**SOUTH DAKOTA
WATER PERMIT No. 5311-3 FOR IRRIGATION**

Date of first receipt of application March 13, 1989.

Date Soil/Water Compatibility Permit received April 10, 1989.

Date of return to applicant for required corrections, amendments or changes March 17, 1989.

Date of receipt of corrected application March 28, 1989.

The Water Management Board approved Water Permit Application No. 5311-3 on May 10, 1989 for Delbert Tschakert, RR #1, Box 130A, Florence, South Dakota 57235 authorizing the construction of the water use system and the placing of water to beneficial use subject to the following limitations, conditions and qualifications:

1. Water Permit No. 5311-3 appropriates 1.5 cfs from one well, approximately 80 feet deep, to be located in the S1/2 Lot 5 to irrigate 60 acres located in Lots 2, 5, 6; all in Section 7, T118N, R54W.
2. The amount of the appropriation may not exceed 2 acre feet per acre per year or one-seventieth (1/70) cubic feet of water per second for each acre of land to which water is actually and beneficially applied for irrigation. The water is to be used during the following described annual period: May 1 to September 30.
3. The date from which applicant may claim right is March 13, 1991. 1989 
4. One-fifth of the construction is to be completed on or before November 10, 1991.
5. All construction is to be completed on or before May 10, 1994.
6. Water is to be put to beneficial use on or before May 10, 1998.
7. Water rights obtained in compliance with the laws of the State of South Dakota may not be unlawfully impaired by this appropriation.

QUALIFICATIONS

- 1) The well authorized by Permit No. 5311-3 shall be constructed by a licensed well driller and construction shall comply with Water Management Board Well Construction Rules, Chapter 74:02:04 with the well casing pressure grouted with cement (bottom to top) from the producing formation to the surface pursuant to Section 74:02:04:29.
- 2) The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
- 3) This permit is approved subject to the irrigation water use questionnaire being submitted each year.

Dear Mr. Tschakert:

Enclosed is a corrected copy of your Water Permit No. 5311-3. The original permit, issued on September 12, 1989, contained an error in the priority date.

Number 3 of Water Permit No. 5311-3 read as follows:

The date from which applicant may claim right is March 13, 1991.

The permit has been changed to read:

The date from which applicant may claim right is March 13, 1989.

We apologize for the error and any inconvenience this may have caused. If you have any questions concerning the enclosed permit or the correction that was made, please contact us.

Very truly yours,

Dear Mr. Tschakert:

This letter is in response to the water permit application received from you March 13, 1989.

The application is not complete for the following reason(s):

- (1) The acreage to be irrigated needs to be **clearly** outlined on the enclosed map that was submitted. In addition, the lots as labelled on the map are incorrect. I am enclosing a copy of the map as shown in our archives. Please revise the aerial photo, with respect to both the lot locations and the outline of the acreages to be irrigated.
- (2) The legal location of the point of diversion and of the acreages to be irrigated (No.4 and No.7) on the enclosed application form will also need to be revised according to the corrected map.
- (3) The enclosed Form 2A needs to be completed and submitted for the proposed well.
- (4) The amount of water claimed (No. 2) needs to be indicated on the enclosed application form.

The Water Management Board cannot consider a water permit application until it is complete. Please return a signed map with the acreages to be irrigated **clearly** indicated, the enclosed application forms with all corrections/additions made, the enclosed Form 2A, and the required fee to begin processing of your water permit application.

Feel free to contact us if you have any questions.

Report on Application Nos. 5310-3 and 5311-3

Delbert Taschkert

April 6, 1989

Application No. 5310-3 proposes to appropriate 2.23 cfs from 2 wells approximately 94 feet deep to irrigate 158 acres. The wells will be located near the center of the SW1/4 and 500 feet east of the center of the SW1/4 and the acres to be irrigated are located in Lot 3, Lot 4, NE1/4 SW1/4, SE1/4 SW1/4; all in Section 7, T118N, R54W. Application No. 5311-3 proposes to appropriate 1.5 cfs from 1 well approximately 80 feet deep to be located in the S1/2 Lot 5 to irrigate 60 acres located in Lots 2, 5, 6; all in Section 7, T118N, R54W in Codington County.

Aquifer - Prairie Coteau (PCO)

The Prairie Coteau is a buried glacial outwash (sand and gravel) which is under artesian conditions at this site. Test drilling by the applicant indicates 35 feet and 34 feet of sand and gravel. Preliminary testing at one drill hole indicated 200 gpm of yield using air.

The Prairie Coteau underlies 760 square miles of Grant and Codington Counties and contains an estimated 1.5 million acre-feet of water in storage (Hanson, pers comm., 1988). The Division of Water Rights monitors 3 wells (CD-77D, CD-77E and CD-78B) which are within 5 miles of this application. Water levels in these wells respond to pumping (slight 1-2 feet in change) and to climatic conditions, that is, rising during wet periods (recharge) and declining water levels during droughts. There have been no significant changes or trends which have developed (Water Rights, 1989).

Review of Existing Water Permits

The nearest existing permit is No. 4051-3 for the City of Florence. These proposed diversion points are approximately 2 miles west of Florence. Interference is not expected to be a problem. Some fluctuations due to pumping can be expected but this should be significant. The observation well data for this area confirms this.

Conclusions

1. Water is available from the PCO Aquifer.
2. The aquifer is under artesian conditions and fluctuations due to pumping are expected. There should be no adverse interference with adequately constructed wells.
3. The wells must be completed in accordance with SD Well Construction Standards.

RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT
APPLICATION NO. 5311-3, Delbert Tschakert

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Division, Department of Water and Natural Resources concerning Water Permit Application No. 5311-3, Delbert Tschakert, RR 1, Box 130A, Florence SD.

The Chief Engineer is recommending APPROVAL of Application No. 5311-3 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion can be developed without unlawful impairment of existing rights, 3) the proposed use is a beneficial use and 4) in the public interest with the following qualifications:

1. The well authorized by Permit No. 5311-3 shall be constructed by a licensed well driller and construction shall comply with Water Management Board Well Construction Rules, Chapter 74:02:04 with the well casing pressure grouted with cement (bottom to top) from the producing formation to the surface pursuant to Section 74:02:04:29.
2. The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
3. This permit is approved subject to the irrigation water use questionnaire being submitted each year.

Dear Mr. Tschakert:

Water Permit Application No. 5311-3 for irrigation use has been examined and found to comply with the South Dakota Water Laws and applicable rules. A notice of hearing has been sent to the Publisher of the Watertown Public Opinion printed at Watertown SD. For your information, a copy of the notice is enclosed. The recommendation of the Chief Engineer and a report on the application will be sent later. Please review the notice prior to publication and notify this office, if you have any corrections or questions.

Be sure to contact the above newspaper to authorize publication of your Notice of Intent to Appropriate Water and to arrange for payment. Early contact with the paper can eliminate delays. The publisher has been instructed to publish your notice once each week for two consecutive weeks with the last publication to occur twenty days before the board meeting. We must receive Proof of Publication before the application can be considered by the Water Management Board.

Dear Sir:

Enclosed is a Notice of Hearing on Application No. 5311-3 to be published twice. Please publish the first notice on or before April 13, 1989 with the second publication 7 days later.

The APPLICANT MUST VERIFY TO YOU THAT THE NOTICE IS TO BE PUBLISHED, before you make the first publication. Please BILL the APPLICANT for the cost of publication. The APPLICANT is Delbert Tschakert, RR 1, Box 130A, Florence SD 57235.

A copy of BOTH publications must be SENT to the WATER RIGHTS DIVISION. IMMEDIATELY return the FIRST publication with the FIRST Transmittal form on the bottom of this page. The first copy is needed to check the publication for errors so any corrections can be made in the second publication. Publication errors can invalidate the public notice and cause the applicant costly delays.

Please be sure the SECOND publication is returned IMMEDIATELY with the enclosed Proof of Publication form. DO NOT WAIT until the end of the month or the billing cycle. The permit application cannot be considered by the Water Management Board until proof of publication has been received.

NOTICE OF HEARING on Application No. 5311-3 to Appropriate Water

Notice is given that Delbert Tschakert, RR 1, Box 130A, Florence SD 57235 has filed an application for a water permit to appropriate water. Application No. 5311-3 is to appropriate 1.5 cfs from one well, approximately 80 feet deep, to be located in the S 1/2 Lot 5 to irrigate 60 acres located in Lots 2, 5, 6; all in Section 7, T118N, R54W.

Pursuant to SDCL 46-2A-2, the Chief Engineer of the Water Rights Division recommends APPROVAL of Application No. 5311-1 because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water and 4) it is in the public interest. This application will be considered by the Water Management Board in Room 216, Joe Foss Building, 523 E Capitol, Pierre SD on May 10, 1989 at 10:00 am. The Chief Engineer's recommendation is not final or binding upon the Board. The Board is authorized to 1) approve, 2) approve with qualifications, 3) defer or 4) deny this application based on the facts presented at the public hearing.

Any interested person that intends to participate in the hearing before the Board by presenting evidence or cross-examining witnesses according to SDCL 1-26, must file a written petition with BOTH the applicant and Chief Engineer by April 28, 1989. The Chief Engineer's address is "Water Rights Division, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)". The petition may be informal, but must include a statement describing the petitioner's interest in the application, the petitioner's reasons for opposing or supporting the application and the signature and mailing address of the petitioner or legal counsel if legal counsel is obtained. The applicant need not file a petition. Contact the Water Rights Division to request information on this application or to assure access to the hearing by the handicapped.

This hearing is an adversary proceedings. Any person filing a petition and/or the applicant have the right to be represented by a lawyer. These and other due process rights will be forfeited if not exercised. Decisions of the Board may be appealed to the Circuit Court and State Supreme Court as provided by law. The time of the hearing will also be automatically delayed for at least twenty days upon written request to the Chief Engineer from the applicant or a petitioner. The request for a delay must be received by April 28, 1989.

Tschakert, RR 1, Box 130A,
Florence, SD 57235 has filed an
application for a water permit to
appropriate water. Application No.
5311-3 is to appropriate 1.5 cubic
feet of water per second from one
well, approximately 80 feet deep,
to be located in the S 1/2 Lot 5 to
irrigate 60 acres located in Lots 2,
5, 6; all in Section 7, T118N, R54W.

Pursuant to SDCL 46-2A-2, the
Chief Engineer of the Water Rights
Division recommends APPROVAL
of Application No. 5311-3 because
1) unappropriated water is
available, 2) existing rights will not
be unlawfully impaired, 3) it is a
beneficial use of water and 4) it is
in the public interest. This
application will be considered by
the Water Management Board in
Room 216, Joe Foss Building, 523
E. Capitol, Pierre, SD on May 10,
1989 at 10:00 a.m. The Chief
Engineer's recommendation is not
final or binding upon the Board.
The Board is authorized to 1)
approve, 2) approve with
qualifications, 3) defer or 4) deny
this application based on the facts
presented at the public hearing.

Any interested person that
intends to participate in the
hearing before the Board by
presenting evidence or cross-
examining witnesses according to
SDCL 1-26, must file a written
petition with BOTH the applicant
and Chief Engineer by April 28,
1989. The Chief Engineer's
address is "Water Rights Division,
Foss Building, 523 E. Capitol,
Pierre, SD 57501 (605-773-3352)".
The petition may be informal, but
must include a statement
describing the petitioner's interest
in the application, the petitioner's
reasons for opposing or
supporting the application and the
signature and mailing address of
the petitioner or legal counsel if
legal counsel is obtained. The
applicant need not file a petition.
Contact the Water Rights Division
to request information on this
application or to assure access to
the hearing by the handicapped.

This hearing is an adversary
proceeding. Any person filing a
petition and/or the applicant have
the right to be represented by a
lawyer. These and other due
process rights will be forfeited if
not exercised. Decisions of the
Board may be appealed to the
Circuit Court and State Supreme
Court as provided by law. The time
of the hearing will also be
automatically delayed for at least
twenty days upon written request
to the Chief Engineer from the
applicant or a petitioner. The
request for a delay must be
received by April 28, 1989.

This application is made
pursuant to SDCL 46-1-1 thru 46-
1-9, 46-1-12 thru 46-1-15; 46-2-
3.1, 46-2-9, 46-2-11, 46-2-13, 46-
2-17; 46-2A-1 thru 46-2A-10, 46-

Dear Mr. Tschakert:

Enclosed are Water Permit Nos. 5310-3 and 5311-3 as approved by the Water Management Board authorizing you to construct your water diversion systems and put the water to beneficial use, not exceeding the limits as specified in the Water Permits.

Also enclosed is Form 10, Notice of Completion of Works and Application of Water to Beneficial Use, which you are to complete and submit to the Chief Engineer when you have completed the system and/or have put the water to beneficial use. An inspection can then be scheduled so that the Water Licenses may be issued, thus completing your acquisition of the Water Rights.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Division

PLEASE NOTE: Certain changes can be made in your permits within the five year construction period, usually without affecting the priority dates provided an application to amend your permits are made within the five year period - i.e. changes in location or number of diversion points (wells) or location of land to be irrigated. Well locations for wells into the same aquifer can be moved up to 660 feet without application.

Applications to amend a permit after the five year construction period will be assigned a new priority date. Applications to change water sources, to add lands or increase original diversion rates, if approved will usually receive the date of the new application as a priority date regardless of the five year construction period.

I have completed the construction of the water diversion system and I have put the water to beneficial use to the maximum extent it is going to be used. I have not exceeded the amounts specified in Water Permit No. 5311-3.

Water Permit No. 5311-3 states that the diversion system is to be constructed by May 10-1994, and that the water it put to beneficial use by May 10-1994.

The diversion system was completed on August 10-1989.
Applying the water to beneficial use was completed on August 15-1989.
This well is ready to pump but we did not use in 1989
You may schedule an inspection so that the Water License may be issued.

because it started raining and we
didn't need to use the water

Dear Mr. Tschakert:

Enclosed is Water License No. 5560-3. This is the final water right document completing your process of obtaining a Water Right. Enclosed is Receipt No. 413603 in the amount of \$50.00 which you paid for the inspection and issuance of the Water License.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 5560-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Division
