**SOUTH DAKOTA
WATER PERMIT No. 5299-3 FOR IRRIGATION**

Date of first receipt of application March 13, 1989.

Date Soil/Water Compatibility Permit received March 30, 1989.

Date of return to applicant for required corrections, amendments or changes March 17, 1989.

Date of receipt of corrected application March 22, 1989.

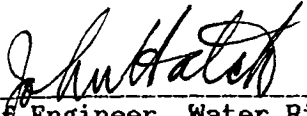

The Water Management Board approved Water Permit Application No. 5299-3 on May 10, 1989 for Randall R. Calleson, RR #1, Box 32, Estelline, SD 57234 authorizing the construction of the water use system and the placing of water to beneficial use subject to the following limitations, conditions and qualifications:

1. Water Permit No. 5299-3 appropriates 1.88 cubic feet of water per second from one well (Big-Sioux Brookings) 80 feet deep located in the NE1/4 NE1/4 to irrigate 132 acres in the NW1/4; all in Section 5, T112N, R51W.
2. The amount of the appropriation may not exceed 2 acre feet per acre per year or one-seventieth (1/70) cubic feet of water per second for each acre of land to which water is actually and beneficially applied for irrigation. The water is to be used during the following described annual period: April 1 to October 31.
3. The date from which applicant may claim right is March 13, 1989.
4. One-fifth of the construction is to be completed on or before November 10, 1991.
5. All construction is to be completed on or before May 10, 1994.
6. Water is to be put to beneficial use on or before May 10, 1998.
7. Water rights obtained in compliance with the laws of the State of South Dakota may not be unlawfully impaired by this appropriation.

QUALIFICATIONS

- 1) Approval of Permit No. 5299-3 does not allow an increase in the licensed diversion rate of 1.88 cfs authorized for Water Right No. 2593-3.
- 2) The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
- 3) This permit is approved subject to the irrigation water use questionnaire being submitted each year.

Estelline, SD 57234

Dear Mr. Callesen:

This letter is in response to the water permit application received from you on March 13, 1989.

The application is not complete for the following reason(s):

- (1) The enclosed application forms need to be **notarized**.
- (2) A well log signed by the well driller, if available, should be submitted.
- (3) The enclosed Form 2A needs to be completed for the well.

The Water Management Board cannot consider a water permit application until it is complete. Please have the enclosed application forms notarized and return them along with the completed Form 2A, and a well log, if available to begin processing of your water permit application.

Feel free to contact us if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Susan A. Bowar".

Conversation or File Documentation

* 2593-3NAME OF PERSON OR FILE: Randall CallesonADDRESS: RR1, Box 32 Estelline, SD 57234 COUNTY BrookingsDATE: 4-18-89 TELEPHONE (605) 873-2624RE: Clarification of Diversion Rate on Permit App 5299-3COMMENTS: (NW $\frac{1}{4}$, Section 5, T112N, R51W)

I spoke with Mr. Calleson by phone concerning the diversion rate for Permit Application 5299-3. He had asked for 2.0 cfs for 132 acres from an existing well. The well was already used for irrigating a pivot under Water Permit No. 2593-3. (NE $\frac{1}{4}$, 5-112-51)

Mr. Calleson explained that a second pivot was to be installed and the one well was going to be used to run them both. The 2 pivots were not going to be operated at the same time and no modifications were going to be made to the well or pump. Thus, no change in diversion rate ~~rate~~ was necessary and no new water appropriation should be authorized.

Mr. Calleson may use more water (volume) to apply to the additional acreage, but the rate of diversion should remain at 1.88 cfs as listed on the licence for Permit No. 2593-3.

File in Permit or other file as necessary. Use to document conversations and what the other party was told; why action or decision was made.

Report on Application 5299-3
Randall R. Calleson
April 4, 1989

Water Permit Application No. 5299-3 was submitted for Randall R. Calleson of Estelline, South Dakota to appropriate 2.0 cubic feet of water per second (cfs) from one existing well, 80 feet deep, located in the NE1/4 NE1/4 to irrigate 132 acres in the NW1/4; all in Section 5, T112N, R51W, in Brookings County.

The well supplies an existing center pivot located on the NE1/4 of the section. A buried pipeline will be extended from the existing pivot to a new center pivot. The additional pivot will be placed on the NW1/4 of Section 5, but the 2 quarters will not be irrigated at the same time, nor will the well capacity be increased. No increase in the diversion rate should be authorized.

Aquifer

The well for Application No. 5299-3 is an existing well that has been drilled into the Big Sioux Aquifer-Brookings Management Unit. It is a surficial aquifer found predominately under water table conditions. The aquifer can be under artesian conditions in some areas (Hedges, 1982). Test hole logs from the applicant, Water Rights Division observation wells, and other wells in the vicinity indicate artesian conditions exist at this site. The area has sand and gravel located a few feet below the surface with a 10-15 foot layer of clay at approximately 20-35 feet below the land surface. Below that is 20-40 feet of saturated sands and gravels (Permit Files & Drillers Logs, 1989).

The Big Sioux-Brookings Aquifer has an estimated average recharge of 4.0 inches of water per year with an average annual use of 0.84 inches. Recharge is from precipitation infiltration, inflow from upgradient portions of the aquifer and through the aquifer's connection with the Big Sioux River (Hedges, 1983). Although confined conditions are found at this particular location, the majority of the aquifer is unconfined and provides most of the recharge water.

Water Availability

The proposed well for Application No. 5299-3 has been in existence for a number of years. The well is being used to supply Permit No. 2593-3, which has been licensed for 1.88 cfs to irrigate 140 acres in the NE1/4 of Section 5, T112N, R51W. According to the applicant, an additional pivot will be placed on the NW1/4, but the two quarters will not be irrigated at the same time. The application requests 2.0 cfs of additional water from the one existing well, but no plans are in order to increase the well capacity. It is recommended that no increase in diversion

rate be authorized, and that the 1.88 cfs under Water Permit No. 2593-3 remain the total diversion rate. No diversion rate increase is required, but there may be an increase in volume applied to the land because of the additional acreage irrigated.

There are 5 Water Rights Division observation wells within approximately 2 miles of the applicant's well. Two of them are water table and the other 3 are under slight artesian pressure. Water elevations in the wells ranged from 15 to 40 feet below the land surface with total recorded variations of 15 to 20 feet in any particular well. The observation wells show seasonal fluctuations related to yearly variations in precipitation. Irrigation pumping may cause the wells to fluctuate by a few feet, but recovery occurs following the irrigation season. No long term trends in water levels were detected (Observation Well Files, 1989).

Existing Water Permits

There are a number of water permits located in the vicinity of this application. The closest permits, No. 2594-3 for Kenneth Tesch and No. 5300-3 for Rex Schwartz, are both less than 1/2 mile from the applicant's well. Permit No. 5300-3, which proposes a well location 1/4 mile from the applicant's well, has not yet been presented before the Water Management Board for approval. Because of the artesian conditions, some interference could result during dry conditions, but the effects should not be significant (Permit Files, 1989). There are also other domestic wells located in the area that take water from the Big Sioux-Brookings Aquifer.

The well for Application No. 5299-3 has been in use for a number of years and the Water Rights Division does not have any record of interference problems with that well (Complaint Files, 1989). There are records of general complaints in the region during 1976-77 concerning irrigation and low water levels in domestic wells.

Conclusions

1. Permit Application No. 5299-3 will withdraw water from one existing well located in the Big Sioux Aquifer-Brookings Management Unit. Water is available for this application.
2. The permit authorizes the irrigation of an additional 132 acres of land from the one existing well. An additional 2.0 cfs was requested on the application. A subsequent conversation with the applicant revealed that a second center pivot will be installed, but that the 2 pivots will not be run concurrently and the well capacity will not be increased. It is recommended that the application be approved with no increase in the diversion rate.

3. The well has been in operation for a number of years with no complaints against its use.

4. A number of other permitted and domestic wells are located in the vicinity of the application. In 1976-77, domestic well owners voiced concern over the effects irrigation would have on their water levels. No significant interference is expected with any other permit holders or any adequately constructed domestic wells.

RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT
APPLICATION NO. 5299-3, Randall R. Calleson

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Division, Department of Water and Natural Resources concerning Water Permit Application No. 5299-3, Randall R Calleson, RR 1, Box 32, Estelline SD.

The Chief Engineer is recommending APPROVAL of Application No. 5299-3 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion can be developed without unlawful impairment of existing rights, 3) the proposed use is a beneficial use and 4) in the public interest with the following qualifications:

1. Approval of Permit No. 5299-3 does not allow an increase in the licensed diversion rate of 1.88 cfs authorized for Water Right No. 2593-3.
2. The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
3. This permit is approved subject to the irrigation water use questionnaire being submitted each year.

Estelline SD 57234

Dear Mr. Calleson:

Water Permit Application No. 5299-3 for irrigation use has been examined and found to comply with the South Dakota Water Laws and applicable rules. A notice of hearing has been sent to the Publisher of the Brookings Register printed at Brookings SD. For your information, a copy of the notice is enclosed. The recommendation of the Chief Engineer and a report on the application will be sent later. Please review the notice prior to publication and notify this office, if you have any corrections or questions.

Be sure to contact the above newspaper to authorize publication of your Notice of Intent to Appropriate Water and to arrange for payment. Early contact with the paper can eliminate delays. The publisher has been instructed to publish your notice once each week for two consecutive weeks with the last publication to occur twenty days before the board meeting. We must receive Proof of Publication before the application can be considered by the Water Management Board.

Sincerely,

Ron Duvall
Natural Resources Engineer

Brookings SD 57006

Dear Sir:

Enclosed is a Notice of Hearing on Application No. 5299-3 to be published twice. Please publish the first notice on or before April 12, 1989 with the second publication 7 days later.

The APPLICANT MUST VERIFY TO YOU THAT THE NOTICE IS TO BE PUBLISHED, before you make the first publication. Please BILL the APPLICANT for the cost of publication. The APPLICANT is Randall R. Calleson, RR 1, Box 32, Estelline SD 57234.

A copy of BOTH publications must be SENT to the WATER RIGHTS DIVISION. IMMEDIATELY return the FIRST publication with the FIRST Transmittal form on the bottom of this page. The first copy is needed to check the publication for errors so any corrections can be made in the second publication. Publication errors can invalidate the public notice and cause the applicant costly delays.

Please be sure the SECOND publication is returned IMMEDIATELY with the enclosed Proof of Publication form. DO NOT WAIT until the end of the month or the billing cycle. The permit application cannot be considered by the Water Management Board until proof of publication has been received.

Sincerely,

Ron Duvall
Natural Resources Engineer

NOTICE OF HEARING on Application No. 5299-3 to Appropriate Water

Notice is given that Randall R. Calleson, RR 1, Box 32, Estelline SD 57234 has filed an application for a water permit to appropriate 2.0 cubic feet of water per second from one well (Big-Sioux Brookings) 80 feet deep located in the NE 1/4 NE 1/4 to irrigate 132 acres in the NW 1/4; all in Section 5, T112N, R51W.

Pursuant to SDCL 46-2A-2, the Chief Engineer of the Water Rights Division recommends APPROVAL of Application No. 5299-3 because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water and 4) it is in the public interest. This application will be considered by the Water Management Board in Room 216, Joe Foss Building, 523 E Capitol, Pierre SD on May 10, 1989 at 10:00 am. The Chief Engineer's recommendation is not final or binding upon the Board. The Board is authorized to 1) approve, 2) approve with qualifications, 3) defer or 4) deny this application based on the facts presented at the public hearing.

Any interested person that intends to participate in the hearing before the Board by presenting evidence or cross-examining witnesses according to SDCL 1-26, must file a written petition with BOTH the applicant and Chief Engineer by April 28, 1989. The Chief Engineer's address is "Water Rights Division, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)". The petition may be informal, but must include a statement describing the petitioner's interest in the application, the petitioner's reasons for opposing or supporting the application and the signature and mailing address of the petitioner or legal counsel if legal counsel is obtained. The applicant need not file a petition. Contact the Water Rights Division to request information on this application or to assure access to the hearing by the handicapped.

This hearing is an adversary proceeding. Any person filing a petition and/or the applicant have the right to be represented by a lawyer. These and other due process rights will be forfeited if not exercised. Decisions of the Board may be appealed to the Circuit Court and State Supreme Court as provided by law. The time of the hearing will also be automatically delayed for at least twenty days upon written request to the Chief Engineer from the applicant or a petitioner. The request for a delay must be received by April 28, 1989.

This application is made pursuant to SDCL 46-1-1 thru 46-1-9, 46-1-12 thru 46-1-15; 46-2-3.1, 46-2-9, 46-2-11, 46-2-13, 46-2-17; 46-2A-1 thru 46-2A-10, 46-2A-12, 46-2A-14, 46-2A-15; 46-5-1 thru 46-5-11, 46-5-13 thru 46-5-15, 46-5-24, 46-5-25, 46-5-30.2, 46-5-30.4, 46-5-31; 46-6-3, 46-6-3.1, 46-6-6.1, 46-6-10, 46-6-13, 46-6-14; and Board Rules ARSD 74:02:01:01 thru 74:02:01:15.

NOTICE OF COMPLETION OF WORKS AND
APPLICATION OF WATER TO BENEFICIAL USEDate 11-17-88TO: Water Rights Division, DWNH
Joe Foss Building
Pierre SD 57501-3181FROM: Randall R. Callen Rt 1 Box 32 Estelline, S.D. 57234
name address city

I have completed the construction of the water diversion system and I have put the water to beneficial use to the maximum extent it is going to be used. I have not exceeded the amounts specified in Water Permit No. 5299-3.

Water Permit No. 5299-3 states that the diversion system is to be constructed by May 10 1994, and that the water it put to beneficial use by May 10 1998.

The diversion system was completed on May 23 1989.
Applying the water to beneficial use was completed on June 11 1989.

You may schedule an inspection so that the Water License may be issued.

Dear Mr. Calleson:

Enclosed is Water Permit No. 5299-3 as approved by the Water Management Board authorizing you to construct your water diversion system and put the water to beneficial use, not exceeding the limits as specified in the Water Permit.

Also enclosed is Form 10, Notice of Completion of Works and Application of Water to Beneficial Use, which you are to complete and submit to the Chief Engineer when you have completed the system and/or have put the water to beneficial use. An inspection can then be scheduled so that the Water License may be issued, thus completing your acquisition of a Water Right.

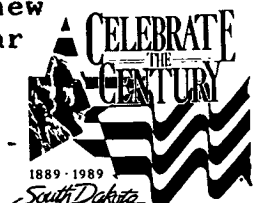

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Division
605 773-3352

enclosures

PLEASE NOTE: Certain changes can be made in your permit within the five year construction period, usually without affecting the priority date provided an application to amend your permit is made within the five year period - i.e. changes in location or number of diversion points (wells) or location of land to be irrigated. Well locations for wells into the same aquifer can be moved up to 660 feet without application.

Applications to amend a permit after the five year construction period will be assigned a new priority date. Applications to change water sources, to add lands or increase original diversion rates, if approved will usually receive the date of the new application as a priority date regardless of the five year construction period.

Chester, SD 57016

Dear Mr. Wold:

Our records indicate that you may have drilled an irrigation well for Leonard Calleson of Estelline, SD several years ago. The well is located in the NE1/4 of Section 5-T112N-R51W in Brookings County, I have not been able to find the as complete well log for this production well. I would appreciate it if you would check your files for the well log and then send any information you have concerning this to me.

If you need any additional information, feel free to contact me.

Sincerely,

Mark D. Rath
Natural Resources Engineer II
Water Rights Division

5299-3

Randall R. Calleson
RR 1, Box 32
Estelline, SD 57234

Dear Mr. Calleson:

The inspection of your water use system and the inspection of the extent of application of water to beneficial use, as developed under Water Permit No. 5299-3, has been completed. Your final water right document, the Water License, can now be issued.

Statutes require that we charge a \$50.00 fee for the inspection and issuance of the Water License. Upon receipt of the \$50.00 fee from you, we will begin processing your Water License.

South Dakota Water Law 46-5-30.1 requires that a permit holder may not divert water until the \$50.00 license fee has been paid. Please contact us if you have any questions.

Sincerely,

Cheryl F. Frost
Secretary
Water Rights Division
(605) 773-3352

NOTE: On check or money order, please specify your permit number.
This will insure proper handling of the fee.

BIG SIOUX Water District

Report Of Examination Of Works And/Or Application of Water To Beneficial Use

TO: Chief Engineer, Division of Water Rights, DENR, Foss Bldg., Pierre, SD 57501

I have this day made a thorough examination of the water use system constructed by RANDALL R. CALLESON of RR1 BOX 32, ESTELLINE SD holder of Permit Nos. 5299-3 & 2593-3, bearing the priority of MARCH 13, 1989 authorizing the diversion of 1.88 cu. ft. per second and with a priority of FEBRUARY 23, 1976 authorizing the diversion of 2.3 cu. ft. per second, respectively, of the waters of GROUNDWATER for IRRIGATION purposes, in BROOKINGS County. I have to report on the conditions of the same as follows:

A. Works used to divert the water:

A 12 in. WESTERN LAND ROLLER PUMP WITH AN 800 gpm. CAPACITY

B. Works used to transport water to place of use:

3900 ft. OF 8 in. PVC PIPE

C. Works used to apply water to beneficial use:

A 1400 ft. ELECTROGATOR CENTER PIVOT WITH END GUN AND A 1280 ft. VALLEY CENTER PIVOT WITH END GUN

The system is in the following condition GOOD. The point of diversion is located FROM THE NE CORNER OF SECTION 5 T112N-R51W; 250 ft. SOUTH AND 50 ft. WEST. The works are capable of diverting and conveying to the place of use 1.78 cu. ft. per second of water which is to be used for IRRIGATION. Water has been put to beneficial use to the maximum extent as follows:

ALL LAND LOCATED IN SECTION 5 T112N-R51W:

NW1/4 NW1/4 - 30 ac NE1/4 NW1/4 - 35 ac SE1/4 NW1/4 - 35 ac SW1/4 NW1/4 - 30 ac

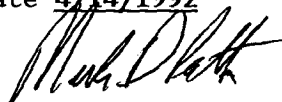

NW1/4 NE1/4 - 41 ac NE1/4 NE1/4 - 31 ac SE1/4 NE1/4 - 30 ac SW1/4 NE1/4 - 36 ac

comprising a total of 268 acres of land and the license should be issued for 1.78 cfs.

Applicable permit qualifications have been complied with ☒ Yes ☐ No

Exceptions to compliance are: NONE

Date 4/14/1992

Mark D. Rath
Natural Resources Engineer II
DENR, Water Rights Division

STATE OF SOUTH DAKOTA

WATER LICENSE NO. 5299-3

(1) Randall R. Calleson of RR 1, Box 32, Estelline, SD 57234 made Application No. 5299-3, March 13, 1989 for a water permit to appropriate 1.88 cubic feet of water per second from groundwater (existing well), Brookings County, South Dakota for irrigation purposes. Permit No. 5299-3 with a priority date of March 13, 1989 was approved May 10, 1989 and issued to applicant(s) for diversion of water with construction of the described water supply system to be completed on or before May 10, 1994 and for the application to beneficial use of said water on or before May 10, 1998.

The permit holder submitted a "Notice of Completion of Works and Application of Water to Beneficial Use" on November 21, 1989. The "Notice" stated the diversion system was completed on May 23, 1989, and the water applied to beneficial use on June 11, 1989.

Water Permit No. 5299-3 authorized irrigation of additional acreage from an existing well described under Water Right No. 2593-3. The applicable portions of Water Right No. 2593-3 are incorporated into this Water License No. 5299-3. A priority date of February 23, 1976 is retained for irrigation of the NE 1/4 Section 5 and a priority date of March 13, 1989 is retained for irrigation of the NW 1/4 Section 5.

(2) It is certified that the applicant has complied with the provisions of South Dakota State Law relating to completion of the construction of the water supply system and is entitled to divert 1.78 cubic feet of water per second for beneficial use. The location of the diversion point is: 250'S and 50'W of the NE corner of Section 5, T112N, R51W.

(3) The applicant has complied with the provisions of South Dakota State Law relating to the application of water to beneficial use to irrigate the following land:

T112N, R51W Section 5	NW 1/4 NW 1/4	30 Acres
	NE 1/4 NW 1/4	35 Acres
	SE 1/4 NW 1/4	35 Acres
	SW 1/4 NW 1/4	30 Acres
	NW 1/4 NE 1/4	41 Acres
	NE 1/4 NE 1/4	31 Acres
	SE 1/4 NE 1/4	30 Acres
	SW 1/4 NE 1/4	36 Acres
	Total-----	268 Acres

NW 1/4 - March 13, 1989 priority (established by No. 5299-3)

NE 1/4 - February 23, 1976 priority (established by No. 2593-3)

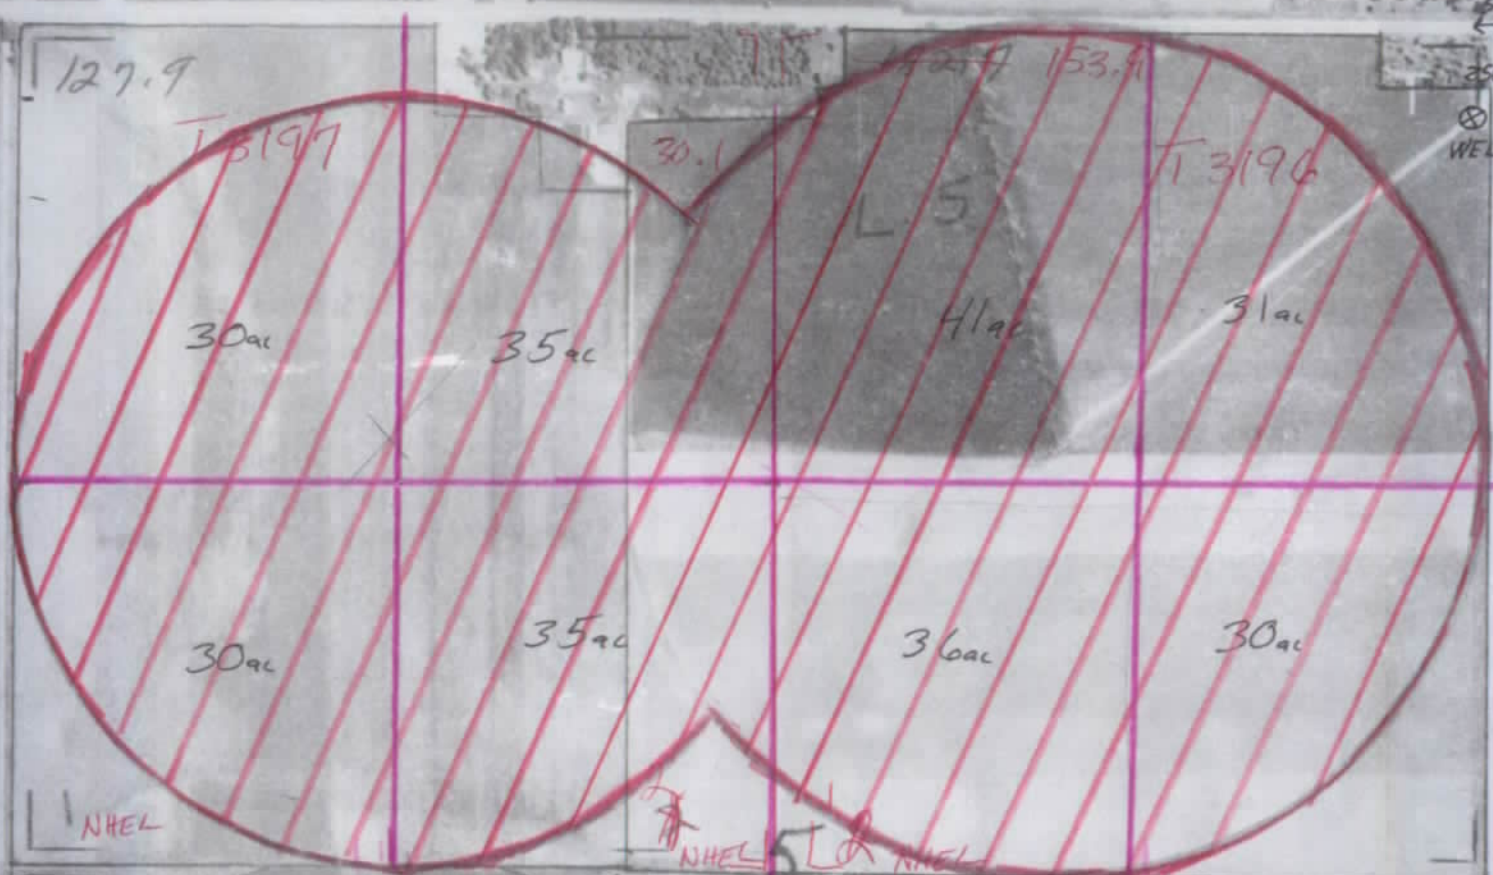

(4) Pursuant to Section 46-5-30.1 Randall R. Calleson of RR 1, Box 32, Estelline, SD 57234 the holder(s) and/or owner(s) of Incorporated Water Permit No. 5299-3 is issued a license to appropriate water, the right to use 1.78 cubic feet of water per second from groundwater (one well) with priority dates of March 13, 1989 and February 23, 1976 from the location specified in (2) of this license. The water is to be conducted to and upon lands specified in (3) of this license for the purpose of irrigation. This license is subject to any limitations or qualifications listed in Incorporated Water Permit No. 5299-3 and subject to South Dakota State Law.

Dear Mr. Calleson:

Enclosed is Water License No. 5299-3. This is the final water right document completing your process of obtaining a Water Right. Enclosed is Receipt No. 413286 in the amount of \$50.00 which you paid for the inspection and issuance of the Water License.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 5299-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Division
(605) 773-3352

NOTICE

TO: RANDALL R CALLESEN, 46139 196TH STREET, ESTELLINE, SD 57234 5100

FROM: Ron Duvall, Natural Resources Engineer
for John Hatch, Chief Engineer
Water Rights Program

SUBJECT: Violation of Water Permit No(s). 5299-3

Our records indicate that the 1996 Irrigation Questionnaire has not been submitted for Permit No(s) 5299-3. The request for the Questionnaire was dated October 24, 1996. The Water Management Board has directed that owners of water permits who have not submitted the 1996 Irrigation Questionnaire be given notice of permit violation and a hearing to be held by the Board. The hearing held by the Board will determine the action to be taken for violation of Water Permit No(s) 5299-3 qualification:

"This permit is approved subject to the Irrigation Water Use Questionnaire being submitted each year."

The hearing will be held at 2:30 pm, March 5, 1997 in the Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol, Pierre, SD, and will be conducted pursuant to SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to Chapter 1-26. According to SDCL 46-1-12, the Board may suspend a permit for a period of up to one year for the first violation of a permit qualification or up to three years for a second violation, or cancel a permit for a third violation. Following the hearing, the Water Management Board can:

1. Suspend or cancel Permit No(s) 5299-3 in accordance with applicable provisions of SDCL 46-1-12;
2. Postpone any action; or
3. Take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

If the questionnaire(s) is(are) received in this office on/or before February 28, 1997, you will no longer be in violation of your permit and your name will be deleted from the Board agenda. If you have questions or need assistance in completion of the irrigation questionnaire(s), please contact Genny McMath at (605) 773-3352.

NOTE: Please contact the Water Rights Program, Joe Foss Building, 523 E Capitol, Pierre, SD (605-773-3352) to assure access to the meeting room for the handicapped or to obtain an interpreter for the hearing impaired.

Estelline, SD 57234-5100

Dear Mr. Callesen:

I am writing to acknowledge receipt of your 1996 irrigation questionnaire. You may disregard the February 4, 1997, **Notice of Violation of Water Permit No. 5299-3.**

The information was received in our office prior to the Water Management Board meeting and your name has been deleted from the agenda.

Thank you and if you have any questions, please contact me.

Sincerely,

Genny McMath
Environmental Scientist
Water Rights Program
(605) 773-3352
