Melvin Polzin
(Applicant)
South Dakota
(State)

Rt. 2, Box 81 Castlewood
(Post Office Address)

With the following qualifications.

The irrigation well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The irrigation well owner, under this Permit shall control his irrigation withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.

This permit is approved subject to the irrigation water use questionnaire being submitted each year.

Date of first receipt of application October 31, 1983
Date of return to applicant for correction, amendments or changes required November 1, 1983
Date of receipt of corrected application March 8, 1984

WATER RIGHT PERMIT NO. 5011-3

The Water Management Board hereby grants and issues this Water Right Permit No. 5011-3 authorizing the construction of the water use system and the putting of water to beneficial use as stated in the Application and as qualified in the Water Right Application approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim right is March 8, 1984.
2. The equivalent of at least one-fifth of the work above specified is to be completed on or before September 25, 1986.
3. The whole of said work is to be completed on or before April 25, 1989.
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is April 25, 1993.
5. The water appropriated shall be used for the purpose of Irrigation.
6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be injuriously affected by this appropriation.
7. The amount of the appropriation herein granted shall not exceed 1.90 cubic feet per second; neither shall it exceed the capacity of the above described water supply system, nor shall it exceed the amount of water needed for beneficial uses served, and if for irrigation purposes said appropriation must be limited to not more than 2 acre feet per acre per year and be limited to not more than one-seventieth (1/70) of one cubic foot of water per second of time for each acre of land to which water is actually and beneficially applied for irrigation on or before April 25, 1993; said water to be used during the following described annual period: April 1st to October 31

THE SOIL(S) LISTED BELOW CANNOT BE IRRIGATED:

THE SOILS(S) LISTED BELOW CAN BE IRRIGATED
WITH THE FOLLOWING RESTRICTIONS:

The area mapped as Divide loam (2A) is subject to a seasonal high water table. Under irrigation this water table may become perched resulting in a crop reduction, and trafficability problems due to wetness. This area shall have adequate internal drainage provided. To achieve this necessary drainage may require the use of an artificial drainage system i.e. tile drainage.

RECOMMENDED MANAGEMENT:

It is recommended that a form of conservation tillage be used to prevent erosion. The leaving of crop residue on the area mapped as Benshaw loam may improve the water holding capacity of this soil.

RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT

APPLICATION NO. 5011-3, Melvin Polzin

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Division, Department of Water and Natural Resources concerning Water Permit Application No. 5011-3, Melvin Polzin, RR 2, Box 81, Castlewood SD.

The Chief Engineer is recommending APPROVAL of Application No. 5011-3 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion can be developed without unlawful impairment of existing rights, 3) the proposed use is a beneficial use and 4) in the public interest with the following qualifications:

The irrigation well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The irrigation well owner, under this Permit shall control his irrigation withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.

This permit is approved subject to the irrigation water use questionnaire being submitted each year.

See the attached report for additional information.

JOHN HATCH, Chief Engineer
March 9, 1984

REPORT ON APPLICATION NO. 5011-3
MELVIN POLZIN
March 8, 1984

Application No. 5011-3 proposes to irrigate 134 acres in the SW 1/4 Section 29, T114N, R51W from one well 85 feet deep. The applicant will withdraw 1.9 cubic feet per second of groundwater from the Big Sioux-Brookings management unit.

The Big Sioux-Brookings Management unit is a glacial sand and gravel aquifer. The aquifer contains an estimated 642,230 acre feet of recoverable water (Hedges, 1981). The aquifer is generally under water table conditions.

The Division of Water Rights monitors 68 observation wells in the Big Sioux-Brookings unit. These wells have shown seasonal fluctuations due to the spring runoff and the affects of the high capacity wells. Hydrographs also indicate the fluctuation of head pressure in the portion of the management unit that is under artesian conditions. In no case did the hydrographs indicate a problem with depleting the waters of the aquifer.

Presently, appropriations by the Water Management Board total approximately 92,000 acre feet of water from the BS:B unit. This is 14 percent of the total amount of recoverable water. Only 5% of the 92,000 acre feet appropriated was reported as used in 1982. Complete values for 1983 water use were not available at this time, but a review of the questionnaires returned indicate 1983 use will be much less because of federal farm programs (PIK).

Although there is a large number of permits issued in the management unit (198), interference between high capacity wells should not be a problem. This is also indicated by the stable water levels in the observation wells.

Conclusions

1. There is a reasonable probability that unappropriated water is available for this application.
2. Observation wells exist and are being monitored in this aquifer.

Dear Mr. Polzin:

In reviewing your soil and water compatibility application for the SW $\frac{1}{4}$ 29-114-51, the Irrigation Staff is recommending a Conditional Approval of your application to the State Conservation Commission at their November 10, 1983 Commission meeting. The Conditional recommendation is based on the presence of a water table in the soils of Divide loam. The Restrictions and Management Recommendations are as follows:

RESTRICTIONS:

The area mapped as Divide loam (2A) is subject to a seasonal high water table. Under irrigation this water table may become perched resulting in crop reduction, and trafficability problems due to wetness. This area shall have adequate internal drainage provided. To achieve this necessary drainage may require the use of an artificial drainage system i.e. tile drainage.

MANAGEMENT RECOMMENDATIONS:

It is recommended that a form of conservation tillage be used to prevent erosion. The leaving of crop residue on the area mapped as Renshaw loam may improve the water holding capacity of this soil.

If you have any questions concerning your application please feel free to contact this office.

Sincerely,

Jim Stukel

NOTICE OF HEARING on Application No. 5011-3 to Appropriate Water
~~and/or to Amend Water Permit or Water Rights No. _____~~

Notice is hereby given that Melvin Polzin whose mailing address is RR #2, Box 81, Castlewood, South Dakota has made an application for a permit to appropriate 1.90 cubic feet per second from groundwater, one 85 feet deep well located in the approximate center of the SW 1/4, Section 29, R114N, R51W. The water is to be used to irrigate 134 acres of land located in the SW 1/4, Section 29, T114N, R51W.

Pursuant to SDCL 46-2A-2 the Chief Engineer of the Water Rights Division recommends Approval of Application No. 5011-3 because 1) unappropriated water is available, 2) will be no unlawful impairment of existing rights, 3) is beneficial use of water and 4) is in the public interest.

This application will be considered by the Water Management Board at Joe Foss Building, Room 216, 523 E Capitol, Pierre, South Dakota on April 25 19 84 at 10:00 am.

The recommendation of the Chief Engineer is not final or binding upon the Board and the Board is authorized to make a determination on this application after it reaches a conclusion based upon facts presented at the public hearing. Any interested person who may be affected by a Board decision and who intends to participate in the hearing before the Board and present evidence or cross-examine witnesses according to SDCL 1-26, must file a written petition with BOTH the Applicant and the Chief Engineer by April 13, 1984. The petition may be informal, but it must include a statement describing the petitioner's interest in the application, the reason for the petitioner's opposition to or support of the application, and the signature and mailing address of the petitioner or his legal counsel if legal counsel is obtained. The applicant need not file a petition.

This application is made pursuant to the provisions of SDCL 46-1-1 thru 46-1-9, 46-1-12 thru 46-1-15; 46-2-3.1, 46-2-9, 46-2-11, 46-2-13, 46-2-17, 46-5-1 thru 46-5-16, 46-5-24, 46-5-25, 46-5-30.2, 46-5-31; 46-2A-1 thru 46-2A-10, 46-2A-12; ~~(ground)~~ 46-6-3, 46-6-3.1, 46-6-6.1, 46-6-10, 46-6-13, 46-6-14; ~~(future use)~~ 46-5-38 thru 46-5-40; ~~(transfer lands)~~ 46-5-30.4, 46-5-33 thru 46-5-35; (10,000 AFA) 46-5-20.1, 46-5-8.1; and Board Rules ARSD 74:02:01:01 thru 74:02:01:15; ~~(future use)~~ 74:02:01:24 thru 74:02:01:25; ~~(10,000 AFA)~~ 74:02:01:15:02 thru 74:02:01:15:05.

This hearing is an adversary proceeding. The applicant or any person, after filing a petition, has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

Any person wishing a copy of the Chief Engineer's recommendation, further information on this application or to assure access to the hearing by the handicapped can contact the Water Rights Division, DWRN, Joe Foss Bldg, Pierre SD (605 773-3352) for assistance prior to the hearing date. The time of the hearing will be automatically extended for at least twenty days upon written request of the applicant or any person who has filed a petition to oppose or support the application. The request for extension must be filed with the Chief Engineer by April 13, 1984.

Dear Mr. Polzin:

Enclosed herewith is your Water Permit No. 5011-3 as approved by the Water Management Board authorizing you to construct your water diversion system and the water to beneficial use, not exceeding the limits as specified in said Water Permit No. 5011-3.

Also enclosed is Form 10, Notice of Completion of Works and Application of Water to Beneficial Use, which you are to complete and submit to the Chief Engineer when you have completed the system and/or have put the water to beneficial use. An inspection can then be scheduled so that your Water License may be issued to you, thus completing your acquisition of a Water Right.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Division

enclosure

PLEASE NOTE: Certain changes can be made in your permit within the five year construction period, usually without affecting the priority date provided an application to amend your permit is made within the five year period-i.e. changes in location or number of diversion points (wells) or location of land to be irrigated. Well locations for wells into the same aquifer can be moved up to 660 feet without application.

Applications to amend a permit after the five year construction period will be assigned a new priority date. Applications to change water sources, to add lands or increase original diversion rates, if approved will usually receive the date of the new application as a priority date regardless of the five year construction period.

NOTICE

Re: Violation of Water Permit No(s). 5011-3

Our records indicate that the 1984 Irrigation Questionnaire has not been received for Permit No(s). 5011-3. The request for the Questionnaire was dated October 17, 1984. The Water Management Board has directed that owners of water permits who have not submitted 1984 Irrigation Questionnaires be given notice of permit violation and of hearing(s) before the Board. The hearing(s) will be held to determine action to be taken by the Board for violation of Water Permit No(s). 5011-3 qualification:

"This permit is approved subject to the Irrigation Water Use Questionnaire being submitted each year."

The hearing(s) will be at 10:30 a.m., May 15, 1985, Civil Defense Room, Basement, State Capitol Building, Pierre, South Dakota.

The hearing(s) will be conducted pursuant to the provisions of SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11, and 46-2-17. These are contested case hearings pursuant to procedures contained in SDCL 1-26.

Following the hearing(s) the Water Management Board can:

1. Suspend Permit No.(s). 5011-3 until either the 1984 Questionnaire is submitted or for a period of up to one year;
2. Postpone any action;
3. Take no action.

The hearing(s) is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

Sincerely,

John Hatch, Chief Engineer
Water Rights Division, Phone: (605) 773-3352

NOTE: If the questionnaire(s) is received in this office before the hearing date, you will no longer be in violation of your permit(s) and your name will be deleted from the agenda pertaining to these hearings.

Notice of One Year Suspension of Water Permit

To: Melvin Polzin
RR 2, Box 81
Castlewood, SD 57223

FROM: John Hatch, Chief Engineer
Water Rights Division

SUBJECT: One Year Suspension Of Water Permit No(S). 5011-3, If The 1984
Irrigation Questionnaire Is Not Received By June 1, 1985.

Pursuant to the provisions of the notice dated April 15, 1985, and following the Hearing May 15, 1985, the Water Management Board ordered:

That Water Permit No(s). 5011-3 be suspended until December 31, 1985, unless the required 1984 Irrigation Water Use Questionnaire is received by June 1, 1985.

Suspension of a permit means water may not be pumped during the 1985 irrigation season. Decisions of the Board may be appealed to the Circuit Court and the Supreme Court as provided by law.

Dear Mr. Polzin:

I am contacting you in regard to Water Permit No. 5011-3 and your 1986 irrigation questionnaire. You stated on your questionnaire that you had not developed an irrigation system and also that you were no longer farming.

In most cases, when a permit holder notifies our office that they have not constructed a system and do not intend to, the permit is scheduled for cancellation consideration. However in your case, we feel you should be notified that under your permit, you have until April 25, 1989 to complete the project.

If you still feel that you will not develop an irrigation project and that you do not wish to retain your permit, please contact our office. Please keep in mind that if you sell your land before the April 25, 1989 completion date passes, the new owner may want to develop a system. If this happens, the permit would need to be transferred to the new owner. If the permit is cancelled, the new owner would need to reapply for a permit.

Sincerely,

Dear Mr. Jongeling:

I am contacting you in regard to the status and ownership of Water Permit No. 5011-3, currently listed in the name of Melvin Polzin. Water Permit No. 5011-3 authorizes irrigation of the SW 1/4 Section 29, T114N, R51W. In checking with the Hamlin County Assessor's Office, you were listed as owner of the above described land.

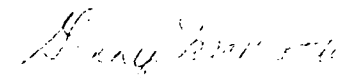

Since you now own the lands covered under this permit, the permit should be transferred to your name. Enclosed is a partially completed "Notice of Transfer". Please complete the form and sign in the presence of a notary. Upon completion of the form, return it to our office with the required filing fee of \$2.50.

Water Permit No. 5011-3 specifies a date for completion of the project as April 25, 1989. If you do not intend to irrigate or develop a system as described in the permit (copy enclosed), please disregard the transfer form and contact our office.

South Dakota Water Law 46-5-30.3 requires Notice of any sale, grant, lease, conveyance or other transfer of a Water Permit or Water Right to appropriate water to be filed with this office within ninety days.

Dear Mr. Jongeling:

I am writing in followup to our telephone conversation of April 21, 1989. You indicated your irrigation system was installed (with the exception of the electricity being turned on) and you would be irrigating this summer.

Enclosed is a "Notice of Completion of Works and Application of Water to Beneficial Use" form. Please complete the form with the appropriate dates and return it to us after the water has been placed to beneficial use. Completion of this form serves as notification to us that your irrigation system is ready for inspection. After an inspection is conducted, a water license is issued to show the extent of development.

Dear Mr. Jongeling:

The inspection of your water use system and the inspection of the extent of application of water to beneficial use, as developed under Water Permit No. 5011-3, has been completed. Your final water right document, the Water License, can now be issued.

Statutes require that we charge a \$50.00 fee for the inspection and issuance of the Water License. Upon receipt of the \$50.00 fee from you, we will begin processing your Water License.

South Dakota Water Law 46-5-30.1 requires that a permit holder may not divert water until the \$50.00 license fee has been paid. Please contact us if you have any questions.

Sincerely,

Dear Mr. Jongeling:

Enclosed is Water License No. 5011-3. This is the final water right document completing your process of obtaining a Water Right. Enclosed is Receipt No. 412828 in the amount of \$50.00 which you paid for the inspection and issuance of the Water License.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 5011-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.
