Dear Joe:

The Game, Fish and Parks Commission, State of South Dakota herewith enters objection to the diversion of water from Lake Campbell at a point in the $W\frac{1}{2}SE\frac{1}{4}$, Section 3, Township 109 North, Range 50 West. This water is conducted to and upon 57.61 acres located in Lot "B" of the $E\frac{1}{2}SE\frac{1}{4}$ and Lots 8 and 9 of Section 28, Township 109 North, Range 50 West for the purpose of irrigating golf course fairways.

Our object is based on the detrimental effects which will soon result to the public recreational use of the lake and shoreline as the water level is lowered.

Sincerely,

Harry R. Woodward

Gentlemen:

As holder of water rights for public use of the "state navigable waters" in Lake Campbell, the South Dakota Department of Game, Fish and Parks have requested stoppage of water withdrawals from Lake Campbell for other than "domestic use". "Domestic use" as defined in the State water laws includes single family household use, stockwater and irrigation of not to exceed one-half acre. "Domestic use" of water has preference over all other uses.

On navigable (public recreation) lakes, such as Lake Campbell, another preference over irrigation withdrawals is involved. At and below ordinary low levels in the lake, public recreation use has preference. It is evident that the water level in Lake Campbell now is much lower than is usual.

It has become necessary, therefore, to curtail irrigation and withdrawals of water from Lake Campbell under your irrigation water right 543-3. You are hereby notified that irrigation of the fairways on your golf course is to be stopped immediately. Irrigation of the greens and approach shoulders at the greens may continue providing that the aggregate of the area irrigated, including lawns, shrubs, trees, etc. around the club house, does not exceed one-half acre.

I am sorry that this restriction for irrigation use of water on your fairways is necessary. The fairways, however, will survive

Brookings Country Club

2

the drought conditions during the remainder of this year. Irrigation of the greens will maintain your investment in them.

This order extends to the current irrigation season only. If relief becomes possible during the remainder of this year, I will notify you.

Sincerely,

J. V. ORDING
