Notice of Hearing - date to intervene: _____

**SOUTH DAKOTA
WATER PERMIT NO. 5994-3**

Date of first receipt of application April 17, 1997.

The Chief Engineer, on behalf of the Water Management Board, issues Water Permit No. 5994-3 to Robert L Peterson, 935 Spyglass Circle, Dakota Dunes SD 57049 authorizing the construction of the water use system and the placing of water to beneficial use subject to the following limitations, conditions and qualifications:

1. Water Permit No. 5994-3 appropriates 0.146 cubic feet of water per second (66 gallons per minute) from one well (Dakota Formation) 240 feet deep located in the NW 1/4 NW 1/4 Section 34 to irrigate 5 acres located in the NW 1/4 NW 1/4 Section 34; all in T89N-R48W.
2. The amount of the appropriation may not exceed 2 acre feet annually for each acre of land to which water is actually and beneficially applied for irrigation. The water is to be used during the following described annual period: March 1 - November 30.
3. The date from which applicant may claim right is April 17, 1997.
4. The date of approval of Permit No. 5994-3 is June 23, 1997.
5. One-fifth of the construction is to be completed on or before December 23, 1999.
6. All construction is to be completed on or before June 23, 2002.
7. Water is to be put to beneficial use on or before June 23, 2006.
8. Water rights obtained in compliance with the laws of the State of South Dakota may not be unlawfully impaired by this appropriation.

QUALIFICATIONS

1. The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
2. Pursuant to SDCL 46-5-6, Permit No. 5994-3 authorizes a maximum diversion rate of 0.146 cfs (66 gpm) and 2 acre-feet of water per acre per year.

Dakota Dunes, SD 57049

Dear Mr. Peterson:

A well driller's report filed by Soole Drilling shows that they completed a new well for you which produced 66 Gallons Per Minute (GPM). Based on the information in the report, it appears you may need a water permit.

1. A water permit must be obtained for any water use except for reasonable, private domestic use. Reasonable domestic use is defined as use of 18 Gallons Per Minute (GPM) or less, on an average daily basis (26,000 gallons per day), with a maximum rate not exceeding 25 GPM. Irrigation of more than one acre requires obtaining a water permit. Enclosed are application forms and an instruction sheet to apply for a water permit for irrigation.

2. Also, as a new well owner, you need to be aware of some of your responsibilities. If your new well was drilled as a replacement well, and you do not plan to use the old well, the old well is considered abandoned. All abandoned wells must be plugged by a licensed well driller. If the old well is not going to be abandoned, but will not be used, the well must be sealed or capped at the surface until such time that it is used.

Please use the enclosed postage free envelope to return the completed application by 3/14/97 or contact Barry McLaury at 605-773-3352 if you have questions.

Sincerely,

Ron Duvall, Natural Resources Engineer
for John Hatch, Chief Engineer

April 9, 1997

Robert Peterson
935 Spy Glass Circle
Dakota Dunes, SD 57049

Dear Mr. Peterson:

This is a follow up to my 2/25/97 letter concerning the possibility that you may need a water permit for irrigation. A well driller's report filed by Soole Drilling shows that they completed a new well for you which produced 66 Gallons Per Minute (GPM). Based on the information in the report, you may need a water permit.

A water permit must be obtained for any water use except for reasonable, private domestic use. Reasonable domestic use is defined as use of 18 Gallons Per Minute (GPM) or less, on an average daily basis (26,000 gallons per day), with a maximum rate not exceeding 25 GPM. Households, farms and ranches that exceed reasonable domestic use require a water permit. Any irrigation for commercial purposes requires a permit. Irrigation of one acre or less for private use (home garden or lawn) is considered domestic use and does not require a permit.

Please return the application form that was sent to you with my 2/25/97 letter by 5/2/97 or contact Barry McLaury at 605-773-3352.

Sincerely,

Ron Duvall, Natural Resources Engineer
for John Hatch, Chief Engineer
Water Rights Program

REPORT ON WATER PERMIT APPLICATION NO. 5994-3

for Robert L. Peterson

May 8, 1997

Application No. 5994-3 proposes to appropriate 0.146 cfs (66 gpm) from one well approximately 240 feet deep located in the NW 1/4 NW 1/4 of Section 34 to irrigate five acres located in the NW 1/4 NW 1/4 of Section 34; all in T89N-R28W in Union County.

AQUIFER - DAKOTA FORMATION (DKOT)

The Dakota Formation consists of interbedded sand, sandstone and shale with a thickness of approximately 450 feet in this area (Schoon, 1971). The aquifer is buried beneath the Missouri Elk Point aquifer and is under artesian conditions at this site. The Dakota Formation and the Missouri Elk Point aquifers are hydraulically connected over some of this area (Niehus, 1994) however, shale layers in the Dakota Formation locally separate the two aquifers. The Dakota Formation underlies 452 square miles of Union County and contains an estimated 7.81 million acre feet of recoverable water in storage (Hedges, 1982). The driller's log filed with the application indicates the Missouri Elk Point aquifer extended to a depth of 163 feet, with shale from 163 to 188 feet and sandstone and shale from 188 to 240 feet all below land surface. The well was screened from 210 to 240 feet below land surface and had a static water level of eight feet below land surface. The well was completed in accordance with SD Well Construction Standards and was capable of producing 66 gpm with five feet of drawdown.

The Water Rights Program does not monitor any observation wells completed into the Dakota Formation in this area. Water levels for the Dakota Formation and the overlying Missouri Elk Point aquifer appear to behave similarly and there are monitoring wells in the area completed into the Missouri Elk Point aquifer. The nearest Dakota Formation observation well is located about 30 miles northwest of this application. In general, the water level record indicates that the aquifer is capable of sustaining additional withdrawals (Water Rights, 1997).

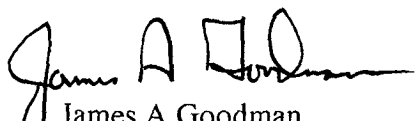

REVIEW OF EXISTING WATER PERMITS/RIGHTS

There are no other existing water permits/rights which obtain water from the Dakota Formation within one mile of this application. There are water permits/rights which obtain water from the overlying Missouri Elk Point aquifer. Interference is not a concern. Significant drawdown created by pumping does not extend very far from a production well.

CONCLUSIONS

1. Water is available from the Dakota Formation.
2. The aquifer is confined and under artesian in the area of this application. Drawdown is not expected to be significant. Interference is not a concern.
3. The well is completed in accordance with SD Well Construction Standards.

4. This application requests a diversion rate of 0.146 cfs to irrigate five acres. Based upon SDCL 46-5-6., five acres would be limited to a maximum diversion rate of 0.0714 cfs. This request is more than double the statutory limit. The statute also allows for greater diversion than the limit if conditions warrant an increase. There is no documentation in the application for this request.
5. The water will be used for gardening and lawn watering only. The well will not be used for sanitary purposes.

James A Goodman
Natural Resources Engineer

**RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT
APPLICATION NO. 5994-3, Robert L. Peterson**

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Program, Department of Environment and Natural Resources concerning Water Permit Application No. 5994-3, Robert L. Peterson, 935 Spyglass Circle, Dakota Dunes, SD 57049.

The Chief Engineer is recommending APPROVAL of Application No. 5994-3 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion can be developed without unlawful impairment of existing rights, 3) the proposed use is a beneficial use and 4) in the public interest with the following qualifications:

1. The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
2. Pursuant to SDCL 46-5-6, Permit No. 5994-3 authorizes a maximum diversion rate of 0.146 cfs (66 gpm) and 2 acre feet of water per acre per year.

See report on application for additional information.

Dear Mr. Peterson:

Water Permit Application No. 5994-3 for irrigation use has been examined and found to comply with the South Dakota Water Laws and applicable rules. A notice of hearing has been sent to the Publisher of the Elk Point Leader Courier printed at Elk Point, SD (Ph # (605) 356-2632). For your information, a copy of the notice, the recommendation of the Chief Engineer and a report on the application are enclosed. Please review the notice prior to publication and notify this office, if you have any corrections or questions.

Be sure to contact the above newspaper to authorize publication of your Notice of Hearing and to arrange for payment. Early contact with the paper can eliminate delays. The publisher has been instructed to publish your notice once each week for two consecutive weeks with the last publication to occur twenty days before the board meeting. The newspaper has been instructed to send us the Proof of Publication. We must receive Proof of Publication before action can be taken on the application.

Sincerely,

Eric Gronlund
Natural Resources Engineer
605 773-3352

enclosures

NOTE: If you plan to contest any part of the Chief Engineer's recommendation, you must file a petition pursuant to the procedures outlined in the attached notice of hearing. The Water Management Board will then consider your concerns during a hearing on the application.

Instruction to Newspaper - Publish first Notice on June 5, 1997, with the second publication 7 days later. The applicant is responsible for payment.

NOTICE OF APPLICATION NO. 5994-3 to Appropriate Water

Notice is given that Robert L Peterson, 935 Spyglass Circle, Dakota Dunes SD 57049 has filed an application for a water permit to appropriate 0.146 cubic feet of water per second (66 gallons per minute) from one well (Dakota Formation) 240 feet deep located in the NW 1/4 NW 1/4 Section 34 to irrigate 5 acres located in the NW 1/4 NW 1/4 Section 34; all in T89N-R48W.

Pursuant to SDCL 46-2A-2, the Chief Engineer recommends APPROVAL of Application No. 5994-3 because 1) unappropriated water is available, 2) existing rights will not be unlawfully impaired, 3) it is a beneficial use of water, and 4) it is in the public interest. In accordance with SDCL 46-2A-23, the chief engineer will act on the application, as recommended, unless a petition is filed opposing the application or the applicant files a petition contesting the chief engineer's recommendation. If a petition opposing the application or contesting the recommendation is filed, then a hearing will be scheduled and the Water Management Board will consider the application. Notice of the hearing will be given to the applicant and any person filing a petition.

Any person interested in opposing or supporting this application or recommendation must file a written petition with BOTH the applicant and chief engineer. The applicant must file a petition if contesting the chief engineer's recommendation. The Chief Engineer's address is "Water Rights Program, Foss Building, 523 E Capitol, Pierre SD 57501 (605 773-3352)" and the applicant's mailing address is given above. A petition filed by either an interested person or the applicant must be filed by June 23, 1997.

The petition may be informal, but must include a statement describing the petitioner's interest in the application, the petitioner's reasons for opposing or supporting the application, and the signature and mailing address of the petitioner or the petitioner's legal counsel, if legal counsel is obtained. Contact Eric Gronlund at the above Water Rights Program address to request copies of information pertaining to this application. Nettie H. Myers, Secretary, Department of Environment and Natural Resources.

PIERRE SOUTH DAKOTA 57501-3181

AUG 8 1997

Robert L. Peterson
935 Spyglass circle
Dakota dunes, SD 57049

Dear Mr. Peterson:

Enclosed is Water Permit No. 5994-3 authorizing construction of your water diversion system and beneficial use of the water, not exceeding the limits as specified in the Water Permit.

Also enclosed is Form 10, Notice of Completion of Works and Application of Water to Beneficial Use, which you are to complete and submit to the Chief Engineer when you have completed the system and/or have put the water to beneficial use. An inspection can then be scheduled so that the Water License may be issued, thus completing your acquisition of a Water Right.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Program
605 773-3352

enclosures

PLEASE NOTE: Certain changes may be made to your water permit usually without affecting the priority date. The location of a point of diversion may be changed or additional points of diversion may be approved if the water source remains unchanged; no additional water is appropriated; and, if irrigating, no additional land is irrigated. The change may be allowed without application or publication, if the Water Rights Program is contacted and the chief engineer makes a finding that the change does not increase the potential for interference with existing diversions.

A new water permit application is required to change water sources, increase the permitted diversion rate, or increase the irrigated acreage. If the application is approved, the water permit will receive a new priority date.

NOTICE OF COMPLETION OF WORKS AND
APPLICATION OF WATER TO BENEFICIAL USE

Date August 11, 1997

TO: Water Rights Program, DENR
523 E. Capitol
Pierre, SD 57501-3181

FROM: Robert L. Peterson 935 Spyglass Circle
(name) (address)
Dakota Dunes, SD 57049 (402) 241-3000
(city) (state) (zip) (phone)

I have completed the construction of the water diversion system and I have put the water to beneficial use to the maximum extent it is going to be used. I have not exceeded the amounts specified in Water Permit No. 5994-3.

Water Permit No. 5994-3 states that the diversion system is to be constructed by June 23, 2002, and that the water is put to beneficial use by
(date)

June 23, 2006.
(date)

The diversion system was completed on July 1996.
(date)

Applying the water to beneficial use was completed on August 1996.
(date)

You may schedule an inspection so that the Water License may be issued.

Robert L. Peterson

NOTICE

TO: ROBERT L PETERSON, 935 SPYGLASS CIRCLE, DAKOTA DUNES, SD 57049

FROM: Ron Duvall, Natural Resources Engineer
for Garland Erbele, Chief Engineer
Water Rights Program

SUBJECT: Reporting Requirement for 2005 Irrigation Questionnaire(s)

Our records indicate that the 2005 Irrigation Questionnaire has not been submitted for Permit No(s) 5994-3. The request for the Questionnaire was dated October 28, 2005. The Water Management Board has directed that owners of water permits who have not submitted the 2005 Irrigation Questionnaire be given notice of hearing to determine if any Board action is to be taken concerning this issue.

The hearing will be held at 10:30 am, March 2, 2006, in the Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol Avenue, Pierre, SD and will be conducted pursuant to SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to Chapter 1-26. Following the hearing, the Water Management Board can:

1. Amend Permit No(s) 5994-3 to require the Irrigation Water Use Questionnaire to be submitted each year;
2. Postpone any action; or
3. Take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

If the questionnaire(s) is(are) received in this office on/or before **February 24, 2006**, your name will be deleted from the Board agenda. If you have any questions or need assistance with completion of the irrigation questionnaire(s), please contact Genny McMath at (605) 773-3352.

Note: Please contact the Water Rights Program, Joe Foss Building, 523 E Capitol, Pierre, SD (605-773-3352) to assure access to the meeting room for the handicapped or to obtain an interpreter for the hearing impaired.

Sargent Bluff IA 51054

Dear Mr. Kucera:

I am writing to acknowledge receipt of the 2005 irrigation questionnaire for Water Permit No. 5994-3 listed in the name of Robert L Peterson.

The information was received in our office prior to the Water Management Board meeting and the issue has been deleted from the agenda.

As we discussed, I will include your name in the file as manager to allow future irrigation questionnaires to go directly to you rather than to Mr. Peterson. Thank you for following up on submission of the questionnaire.

If you have any questions, please contact me.

Sincerely,

Genny McMath

Permit No. 5994-3
Big Sioux River - Water District

Report of Examination of Works and/or Application of Water to Beneficial Use

TO: Chief Engineer, Water Rights Program, DENR, Foss Bldg., Pierre, SD 57501

I have this day, **September 28, 2007**, made a thorough examination of the water use system constructed by **Robert L. Peterson Estate** of **935 Spyglass Circle, Dakota Dunes SD 57049** holder of Permit No. **5994-3**, bearing the priority of **April 17, 1997** authorizing the diversion of **0.146** cu. ft. per second of the waters of **Dakota Formation** for **irrigation** purposes, in **Union** County.

Inspection contact & relationship **Tom – Caretaker (712) 281-0892**
to permit holder, if applicable:

A. Works used to divert the water:

Well Information:

- 1) Well Drilling Firm: **Marty Soole Well Drilling**
- 2) No. of Wells **1**
- 3) Depth(s) **240** feet
- 4) Well log is available **yes**
- 5) Comment:

Casing:

- 1) Diameter **5** inches
- 2) Length **210** feet
- 3) Type **pvc**

Screen:

- 1) Type **pvc**
- 2) Length **30** feet
- 3) Static water level **8** feet

Pump:

- 1) Make **Submersible**
- 2) Model
- 3) Size
- 4) Capacity _____ GPM

Motor:

- 1) Make **Submersible**
- 2) Model No.
- 3) Horsepower rating **3** hp

B. Works used to transport water to place of use:

- 1) Type pvc 2) Size 4 inches mainline 3) Length 40 feet
- 1) Type pvc 2) Size 2 inches to sprinkler heads

C. Works used to apply water to beneficial use:

Two pressure tanks and lawn sprinkler system. 16 zones with 6 to 8 sprinkler heads per zone. Zones are run one at a time. System capacity is 24 gpm.

Chemigation Equipment:

- 1) Does chemigate no

D. Compliance with Permit Requirements:

- 1) Permit qualifications being abided by yes
- 2) Irrigation Questionnaires checked to determine if permit owner started irrigation by the end of construction period yes
- 3) Exceptions to compliance are: none

The system is in good condition with the point(s) of diversion located as follows: 840' E and 650' S of the NW corner Section 34-T89N-R48W (42.486599, -96.502741). The works are capable of diverting and conveying to the place of use 0.053 cu. ft. per second of water which is to be used for irrigation. Water has been put to beneficial use to the maximum extent as follows:

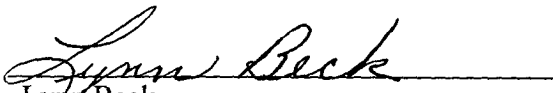

Section 34-T89N-R48W:

NW¼ NW¼ 3 acres

comprising a total of 3 acres of land and the license should be issued for 0.053 cfs.

All structures, wells and lands on map yes

5994-3

Terry Kucera, Mgr.
2514 Canterbury
Sargent Bluff, IA 51054

Dear Mr. Kucera:

On September 28, 2007 the investigation of the water use system, including the extent of application of water to beneficial use, as developed under Water Permit No. 5994-3 (Robert L Peterson Estate), was completed by Lynn Beck, a staff engineer with our program. The final water right document, the water license, can now be issued.

State law requires that we charge a \$50.00 fee for the investigation and issuance of the water license. Upon receipt of the \$50.00 fee, we will complete processing of the water license. The check or money order for the fee should be made payable to the "Water Rights Program".

A licensed water right will be similar to a property right that can not be lost as long as the water use continues and you abide by the permit requirements.

If you have any questions regarding the water permit, investigation of the water use system or payment of the fee, please contact Genny McMath with our program at (605) 773-3352.

Sincerely,

Karen Schlaak

APR 08 2008

5994-3

Robert L Peterson
935 Spyglass Circle
Dakota Dunes SD 57049

Dear Mr. Peterson:

Enclosed is Water License No. 5994-3. This is the final water right document completing your process of obtaining a Water Right. Enclosed is Receipt No. 03527 in the amount of \$50.00 which you paid for the investigation and issuance of the Water License. Also, included with your license is a map prepared by the staff engineer who conducted the investigation.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 5994-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Sincerely,

Garland Erbele, Chief Engineer
Water Rights Program
(605) 773-3352

enclosures

STATE OF SOUTH DAKOTA

WATER LICENSE NO. 5994-3

(1) Robert L Peterson, 935 Spyglass Circle, Dakota Dunes SD 57049 made Application No. 5994-3, April 17, 1997 for a water permit to divert 0.146 cubic feet of water per second from groundwater (one well), Union County, South Dakota for irrigation purposes. Permit No. 5994-3, with a priority date of April 17, 1997 was approved June 23, 1997 and issued to the applicant for diversion of water with construction of the described water supply system to be completed on or before June 23, 2002 and for the application to beneficial use of water on or before June 23, 2006.

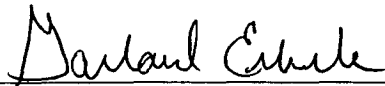

(2) The water supply system has been completed and water applied to beneficial use in accordance with South Dakota State Law. Pursuant to South Dakota Codified Law 46-5-30.1, the holder and/or owner of Water Right No. 5994-3 is issued a license, bearing a priority date of April 17, 1997 to appropriate 0.053 cubic feet of water per second from groundwater (one well) to irrigate 3 acres.

The diversion point is located: 840 feet east and 650 feet south of the northwest corner of Section 34-T89N-R48W (NW ¼ NW ¼). The acres authorized for irrigation are as follows:

Section 34-T89N-R48W NW ¼ NW ¼ 3 acres

(3) This license is subject to South Dakota Water Law, any limitations or conditions listed in Water Permit No. 5994-3 including the following now applicable qualifications:

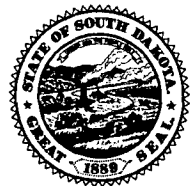

- The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
- Pursuant to SDCL 46-5-6, Permit No. 5994-3 authorizes a maximum diversion rate of 0.053 cfs (24 gpm) and 2 acre-feet of water per acre per year.

Dear Mr. Verzani:

I am writing in regard to ownership of property described in Water Right No. 5994-3. It is our understanding you purchased the land. The water right, held by Robert Peterson, is for watering of a 3 acre lawn (copy enclosed).

Enclosed is a partially completed "Notice of Transfer of Ownership" form for use in filing an ownership change. Please review and complete as needed. Upon completion, please sign and return the form to our office with a required filing fee of \$50. The check or money order for the fee can be made payable to the Water Rights Program.

Also enclosed is the 2022 irrigation questionnaire. Please complete and return it to us along with the transfer form and filing fee. The questionnaire is an annual form and typically is mailed in October each year. The guy who normally fills the form out (Terry Kucera) is who notified us of the change in ownership.

If you have any questions, please give me a call. You may keep the copy of the water license and map for your files.

No. _____

5994-3

Date: _____

3/23/2023

I/We request that Water Right No. _____

5994-3

(Purchase property -
10/2021)

formerly owned by: Robert Peterson

be transferred to: (name & address) _____

Richard & Paula Verzani

Telephone No. 712-301-2577

Title to the following described land(s)/property has been transferred as described above:

3 acres - NW 1/4 NW 1/4 Section 34, T89N, R48W

I/We understand that the validity of Water Right No. 5994-3 has not been determined by this transfer action. If I/We have any questions on validity, I/We understand that only the Water Management Board has the authority to determine if a water permit/right is valid (see note).

You are requested to file this "Notice of Transfer" in the appropriate file with the Water Rights Program, as evidence of the change of ownership.

A fee of Fifty Dollars (\$50.00) is required to cover the filing fees as required under SDCL 46-2-13. This form must be signed by the new owner.

enclosed ck #6201- \$50.00 - 3/23/23

I/We Richard A. Verzani and Paula S. Verzani, the new owner, certify that the above information is true and correct.

 (RAV.)
(Signed by new owner)
 (PSV.)

NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.
