnen Living Trust filed an ownership change for the remaining land described in the water right.

Based on the ownership changes, Water Right No. 4645-3 has been divided and reissued to reflect separate ownership as follows:

- **No. 4645A-3, Burnette Sawyer, 28008 458th Ave, Hurley SD 57036** authorizing diversion of 1.79 cfs from ground water (one well) to irrigate 132 acres all located in the NW ¼, all in Section 7, T98N, R52W;
- **No. 4645B-3, Ihnen Living Trust, Roger & Denise Ihnen, Trustees, PO Box 213, Lennox SD 57039** authorizing diversion of 1.09 cfs from ground water (one well) to irrigate 80 acres all located in the W ½ SW ¼, all in Section 7, T98N, R52W;
