NOTICE OF COMPLETION OF WORKS AND/OR
APPLICATION OF WATER TO BENEFICIAL USEPost Office WatertownDate October 13, 1981TO: Water Rights Commission
Joe Foss Building
Pierre, South Dakota 57501

Dear Sirs:

This is to inform you that I have completed the construction of the water diversion system and/or that I have put the water to beneficial use to maximum extent it is going to be used, not exceeding the amounts as specified in Water Right No. 4.770.3.

Water Right Permit No. 4770.3 states that the diversion system is to be constructed by July 29, 1982, and that the water is put to beneficial use by July 29, 1981.

The diversion system was completed on September 20, 1981. Applying the water to beneficial use was completed on October 1, 1981.

You may schedule an inspection so that the Certificate of Construction and/or the Water License may be issued, thus completing my acquisition of a water right.

RE: Complaint on water levels.
COMMENTS:

Doug Anderson called and stated they were
having well problems and that the irrigators
were causing the problem.

I checked all of the observation wells in
area and that the water levels in the wells
are down from all-time high of 1986. But
at the same levels as '82' & '83'.

Mr. Anderson had not measured his wells
but had noticed that the irrigators to the north
of him was apparently having trouble so
therefore he was.

He was going to measure their wells
and call me back in a couple of
days.

Dear Mr. Anderson:

Enclosed is Water License No. 5158-3. This is the final water right document completing your process of obtaining a Water Right. Enclosed is Receipt No. 412856 in the amount of \$50.00 which you paid for the inspection and issuance of the Water License.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 5158-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Very truly yours,

JOHN HATCH, Chief Engineer
