APPLICATION FOR PERMIT To appropriate Water within the State of South Dakota

(NOTE—Draw a line through items not applicable.)

1. Name of applicant CITY OF WAGNER
Postoffice address WAGNER, County CHARLES MIX, State SOUTH DAKOTA

I. If a corporation

(a) Name of same CITY OF WAGNER
(b) Date and place of incorporation 1900
(c) Amount of capital stock _____
(d) Amount paid in _____
(e) Names and addresses of directors _____

(NOTE—A certified copy of articles of incorporation must accompany the application.)

II. Method of accomplishing the work and financial resources of the applicant:

(a) Method of accomplishing work (Whether by contract, employment of others, or by direct labor)
completed
(b) Cash on hand, \$ _____ (c) Treasury stock, \$ _____
(d) Bonds to be issued, \$ _____ (e) Other resources, \$ _____

2. Name of diversion work Chapman Park Well
3. Amount of water claimed 250 gpm cubic feet per second
4. Source of water supply ground water
5. Location of point of diversion from sections corner 29, 28, 32, 33 of T. 96, R. 63 of Charles Mix, 3828 feet south, 444 feet South 55 degrees 17 min. East. on _____ bank _____ County.
6. Annual period or periods during which water is to be used continuously
7. To be used for:

I. Irrigation or domestic use: Gravity, overhead sprinkling or combination system?

(a) Number of acres to be irrigated _____ acres.

(b) Legal subdivisions to be irrigated _____

(NOTE—A list of lands to be irrigated, giving each subdivision and fraction with acreage thereof, should be written here, or may be appended as a part of this application. Same must also be shown on accompanying map.)

(c) Statement as to domestic use (giving location, etc.) _____

municipal use and public recreation

II. Stockwatering, mining, milling, power, fish culture, fire protection and public recreation:

(a) Nature of use Not applicable.

Name any of the above uses claimed

(b) Amount of power to be generated _____ horse power.

Amount claimed for engine cooling _____

(c) Location of plant _____

(d) Method of developing power _____

(e) Point where water will be returned to stream _____

2. Estimated cost of work Chapman Park Well.

(a) Head Gates, \$----- (b) Pumping plant, \$-----
 (c) Fluming, \$----- (d) Canal-earth, \$----- Rock, \$-----
 (e) Other structures Artesion flow-well \$----- Total, \$ 3,000.
 drilling

Re: Application for Vested Rights
City of Wagner.

Dear Sir:

Please find enclosed two separate applications, each with a \$5.00 Bank Money Order attached.

The One application is for Vested Right on City Well #1 & City Well # 2. The other application is for Vested Right on Chapman Park Well.

It is hoped that these applications will be approved, and that all the information is necessarily included for your approval.

As to the Chapman Park Well, please note that this well is getting bad and that we will have to abandon it, and replace with a new well immediately. Under our application, we wish to establish this well, and also gain your approval to put down a new well to replace this well. This well when drilled will be on the same location as the well covered by the application.

I will ask that you review these applications immediately, particularly the Chapman Park Well, and let me know if you need additional information, and further when we can expect to drill the new well on the Chapman Park location. It is extremely urgent that this well be put in immediately.

Yours truly,

Owen R. Wipf
Owen R. Wipf
City Attorney
Wagner, S.D.

Location No. 570-3Water Division No. 3 Missouri St. Louis Water District

Proof of Application of Water to Beneficial Use

PETITION OF HOLDER

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Edward Stedonsky, Mayor

Wagner, South Dakota

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business (if a foreign corporation, give name and postoffice of statutory agent,) your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State date of posting and date of recording notice of appropriation.

Ans. _____

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Chapman Park Well - ground water - from corner of sections 29, 28,
32 & 33, of T. 96 N. 63 E. of Charles Mix, 3828 feet south, and
444 feet South 55 degrees 17 min. East.

Ques. 5. Describe your works of diversion giving length and height of each dam and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use, and date of completion of same.

Ans. Chapman Park Well- Artesian flow

Storage capacity of lake- 30 acre feet

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have ACTUALLY been irrigated with said water.)

Ans. municipal use and public recreation.

Ques. 7. If for other than irrigation purpose, state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the use specified above?

Ans. 200,000 gals. per 24 hr. period.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent, the water diverted under above mentioned permit has been used.

Ans. Chapman Park Well- constructed- 1933-artesian flow- water has been used continuously since construction for public recreation and some municipal use.

Mr. Owen R. Wipf, City Attorney
City of Wagner
Wagner, South Dakota

Dear Mr. Wipf:

You are hereby notified that your application No. 570-3 for a Vested Right permit to appropriate water from ground water through the Chapman Park Well has been duly examined and that it has now been approved and is being held for recording subject to the payment of \$2.50 as fees for recording the same. Upon receipt of this amount, which should be within thirty days from the date of this notice, the permit will be recorded as soon as practical, in regular order and the Vester Right permit forwarded to you. The statutes require that a fee of \$1.00 each be paid for issuing the Certificate of Completion of Works and Water License making a total due of \$4.50.

The question as to whether or not this application and permit could also cover the replacement well will be presented to the Water Resources Commission for their consideration at their meeting on February 4, 1959 (next Wednesday) and I will let you know of their decision as soon as possible. If you could send us the following information immediately it would be very helpful to the Commission in reaching a decision.

1. Estimated minimum distance the new well might be from the old well.
2. Estimated maximum distance the new well might be from the old well.

January 27, 1959

3. Will the new well be in the same legal subdivision as the old well (SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 32, T96N, R63W) ?
4. Does the City own the property where the new well will be located or do they have an easement or permission to construct the same if they do not own the site?
5. Will the construction features be basically the same as for the old well (i.e. estimated depth, diameter, capacity, etc.)?

Sincerely,

Les Wyborny
Water Rights Engineer

STATE WATER RESOURCES COMM.
PIERRE, SOUTH DAKOTA

Re: City of Wagner- Vested Rights Application
No 570-3

Dear Mr. Wyborny:

This will acknowledge receipt of your letter of January 27, 1959 in regard to the above matter.

Under paragraph two of your letter of above date, you stated that our request to cover replacement well will be taken up with the Commission at their February 4th meeting. You ask for certain information, which I will give in order of your questions, as follows:

1. Estimated minimum distance the new well might be from the old well? About 18".

2. Estimated maximum distance the new well might be from the old well? Six feet.

3. Will the new well be in the same legal subdivision as the old well (SW1/4 SW1/4, Sec. 32, T96N, R63W)? Answer is Yes, only it should be Sec. 33. If it is Sec. 32 on application, this is a typographical error.

4. Does the City own the property where the new well will be locate or do they have an easement or permission to construct the same if they do not own the site? City owns the property.

5. Will the construction features be basically the same as for the old well (i.e. estimated depth, diameter, capacity, etc.) ? The answer is yes to depth, diameter may be 3" inside dia., and 7" outside, including cement around casing; as to capacity, this would be perhaps the same, however a valve would be installed to reduce flow when full capacity of well is not needed.

I hope that this answers your questions on the above matter, and would like to have the commission ruling on this matter as soon as possible, since it is indicated that a new well will be needed almost immediately.

The fees for recording will follow.

Yours truly,

Owen R. Wipf
Owen R. Wipf
City Attorney
City of Wagner

February 9, 1959

Mr. Owen R. Wipf, City Attorney
City of Wagner
Wagner, South Dakota

Dear Mr. Wipf:

The Water Resources Commission at their hearing on February 4, 1959 approved your request to construct a new well to replace the old Chapman Park Well covered by your Vested right application No. 570-3.

If the new well, for reasons that are not apparent at this time, needs to be constructed in a subdivision other than the one where the old well is now located, the Commission wishes to be notified prior to construction. You stated that the present well is located in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 33, T 96 N, R 63 W.

When you construct your new well, consideration should be given to plugging the old well if and when it is abandoned. Should you have questions relative to this plugging please feel free to contact this office and we will be glad to help in any way we can.

The Permit, Certificate of Completion of Works and Water License relative to your Vested Right Application No. 570-3 will be issued upon receipt of the fees as requested in our letter of January 27, 1959.

Sincerely,

Les Wyborny
Water Rights Engineer

SOUTH DAKOTA

VESTED WATER RIGHT CLAIM NO. 570-3

Date of Receipt of Claim January 26, 1959.

Date of Validation March 4, 1992.

The Water Management Board validated Vested Water Right Claim No. 570-3 for the City of Wagner, PO Box 40, Wagner SD 57380-0040 with the following limitations, conditions and qualifications:

1. Vested Water Right No. 570-3 appropriates 0.55 cubic feet of water per second from one well located in the SW 1/4 SW 1/4 Section 33-T96N-R63W.
2. The appropriated water is used for supplying water for the City of Wagner and may not exceed the amount of water needed for beneficial use for municipal purposes.

The water is to be used during the following annual period:
January 1 - December 31.

3. The priority date of the Vested Water Right is January 1, 1933.
4. The water use system has been constructed and water has been applied to beneficial use.
5. Water Rights obtained in compliance with the laws of the State of South Dakota must not be unlawfully impaired by this appropriation.

Janis Nedved, Finance Officer
City of Wagner
PO Box 40
Wagner SD 57380-0040

Dear Ms. Nedved:

The Water Rights Program recently received a well completion report for a well drilled in July by Hutmacher Drilling for the City of Wagner (copy enclosed). Is this new well a replacement well previously authorized by an existing water right or is this an additional well for the city?

If the well increases the city's ability to divert water to meet the community water needs, this would constitute a new appropriation of water and require a new water right permit.

Please let us know the status of this new well. If you have any questions regarding the city's existing permits, please contact Eric Gronlund or me.

Sincerely,

Karen Schlaak

RE: Well Log

COMMENTS:

Janis Nedved, Finance Officer for the City of Wagner called regarding my October 26, 2001 letter and the well completion report.

Ms. Nedved stated the well was not for the city's public drinking water supply. It was drilled to fill the lake. The existing well was down to a trickle.

After review of the existing water rights, Eric Gronlund and I decided this water use was covered by Vested Water Right No. 570-3 held by the City of Wagner.
