Dear Mr. Jungemann:

Enclosed is Water License No. 6286-3. This is the final water right document completing your process of obtaining a Water Right. Included with your license is a map prepared by the staff engineer who conducted the field investigation.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 6286-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

Also enclosed with your license is Receipt No. 04340 in the amount of \$50.00 which you paid for filing the ownership change on Water Right No. 4755-3. Water Right No. 4755-3 has been incorporated into this water license. As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water.
