Dear Mayor,

Your Finance Officer, Auditor or Treasurer has recently received an invitation to attend the 1981 Finance Officer's School. This school will be held in Pierre on June 11 & 12th. This years school will include the following:

- A. A basic course in bookkeeping for the smaller municipality.
- B. Revenue Sharing - the new requirements.
- C. Election administration.
- D. Personnel policies as they apply to S.D. towns.

These are just a few of the items to be covered. This school is designed for SD towns and will be taught by South Dakotans.

I realize that it will cost your town a few dollars to send your Finance Officer to the school. The cost should be thought of as an investment in your town. Costs may be reduced by making joint travel arrangements with another town.

In this case - a dollar spent is a dollar saved.

Dear Mr Beck:

Enclosed is Water License No. 4816-3. This is the final water right document completing your process of obtaining a Water Right. Enclosed is Receipt No. 411507 in the amount of \$50.00 which you paid for the inspection and issuance of the Water license.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 4816-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

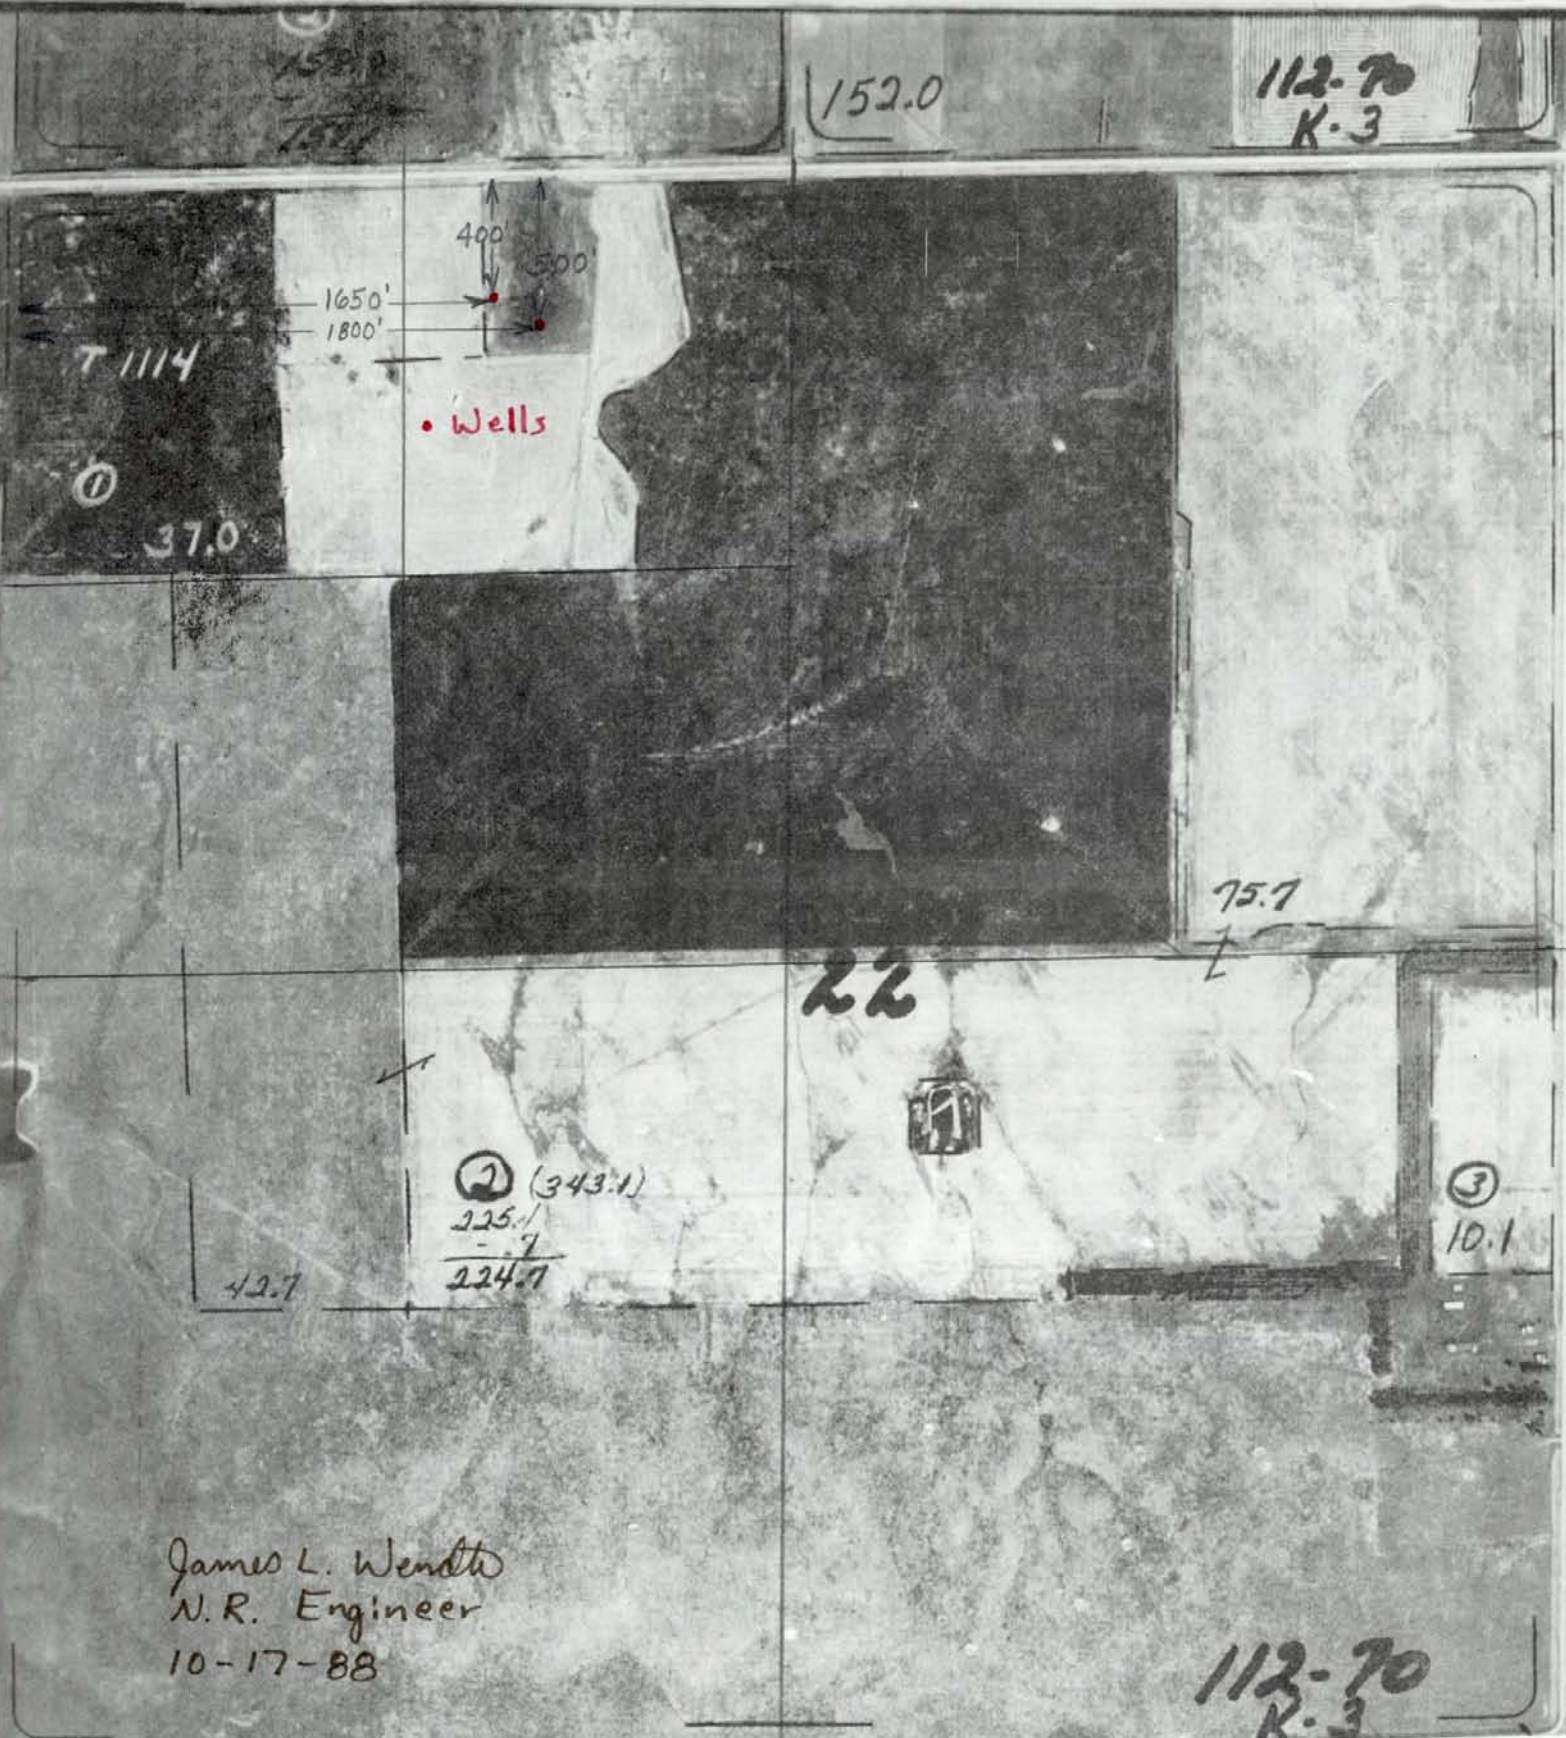

Very truly yours,

JOHN HATCH, Chief Engineer
