Dear Mr. Meyerink:

After an inspection of your Water Permit Nos. 4346-3 and 5179-3 on April 28, 1993, I found a few things that needed some attention.

The enclosed application is to identify the correct location of 7 acres incorrectly described on Permit Nos. 4346-3 and 5179-3.

Results from the inspection also found the total irrigated area to be 93 acres (see land description on application). Your permit only authorized you to irrigate 90 acres.

Please fill out question No. 1 and the bottom of the enclosed application. Note that the application must be signed in the presence of a Notary Public. Please return the application with an application fee of \$50.00 in the postage free envelope provided.

REPORT ON WATER PERMIT APPLICATION NO. 5776-3
GERARD MEYERINK
JULY 28, 1993

Application No. 5776-3, Gerard Meyerink, proposes to add 3 additional acres and specify the correct location of 4 acres for irrigation authorized by Water Permit Nos. 4346-3 and 5179-3. Permit Nos. 4346-3 and 5179-3 authorize the diversion of 2.42 cubic feet of water per second (cfs) for the irrigation of 90 acres located the NW1/4 of Section 3 T98N-R67W and 80 acres located in the E1/2 SW1/4 of Section 34 T99N-R67W from a 100 ac-ft holding pond located in W1/2 NE1/4 of Section 3. The permits authorize water to be diverted from a dugout on Peace Creek located in the W1/2 NE1/4 of Section 3 at a rate of 11.13 cfs to the holding pond. An April 28, 1993 water permit inspection, by staff analyst Barry McLaury, found an irrigation system capable of diverting from the dugout on Peace Creek at a rate of 9.68 cfs into 80 ac-ft and 20 ac-ft holding ponds for a total of 100 ac-ft of storage. Water is then diverted from the holding ponds at a rate of 1.34 cfs for the irrigation of 80 acres in the E1/2 SW1/4 of Section 34 and 93 acres in the NW1/4 and W1/2 NE1/4 of Section 3. The irrigation system is located approximately 7 miles southeast of the city of Platte in Charles Mix County.

Review of the Water Source

The water supply for this irrigation project is from Peace Creek. A drainage basin annual yield analysis was performed for Permit No. 5179-3 for the Peace Creek drainage basin upstream from the dugout. The analysis estimated a 50 % probability of an annual watershed yield of 178 ac-ft and a 20 % probability of an annual watershed yield of 427 ac-ft (Brandner, 1988). If this permit is approved the maximum volume of water authorized to be diverted is 346 ac-ft annually.

Review of Existing Water Rights

The South Dakota Department of Game Fish and Parks holds Vested Water Right No. 726-3 for 285 ac-ft of storage in Geddes Lake, a reservoir located on Peace Creek located approximately 25 miles downstream from this project. There are no other existing water rights located on Peace Creek. The Division of Water Rights was contacted in late 1978 by Henry Sprik expressing concern on the effects of Water Permit Application No 4346-3. Mr. Sprik was concerned that the irrigation system would adversely affect his livestock dugout. The Division has received no further complaints from Mr. Sprik or other individuals concerning Permit Nos. 4346-3 and 5179-3. This irrigation system has been existence for several years. It appears that it has not, nor would it be expected to cause adverse impacts on existing water rights or domestic use.

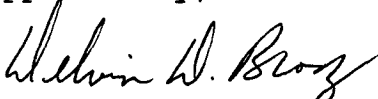

Conclusion

1. Application No. 5776-3 proposes to add 3 additional acres and specify the correct location of 4 acres for irrigation authorized by Water Permit Nos. 4346-3 and 5179-3.
2. If approved, this permit would not be expected to cause adverse impacts to existing water rights or domestic use.

Water is diverted from a small dugout on a tributary of Pease Creek into two holding ponds for irrigation purposes in Charles Mix County, South Dakota. An investigation of Water Permit Nos. 4346-3 and 5179-3 found the works capable of diverting 9.68 cubic feet of water per second (cfs) from the dugout to the holding ponds and at a rate of 1.34 cfs from the ponds to the irrigated acres. Water Permit No. 5776-3 was obtained to add acreage and correct the location of acreage as described in Nos. 4346-3 and 5179-3. WATER RIGHTS PROGRAM -- FILE DOCUMENTATION

NAME: Kyle Meyerrink

DATE: May 27, 2025

RE: Cancellation of Water Right No. 5776-3

COMMENTS:

Miranda transferred Kyle Meyerrink to me concerning cancellation of Water Right No. 5776-3 which authorizes irrigation of 173 acres from a dugout on a tributary to Pease Creek with water diverted from the dugout to two holding ponds with a combined storage capacity of 100 acre-feet.

Mr. Meyerrink indicated that irrigation had been abandoned but the holding ponds were in place and used for stock watering. I informed Mr. Meyerrink that pastured livestock watering is a domestic use of water and no water permit/right is needed. However, I also noted that he could opt to exercise SDCL 46-5-31.1 and reissue the license for stock watering with the irrigation use removed from the license.

RECOMMENDED ACTION:

Mr. Meyerrink opted for cancelling the irrigation use and reissuance of the water license for just stock watering and maintaining the option to pump to the holding ponds for stock watering when water is available which is infrequent.

Water Right No. 5776-3 needs to be scheduled for cancellation for the irrigation use with it noted in the notice that following cancellation, the water right will be reissued for stock watering.

FROM: Amanda Dewell, Permitting Administrator, Water Rights Program
For Mark Mayer, PE, Director of Office of Water

SUBJECT: Partial Cancellation of Water Right No. 5776-3

Water Right No. 5776-3, held by Meyerink Farms Inc., authorizes the diversion of 1.34 cubic feet of water per second from a small dugout on a tributary of Pease Creek into two holding ponds, for irrigation of 173 acres located in portions of Section 34, T99N, R67W and Section 3, T98N, R67W. After receiving your 2024 Irrigation Questionnaire, indicating irrigation had been abandoned, Water Rights Program staff contacted you to confirm the abandonment. You confirmed that irrigation is no longer taking place, but the ponds are maintained for livestock watering. You were agreeable to cancellation of the irrigation portion of Water Right No. 5776-3, allowing for reissuance of the water license for stock watering. The acting Chief Engineer of the Water Rights Program is recommending partial cancellation of Water Right No. 5776-3 due to abandonment, forfeiture, or both.

The Water Management Board will consider cancellation of Water Right No. 5776-3 at **9:30 am, Wednesday, July 9, 2025 (Central Time)** in the Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol, Pierre, SD *(the agenda time is an estimate, and the actual time of hearing may be later).*

The recommendation of the acting Chief Engineer is not final or binding upon the Board. The Board is authorized to 1) cancel, 2) cancel portions of, 3) delay action on, or 4) take no action on Water Right No. 5776-3 based upon facts presented at the public hearing. Our records show you to be the owner of property covered by this water right. If you wish to oppose the cancellation and if you intend to participate in the hearing before the Board and present evidence or cross-examine witnesses according to SDCL 1-26, you must file a written petition with the acting Chief Engineer by June 12, 2025. The petition may be informal, but it must include a statement describing the reasons for your opposition to the cancellation, and your signature and mailing address or your legal counsel if legal counsel is obtained.

The hearing will be conducted pursuant to the provisions of SDCL 46-1-1 thru 46-1-10, 46-1-14 thru 46-1-15; 46-2-3.1, 46-2-9, 46-2-11, 46-2-17; 46-5-36, 46-5-37, 46-5-37.1; 46-2A-1 thru 46-2A-8; and Board Rules ARSD 74:02:01:36 thru 74:02:01:41. These are contested cases pursuant to procedures contained in SDCL 1-26.

This hearing is an adversarial proceeding. Any party has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and State Supreme Court as provided by law.

The time of the hearing will be automatically extended for at least twenty days upon your written request to the acting Chief Engineer after a petition has been filed to oppose the cancellation. If an extension is requested, the hearing on the cancellation will be continued until the next regular Board Meeting. Any request for extension must be filed with the acting Chief Engineer by June 12, 2025.

Prior to June 12, 2025, contact the Water Rights Program, Joe Foss Building, 523 E Capitol, Pierre, SD (605-773-3352) if assistance is needed with the following: 1) further information on the proposed cancellation; 2) to assure access to the meeting room for the handicapped; or 3) to obtain an interpreter for the hearing impaired.

According to SDCL 1-26-18.3, parties to a contested case may use the Office of Hearing Examiners to conduct a hearing if either a property right is being terminated or the dollar amount in controversy exceeds \$2,500.00. If you choose to use the Office of Hearing Examiners rather than the hearing procedure described above, then you need to notify the acting Chief Engineer (Water Rights Program, 523 E. Capitol Avenue, Pierre SD) by June 12, 2025.
