WATER LICENSE NO. 6053-3

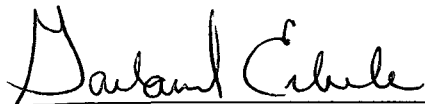

(1) Human Services Center, PO Box 76, Yankton, SD 57078-0076 made Application No. 6053-3, February 27, 1998 for a water permit to divert 0.71 cubic feet of water per second from ground water (one well – Lower James Missouri Aquifer), Yankton County, South Dakota for irrigation purposes. Permit No. 6053-3, with a priority date of February 27, 1998 was approved May 18, 1998 and issued to the applicant for diversion of water with construction of the described water supply system to be completed on or before May 18, 2003 and for the application to beneficial use of said water on or before May 18, 2007.

(2) It is certified that the permit holder has complied with the provisions of South Dakota State Law relating to completion of the construction of the water supply system and is entitled to divert 0.21 cubic feet of water per second for beneficial use. The location of the diversion point is approximately 830'N and 1,190'W of the SE corner of Section 36, T94N, R56W (SE ¼ SE ¼).

(3) The permit holder has complied with the provisions of South Dakota State Law relating to the application of water to beneficial use to irrigate the following land:

Section 36, T94N, R56W	
SW ¼ SE ¼	2 acres
SE ¼ SE ¼	12 acres
NE ¼ SE ¼	1 acre
Total	15 acres

(4) Pursuant to South Dakota Water Law 46-5-30.1 the Human Services Center, PO Box 76, Yankton, SD 57078-0076 the holder and/or owner of Water Right No. 6053-3 is issued a license to appropriate water, the right to use 0.21 cubic feet of water per second from ground water (one well – Lower James Missouri Aquifer) with a priority date of February 27, 1998 from the location specified in (2) of this license. The water is to be conducted to and upon lands specified in (3) of this license for the purpose of irrigation. This license is subject to any limitations or qualifications listed in Water Right No. 6053-3 and subject to South Dakota State Law.

SOUTH DAKOTA
WATER PERMIT NO. 6053-3

Date of first receipt of application February 27, 1998.

The Chief Engineer, on behalf of the Water Management Board, issues Water Permit No. 6053-3 to Human Services Center, PO Box 76, Yankton SD 57078 authorizing the construction of the water use system and the placing of water to beneficial use subject to the following limitations, conditions and qualifications:

1. Water Permit No. 6053-3 appropriates 0.71 cubic feet of water per second from one well (Lower James Missouri Aquifer) 100 feet deep located in the E ½ SE ¼ Section 36 to irrigate 50 acres located in the S ½ SE ¼, SE ¼ NE ¼, NE ¼ SE ¼ Section 36; all in T94N-R56W.
2. The amount of the appropriation may not exceed 2 acre feet annually for each acre of land to which water is actually and beneficially applied for irrigation. The water is to be used during the following described annual period: March 1 – October 31.
3. The date from which applicant may claim right is February 27, 1998.
4. The date of approval of Permit No. 6053-3 is May 18, 1998.
5. One-fifth of the construction is to be completed on or before November 18, 2000.
6. All construction is to be completed on or before May 18, 2003.
7. Water is to be put to beneficial use on or before May 18, 2007.
8. Water rights obtained in compliance with the laws of the State of South Dakota may not be unlawfully impaired by this appropriation.

QUALIFICATIONS

1. The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
2. The well authorized by Permit No. 6053-3 shall be constructed by a licensed well driller and construction shall comply with Water Management Board Well Construction Rules, Chapter 74:02:04 with the well casing pressure grouted (bottom to top) pursuant to Section 74:02:04:28.
3. This Permit is approved subject to the irrigation water use questionnaire being submitted each year.

REPORT ON WATER PERMIT APPLICATION NO. 6053-3

for Human Services Center

April 15, 1998

Application No. 6053-3 proposes to appropriate 0.71 cfs (320 gpm) from one well approximately 100 feet deep located in the E 1/2 SE 1/4 of Section 36 to irrigate 50 acres located in the S 1/2 SE 1/4, SE 1/4 NE 1/4, NE 1/4 SE 1/4 of Section 36; all in T94N-R56W in Yankton County.

AQUIFER - LOWER JAMES MISSOURI (LJM)

The Lower James Missouri is a buried outwash (sand and gravel) which is under unconfined or water table conditions in this area. The aquifer underlies 238 square miles in Yankton County and is hydraulically connected to the Lower Vermillion Missouri aquifer in Clay County (Bugliosi, 1986). The Lower James Missouri which Bugliosi describes is basically equivalent to three distinct management units, Missouri Elk Point, Lower James Missouri Scotland, and the Lower James Missouri aquifers (Hedges, 1982). The Lower James Missouri (Hedges, 1982) underlies 92,500 acres and contains an estimated 2.08 million acre feet of recoverable water in storage in Yankton County. The aquifer is hydraulically connected to the James River and extends into Hutchinson County to the north.

Test hole information submitted by the applicant indicates medium to coarse sand and gravel was encountered from a depth of 75 to 97 feet below land surface. The test log also indicates an estimated water level of 75 feet below land surface. Other data in the area indicates the water level for the Lower James Missouri aquifer should be about 140 feet below land surface. If this is the case, a well 100 feet deep would be dry at this site. It may be necessary to drill deeper into the aquifer or if the aquifer is not present at this site try to obtain water from the Niobrara Formation.

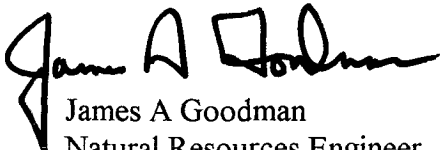

The Water Rights Program does monitor observation wells completed into the Lower James Missouri and Niobrara aquifers in this area. None of the monitoring wells are within two miles of this site. In general, the water level records for either aquifer show the same type of response, that is, rising water levels during wet years (recharge) and gradually declining water levels during dry years. The water level records indicate that either aquifer is capable of sustaining additional withdrawals (Water Rights, 1998).

REVIEW OF EXISTING WATER PERMITS/RIGHTS

There is an existing Water Right No. 5414-3 located about 3/4 mile north of this application which also obtains water from the Lower James Missouri aquifer. Interference is not a concern. Drawdown created by pumping does not appear to be significant and will not cause any adverse effect.

CONCLUSIONS

1. Water is available from the Lower James Missouri aquifer.
2. The aquifer is buried and under water table conditions. Drawdown created by pumping is not expected to be significant at the distance between diversions and interference is not a concern.
3. The well authorized by this application must be constructed in accordance with SD Well Construction Standards.
4. In all likelihood the Lower James Missouri aquifer is not sufficiently thick enough in this area to provide water for this application. It may be possible to obtain water from the Niobrara Formation. Also the driller, indicated a new test hole would be constructed to verify the original log and in fact move the location of the production well further to the north.

**RECOMMENDATION OF CHIEF ENGINEER FOR WATER PERMIT
APPLICATION NO. 6053-3, Human Services Center**

Pursuant to SDCL 46-2A-2, the following is the recommendation of the Chief Engineer, Water Rights Program, Department of Environment and Natural Resources concerning Water Permit Application No. 6053-3, Human Services Center, c/o Larry Lanning, P.O. Box 76, Yankton, SD 57078.

The Chief Engineer is recommending APPROVAL of Application No. 6053-3 because 1) there is reasonable probability that there is unappropriated water available for the applicant's proposed use, 2) the proposed diversion can be developed without unlawful impairment of existing rights, 3) the proposed use is a beneficial use and 4) it is in the public interest with the following qualifications:

1. The well approved under this Permit will be located near domestic wells and other wells which may obtain water from the same aquifer. The well owner under this Permit shall control his withdrawals so there is not a reduction of needed water supplies in adequate domestic wells or in adequate wells having prior water rights.
2. The well authorized by Permit No. 6053-3 shall be constructed by a licensed well driller and construction shall comply with Water Management Board Well Construction Rules, Chapter 74:02:04 with the well casing pressure grouted (bottom to top) pursuant to Section 74:02:04:28.
3. This Permit is approved subject to the irrigation water use questionnaire being submitted each year.

See report on application for additional information.

JOHN HATCH, Chief Engineer

NOTE: If water is not available from the Lower James Missouri Aquifer at this site or further north, a new application will be necessary, if a well is to be completed into the Niobrara Formation.

Dear Mr. Lanning:

Enclosed is Water Permit No. 6053-3 authorizing construction of your water diversion system and beneficial use of the water, not exceeding the limits as specified in the Water Permit.

Also enclosed is Form 10, Notice of Completion of Works and Application of Water to Beneficial Use, which you are to complete and submit to the Chief Engineer when you have completed the system and/or have put the water to beneficial use. An inspection can then be scheduled so that the Water License may be issued, thus completing your acquisition of a Water Right.

Very truly yours,

JOHN HATCH, Chief Engineer
Water Rights Program
(605) 773-3352

enclosures

PLEASE NOTE: Certain changes may be made to your water permit usually without affecting the priority date. The location of a point of diversion may be changed or additional points of diversion may be approved if the water source remains unchanged; no additional water is appropriated; and, if irrigating, no additional land is irrigated. The change may be allowed without application or publication, if the Water Rights Program is contacted and the chief engineer makes a finding that the change does not increase the potential for interference with existing diversions.

A new water permit application is required to change water sources, increase the permitted diversion rate, or increase the irrigated acreage. If the application is approved, the water permit will receive a new priority date.

If water is not available from the Lower James Missouri Aquifer at this site or further north, a new application will be necessary, if a well is to be completed into the Niobrara Formation.

FROM: Ron Duvall, Natural Resources Engineer
for John Hatch, Chief Engineer
Water Rights Program

SUBJECT: Reporting Requirement for 1998 Irrigation Questionnaire(s)

Our records indicate that the 1998 Irrigation Questionnaire(s) has not been submitted for Permit No(s) 6053-3. The request for the Questionnaire was dated October 16, 1998. The Water Management Board has directed that owners of water permits who have not submitted the 1998 Irrigation Questionnaire(s) be given notice of permit violation and a hearing to be held by the Board. The hearing is to determine what action is to be taken for violation of Water Permit No(s) 6053-3 qualification:

"This permit is approved subject to the Irrigation Water Use Questionnaire being submitted each year."

The hearing will be held at 9:45 am, March 3, 1999 in the Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol, Pierre, SD, and will be conducted pursuant to SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to Chapter 1-26. According to SDCL 46-1-12, the Board may suspend a permit for a period of up to one year for the first violation of a permit qualification or up to three years for a second violation, or cancel a permit for a third violation. Following the hearing, the Water Management Board can:

1. Suspend or cancel Permit No(s) 6053-3 in accordance with applicable provisions of SDCL 46-1-12;
2. Postpone any action; or
3. Take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

If the questionnaire(s) is(are) received in this office on/or before March 1, 1999, you will no longer be in violation of your permit and your name will be deleted from the Board agenda. If you have questions or need assistance in completion of the irrigation questionnaire(s), please contact Genny McMath at (605) 773-3352.

NOTE: Please contact the Water Rights Program, Joe Foss Building, 523 E Capitol, Pierre, SD (605-773-3352) to assure access to the meeting room for the handicapped or to obtain an interpreter for the hearing impaired.

Permit No. 6053-3
Missouri River (10170101) - Water District

Report Of Examination Of Works And/Or Application of Water To Beneficial Use

TO: Chief Engineer, Water Rights Program, DENR, Foss Bldg., Pierre, SD 57501

I have this day, June 19, 2002, made a thorough examination of the water use system constructed by Human Services Center of PO Box 76, Yankton SD 57078 holder of Permit No. 6053-3, bearing the priority of February 27, 1998 authorizing the diversion of 0.76 cu. ft. per second of water of Lower James:Missouri Aquifer for irrigation purposes, in Yankton County.

I have to report on the conditions of the same as follows:

A. Works used to divert the water:

Gould (25 hp) pump

B. Works used to transport water to place of use:

A 3" underground pipeline convey water

C. Works used to apply water to beneficial use:

Underground sprinkler system

The system is in the following condition good. The point of diversion is located approximately 830 feet north and 1190 feet west of the SE corner (SE ¼ SE ¼) of Section 36, T94N, R56W (Lat/Lon N42.91110 W-097.40190). The works are capable of diverting and conveying to the place of use 0.45 cu. ft. per second of water which is to be used for irrigation. Water has been put to beneficial use to the maximum extent as follows:

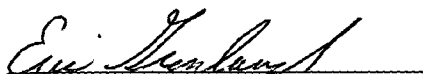

SW ¼ SE ¼ Section 36, T94N, R56W	2 acres
SE ¼ SE ¼ Section 36, T94N, R56W	12 acres
NE ¼ SE ¼ Section 36, T94N, R56W	1 acre

comprising a total of 15 acres of land and the license should be issued for 0.21 cfs.

Applicable permit qualifications have been complied with: Yes

Exceptions to compliance are: diversion capability is greater than statutory limit*

Date Report Completed: August 20, 2002

Eric Gronlund

Natural Resources Engineer

DENR, Water Rights Program

* The number of irrigated acres is significantly less than the 50 acres originally contemplated. The diversion capability is 200 gpm (300 gpm was appropriated by Water Permit No. 6053-3) to irrigate up to 15 acres. The water right is to be licensed for the statutory limit of 0.214 cfs (96 gpm).

Additional Comments

The water right permit is held by the Human Service Center since this is state land but the city soccer association operates the system. Since this is a state agency there is no licensing fee.

The irrigation in the SE ¼ NE ¼ and the NE ¼ SE ¼ has not materialized as contemplated. This is because the water stains the buildings and sidewalks of the Mickelson Facility. There is a stub line going up to that area but the only area they would irrigate the perimeter near the road.

Dear Mr. Lanning:

Enclosed is Water License No. 6053-3. This is the final water right document completing your process of obtaining a Water Right.

For your information SDCL 46-6-27 requires that if the owner of an existing well, such as the well authorized by Water Right No. 6053-3, constructs a replacement well and does not plan to use the old well, the old well is considered abandoned and must be plugged. Also, any well that is being used or is not considered abandoned must be valved and controlled, if flowing, or sealed and capped so that no leaking occurs either underground or at the surface.

As long as you use the water beneficially, as stated in the Water License, the State Water Laws provide that you have a continuing right to use the water. If you have any questions, please contact our office.

Sincerely,

Garland Erbele, Chief Engineer

SUBJECT: Reporting Requirement for 2002 Irrigation Questionnaire(s)

Our records indicate that the 2002 Irrigation Questionnaire(s) has not been submitted for Permit No(s) 6053-3. The request for the Questionnaire was dated October 11, 2002. The Water Management Board has directed that owners of water permits who have not submitted the 2002 Irrigation Questionnaire(s) be given notice of permit violation and a hearing to be held by the Board. The hearing is to determine what action is to be taken for violation of Water Permit No(s) 6053-3 qualification:

"This permit is approved subject to the Irrigation Water Use Questionnaire being submitted each year."

The hearing will be held at 8:30 am, March 5, 2003 in the Floyd Matthew Training Center, Joe Foss Building, 523 E Capitol Avenue, Pierre, SD and will be conducted pursuant to SDCL 46-1-12, 46-1-14, 46-2-9, 46-2-11 and 46-2-17. These are contested case hearings pursuant to Chapter 1-26. According to SDCL 46-1-12, the Board may suspend a permit for a period of up to one year for the first violation of a permit qualification or up to three years for a second violation, or cancel a permit for a third violation. Following the hearing, the Water Management Board can:

1. Suspend or cancel Permit No(s) 6053-3 in accordance with applicable provisions of SDCL 46-1-12;
2. Postpone any action; or
3. Take no action.

The hearing is an adversary proceeding. The permit owner has the right to be present or to be represented by a lawyer. These and other due process rights will be forfeited if they are not exercised. Decisions of the Board may be appealed to the Circuit Court and the State Supreme Court as provided by law.

If the questionnaire(s) is(are) received in this office on/or before February 28, 2003, you will no longer be in violation of your permit and your name will be deleted from the Board agenda. If you have questions or need assistance in completion of the irrigation questionnaire(s), please contact Genny McMath at (605) 773-3352.

NOTE: Please contact the Water Rights Program, Joe Foss Building, 523 E Capitol, Pierre, SD (605-773-3352) to assure access to the meeting room for the handicapped or to obtain an interpreter for the hearing impaired.

Title to the following described land(s)/property has been transferred as described above:

Please see attached documents for description of land.

☒ I understand that the validity of Water Right/Permit No. 6053-3 has not been determined by this transfer action. If I have any questions on validity, I understand that only the Water Management Board has the authority to determine if a water right/permit is valid (see note below.)

You are requested to file this "Notice of Transfer" in the appropriate file with the Water Rights Program, as evidence of the change of ownership.

A fee of Fifty Dollars (\$50.00) is included to cover the filing fee as required by SDCL 46-2-13.

I, City of Yankton, the new owner, certify that the above information is true and correct.

NOTE: Water permits may be cancelled for nonconstruction after the five year construction period has expired. Once a water permit is developed and the water used, the permit becomes a right. A water right may be lost for three reasons:

1. Abandonment - no intent to use water and use is abandoned.
2. Forfeiture - no use of water for three year period without legal excuse.
3. For a third violation of a condition of a water permit/right.
