WATER PERMIT

The Water Management Board hereby approves Water Permit Application No. 4992-3
Ray A. & David Hansen Rt. 2 Box 58 Wilmont
(Applicant) (Post Office Address)
South Dakota 57279 With the following qualifications.
(State) (Zip Code)

The irrigation wells approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The irrigation well owner, under this permit shall control his irrigation withdrawals so there is not a reduction of needed water supplies in domestic wells or in adequate wells having prior water rights.

This permit is approved subject to the irrigation water use questionnaire being submitted each year.

Date of first receipt of application November 18, 1983.

Date of return to applicant for correction, amendments or changes required —, 19—.

Date of receipt of corrected application —, 19—. Approved April 25, 1984.

The Water Management Board hereby approves this Water Permit No. 4992-3 authorizing the construction of the water use system and the placing of water to beneficial use as stated in the Application and as qualified in the Water Permit approval, subject, however, to the following limitations and conditions:

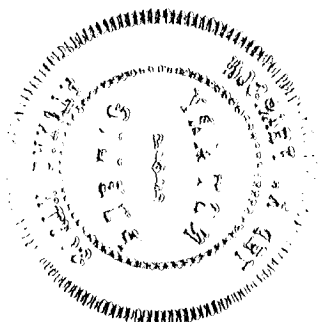

1. The date from which applicant may claim right is November 18, 1983.
2. One-fifth of the work is to be completed on or before September 25, 1986.
3. The whole of said work is to be completed on or before April 25, 1989.
4. The time limit for proof of beneficial use of water is April 25, 1993.
5. The water appropriated shall be used for the purpose of Irrigation.
6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be unlawfully impaired by this appropriation.
7. The amount of the appropriation herein granted shall not exceed 2.28 cubic feet per second; neither shall it exceed the capacity of the above described water supply system nor shall it exceed the amount of water needed for beneficial uses served. For irrigation purposes said appropriation must be limited to not more than 2 acre feet per acre per year and be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is actually and beneficially applied for irrigation on or before April 25, 1993; said water to be used during the following described annual period: April 1st to September 1

October 14, 1983

Ray Hansen
RR 2, Box 58
Wilmot, SD 57279

Dear Mr. Hansen:

In reviewing your application for soil and water compatibility the Irrigation staff is recommending a Conditional Approval of your application to the State Conservation Commission at their November 10, 1983 meeting. The conditional recommendation is based on the salt content of the water and the clay content of the soils making the leaching of salts difficult to achieve. The Restrictions and Management Recommendations are as follows:

RESTRICTIONS:

The area mapped as Forman-Buse loam 0-15% (FuD) shall be restricted from irrigation because of slope and a severe erosion hazard.

The area mapped as Tonka silty loam (Tk) and the drainageway shall be maintained in grass and/or alfalfa due to wetness and trafficability problems. The areas mapped as Tonka must also have adequate drainage to prevent ponding of water.

MANAGEMENT RECOMMENDATIONS:

It is recommended that a form of conservation tillage, leaving crop residue in the fields, be used to control runoff and wind erosion. The practice will assist in maintaining as well as improving tilth and water intake of the soil.

In managing the area mapped as Tonka you may wish to consider the use of a automatic sprinkler shut off.

Also it is recommended that an intensive water plan be developed to achieve the maximum benefits of irrigation and the leaching of salts in the soil. To achieve maximum leaching benefits may require the application of water after crop removal. This application will improve the leaching effectiveness of the fall and spring forms of precipitation.

If you have any questions concerning your application please feel free to contact this office.

Sincerely,

Jim Stukel
Program Administrator

David Hansen
RR 2, Box 57
Wilmot, SD 57279

Dear Mr. Hansen

In reviewing your soil and water compatibility application for the N $\frac{1}{2}$ 21; N $\frac{1}{2}$ 9-123-50 = 220 acres, the irrigation staff is recommending a Conditional Approval of your application to the State Conservation Commission at their November 10, 1983 meeting. The Conditional recommendation is based on the salt content of the water and the clay content of the soils making the leaching of salts difficult to achieve.

RESTRICTIONS:

The areas mapped as Hattie Clay loam 9-15% (HdD) shall be restricted from irrigation due to slopes and severe erosion hazards.

The areas mapped as Loamy Fluvaquents (Lt) is dissected by a meandering stream channel, subject to flooding and periodic wetness because of a fluctuating water table. This area shall be restricted from irrigation.

MANAGEMENT RECOMMENDATIONS:

It is recommended that a form of conservation tillage be used to control runoff and wind erosion.

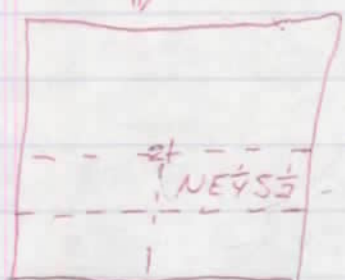

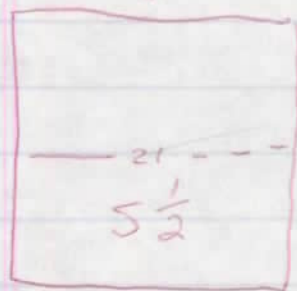

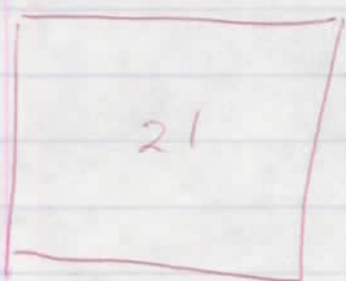

It is also recommended that your water management plan be set up for the areas of Peever and Forman soils rather than the light texture soils mapped in areas with faster intake rates. This plan should be developed to achieve the leaching of salts downward in the soil profile.

If you have any questions concerning your application please feel to contact this office.

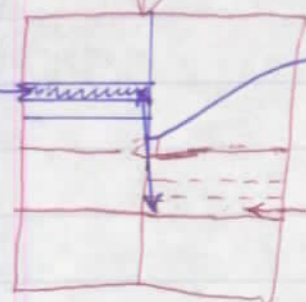

Sincerely,

Jim Stukel
Program Administrator

RE: Ray and David Hansen Water Permit applications

COMMENTS:

Mr. Pearson is handling the applications and because the permit applications were received after the approval of the s/w compatibility there was no way to compare the land descriptions etc., The descriptions were not correct and they only are drilling one well instead of two, so needed a correction (made by the Dept. of Ac) and new s/w done on the N $\frac{1}{2}$ Section 21 and 9 was needed/ Come up at the January meeting. See letter November 28, 1983.

File in Permit or other file as necessary. Use to document conversations and what the other party was told; why action or decision was made.

COMMENTS:

Gale Selben and I spoke with Ted Pearson from Clark County about this application at the irrigators convention last week. As he explained the results of a pump test they ran there were some questions raised as to whether this well could sustain enough yield to supply the system. We decided to include the other well proposed in the N¹/₂ of sec. 21 in the event that the one well could not handle the system.

File in Permit or other file as necessary. Use to document conversations and what the other party was told; why action or decision was made.

NAME:

Kevin P. Larson

REPORT ON PERMIT APPLICATIONS
NO. 4985-3 and 4992-3
RAY HANSEN AND DAVID HANSEN

February 22, 1984

Water Permit Application No. 4985-3 requests 2.14 cfs to irrigate 150 acres from one 200 foot deep well, and Application No. 4992-3 requests 2.28 cfs from two wells 222 and 232 feet deep to irrigate 436 acres. Both applications are located in Roberts County. Lands to be irrigated under the two applications are in Sections 9, 15 and 21, T-123N, R-50W. The proposed water source is the Veblen Aquifer.

Discussion

The Veblen Aquifer is a glacial aquifer which has an area coverage of 517,900 acres in Grant, Marshall and Roberts Counties and contains an estimated 1,623,000 acre feet of recoverable water in storage. In Roberts County, the Veblen Aquifer contains 1,295,700 acre feet of recoverable water.¹ The Aquifer is under artesian conditions in the vicinity of the two applications.

Currently 8,867 acre feet are appropriated from the Veblen Aquifer in Roberts County which is 0.7 percent of the estimated recoverable water.² Average annual use reported from the Veblen Aquifer is only 10 percent of the appropriated water.³

Several permits have been issued for the Wilmot Aquifer in the vicinity of the two applications. The Veblen Aquifer underlies the Wilmot Aquifer in portions of southern Roberts County, but the two Aquifers are not hydraulically connected. Available data indicates that wells completed in the Wilmot Aquifer are not affected by pumping the deeper Veblen Aquifer.⁴

Two Water Rights Division Observation Wells, RB-77L and RB-77M, monitor the water level of the Veblen Aquifer in the vicinity of the proposed wells. Water Level records for the observation wells indicate that the Veblen Aquifer is subject to seasonal fluctuations of artesian head, but the supply of water stored in the Aquifer is not being depleted.

The proposed wells will be located over two miles away from any existing permit in the Veblen Aquifer. Well interference should not be a problem, if the proposed wells are developed.

Conclusions

1. There is a reasonable probability that unappropriated water is available for Water Permit Application Nos. 4985-3 and 4992-3.
2. Available information indicates that the wells proposed under Application Nos. 4985-3 and 4992-3 will not interfere with existing permits or adequate domestic wells.

RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT APPLICATION

NO. 4992-3, RAY A. HANSEN AND DAVID R. HANSEN

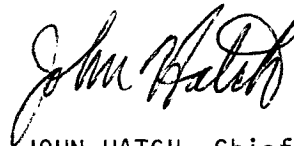

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Division, Department of Water and Natural Resources concerning Water Permit Application No. 4992-3, Ray A. Hansen and David R. Hansen, RR#2, Box 58, Wilmot, South Dakota

The Chief Engineer is recommending APPROVAL of Application No. 4992-3 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) that the proposed diversion can be developed without unlawful impairment of existing rights, 3) that the proposed use is a beneficial use and 4) in the public interest with the following qualifications:

The irrigation wells approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The irrigation well owner, under this permit shall control his irrigation withdrawals so there is not a reduction of needed water supplies in domestic wells or in adequate wells having prior water rights.

This permit is approved subject to the irrigation water use questionnaire being submitted each year.

See attached report for additional information.

David R. & Ray A. Hansen
Route #2, Box 58
Wilmot, South Dakota 57279

Dear Sirs:

Enclosed herewith is your Water Permit No. 4992-3 as approved by the Water Management Board authorizing you to construct your water diversion system and the water to beneficial use, not exceeding the limits as specified in said Water Permit No. 4992-3.

Also enclosed is Form 10, Notice of Completion of Works and Application of Water to Beneficial Use, which you are to complete and submit to the Chief Engineer when you have completed the system and/or have put the water to beneficial use. An inspection can then be scheduled so that your Water License may be issued to you, thus completing your acquisition of a Water Right.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Division

JH:ms

enclosure

PLEASE NOTE: Certain changes can be made in your permit within the five year construction period, usually without affecting the priority date provided an application to amend your permit is made within the five year period-i.e. changes in location or number of diversion points (wells) or location of land to be irrigated. Well locations for wells into the same aquifer can be moved up to 660 feet without application.

Applications to amend a permit after the five year construction period will be assigned a new priority date. Applications to change water sources, to add lands or increase original diversion rates, if approved will usually receive the date of the new application as a priority date regardless of the five year construction period.

WNR-809-5/83

WP or WR No. 4992-3

Instruction to Newspaper - Publish first publication of the following Notice on or before March 1, 1984 with 2nd publication 1 week later. The applicant is responsible for payment.

NOTICE OF HEARING on Application No. 4992-3 to Appropriate Water
and/or to Amend Water Permit or Water Rights No. _____

Notice is hereby given that Ray A. Hansen and David R. Hansen whose mailing address is RR#2, Box 58, Wilmot,, South Dakota have made an application for a permit

to appropriate 2.28 cubic feet per second from groundwater, two wells approximately 232 feet deep into the Veblen Aquifer. The points of diversion are to be located in the north and south half of Section 21, T-123N, R-50W. Said water to be used for providing irrigation of 436 acres located in Section 9 (reservation) and Section 21, T-123N, R-50W.

Pursuant to SDCL 46-2A-2 the Chief Engineer of the Water Rights Division recommends

Approval of Application No. 4992-3 because 1) unappropriated water is available, 2) will be no unlawful impairment of existing rights, 3) is beneficial use of water and 4) is in the public interest.

This application will be considered by the Water Management Board at Joe Foss
Building, Room 216, Pierre, South Dakota on April 25 19 84 at 10:00 am.

The recommendation of the Chief Engineer is not final or binding upon the Board and the Board is authorized to make a determination on this application after it reaches a conclusion based upon facts presented at the public hearing. Any interested person who may be affected by a Board decision and who intends to participate in the hearing before the Board and present evidence or cross-examine witnesses according to SDCL 1-26, must file a written petition with BOTH the Applicant and the Chief Engineer by April 13, 1984. The petition may be informal, but it must include a statement describing the petitioner's interest in the application, the reason for the petitioner's opposition to or support of the application, and the signature and mailing address of the petitioner or his legal counsel if legal counsel is obtained. The applicant need not file a petition.

This application is made pursuant to the provisions of SDCL 46-1-1 thru 46-1-9, 46-1-12 thru 46-1-15; 46-2-3.1, 46-2-9, 46-2-11, 46-2-13, 46-2-17, 46-5-1 thru 46-5-16, 46-5-24, 46-5-25, 46-5-30.2, 46-5-31; 46-2A-1 thru 46-2A-10, 46-2A-12; (ground) 46-6-3, 46-6-3.1, 46-6-6.1, 46-6-10, 46-6-13, 46-6-14; (future use) 46-5-38 thru 46-5-40; (transfer lands) 46-5-30.4, 46-5-33 thru 46-5-35, (10,000 AFA) 46-5-20.1, 46-5-8.1; and Board Rules ARSD 74:02:01:01 thru 74:02:01:15; (future use) 74:02:01:24 thru 74:02:01:25, (10,000 AFA) 74:02:01:15:02 thru 74:02:01:15:05.

This hearing is an adversary proceeding. The applicant or any person, after filing a petition, has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

Any person wishing a copy of the Chief Engineer's recommendation, further information on this application or to assure access to the hearing by the handicapped can contact the Water Rights Division, DWNR, Joe Foss Bldg, Pierre SD (605 773-3352) for assistance prior to the hearing date. The time of the hearing will be automatically extended for at least twenty days upon written request of the applicant or any person who has filed a petition to oppose or support the application. The request for extension must be filed with the Chief Engineer by April 13, 1984.

RE: Permit 4992-3, Ray and David Hanson, Roberts County

This is to inform you that Permit No. 4992-3 for Ray and David Hanson, Roberts County was approved for two wells.

The second well was added when advertised and is the well that was approved in the N½ of Section 21.

After talking to Mr. Kevin Larson, the permit holder is aware of the lands allowed under the s/w approval for the well in the N½ of Section 21.

NOTICE

Re: Violation of Water Permit No(s). 4992-3

Our records indicate that the 1987 Irrigation Questionnaire has not been received for Permit No(s). 4992-3. The request for the Questionnaire was dated October 8, 1987. The Water Management Board has directed that owners of water permits who have not submitted 1987 Irrigation Questionnaires be given notice of permit violation and of hearing(s) before the Board. The hearings(s) will be held to determine action to be taken by the Board for violation of Water Permit No(s). 4992-3 qualification:

"This permit is approved subject to the Irrigation Water Use Questionnaire being submitted each year."

The hearing(s) will be at 9:00 am, March 2, 1988, Room 216, Joe Foss Building, 523 E Capitol, Pierre SD.

The hearing(s) will be conducted pursuant to the provisions of SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to procedures contained in SDCL 1-26.

Following the hearing(s) the Water Management Board can:

1. Suspend Permit No(s). 4992-3 until either the 1987 Questionnaire is submitted or for a period of up to one year;
2. Postpone any action;
3. Take no action.

The hearing(s) is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

JOHN HATCH, Chief Engineer
Water Rights Division
605 773-3352

NOTE: If the questionnaire(s) is received in this office before the March 2 hearing date, you will no longer be in violation of your permit(s) and your name will be deleted from the agenda pertaining to these hearings.

NOTICE OF ONE YEAR SUSPENSION OF WATER PERMIT

TO: RAY A & DAVID R HANSEN
RR #2 BOX 56
WILMOT, SD 57279

FROM: John Hatch, Chief Engineer
Water Rights Division
605-773-3352

A handwritten signature in cursive script, reading "John Hatch".

SUBJECT: One Year Suspension Of Water Permit No(s). 4992-3

Pursuant to the provisions of the notice dated January 29, 1988, and following the hearing of March 2, 1988, the Water Management Board has ordered:

That Water Permit No(s). 4992-3 be **SUSPENDED** until December 31, 1988.

Suspension of a permit means water may not be pumped during the 1988 irrigation season. Decisions of the Board may be appealed to the Circuit Court and the Supreme Court as provided by law.

Gentlemen,

Please save a little time
for me in your May 11th meeting,
in regard of the suspension
of these water permit #5 4992-3
5043-3, 5044-3 + 4985-3.

Thank you

David R. Hansen

SUBJECT: Notice of Hearing to Consider Request for
Reconsideration of Suspended Water Permit Nos. 4985-3,
4992-3, 5043-3 and 5044-3

The hearing on your March 18, 1988 request to the Water Management Board to reconsider suspension of Water Permit Nos. 4985-3, 4992-3, 5043-3 and 5044-3 has been scheduled for 9:15 am, May 11, 1988, in Room 216, Joe Foss Building, 523 E Capitol, Pierre, SD.

As stated in the notice to you dated January 29, 1988, the hearing will be conducted pursuant to the provisions of SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11, and 46-2-17. These are contested case hearings pursuant to procedures contained in SDCL 1-26.

After all evidence is taken at the hearing, the Board may issue a decision to rescind the suspension of your permits, defer action or taken no action. The hearing is an adversary proceeding and any party has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised at the hearing. Any decision rendered by the Board may be appealed to the Circuit Court or to the State Supreme Court as provided by law.

PAST VIOLATIONS

Ray and/or David Hansen have had no prior irrigation questionnaire violations.

1. 1987 Irrigation Questionnaire Violation

January 29, 1988, Ray Hansen (RR #2 Box 56) was given notice of permit violation for non-return of the 1987 irrigation questionnaire for **Water Permit No. 4985-3** and of the hearings scheduled before the Water Management Board to be held March 2, 1988.

January 29, 1988, Ray A & David R Hansen (RR #2 Box 56) were given notice of permit violation for non-return of the 1987 irrigation questionnaire for **Water Permit No. 4992-3** and of the hearings scheduled before the Water Management Board.

January 29, 1988, Ray/David Hansen (RR #2 Box 58) were given notice of permit violation for non-return of the 1987 irrigation questionnaire for **Water Permit Nos. 5043-3 and 5044-3** and of the hearing scheduled before the Water Management Board.

March 2, 1988, The Water Management Board suspended Water Permit Nos. 4985-3, 4992-3, 5043-3 and 5044-3 until December 31, 1988.

March 14, 1988, Ray & David Hansen were notified of the Board action to suspend their permits. This notice was sent in the same manner as the January 29, 1988 notices were sent.

March 8, 1988, the 1987 irrigation questionnaires were received from David Hansen.

March 18, 1988, a letter was received from David Hansen (RR #2 Box 57, Wilmot, SD) requesting time on the May 11, 1988 Board Meeting agenda in regard to the suspension of Water Permit Nos. 4985-3, 4992-3, 5043-3, 5044-3.

April 14, 1988, Ray & David Hansen, RR #2 Box 57, Wilmot, SD were sent a Notice of Hearing to Consider Request for Reconsideration of Suspended Water Permit Nos. 4985-3, 4992-3, 5043-3, and 5044-3.

Dear Sirs:

Enclosed is Water License No. 5044-3. This is the final water right document completing your process of obtaining a Water Right. Enclosed is Receipt No. 412519 in the amount of \$50.00 which you paid for the inspection and issuance of the Water License.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 5044-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Division
(605) 773-3352
