COMMENTS:

I contacted Mr. Rehwaldt to determine if the Randall Community Water District (RCWD) intended to increase the pumping capacity of the water distribution system. Mr. Rehwaldt stated that the system capacity was to be increased by replacing one of three pumps at the Pickstown pump station to increase the capacity from 1150 gpm to approximately 1400 gpm. The capacity of the Platte pump station will remain at 1000 gpm. Mr. Rehwaldt stated the extra capacity is needed even without adding Ravinia to the system. I told Mr. Rehwaldt I would amend the application to increase the capacity of the system by 250 gpm.

File in Permit or other file as necessary. Use to document conversations and what the other party was told; why action or decision was made.

Dear Mr. Rehwaldt:

This letter is in response to your water permit application and our phone conversation on August 24, 1988. The following information is needed to complete the water permit application:

- Enclosed*
- 1) The application fee to appropriate an additional 250 gpm is \$275.00.
 - 2) I need to determine if the diversion point described on Water Permit No. 2292-3 for the Pickstown diversion point is accurate. The location of the diversion point as described on Permit No. 2292-3 is located in the NE1/4 SE1/4 section 5-T95N-R65W. If the legal description is correct, I can use the map submitted with Permit No. 2292-3. If the actual location is different from the above description, then a new map will need to be submitted according to the directions on the enclosed instruction sheet. Please inform me if the legal description is correct.

*this is

The application can not be considered by the Water Management Board until the application is complete. The fee will need to be received prior to the Board meeting date if the application is to be considered by the Board. I also need verification that the above Pickstown diversion point is correct as soon as possible.

Please contact me if you have any questions.

REPORT ON APPLICATION NO. 5215-3
Randall Community Water District
August 26, 1988

Water Permit Application No. 5215-3 requests an additional 0.56 cubic feet of water per second (cfs) to be diverted from the Missouri River in the NE1/4 of the SE1/4 of Section 5 - T95N - R65W, Charles Mix County. The water will be used in a rural water system. This application also proposes to connect the Town of Ravina to the rural water system.

The distribution system's pumping capacity is to be increased by replacing one of three pumps at the Pickstown pumping station. The pumping capacity will increase from 1150 to 1400 gallons per minute.

CONCLUSION

1. Water is available for appropriation from the Missouri River.
2. Approval of this application will not adversely affect existing water rights on the Missouri River.
3. It is recommended Water Permit Application No. 5215-3 be approved.

RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT
APPLICATION NO. 5215-3, Randall Community Water District

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Division, Department of Water and Natural Resources concerning Water Permit Application No. 5215-3, Randall Community Water District, PO Box 37, Lake Andes SD.

The Chief Engineer is recommending APPROVAL of Application No. 5215-3 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion can be developed without unlawful impairment of existing rights, 3) the proposed use is a beneficial use and 4) in the public interest.

See the attached report for additional information.

Dear Mr. Rehwaldt:

Your Application No. 5215-3 for a permit to appropriate water for rural water system use has been examined and found to comply with the South Dakota Water Laws and applicable rules. A notice of your intent to appropriate water has been sent to the Publishers of the Wagner Post, Wagner SD, the Armour Chronicle, Armour SD and the Chamberlain Register, Chamberlain SD. For your information, a copy of the notice, the recommendation of the Chief Engineer and a report on the application are enclosed. Please review the notice prior to publication and notify this office, if you have any corrections or questions.

Be sure to contact the above newspapers to authorize publication of your Notice of Intent to Appropriate Water and to arrange for payment. Early contact with the papers can eliminate delays. The publishers have been instructed to publish your notice once each week for two consecutive weeks with the last publication to occur twenty days before the board meeting. We must receive Proof of Publication before the application can be considered by the Water Management Board.

Sincerely,

NOTICE OF HEARING on Application No. 5215-3 to Appropriate Water and To Connect
The Town of Ravina to the Water Distribution System

Notice is given that the Randall Community Water District, PO Box 37, Lake Andes SD 57356 has filed an application for a water permit to appropriate an additional 0.56 cubic feet of water per second from the Missouri River by installation of a larger pump at the Pickstown pumping plant. The point of diversion is located in the NE 1/4 SE 1/4 Section 5, T95N, R65W and the additional water is to be used to supply the rural water system. This application also proposes to connect the Town of Ravina to the Randall Community Water Distribution System.

Pursuant to SDCL 46-2A-2, the Chief Engineer of the Water Rights Division recommends APPROVAL of Application No. 5215-3 because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water and 4) it is in the public interest. This application will be considered by the Water Management Board in Room 216, Joe Foss Building, 523 E Capitol, Pierre SD on October 5, 1988 at 10:00 am. The Chief Engineer's recommendation is not final or binding upon the Board. The Board is authorized to 1) approve, 2) approve with qualifications, 3) defer or 4) deny this application based on the facts presented at the public hearing.

Any interested person that intends to participate in the hearing before the Board by presenting evidence or cross-examining witnesses according to SDCL 1-26, must file a written petition with BOTH the applicant and Chief Engineer by September 23, 1988. The Chief Engineer's address is "Water Rights Division, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)". The petition may be informal, but must include a statement describing the petitioner's interest in the application, the petitioner's reasons for opposing or supporting the application and the signature and mailing address of the petitioner or legal counsel if legal counsel is obtained. The applicant need not file a petition. Contact the Water Rights Division to request information on this application or to assure access to the hearing by the handicapped.

This hearing is an adversary proceeding. Any person filing a petition and/or the applicant have the right to be represented by a lawyer. These and other due process rights will be forfeited if not exercised. Decisions of the Board may be appealed to the Circuit Court and State Supreme Court as provided by law. The time of the hearing will also be automatically delayed for at least twenty days upon written request to the Chief Engineer from the applicant or a petitioner. The request for a delay must be received by September 23, 1988.

This application is made pursuant to SDCL 46-1-1 thru 46-1-9, 46-1-12 thru 46-1-15; 46-2-3.1, 46-2-9, 46-2-11, 46-2-13, 46-2-17; 46-2A-1 thru 46-2A-10, 46-2A-12, 46-2A-14, 46-2A-15; 46-5-1 thru 46-5-11, 46-5-13 thru 46-5-15, 46-5-24, 46-5-25, 46-5-30.2, 46-5-30.4, 46-5-31; and Board Rules ARSD 74:02:01:01 thru 74:02:01:15.

on October 5, 1988 at 10:00 a.m. The
Chief Engineer's recommendation is
not final or binding upon the Board.
The Board is authorized to 1)
approve, 2) approve with
qualifications, 3) defer or 4) deny this
application based on the facts
presented at the public hearing.

Any interested person that intends to participate in the hearing before the Board by presenting evidence or cross-examining witnesses according to SDCL 1-26, must file a written petition with BOTH the applicant and Chief Engineer by September 23, 1988. The Chief Engineer's address is "Water Rights Division, Foss Building, 523 E. Capitol, Pierre, SD 57501 (605-773-3352)". The petition may be informal, but must include a statement describing the petitioner's interest in the application, the petitioner's reasons for opposing or supporting the application and the signature and mailing address of the petitioner or legal counsel if legal counsel is obtained. The applicant need not file a petition. Contact the Water Rights Division to request information on this application or to assure access to the hearing by the handicapped.

This hearing is an adversary proceeding. Any person filing a petition and/or the applicant have the right to be represented by a lawyer. These and other due process rights will be forfeited if not exercised. Decisions of the Board may be appealed to the Circuit Court and State Supreme Court as provided by law. The time of the hearing will also be automatically delayed for at least twenty days upon written request to the Chief Engineer from the applicant or a petitioner. The request for a delay must be received by September 23, 1988.

This application is made pursuant to SDCL 46-1-1 thru 46-1-9, 46-1-12 thru 46-1-15; 46-2-3.1, 46-2-9, 46-2-11,

Dear Mr. Rehwaldt:

Enclosed is Water Permit No. 5215-3 as approved by the Water Management Board authorizing you to construct your water diversion system and put the water to beneficial use, not exceeding the limits as specified in Water Permit No. 5215-3.

Also enclosed is Form 10, Notice of Completion of Works and Application of Water to Beneficial Use, which you are to complete and submit to the Chief Engineer when you have completed the system and/or have put the water to beneficial use. An inspection can then be scheduled so that the Water License may be issued, thus completing your acquisition of a Water Right.

Very truly yours,

PLEASE NOTE: Certain changes can be made in your permit within the five year construction period, usually without affecting the priority date provided an application to amend your permit is made within the five year period - i.e. changes in location or number of diversion points (wells) or location of land to be irrigated. Well locations for wells into the same aquifer can be moved up to 660 feet without application.

Applications to amend a permit after the five year construction period will be assigned a new priority date. Applications to change water sources, to add lands or increase original diversion rates, if approved will usually receive the date of the new application as a priority date regardless of the five year construction period.

Dear Mr. VanZee:

Enclosed is Water License No. 5768-3 and Receipt No. 415866 for \$50.00 which was assessed for an investigation and issuance of the license. Water License No. 5768-3 is the final document which completes the process of obtaining a water right.

As long as you use the water beneficially, as stated in the Water License, State Water Laws provide that you have a continuing right to use the water.

Very truly yours,
