WATER RIGHT APPLICATION APPROVAL

The Water Management Board hereby approves Water Right Application No. 4929-3

Corson Village Water Association

Box 492, Corson

(Post Office Address)

South Dakota 57019

(State)

With the following qualifications

This Future Use Permit No. 4929-3 is approved with the stipulation that the permit to appropriate water is subject to review by the Water Management Board as to accomplishment thereunder upon expiration of seven years. At such times as definite plans are made, specific applications for all or any part of the water granted under this withdrawal, must be submitted prior to construction of facilities.

Date of first receipt of application October 4, 19 82
Date of return to applicant for correction, amendments or changes required October 4, 19 82
Date of receipt of corrected application October 29, 19 82
Approved December 9, 19 82, Recorded in Book Page

WATER RIGHT PERMIT NO. 4929-3

The Water Management Board hereby grants and issues this Water Right Permit No. 4929-3 authorizing the construction of the water use system and the putting of water to beneficial use as stated in the Application and as qualified in the Water Right Application approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim right is October 4, 19 82
2. The equivalent of at least one-fifth of the work above specified is to be completed on or before na, 19 82. NUMBERS 2, 3, & 4, do not apply as specific applications are to be submitted as
3. The whole of said work is to be completed on or before definate plans are made
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is, 19 82
5. The water appropriated shall be used for the purpose of MUNICIPAL USE

6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.

7. The amount of the appropriation herein granted shall not exceed 0.05 cubic feet per second; neither shall it exceed the capacity of the above described water supply system, nor shall it exceed the amount of water needed for beneficial uses served, and if for irrigation purposes said appropriation must be limited to not more than 2 acre feet per acre per year and be limited to not more than one seventh (1/70) of one cubic foot of water per second of time for each acre of land to which water is actually and beneficially applied used for future municipal purposes

for irrigation on or before na, 19 82; said water to be used during the following described annual period: January 1st thru December 31st

Mr. Basil Zens, Chairman
Corson Village Water Association
RR. 5, Box 110
Corson, SD 57005

Dear Mr. Zens:

Attached is a letter I sent to you May 9, 1990 regarding the water association's future use permit. It has come to my attention that you did not receive this letter due to the fact that there is no longer a post office box number for the association.

Please respond to the previous letter at the earliest possible date. I would still like to go before the July 25 Water Management Board meeting on the review of this permit. However, this may not be possible and we may need to wait until the October 3rd meeting.

Please feel free to contact me if you have any questions.

Sincerely,

Eric Gronlund

May 9, 1990

Chairman of the Board
Corson Village Water Association
Box 492
Corson, SD 57019

Dear Sir:

I am writing in regard to the seven year review of Future Use Water Permit No. 4929-3 which is held by the Corson Village Water Association.

Permit No. 4929-3 will be scheduled for review by the Water Management Board on July 25 or 26, 1990 pursuant to SDCL 46-5-38.1. Notice will be given of the hearing time and place at a future date. The purpose of this review is to determine if a reasonable need exists for retaining the permit. A fee will be charged if the Board allows the permit to remain in effect after the hearing. The fee to be assessed will be dependent upon the amount of water allowed to remain in reserve on Permit No. 4929-3. The fee will be \$ 15.00 if the Board allows 32 acre-feet to remain in reserve.

Please respond in writing by June 1, 1990, regarding the water association's intention for the future use permit. If the water association does plan to retain the permit, then your response should outline a reasonable need for retaining the future use permit, any annual pumping records for the past three years and an estimate of future needs.

Please contact me if you have any questions.

Sincerely,

Eric Gronlund
Water Rights Division
(605) 773-3352

June 29, 1990

Eric Gronlund
Water Rights Division
Joe Foss building
523 East Capitol
Pierre, SD 57501

Dear Mr. Gronlund:

The Corson Village Water Association supplies water to 27 hookups, 22 of which are homes, and 5 of which are for businesses.

The amount of water pumped per quarter is 400 - 500,000 gallons, which is an average of 16,000 per hook up. The village has recently added an additional well to the water system in town. The past years low rainfall and the fact that the previous well was not able to keep up with the demand of the customers, are the main reasons for the well.

We, the Association, had to purchase water several times in the past years from the Brandon Fire Department so we could keep water in our supply tank.

The town has not had any new developments in the last 20 years, but we do have several empty lots in town. The location of the village is prime for expansion. Not that we foresee this happening in the near future, but the chances for this are good. So the need for additional hookups and possibly a new well that would come with the new development would be essential.

The renewal of a new future's use permit is important to the future of the village and we would appreciate any consideration given to such. If the addition of our latest well has exhausted our last Present Future Permit, we would like to file for another permit. If that is the case, please forward any papers and/or correspondence to my attention at: RR 5, Box 5, Brandon, SD 57005.

Thank you for your attention to this matter

Sincerely,

Corson Village Water Association
Joe Sandoval, Secretary

Joe Sandoval
Corson Village Sanitary District
26019 482nd Ave
Brandon, SD 57005

Dear Mr. Sandoval:

The purpose of this letter is to update you on the status and/or remaining updates needed to your water rights.

Vested Water Right No. 4928-3, Corson Village Sanitary District - validated by the Water Management Board September 30, 1992 with the water license being reissued March 23, 1993 to correct the priority date; transferred to the District in August, 1996 - copy of transfer form and receipt enclosed;

Future Use Permit No. 4929-3 - reserved 20 gallons of water per minute from ground water in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 27, T102N, R48W** - priority date: October 4, 1982;

**since all of the water reserved under No. 4929-3 has been developed under Water Permit No. 5463-3, Future Use Permit No. 4929-3 will be scheduled for cancellation after licensing of No. 5463-3 occurs.

Water Permit No. 5463-3, Corson Village Water Association - appropriated 0.04 cfs from ground water (water reserved by Future Use Permit No. 4929-3); water use system investigated for licensing purposes in June, 1995; the water permit needs to be transferred to the District and can be licensed upon payment of a \$50.00 fee. The fee is due for the completed investigation and covers issuance of the water license.

I am enclosing a partially completed "Notice of Transfer of Ownership" form for use in filing the name change on Water Permit No. 5463-3. Please review the form for accuracy and make any necessary corrections. Upon completion, please sign the form in the presence of a notary and return it to our office with a required fee of \$2.50.

The total due for transfer and licensing of Water Permit No. 5463-3 is \$52.50. If you have any questions or feel there is an error in our records, please call me.

Sincerely,

4929-3

Joe Sandoval
Corson Village Sanitary District
26019 482nd Ave
Brandon, SD 57005

Dear Mr. Sandoval:

The purpose of this letter is to update you on the status of Future Use Permit No. 4929-3.

Future Use Permit No. 4929-3, with a priority date of October 4, 1982, reserved 20 gallons of water per minute (gpm) from ground water for future development. Water Permit No. 5463-3 authorized construction and placement to beneficial use the water appropriated and reserved by Future Use Permit No. 4929-3. A June 27, 1995, investigation of the water use system found all of the reserved water was developed and placed to beneficial use.

On November 12, 1997, Water License No. 5463-3 was issued for 0.044 cubic feet of water per second (20 gpm). Development of the water reserved by Future Use Permit No. 4929-3 has been completed. No. 4929-3 will be designated as "fully developed" with no further action to be taken by the Water Management Board.

If you have any questions, please contact us.

Very truly yours,

John Hatch, Chief Engineer
Water Rights Program
