Dear Mr. Jongeling:

In reviewing your application for the NW $\frac{1}{4}$ SW $\frac{1}{4}$ (39 acres) and the E $\frac{1}{2}$ SW $\frac{1}{4}$ (80 acres) all located in Sec 32-T114N-R51W, and water sample No. 82-1527, the irrigation staff has found the soils and water to be compatible. The irrigation staff is recommending a conditional approval of your application to the State Conservation Commission at their meeting on November 4, 1982.

The recommendation for a conditional permit is based on the area mapped as Volga (like), mapping unit No. 32; and the restrictions and recommendations are as follows:

Volga (like) is somewhat poorly to poorly drained soil and is subject to excess wetness and ponding in the spring and after heavy rains.

RESTRICTIONS:

That adequate drainage be provided for the large area of Volga (like) in the E $\frac{1}{2}$ of the SW $\frac{1}{4}$ 32-114-51.

RECOMMENDATIONS:

That the area of Volga (like) be left in permanent vegetation, grass and/or alfalfa.

Note: You may experience trafficability problems in this area due to wetness.

If you have any questions concerning your permit please feel free to contact this office.

Sincerely,

Dear Mr. Jongeling:

The inspection of your water use system and the inspection of the extent of application of water to beneficial use, as developed under Water Permit No. 4934-3, has been completed. Your final water right document, the Water License, can now be issued.

Statutes require that we charge a \$50.00 fee for the inspection and issuance of the Water License. Upon receipt of the \$50.00 fee from you, we will begin processing your Water License.

South Dakota Water Law 46-5-30.1 requires that a permit holder may not divert water until the \$50.00 license fee has been paid. Please contact us if you have any questions.

Sincerely,

Genny McMath

Dear Mr. Jongeling:

Enclosed is Water License No. 4934-3. This is the final water right document completing your process of obtaining a Water Right. Enclosed is Receipt No. 412747 in the amount of \$50.00 which you paid for the inspection and issuance of the Water License.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 4934-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Very truly yours,

JOHN HATCH, Chief Engineer
