WATER PERMIT

The Water Management Board hereby approves Water Permit Application No. 5087-3
Larson Concrete Co. P.O. Box 497, Aberdeen
(Applicant) (Post Office Address)
SD 57402-0497 With the following qualifications.
(State) (Zip Code)

The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner, under this permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.

Date of first receipt of application April 4, 1986.

Date of return to applicant for correction, amendments or changes required _____, 19____.

Date of receipt of corrected application _____, 19____. Approved July 1, 1986.

The Water Management Board hereby approves this Water Permit No. 5087-3 authorizing the construction of the water use system and the placing of water to beneficial use as stated in the Application and as qualified in the Water Permit approval, subject, however, to the following limitations and conditions:

1. The date from which applicant may claim right is April 4, 1986.
2. The equivalent of at least one-fifth of the specified work is to be completed on or before _____, 19____.
3. The whole of said work is ~~to be completed on or before~~ _____, 19____.
4. The limit of time from proof of beneficial use of water appropriated in accordance herewith is _____, 19____.
5. The water appropriated shall be used for the purpose of industrial use to produce ready-mix concrete
6. The prior right of all persons who, by compliance with the laws of the State of South Dakota, have acquired a right to the use of water must not be unlawfully impaired by this appropriation.
7. The amount of the appropriation herein granted shall not exceed .10 cubic feet per second; neither shall it exceed the capacity of the above described water supply system nor shall it exceed the amount of water needed for beneficial uses served and to which water is actually and beneficially applied for industrial use on or before _____, 19____; said water to be used during the following described annual period: Apr 1 - Nov 30

Larson Redl Mix
124 S. Jackson
Aberdeen, South Dakota 57401

Dear Sir:

A well drillers report filed with this office by Anderson Well Co. Indicates you have recently completed a new well. The well driller is required by South Dakota Compiled Laws (SDCL 46-6-11) to file a well construction report within 30 days of completion. The purpose of this letter is to provide general information and to inform you, the well owner, of the responsibilities you have incurred.

1. If your new well was drilled as a replacement well and if you do not plan to use the old well, the old well is considered abandoned and must be plugged pursuant to SDCL 46-6-27. Other abandoned wells must also be plugged.
2. If the old well is not to be abandoned, or will be used, the well must still be sealed or capped at the surface pursuant to SDCL 46-6-27.

General Information. The following is being provided to all new well owners for information purposes and may not apply to you.

1. If a well will be allowed to flow or will be pumped more than 18 gallons per minute (gpm) or if a person intends to use more than 18 gpm or more than 26,000 gallons per day (average of 18 gpm) for domestic use, a water permit is required pursuant to SDCL 46-1-6(4) and (6), 46-1-15, 46-5-8 and Water Management Board Rules 74:02:01:01(1) and 74:02:01:03. A pump larger than 18 gpm may be used as long as the total daily domestic use does not exceed 26,000 gallons per day (gpd). Water for geothermal heating and/or cooling for a home is domestic use, and may be used without a water permit, if the use is no more than 18 gpm.
2. State laws require all flowing wells to be controlled to prevent waste. No matter what the flow of the well, the well must be controlled to produce only the amount of water needed. This is a continuing responsibility of the well owner pursuant to SDCL 46-6-10, 46-6-14 and 46-6-21.
3. Any common distribution system such as a city, town, subdivision or rural water system that pumps or diverts more than 18 gpm is required by SDCL 46-5-8.2 to have a water permit.

4. A water permit is required pursuant to SDCL 46-1-15 to use water for commercial business operations, industrial purposes, mining or irrigation of more than 1/2 acre.

Please feel free to contact us if you have questions, need information or water permit application forms.

Very truly yours,

REPORT ON APPLICATION NO. 5087-3
LARSON CONCRETE CO.
April 14, 1986

This application proposes to divert 0.10 cfs from one well 156 feet deep located in the NE 1/4 SE 1/4 of Section 26, T122N, R56W in Day County. The water is to be used in making ready-mix concrete, industrial purposes.

Aquifer: Prairie Coteau (PCO)

Geology and Aquifer Characteristics

The Prairie Coteau is a buried glacial (sand & gravel) aquifer under artesian conditions which underlies at least 500,000 acres in Day County and contains at least 675,000 acre-feet of recoverable water (Hedges, etal. 1982). The aquifer is not well defined. In the area of this application the aquifer is overlain by approximately 150 feet of till and may approach 40 feet in thickness. The City Study for Webster (Barari, 1974) refers to the aquifer as the outwash deposit 200 feet deep. The Division of Water Rights does not have any observation wells in this area. Very little is known about the geohydrological characteristics of the aquifer; however, the City of Webster has been using this aquifer as a water source for many years.

Review of Existing Water Permits

There are 3 other existing permits within 1 mile of this application.

<u>Permit</u> No.	<u>Name</u>	<u>Use</u>	<u>No. of</u> <u>Wells</u>	<u>Depth</u>	<u>CFS</u>	<u>Aquifer</u>
567-3	City of Webster	mun	3	238', 250', 85'	1.88	PCO
1865-3	Mason Rust for City of Webster	mun	1	187'	0.44	PCO
4404-3	Gaikowski	sub	2	190'	0.22	PCO

Interference is possible; however, the diversion rate requested is small and any impacts should be minimal. There have never been any complaints concerning water availability in this area.

Conclusions

1. Water is available from the Prairie Coteau Aquifer.
2. Data is not available to quantify interference potential; however, this should not be a problem.
3. The aquifer is under artesian conditions and the well log submitted with the application indicates the well produced 12 gpm with no drawdown.

JAMES GOODMAN
Hydrologist

RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT
APPLICATION NO. 5087-3, Larson Concrete Company

Pursuant to SDCL 46-2-A2, the following is the recommendation of the Chief Engineer, Water Rights Division, Department of Water and Natural Resources concerning Water Permit Application No. 5087-3, Larson Concrete Company, PO Box 497, Aberdeen SD.

The Chief Engineer is recommending APPROVAL of Application No. 5087-3 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion can be developed without unlawful impairment of existing right, 3) the proposed use is a beneficial use and 4) in the public interest with the following qualification:

The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner, under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.

See the attached report for additional information.

JOHN HATCH, Chief Engineer
May 2, 1986

Instruction to Newspaper - Publish first publication of the following Notice on or before **May 14, 1986** with 2nd publication 1 week later. The applicant is responsible for payment.

NOTICE OF HEARING on Application No. 5087-3 to Appropriate Water
~~and/or to Amend Water Permit or Water Right No. _____~~

Notice is hereby given that Larson Concrete Co. whose mailing address is
P.O. Box 497, Aberdeen, South Dakota has made an application for a permit

to appropriate .10 cubic feet of water per second from one well 156 feet deep located
in the E₁SE₄ of Section 26-T122N-R56W. The water is for industrial use by the concrete
company.

Pursuant to SDCL 46-2A-2 the Chief Engineer of the Water Rights Division recommends
APPROVAL of Application No. 5087-3 because 1) unappropriated water is available,
2) will be no unlawful impairment of existing rights, 3) is beneficial use of water and
4) is in the public interest.

This application will be considered by the Water Management Board at room 216, Joe
Foss Building, 523 E. Capitol, Pierre, South Dakota, July 1 1986 at 10:00 am.

The recommendation of the Chief Engineer is not final or binding upon the Board and the Board is authorized to 1) approve, 2) approve with qualifications, 3) defer, or 4) deny this application after it reaches a conclusion based upon facts presented at the public hearing. Any interested person who may be affected by a Board decision and who intends to participate in the hearing before the Board and present evidence or cross-examine witnesses according to SDCL 1-26, must file a written petition with BOTH the applicant and the Chief Engineer by June 20, 1986. The petition may be informal, but it must include a statement describing the petitioners interest in the application, the reasons for the petitioner's opposition to or support of the application, and the signature and mailing address of the petitioner or his legal counsel if legal counsel is obtained. The applicant need not file a petition.

This application is made pursuant to the provisions of SDCL 46-1-1 thru 46-1-9, 46-1-12 thru 46-1-15; 46-2-3.1, 46-2-9, 46-2-11, 46-2-13, 46-2-17; 46-2A-1 thru 46-2A-10, 46-2A-12, 46-2A-14, 46-2A-15; 46-5-1 thru 46-5-11, 46-5-13 thru 46-5-15, 46-5-24, 46-5-25, 46-5-30.2 46-5-30.4, 46-5-31; ~~(ground)~~ 46-6-3, 46-6-3.1, 46-6-6.1, 46-6-10, 46-6-13, 46-6-14; ~~(future use)~~ 46-5-38 thru 46-5-40; ~~(transfer lands)~~ 46-5-30.4, 46-5-33 thru 46-5-35; ~~(10,000 AFA)~~ 46-5-20.1, 46-5-8.1, and Board Rules ARSD 74:02:01:01 thru 74:02:01:15; ~~(future use)~~ 74:02:01:24 thru 74:02:01:25; ~~(10,000 AFA)~~ 74:02:01:15:02 thru 74:02:01:15:05.

This hearing is an adversary proceeding. The applicant or any person, after filing a petition, has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

Any person wishing a copy of the Chief Engineer's recommendation, further information on this application or to assure access to the hearing by the handicapped can contact the Water Rights Division, DWNR, Joe Foss Bldg, Pierre SD (605 773-3352) for assistance prior to the hearing date. The time of the hearing will be automatically extended for at least twenty days upon written request of the applicant or any person who has filed a petition to oppose or support the application. The request for extension must be filed with the Chief Engineer by June 20, 1986.

Report Of Examination Of Works And/Or Application of Water To Beneficial Use

TO: Chief Engineer, Division of Water Rights, DENR, Foss Bldg., Pierre, SD 57501

I have this day made a thorough examination of the water use system constructed by Larson Concrete Co. of Aberdeen, SD holder of Permit No. 5087-3, bearing the priority of 4/4/1986 authorizing the diversion of 0.1 cu. ft. per second and/or the storage of 0 acre-feet of the waters of ground water for industrial purposes, in Day County.

I have to report on the conditions of the same as follows:

A. Works used to divert the water:

A submersible pump with a 45 gpm capacity.

B. Works used to transport water to place of use:

50' of 1" PVC

C. Works used to apply water to beneficial use:

The system is in the following condition good. The point of diversion is located from the SE corner of Section 26-T122N-R56W, 1700'N 200'W. The works are capable of diverting and conveying to the place of use 0.1 cu. ft. per second of water and/or storing 0 acre-feet of water which is to be used for industrial use. Water has been put to beneficial use to the maximum extent as follows:

comprising a total of 0 acres of land and the license should be issued for 0.1 cfs and/or 0 acre-feet of storage.

Applicable permit qualifications have been complied with ☒ Yes ☐ No

Exceptions to compliance are: none Date 8/27/1991

Mark D. Rath
Natural Resources Engineer II
DENR, Water Rights Division

1. Legal location of wells: from the SE corner of Section 26-T122N-R56W, 1700'N 200'W

2. Well Information: Well Drilling Firm Anderson Well Company

c) type **PVC** Static Water Level **120feet**

3. Distribution lines or canals

NOTE: For Permits with additional wells or changes in well locations, record the following for each well: pumping capacity, date constructed, well driller and if a well log is available.

Indicate any other permit(s) which are associated with project

NA 1. Soil and water permit lands agree with lands being irrigated and lands listed on permit?

Y 2. Special qualifications to permit being abided by?

- Y 3. All structures, wells and lands on map?
- NA 4. Irrigation Questionnaires checked to determine if permit owner started irrigation by end of construction period?
- NA 5. Is chemigation used?
- NA 6. If yes, does equipment comply with chemigation rules?

PIERRE SOUTH DAKOTA 57501-3181

5087-3

Larson Concrete Company
P.O. Box 497
Aberdeen, SD 57402-0497

Dear Sirs:

Enclosed is Water License No. 5087-3. This is the final water right document completing your process of obtaining a Water Right. Enclosed is Receipt No. 412851 in the amount of \$50.00 which you paid for the inspection and issuance of the Water License.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 5087-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Very truly yours,

JOHN HATCH, Chief Engineer

STATE OF SOUTH DAKOTA

WATER LICENSE NO. 5087-3

(1) Larson Concrete Company of P.O. Box 497, Aberdeen, SD 57402-0497 made Application No. 5087-3, April 4, 1986 for a water permit to appropriate 0.10 cubic feet of water per second from groundwater, Day County, South Dakota for Industrial purposes. Permit No. 5087-3 with a priority date of April 4, 1986 was approved July 1, 1986 and issued to applicant(s) for diversion of water with construction of the described water supply system completed and the application to beneficial use of said water completed.

(2) It is certified that the applicant has complied with the provisions of South Dakota State Law relating to completion of the construction of the water supply system and is entitled to divert 0.10 cubic feet of water per second for beneficial use. The location of the diversion point is: 1700'N and 200'W of the SE corner of Section 26, T122N, R56W (NE1/4 SE1/4).

(3) The applicant has complied with the provisions of South Dakota State Law relating to the application of water to beneficial use.

(4) Pursuant to Section 46-5-30.1 Larson Concrete Company of P.O. Box 497, Aberdeen, SD 57402-0497 the holder(s) and/or owner(s) of Water Permit No. 5087-3 is issued a license to appropriate water, the right to use 0.10 cubic feet of water per second from groundwater (one well) with a priority date of April 4, 1986 from the location specified in (2) of this license. The water is used for industrial purposes. This license is subject to any limitations or qualifications listed in Water Permit No. 5087-3 and subject to South Dakota State Law.

2000 South Dakota Water Use Questionnaire

To:

Address correction requested:

LARSON CONCRETE COMPANY
PO BOX 497
ABERDEEN SD 57402 0497

One questionnaire is being provided for each permitted water source. The following information is based on Water Permit\Right No. 5087-3. If you have other permits\rights in the same water source, also include water use under those permits\rights on this questionnaire.

Water Source: GROUNDWATER

County: DAY

Aquifer: PRAIRIE COTEAU

Pumping Pt. Legal: SEC 26-T122N-R56W

Management Unit: NOT APPLICABLE

Type of Water Use: INDUSTRIAL

1) Please estimate your year 2000 water use from the above water source: _____ gallons

2) If no water use in 2000, please list the reason(s) why in the comments section.

Comments:

Larson Concrete is not currently operating.

Contact Person:

Steve Larson

Telephone No:

605-225-2833

Questions? Please call Mark Rath or Ron Duvall at 605 773-3352 for assistance.

Thank you for completing the 2000 water use questionnaire.
