STATE WATER RESOURCES COMM.
 PIERRE, SOUTH DAKOTA

APPLICATION FOR PERMIT To Appropriately Water within the State of South Dakota

(NOTE—Draw a line through items not applicable.)

1. Name of applicant Ambrose P. Schenk & Theodora H. Sattler
 Postoffice address Rt. #2, Box 283, County Yankton, State S. Dak.

I. If a corporation

- (a) Name of same
 (b) Date and place of incorporation
 (c) Amount of capital stock
 (d) Amount paid in
 (e) Names and addresses of directors

(NOTE—A certified copy of articles of incorporation must accompany the application.)

II. Method of accomplishing the work and financial resources of the applicant:

- (a) Method of accomplishing work (Whether by contract, employment of others, or by direct labor)

Employment of others

- (b) Cash on hand, \$
 (c) Treasury stock, \$
 (d) Bonds to be issued, \$
 (e) Other resources, \$ adequate

2. Name of diversion work Ambrose P. Schenk & Theodora H. Sattler Irrigation Project

3. Amount of water claimed 1.61 cubic feet per second

- Source of water supply Well #2

5. Location of point of diversion From the quarter-quarter line (West to East) of the North $\frac{1}{4}$ of S. W. $\frac{1}{4}$ of Section 9, Twp 93, R 55 --N 68 degrees--151 E for a distance of 1615 feet bank County.

6. Annual period or periods during which water is to be used April 1 through October

7. To be used for:

- I. Irrigation or domestic use: Gravity, overhead sprinkling or combination system overhead sprinkling

- (a) Number of acres to be irrigated 113 acres. SE $\frac{1}{4}$ (41 ac) Sec 8 and North $\frac{1}{4}$ of S. W. $\frac{1}{4}$ of Section 9, Twp. 93, Range 55 (62 Acres) Yankton County, S. Dak.
 (b) Legal subdivisions to be irrigated Range 55 (62 Acres) Yankton County, S. Dak.

(NOTE—A list of lands to be irrigated, giving each subdivision and fraction with acreage thereof, should be written here, or may be appended as a part of this application. Same must also be shown on accompanying map.)

- (c) Statement as to domestic use (giving location, etc.) Stock watering at well

II. Stockwatering, mining, milling, power, fish culture, fire protection and public recreation:

- (a) Nature of use
 Name any of the above uses claimed
 (b) Amount of power to be generated horse power.
 Amount claimed for engine cooling
 (c) Location of plant
 (d) Method of developing power
 (e) Point where water will be returned to stream

Map No. 371-3

8. Estimated cost of work:

(a) Head Gates, \$----- (b) Pumping plant, \$ 1150.00
 (c) Fluming, \$----- (d) Canal-earth, \$----- Rock, \$-----
 (e) Other structures Main line \$ 1050.00 Total, \$-----

9. Description of diversion works:

I. Nature of works: (Reservoir, dam, ditch, flume, pumping plant, etc.)

II. Dimensions of works:

(a) Dam: Height-----feet; length at bottom-----feet; length at top-----feet; thickness at bottom-----feet; thickness at top-----feet; slope at front water face-----; slope at back face-----
 material used in construction-----
 (b) Reservoir: Capacity when filled-----acre feet. Surface at-----mark-----acres.

DEPTH AT OUTLET-Feet	SURFACE AREA AT EACH DEPTH AT OUTLET--ACRES	FEET	ACRE-Feet CAPACITY

(c)* Head gate: Width-----feet; height-----feet;
 Material-----

(d) Canal: Total length-----miles.

LOCATION BELOW HEADGATE	DEPTH	BOTTOM WIDTH	WIDTH AT WATER-LINE	GRADE PER MILE
At-----Mile	-----feet	-----feet	-----feet	-----feet
At-----Mile	-----feet	-----feet	-----feet	-----feet
At-----Mile	-----feet	-----feet	-----feet	-----feet
At-----Mile	-----feet	-----feet	-----feet	-----feet
At-----Mile	-----feet	-----feet	-----feet	-----feet
At-----Mile	-----feet	-----feet	-----feet	-----feet

(Give dimensions where reduction in size are made.)

10. Time required for completion of work work complete years.

11. Time required for complete application of water to the proposed beneficial use-----years.

12. Choice of newspaper for publication of notice of intention to appropriate-----

This is to certify that we have examined the foregoing application for a permit to appropriate water of the State of South Dakota, and we grant the same as stated herein, subject, however, to the following limitations and conditions:

1st. The equivalent at least one-fifth of the work above specified is to be completed on or before _____

December 28, 1957

2nd. The whole of said work is to be completed on or before June 28, 1958

3rd. The limit of time for proof of beneficial use of water appropriated in accordance herewith is:

June 28, 1959

4th. The water appropriated shall be used for the purpose of irrigation

5th. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation

6th. The amount of the appropriation herein granted shall not exceed 1.61 cubic feet per second; neither shall it exceed the capacity of the above described system of diversion works, nor the least amount of water that experience may hereafter indicate as necessary for the production of crops in the exercise of the best husbandry; and further, said appropriation must be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is actually and beneficially applied for irrigation on or before June 28, 1957, said water to be used during the following described annual period:

April to October inclusive

WATER LICENSE No. 484-3.....

WHEREAS, On the 29th day of May A. D. 1957
Ambrose P. Schenk and Theodore H. Sattler

of Rt # 2, Box 283, Yankton County of Yankton and State of
South Dakota duly made application (No. 484-3) to us for a permit to use 1.61
cubic feet per second of the waters of ground water
County of Yankton, State of South Dakota, for irrigation
purposes; and

WHEREAS, On the 1st day of October A. D. 1957
Permit No. 484-3 was issued to said applicant B for the diversion of said water, and providing for the
completion of the works of diversion therein described on or before the 28th day of
June A. D. 1958 and for the application to beneficial use of said
water on or before the 28th day of June A. D. 1959
and,

WHEREAS, On the 2nd day of August A. D. 1957
the holder of said permit duly made proof of the completion of adequate works for the diversion of 1.61
cubic feet per second of said waters, as evidenced by our Certificate No. 484-3
dated October 1, 1957 confirming the completion of works of sufficient capacity for
diverting and conveying to the place of intended use 1.61 cubic feet per second of water, with date of
priority of May 29, 1957 and,

WHEREAS, On the 2nd day of August A. D. 1957
proof was duly made of the application to beneficial use of 1.61 cubic feet per second of said water;
on 113 acres located in the E½SE¼, Sec. 8; N½SW¼, Sec. 9; all in
T 93 N, R 55 W

NOW, THEREFORE, By the virtue of the authority vested in us by the laws of the State of South Dakota,
We hereby grant and confirm to Ambrose P. Schenk and Theodore H. Sattler
of Rt #2, Box 283, Yankton, S.D. the holder A and owner B of said permit No. 484-3
a water right, dating from May 29, 1957 to the use of 1.61
cuble feet per second of the waters of ground water
In the County of Yankton and State of South Dakota, or so much thereof as may be
necessray for the purposes hereinabelow mentioned, to be diverted at N 68° 15'E, 1615 feet
from the S 1/16 Cor., common to Sec's. 8 and 9, T 93 N, R 55 W
and conducted to and upon E 1/2 Sec. 8; N 1/2 SW 1/4 Sec. 9; all in T 93 N,
R 55 W

for the purpose of irrigation

subject, however, to the laws of the State of South Dakota applicable to a license for the use of the waters of the State, and subject, also to the local or community customs, rules and regulations which have been or may be adopted from time to time by a majority of the users from a common source of supply, canal or lateral from which such water may be taken, when such rules and regulations have for their object the economical use of such water.

WITNESS, My hand and seal of our office at Pierre, South Dakota,
this 1st day of October A. D. Nineteen
Hundred and Fifty-seven.

Certificate of Examination of Works

Report of Examining Engineer

To the State Water Resources Commission, Pierre, South Dakota:

Dear Sirs: I hereby certify that in accordance with your ~~xxx~~ of authorization ~~xxx~~ on August 27, 1957~~XXXX~~, I have ~~XXXX~~ made a thorough examination of the diversion works constructed by Amhrose P. Schenk and Theodore H. Sattler, of R #2, Box 283, YanktonYankton County, South Dakota, holder of Permit No. 484-3, issued upon Application No. 484-3, bearing date of priority of May 29, 1957, authorizing the diversion of 1.61 cu. ft. per second of the waters of ground water for irrigation purposes. I have to report on the condition of the same as follows:

The diversion works comprise: Western Land Roller Pump, Serial #957279, Head No's 6-B and 3-10-H; U. S. Electric Motor Serial #1090217, Model-CFU; 60 feet of 6 inch lateral pipe; 690 feet of 6 inch main line pipe; 1230 feet of 0.5 inch lateral pipe; 1200 feet of 4 inch lateral pipe; 42 Model-30 Rainbird 13/64 x 1/8 nozzles and a pressure gauge and pitot tube on the pump and the system is in the following condition: excellent

The point of diversion is located N 68° 15' E, 1615 feet from the S 1/16 Cor., common to Sec's 8 and 9 T 93 N, R 55 W

The works are capable of diverting and conveying to the place of use 1.61 cu. ft. per second of water, which is to be used for irrigation

The legal sub-divisions to be irrigated are: E 1/2 Sec. 8 (north of the Railroad) Sec. 8; N 1/2 SW 1/4, Sec. 9; all in T 93 N, R 55 W

comprising a total of 113 acres of land.

The domestic use intended comprises

The utilization for power, mining, or other beneficial uses comprises:

Witness my hand, this 5th day of September, A. D. 1957.

484-3

March 21, 1957

Mr. Ellis V. Nelson
1501 S. W. Ave.
Sioux Falls, South Dakota

Dear Mr. Nelson:

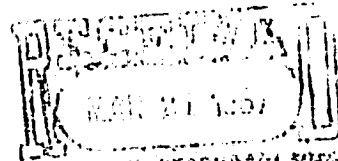

In answer to your letter of March 20th relative to water right application of Ambrose B. Schenk of Yankton.

One map is all that will be necessary but Mr. Schenk should submit a separate application for each unit.

Sincerely,

LW:ls

J. W. GRIMES
Chief Engineer

1501 S. 7th Ave.
Sioux Falls, S. Dakota
March 20, 1957

Water Resources Commission
Mr. Grimes, Engineer
Kind Friend:

Mr. Ambrose B. Schenk of Yankton plans to irrigate two tracts of land: one described as E.1/2 of S.E.1/4 north of the Milwaukee Railroad and five acres in the S.W. corner of Section 8, T.93 - R.55 Yankton County, South Dakota, containing in all 45 acres; the second tract is described as follows, north 1/2 of S.W.1/4 of Section 9, T.93 R. 55, Yankton County, South Dakota. There is 72 acres in this tract.

The two tracts are divided by the Milwaukee Railroad. His plan is to have two wells and two separate units.

What I wish to know is, if it is necessary to draw two separate maps, one for each tract?

Yours very truly,

Ellis V. Nelson

Observations during the Field Inspection on August 3, 1957 of the Ambrose P. Schenk and Theodore H. Sattler Project relative to Applications #384-3 and 484-3.

Mr. Yaggie and Mr. Schenk accompanied me on this inspection and both were very cooperative and helpful in furnishing information and answering questions so that I could complete my work.

This project consists of a total of 113 acres, + with an estimated 41 acres located in the E $\frac{1}{2}$ SE $\frac{1}{4}$ and the SW corner of the SE $\frac{1}{4}$ NE $\frac{1}{4}$, between old Hwy 50 and the Railroad all in Sec 8, and an estimated 72 acres in the N $\frac{1}{2}$ SW $\frac{1}{4}$, Sec 9 all in T.93N, R.55W. The 41 acre field was in oats & alfalfa and the 72 acre field was seeded in milo. The Well #1 under Appl. #384-3 was located about midway N & S and approximately 25 rods West of the East line of the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec 8 and Well #2 under Appl. #484-3 was located a little over 30 rods North of the Center of the SW $\frac{1}{4}$, Sec 9. The approximate locations of the lands and wells corresponded to those shown on Map's #290-3 and 371-3.

For all practical purposes this will be one irrigation project. Mr. Schenk stated that he wished to accomplish this by putting a pipe under the railroad. This pipe was not in place at the time of the inspection but he stated that he was planning on doing this in order that he might vary the areas irrigated from each well depending on their production. I rather doubt that he will do this.

Well #1 was approximately 30 feet deep, w/ the static water level 2 10 feet. I was told that this well was test pumped @ 500 gpm w/ 12 foot of drawdown.

Well #2 was approximately 45 feet deep w/ the static water level 2 10 feet. I was told that this well was test pumped @ 250 gpm with 12 foot drawdown.

On Well #1, Mr. Schenk has installed a Western Land Roller Pump, Serial #35753, Head No's 4-K- and 6-SA-H; and a U. S. Auto Start Electric Motor, Serial #2197172, 15 Hp, Type SCU, turning over normally @ 1800 rpm's. Under the above conditions this pump should have an estimated capacity of 400-500 gpm.

On Well #2 he has installed a Western Land Roller Pump, Serial #957279, Head No's 6B and 3-10-H; and a U. S. Electric Motor, Serial #1090217, Model - CFU, 25 Hp, turning over normally @ 1800 rpm's. Under the above conditions this pump should have an estimated capacity of 900-950 gpm.

A pressure gauge was installed on pump #1 and a pressure gauge & pitot tube on Well # 2.

Sprinkler equipment consisted of 2 lengths of 30 foot x 4 inch sprinkler line, 23 lengths of 30 foot x 4 inch solid line,

41 lengths of 30 foot x 5 inch sprinkler line, 30 lengths of 4 foot x 4 inch sprinkler line (all lines are aluminum pipe) and 42 Model 30, Rainbird, 13/64 x 1/8 nozzles. I doubt that the total capacity of the nozzles would exceed an estimated 525.8 gpm.

The system was not in operation during inspection. Some of the equipment was on the field and some was stored in the yard. It is reasonable to assume that this system had been in operation this year.

All of this equipment was new and in excellent condition.

In the case of Appl. & Permit #384-3 (Well #1) the controls would be the capacity of the well and pump (500 gpm) capacity. In the case of Appl. & Permit #484-3 (Well #2) Mr. Grimes stated that we will allow Mr. Schenk the 724.5 gpm (1.61 cfs) as allowed on the permit as the lack of capacity in the nozzles (525.8 gpm total) was only in the secondary works and could very easily be corrected by the purchase of 6-7 nozzles which would be only a minor matter. He also stated that as long as the capacity of the primary works, Well and pump (900 gpm) was adequate, that we would consider this system as corresponding to the conditions as set forth in the permit and that I show the capacity of the works on the Engineers Report as 724.5 Gpm for 484-3.

September 5, 1957

Les Wyborny

Les Wyborny

Water Rights Engineer

State of South Dakota

REISSUED Water License No. 384-3

(1) Ambrose P. Schenk and Theodore H. Sattler
of Yankton, South Dakota were Issued Water License No. 384-3
made Application No. _____, October 1, 1957 right
for a water permit to appropriate
1.11 cubic feet per second of water from groundwater (one well)
Yankton County, South Dakota for Irrigation purposes.
Water License
Permit No. 384-3, with a priority date of January 4, 1957

was approved _____ and issued to applicant(s) for diversion of water with construction of the described
water supply system ~~was~~ completed ~~on or before~~ _____ and for the application to beneficial use of said
water ~~on or before~~ completed _____.

Water License No. 384-3 dated October 1, 1957 was Issued for diversion of 1.11 cfs
from groundwater to irrigate 113 acres. Based upon a March 15, 1985 inspection of
the water use system, Water License No. 384-3 is being reissued to reflect what is
actually being irrigated.

Water License No. 384-3 and 484-3 authorized irrigation of the same land. The
applicable portions of Water Right No. 484-3 are being incorporated into the reissuance
of Water License No. 384-3. A January 4, 1957 priority date is retained.

October 20, 1986, Water Right No. 384-3 was transferred to Doris Schenk.

and

(2) It is certified that the application has complied with the provisions of South Dakota State Law relating to completion of
the construction of the water supply system and is entitled to divert 0.90 cubic feet per second of water
for beneficial use. The location of the diversion point(s) is 760'S and 1570'W from the Center of
Section 9, T93N-R55W (NW1/4SW1/4)
